Auditor:

The auditors of Southern Auditing and Accounting Financial Consulting Services Company Limited (AASCs) have been appointed to audit the Company's consolidated financial statements for the fiscal year ended December 31, 2024.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE CONSOLIDATED FINANCIAL STATEMENTS:

Board of Management is responsible for the consolidated financial statements of the company which give a true and fair view of the consolidated financial position of the company and of the consolidated results of its operations and its consolidated cash flows for the year. In preparing these consolidated financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- Applicable accounting standards have been followed, no material departures need to be disclosed and explained in the Consolidated Financial Statements;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the company will continue its business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the consolidated financial position of the Company and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board of Management confirmed that it has complied with the above requirements in preparing the accompanying consolidated financial statements.

The Board of Management does hereby state that, in its opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Company as at 31 December 2024 and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the consolidated financial statements.

Binh Duong, March 12, 2025

General Director

Le Viet Chau

APPROVAL OF THE CONSOLIDATED FINANCIAL STATEMENTS

We, the Board of Directors of Binh Duong Building Materials and Construction Corporation, approve our consolidated financial statements for the fiscal year ended December 31, 2024.

Binh Duong, March 12, 2025

ON BEHALF OF THE BOARD OF DIRECTORS

Chairman

Doan Minh Quang

Số: 124 /BCKT/TC/2025/AASCS

INDEPENDENT AUDITOR'S REPORT

On the consolidated financial statements of Binh Duong Building Materials and Construction Corporation and Its Subsidiary for the year ended 31 December 2024.

**To: SHAREHOLDERS, BOARD OF DIRECTORS, AND BOARD OF MANAGEMENT
BINH DUONG BUILDING MATERIALS AND CONSTRUCTION CORPORATION**

We have audited the consolidated financial statements of Binh Duong Building Materials and Construction Corporation and Its Subsidiary ("the Company"), prepared on March 12, 2025, set out on pages 06 to 52, which comprise the consolidated balance sheet as at 31 December 2024, the consolidated income statement and the consolidated cash flow statement for the year then ended and the notes thereto.

The Board of Management's Responsibility:

The Company's Board of Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the consolidated financial statements and for such internal control as the Board of Management determines is necessary to enable the preparation and presentation of the consolidated financial statements are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical regulations and standards, plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including assessments of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Company's Board of Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The opinion of the auditor:

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the financial position of the Company as at 31 December 2024, and of the consolidated results of its operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements.

1.4 The number of the employees of the Group as at 31 December 2024 was 451 (31 December 2023: 498)

2. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY:

2.1 Fiscal year:

The Company's first fiscal year operating as a joint-stock company began on 11 April 2016 and ended on 31 December 2016.

The Company's fiscal year applicable for the preparation of its consolidated financial statements starts on 1 January and ends on 31 December.

2.2 Accounting currency:

The Company's accounting currency is Vietnam Dong ("VND").

3. Accounting Standards and Accounting System:

3.1 Accounting system:

The Company applies the Vietnamese accounting system issued under the Ministry of Finance's Circular 200/2014/TT-BTC dated 22 December 2014, Circular 53/2016/TT-BTC dated 21 March 2016 amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC, Circular No. 202/2014/TT-BTC dated December 22, 2012 of the Ministry of Finance guiding the method of preparing and presenting consolidated financial statements and Vietnamese Accounting Standards issued by the Ministry of Finance in preparing and presenting the consolidated financial statements for the fiscal year 2024.

3.2 Form of accounting record:

The Company's applied accounting documentation system is the Voucher Journal system.

4. Basic of consolidated

(a) Subsidiary

Subsidiary is an entity in which the Company has control over the financial and operating policies, generally evidenced by holding more than half of the voting rights. In assessing control, exercisable potential voting rights are taken into account. The financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(b) Non-controlling interests

Non-controlling interests represent the portion of profit or loss and net assets not held by the Company and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet.

(c) Transactions eliminated on consolidation

Intra-group balances, transactions and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains and losses arising from transactions with associates, joint venture are eliminated against the investment to the extent of the Group's interest in the associate or joint venture

(d) Business combination

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

5. Accounting policies:

a. Cash and cash equivalents:

Recognition of cash: Cash includes: cash on hand, cash in bank under current account and cash in transit.

