2. Authorized person for information disclosure: Mr. Tran Anh Hai, corporate secretary
3. Content of the disclosed information:
 - 3.1 Explanation of the difference in corporate income after-tax profit in the Parent Company's income statement for the fourth quarter of 2024, which changed by 10% or more compared to the same period last year, and after-tax profit in the reporting period turned into a loss, shifting from a profit in the same period last year to a loss this period: The corporate income after-tax profit in the reporting period recorded a loss of 4.36 billion VND, a decrease of 677.1% compared to the same period last year. The main reasons are as follows: despite a reduction of 86% in administrative expenses during the reporting period, an increase of 111.3% in financial costs led to the decline in after-tax profit compared to the same period last year.
 - 3.2 Explanation of the difference in corporate income after-tax profit in the Consolidated income statement for the fourth quarter of 2024, which changed by 10% or more compared to the same period last year: In the reporting period, although revenue from sales and service provision decreased by 72.9 billion VND (a reduction of 57.6% compared to the same period last year), after-tax profit reached 7.66 billion VND (an increase of 18.1% compared to the same period last year). The main reason is that during the reporting period, a subsidiary reversed its provision, leading to a 6494.2% increase in other income, which is the primary reason for the change in after-tax profit compared to the same period last year.

1. GENERAL INFORMATION

1.1. Overview of the Corporation

Vietnam Construction and Trading Investment Joint Stock Corporation (the "Corporation") was tablished through the equitization of a state-owned enterprise, namely Vietnam Construction and Import-Export Investment Company, as per Decision No. 655/QĐ-BXD issued by the Ministry of Construction on April 13rd, 2007. The Corporation is currently a joint-stock company established under the Enterprise Law of Vietnam, with Enterprise Registration Certificate No. 0100109441 issued by the Department of Planning and Investment of Hanoi on May 25, 2007, and subsequent amended certificates, the latest being the 12th amendment issued on October 14th, 2019.

The Corporation's principal activities during the current period include:

- Construction of residential, industrial, transportation, irrigation, hydropower, urban technical infrastructure, and industrial zone projects; construction supervision and procurement consulting.
- Investment in and trading of real estate, leasing of office space and residential properties.
- Other activities as stated in the Enterprise Registration Certificate.

Due to its focus on real estate development and construction, the Corporation's typical business cycle ranges from 12 to 36 months, depending on the nature and scope of its real estate projects and Construction contracts.

The Corporation's headquarters is located at Floor 2, HH2 Building, Duong Dinh Nghe Street, Yen Hoa Ward, Cau Giay District, Hanoi, Vietnam.

The Corporation also operates the following branches:

2. BASIS OF FINANCIAL STATEMENT PREPARATION AND ACCOUNTING PERIOD**Basis of Financial Statement Preparation**

The accompanying financial statements are presented in Vietnamese Dong (VND) and prepared on a historical cost basis, in accordance with Vietnamese Accounting Standards (VAS), Vietnamese Accounting System, and other prevailing regulations in Vietnam.

Compilation Basis

These financial statements are compiled from the financial statements of the Corporation's Head Office, Hai Duong Branch, and XL No. 5 Company.

Accounting Period

The Corporation's fiscal year starts on January 1st and ends on December 31st of each calendar year.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

At as 31st December, 2024

3. APPLIED ACCOUNTING STANDARDS AND SYSTEM

Compliance with Accounting Standards and System

The Corporation applies Vietnamese Accounting Standards (VAS) and the corporate accounting system issued under Circular 200/2014/TT-BTC dated December 22, 2014, replacing Decision No. 15/2006/QĐ-BTC dated March 20th, 2006, and Circular 244/2010/TT-BTC dated December 31st, 2010, of the Ministry of Finance.

4. APPLICABLE ACCOUNTING POLICIES

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits, guarantees, short-term investments, or highly liquid investments that can be easily converted into cash with low risk of value fluctuation.

Inventories

Inventories are valued at cost. Cost includes direct material costs, direct labor costs, and production overheads, if any, required to bring inventories to their current location and condition. The cost of inventories is determined using the weighted average method. Net realizable value is estimated selling price less costs to complete and costs of marketing, sales, and distribution.

4. APPLICABLE ACCOUNTING POLICIES (Continued)

Tangible Fixed Assets and Depreciation

Tangible fixed assets are presented at historical cost less accumulated depreciation. The historical cost of tangible fixed assets includes purchase costs and all directly attributable expenses related to making the asset ready for use. For self-constructed or self-made tangible fixed assets, costs include actual construction or production costs plus installation and trial operation costs. Tangible fixed assets are depreciated on a straight-line basis over their estimated useful lives:

Type of assets	Estimated Useful Life (Years)
Buildings and structures	10 - 40
Machinery and equipment	04 - 10
Transportation equipment	04 - 10
Office equipment and tools	03 - 08
Other Tangible fixed assets	05

Investment Properties

Investment properties are recorded at historical cost, including related transaction costs, less accumulated depreciation.