Recognition of cash equivalents: Cash equivalents are short term investments for a period not exceeding 3 months that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value from the date of purchase to the date of financial statements..

Other currencies convert:

Transactions in currencies other than Vietnam dong must be recorded in original currency and converted into Vietnam dong. Overdraft is recorded as a bank loan.

At the reporting date, the company is requested to revalue the balance of foreign currencies and monetary gold as follows:

- The balance of foreign currencies: using buying price quoted by commercial bank which is trading with the company at the reporting date;
- The monetary gold: re-evaluated according to the buying prices on the domestic market at the time in which the financial statement is prepared. The buying prices on the domestic market are prices announced by the State bank. In case the State bank does not announce gold buying-prices, the buying-prices announced by enterprise entitled to trade in gold as prescribed shall be chosen.

b. Principles of recording financial investments:

Financial investment is the outside investments with purpose to use capital reasonably and improve efficiency of business operations such as investments in subsidiary, joint ventures, cooperation, investment in securities and other financial investments ...

For the preparation of financial statements, the financial investment must be classified as follows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Currency unit is represented by VND unless it is noted by other currency)

- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

Trading securities:

Trading securities are the investment in securities and other financial instruments for trading purposes (hold for increasing price to sell for profit.) Trading securities include:

- Stocks and listed bonds;
- The securities and other financial instruments such as commercial bill, forward contracts, swap contracts ...

Trading securities are recorded at original cost at the time when investors hold ownership.

The dividends paid in the period before investment date shall be recorded as a decrease in value of investment. When the investor receives additional shares without payment to issuer from capital surplus shares, capital expenditure funds or dividends in shares, the investors only monitor the quantity of additional shares.

In case shares are exchanged, its value must be determined according to fair value at the exchanging date.

The cost shall be determined in accordance with weighted average method when trading securities are liquidated or transferred.

Provisions for decline in value of trading securities: the value of loss may occur if there are reliable evidences showing the market value of the Company's trading securities are lower than book value. The provision shall be additionally created or reverted at the reporting date and shall be recorded in financial expense.

Held to maturity investments:

These investments do not reflect bonds and debt instruments which are held for trading purpose. Held to maturity investments include term deposits (maturity over than 3 months), treasury bills, promissory notes, bonds, preference shares which the issuer is required to re-buy them in a certain time and held to maturity loans to earn profits periodically and other held to maturity investments.

Provision for decline in value of held to maturity investment: If the provision of held to maturity investment are not created under statutory regulations, the Company has to assess the recovery. In the case, there are reliable evidences showing a part or all of the investments may not be recoverable, the losses have recorded in financial expenses in the period. The provision shall be additionally created or reverted at the reporting time. In case, the loss can not be determined reliably, investments are not decreased and the recovery of the investments are recorded in the Notes to the Financial Statements.

Investments in associated companies, joint ventures:

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies. Joint ventures are those entities over whose activities the Company has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Associates and joint ventures are those entities in which the Company normally hold 20% to 50% of voting rights in these entities.

Associates and joint ventures are accounted for using the equity method. The consolidated interim financial statements include the Company's share of the income and expenses of the associates and joint ventures after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases.

When the Company's share of losses exceeds its interest in an associate or joint venture, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the associate or joint venture.

Provision for investments: Provision of the investment is made when there are reliable evidences of the diminution in value of those investments at the balance sheet date. Increases or decreases to the provision balance are recorded as finance expense in the interim consolidated income statement.

Investments in equity instruments of other entities:

These are investments on equity instruments of other entities without having neither controlling, jointly controlling right nor significant influence over the investee.

c. Principles of recording inventories:

Recognition principles: Inventories are stated at historical cost. The cost of inventories comprise all costs of purchase, costs of conversion and other directly relevant costs arising in bringing the inventories to their current locations and conditions.

The historical costs of purchased inventories comprise the purchase price, non-reimbursable taxes and duties, costs of transportation, handling, preservation and other costs directly relevant to the purchase.

The historical costs of self-produced inventories comprise the direct materials, direct labour cost, fixed and variable production overheads that arise during the process converting materials into finished goods.

Work in progress at the end of the period is measured at the cost of raw materials.

Costs excluded from the historical cost of inventories are:

- Commercial discounts and sales rebates on substandard or irregular goods;
- Abnormal amounts of raw materials, labour or other production costs;
- Storage costs, unless storage costs are necessary in the next production process, and storage costs arise in the purchase process;
- Selling expenses;
- General and administrative expenses.

Method of determining inventories costs at the end of the period: The cost of inventories at the end of the period is calculated by weighted average method.

Method of accounting inventories: The Company applies the perpetual declaration method to account for inventories.

Provision for obsolete inventories: At the end of the accounting year, if the value of inventories is not fully recovered due to damage, obsolescence, diminution or estimated expense of completing the products or getting them ready for sale is higher than net value, the Company makes provision for devaluation of inventories. The amount of provision for devaluation of inventories is made equal to the difference between the historical cost of inventories and their net realizable value.

d. Principles of recording trade receivables:

Recognition principles:

All receivables must be recorded detail by aging, by each client and in original currency if any and others details depending on the management request of the company.

The classification of receivables must be managed as follows:

- Trade receivables: commercial receivable arising from trading activities between the Company and its buyers: selling goods, rendering services, disposal of assets, exported receivable of consigner through the consignee;
- Intra-company receivables: receivables between the company with its dependant branches;

- Other receivables: are non trade receivables and do not related to trading activities.

For the preparation of financial statements, the receivables must be classified as belows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

At the reporting date, the company revaluates the receivables which have balance in foreign currency (except for advance to suppliers; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the buying price quoted by commercial bank which is trading with the company at the reporting date.

Provisions for bad debts: The bad debts are make provision at the balance sheet date. The provision or reversal is made at the reporting date and is recorded as management expense of the fiscal year. For the long-term bad debts in many years, the company tried to collect but cannot and there is evidence that the client has insolvency, the company may sell these long-term bad debts to debt collection company or write off (according to regulations and charter of the company).

e. Principles for recording and depreciating fixed assets:

Principles for recording tangible fixed assets and intangible fixed assets:

Fixed assets are stated at the historical cost. During the using time, fixed assets are recorded at cost, accumulated depreciation and net book value, the depreciation is recorded to depreciation expense for using assets.

Intangible fixed assets which are termed land use rights are depreciated

Investment properties are depreciated normally, except for investment property for waiting increase of price. The Company just only determine value of loss cause of decreasing value.

Depreciation method for tangible fixed assets, intangible fixed assets: Depreciation and amortization are calculated on a straight-line method.

The useful life are estimated as follows:

- Machinery, equipment	03 - 12 years
- Transportation equipments	06 - 08 years
- Buildings, structures	05 - 25 years
- Office equipment	03 - 08 years

f. Principle of capitalization of borrowing costs and other expenses:

Principle of capitalization of borrowing costs:

Borrowing costs that are directly attributable to the investment in the construction or production of a work-in-progress are included in the value of the asset (capitalized), including interest on the loan, allocation of discounts or premium when issuing bonds, additional costs incurred related to process of loan procedures.

Capitalization of borrowing costs will be suspended for periods during which investment in construction or production of a work-in-progress is disrupted, unless such interruption is necessary.

Capitalization of borrowing costs ends when substantially necessary activities for the preparation of the work-in-progress asset for its intended use or sale have been completed. Borrowing costs incurred will then be recorded as production and business expenses in the period when incurred.

Income arising from the temporary investment of separate loans pending their use for the purpose of obtaining work-in-process assets, must be deducted (-) from borrowing costs incurred when capitalizing.

Borrowing costs capitalized during the period must not exceed the total amount of borrowing costs incurred during the period. Loan interests and discount or premium allocations capitalized in each period must not exceed the actual interest incurred and the discount or premium allocations for that period.

Principle of capitalization of other expenses:

Principle of capitalization of prepaid expenses: Prepaid expenses allocated to investment in capital construction, renovation and upgrading of fixed assets during the period are capitalized into fixed assets being invested or renovated or upgraded.

Principles of capitalization of other expenses: Other expenses in service of investment in capital construction, renovation and upgrading of fixed assets in the period are capitalized into fixed assets being invested or renovated or upgraded.

g. Principles of recording prepaid expenses:

The calculation and allocation of prepaid expenses to operating expenses for each accounting period must be based on nature and extent of each type of expenses to select appropriate and consistent method and criteria.