Subsequent costs related to investment properties are added to the carrying value when the Company expects to gain additional economic benefits beyond those initially estimated from the property.

Depreciation and amortization of investment properties are calculated on a straight-line basis over their estimated useful lives as follows:

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

At as 31st December, 2024

Asset Type	Estimated Useful Life
Buildings	25 years
Other properties	5 years

Investment properties are derecognized from the balance sheet after sale or when no future economic benefits are expected from their use or disposal. Gains or losses from disposal are recognized in the income statement during the reporting period of disposal.

4. APPLICABLE ACCOUNTING POLICIES (Continued)

Transfers between investment properties and owner-occupied properties or inventories occur only when there is a change in usage purpose. Transfers do not affect the carrying amount or historical cost of the properties as of the transfer date.

Construction in Progress

Assets under construction for production, leasing, administration, or other purposes are recorded at cost. These costs include service costs and borrowing costs in accordance with the Company's accounting policies. Depreciation is applied as with other assets once the asset is ready for use.

Investments in Subsidiaries, Associates, Joint Ventures, and Other Investments

Investments in subsidiaries refer to investments where the investor has control over the investee. Parent Company's contributions to subsidiaries are presented at cost on the Parent Company's financial statements. Profits from subsidiaries are recognized when officially declared by the subsidiary's Board of Directors or General Shareholders Meeting.

Investments in associates refer to investments where the Company has significant influence but does not have control or joint control over the investee's financial and operating policies.

Joint venture investments are accounted for based on joint venture agreements.

Other investments are those where the Company does not have control or significant influence and are reflected at cost.

Provisions for investment impairment are made when the Company determines that the decline in value is not temporary. These provisions are reversed if the recoverable value subsequently increases.

Long-term prepaid expenses

The Company's long-term prepaid expenses include the value of goodwill (brand value) and other long-term prepaid expenses, which are allocated consistently based on appropriate criteria.

Equity

Owners' equity is recorded based on the actual contributed capital of the owners.

Dividends payable to shareholders are recognized as liabilities in the Company's Balance Sheet after the Board of Directors of the Corporation announces the dividend distribution.

Revenue recognition

Revenue is recognized when the results of goods transactions are reliably measurable, and the Company is likely to receive the economic benefits from such transactions. Revenue from services is recognized when there is evidence of the completion rate of services provided at the end of the financial year. Interest income from deposits is recognized on an accrual basis, determined based on deposit balances and applicable interest rates.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

At as 31st December, 2024

Borrowing Costs

Borrowing costs directly related to the acquisition, construction, or production of assets requiring a substantial period to complete and put into use or operation are added to the asset's initial cost until the asset is ready for use or operation. Income generated from the temporary investment of loans is deducted from the asset's original cost.

All other borrowing costs are recognized in the Income Statement when incurred.

Foreign Currency

Transactions in foreign currencies are converted into Vietnamese Dong at the exchange rate on the transaction date. Exchange rate differences arising from such transactions are recorded in the Income

4. APPLICABLE ACCOUNTING POLICIES (Continued)

Statement. For exchange rate differences arising from the year-end revaluation of cash, deposits, money in transit, and short-term liabilities (within one year) in foreign currencies at the time of financial reporting, they are not accounted for as income or expense.

Taxation

Corporate income tax represents the total of current tax and deferred tax liabilities.

Current tax liabilities are calculated based on taxable income for the year. Taxable income differs from net profit reported in the Income Statement as it excludes income or expenses taxable or deductible in other years (including carry-forward losses, if any) and items exempted from tax or not deductible. The Company's income tax is determined according to current tax regulations, which may change over time, with final determination depending on the results of audits by tax authorities.

Deferred income tax is calculated on temporary differences between the carrying amounts of assets and liabilities in the Balance Sheet and their tax bases. Deferred tax is accounted for using the Balance Sheet liability method. Deferred tax liabilities are recognized for all temporary differences, while deferred tax assets are only recognized if sufficient taxable income in the future is probable to utilize the deductible temporary differences.

Deferred tax is measured at the tax rates expected to apply in the year the asset is realized or the liability is settled. Deferred tax is recognized as income or expense, except when related to items directly credited or debited to equity. In such cases, deferred tax is also directly credited or debited to equity.

Deferred tax assets and liabilities are offset when the Company has a legal right to offset current tax assets against current tax liabilities, and the deferred tax assets and liabilities relate to income taxes levied by the same tax authority and the Company intends to settle them on a net basis.

Other taxes are applied following the current tax laws in Vietnam.

Earnings Per Share

Basic earnings per share for common stocks are calculated by dividing net profit or loss attributable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share are calculated by adjusting the net profit or loss attributable to common stockholders and the weighted average number of common shares outstanding for the effects of all potentially dilutive common shares, including convertible bonds and stock options.