Each prepaid expense incurred shall be kept records in details, and allocated to objects subject to expenses of each accounting period and residual expenses, which have not been allocated to expenses.

The prepaid expenses of great value to be allocated in the quarters, but with maturity less than 01 fiscal year, or within a normal production cycle they are recognized as short-term prepaid expenses, other expenses prepaid expenses over 12 months or over a normal production cycle is presented as long-term prepaid expenses.

h. Principles of recording payables:

Recording principles:

All payables are monitored in detail by remaining payment term, by payable object, type of payable original currency and other details depending on the management request of the Company.

The classification of payables is made according to the following principles:

- Trade payables include commercial payables arising from transactions of purchases of goods, services, assets and payables when importing though consiger;
- Intra-company payables: payables between the company with its dependant branches;
- Other payables include non-trade payable, not related to buying - selling transactions.

Classification of payables when preparing the financial statements according to the following principles:

- Accounts payable with the remaining payment period not exceeding 12 months or within a production and business cycle are classified as short-term.

- Accounts payable with remaining payment period of more than 12 months or more than 1 business cycle are classified as long-term.

At the reporting date, the Company revalues the payables which have balance in foreign currency (except for advance from clients; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the buying price quoted by commercial bank which is trading with the Company at the reporting date.

i. Principles of recording accrued expenses, provision for payables:

Payables for purchase, using service from suppliers or providing already by supplier but not yet paid due to lack of supporting documents and payables to employee are allowed to record to expense to match the matching concept between revenue and expense. The accrual must be calculated carefully and must have proper evidence. When these expenses arise, if there is any difference with the amount charged, accountants additionally record or make decrease to cost equivalent to the difference.

Provision for payables is recognized when the following conditions are satisfied:

- The Company has current liabilities (legal obligation or joint obligation) as a result of occurred event;
- Decreasing in economic benefits that may occur resulting in the requirement to pay debt obligations;
- Giving a confident estimation on value of debt obligation.

Provision for payables is the most reasonably estimated value which will be paid for current debt obligation at the reporting date.

The provision for payables shall be set up or reverse at the reporting date in accordance with the law. When setting up provision for payables, the cost are recorded in general administration expenses. Payable provisions for products /goods warranty shall be recorded in selling expenses; payable provisions for construction warranty shall be recorded in manufacturing overhead expenses and the reversal shall be recorded in other income.

Only costs related to the initial payables provision shall be offsetted by that provision.

j. Principles of recording owner's equity:

Owner's equity is stated at actually contributed capital of owners and monitored detailed each organization, individual to participate in contribution of capital.

When the investment license defining the charter capital of the enterprise is determined in foreign currency equivalent to an Vietnam dong amount, determining the contributed capital by investors in foreign currencies is based on the amount of foreign currency actually contributed.

In case of receipt of contributed capital in asset, owner's capital must be recorded an increase according to revaluated prices of assets accepted by capital contributors. Intangible assets such as brands, trademarks, trade names, rights of development of projects ... shall only be recorded an increase the contributed capital if relevant law provisions allow.

For joint-stock company, contributed capital of the shareholders is recorded according to actual price of stock issuance, but is recorded in detail in two separate criterions:

- Contributions from owners are recorded according to par value of shares;

- Share premium shall record the difference between the par value and issue price of shares.

In addition, share premium shall record the difference between price of repurchasing of treasury stocks and the issue price of treasury stocks.

Option of conversion of bonds into shares arising when company issue bonds that can be converted into a certain number of shares shall be prescribed in issuance plan. The value of the capital component of the convertible bond is defined as the difference between the total sums received from the issuance of convertible bonds and the value of the debt component of convertible bonds. At the time of initial recording, the value of stock options of convertible bonds is recorded separately in owner's capital. At the bond maturity, accountants shall record this option as capital stock premium.

Other capital shall record operating capital set up additionally from the result of business activities or given as gifts, presents, financing and asset revaluation (according to current regulations).

k. Principles of recording revenue:

Revenue from sale of goods:

Revenue from sale of goods should be recognised when all the following conditions have been satisfied:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement as a neither owner nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- The economic benefits associated with the transaction of goods sold have flown or will flow to the Company;
- The costs incurred or to be incurred in respect of the transaction of goods sold can be measured reliably.

Revenue from rendering of services:

Revenue from rendering of services is recognised when the outcome of that transaction can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, each period's revenue should be recognised by reference to the stage of completion at the balance sheet date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- The amount of revenue can be measured reliably;
 - It is probable that the economic benefits associated with the transaction will flow to the Company;
 - The stage of completion of the transaction at the balance sheet date can be measured reliably;
 - The costs incurred for the transaction and the costs to complete the transaction can be measured reliably;
- The stage of completion of a transaction may be determined by surveys of work completed method.

Principles of revenue recognition from financial income:

Revenue arising from interest, dividends, distributed profits and other financial incomes is recognized when the following two (2) conditions are satisfied simultaneously:

- It is probable to get economic benefits from the transaction;
- The revenue can be measured reliably.

Dividends and profit shared are recognized when the Company is allowed to receive dividends or profit from the capital contribution.

Principles of revenue recognition from other income:

This account is used to record other income, revenues not from operating activity of business: revenues from transferring, liquidating fixed assets; collecting contractual fine from customer; Collecting compensation of third parties in order to make up lost assets; collecting doubtful debts which have been written off; collecting doubtful debts which have been written off; revenues in cash or in kind from gifts donated by organization individuals; etc....

l. Recognition of cost of goods sold

Cost of good sold includes cost of finished goods, trade goods, services, property, construction unit sold in the production period and expense related to real estate activities...

Damaged or lost value is allowed to record to cost of goods sold after deduction of compensation (if any).

For the used material over the normal production capacity, labor and general production cost is not allowed to record to production cost but allowed to record to cost of good sold after deduction of compensation (if any), even these finished goods are not sold.

m. Recognition of financial expenses:

Recognition of financial expenses:

- Expenses or losses relating to financial investment activities;
- The cost of lending and borrowing;
- Loss due to foreign exchange differences arising from transactions relating to foreign currencies;
- Provision for decline in value of trading securities.

The above items are recorded by the total amount arising within the period without compensation to financial revenue.

n. Recognition of selling expenses, general administration expenses

Selling expenses is used to record expenses actually incurred in process of selling products, goods, providing services.

General administration expenses is used to record overhead costs of business including salary expenses of business administrative staffs, such as salary social insurance, medical insurance, labor union expenses, unemployment insurance of administrative staff; expenses of office materials; labor instruments; depreciation of fixed assets used for administration, lease rent, licence tax, provision for bad debts; outsourced services; other cash expenses.

o. Recognition of current corporate income tax expense, deferred corporate income tax expenses:

Current corporate income tax expense is determined based on taxable profit and corporate income tax rate applied in the current year.

Deferred income tax expense is calculated basing on deductible temporary differences, taxable temporary differences and income tax rate.

p. Relevant parties

The parties are considered as related if one party has capacity to control or has significant impact to other party in the decision of financial and operation activities. All parties are recognized as related parties if having the same control or significant impact.

In the review of related parties, nature of the relationship is considered more than legal form.

q. Segment reporting:

A business segment is a distinguishable component of the company that is engaged in manufacturing or providing products or services and that is subjects to risks and returns that are different from those of other business segments. A geographical segment is a distinguishable component of the company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

r. Financial Instruments:

Basis of Circular No. 75/2015/TT-BTC dated 18/05/2015 of the Ministry of Finance, before accounting standards for financial instruments and the guiding documents were issued, the Board of Management of the Company decided not presented and notes about financial instruments in accordance with Circular No. 210/2009/TT-BTC of financial statements of the company.

9.4 Segment Report

Segment information is presented in respect of the Company's primary segment, which is the geographical segment.

Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise assets and liabilities, financial income and expenses, selling expenses, general and administration expenses, other gains or losses, and corporate income tax.

9.4.1. Reporting by geographical segments:

The Company's operations are primarily within the territory of Vietnam. As a result, the Company does not prepare segment reports by geographical areas for the purpose of monitoring and managing its activities.

9.4.2. Segment reports by business field:

For management purposes, the Company is organized into business segments and maintains its accounting records accordingly, as follows.

Items	Finished goods	Goods	BOT road operations	Others	Total
Current year
