The Board of Management's responsibility

The Board of Management is responsible for the preparation and fair presentation of the separate financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System for Credit Institutions and the statutory requirements relevant to the preparation and presentation of the separate financial statements, and for such internal control as the Board of Management determines is necessary to enable the preparation and presentation of the separate financial statements that are free from material misstatement, whether due to fraud or error.

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Bank's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the separate financial statements.

21. STATUTORY OBLIGATIONS (continued)

21.1 Current corporate income tax

The Bank has the obligation to pay corporate income tax ("CIT") at the rate of 20% of taxable profits for the current year (previous year: 20%).

The Bank's tax reports are subject to examination by the taxation authorities. Since the application of tax laws and regulations to many types of transactions are susceptible to varying interpretations, amounts reported in the separate financial statements could be changed at a later date upon final determination by the taxation authorities.

The current tax payable is based on taxable profit for the current year. Taxable income differs from profit as reported in the separate income statement since it excludes taxable income or deductible expenses in prior years due to the differences between the Bank's accounting policies and the current income tax policies, and also excludes non-taxable income or non-deductible expenses. 33. CONTINGENT LIABILITIES AND COMMITMENTS

In the normal course of business, the Bank utilizes financial instruments which are recorded as off-balance sheet items. These financial instruments mainly comprise foreign exchange commitments, guarantee commitments and commercial letters of credit. These instruments involve elements of credit risk besides the items recognized in the separate statement of financial position.

Credit risk for off-balance sheet financial instruments is defined as the possibility of sustaining a loss for the Bank when any other party to a financial instrument fails to perform in accordance with the terms of the contract.

Financial guarantees are conditional commitments issued by the Bank to guarantee the performance of a customer to a third-party including guarantee for borrowings, settlement, and performing contracts and bidding. The credit risk involved in issuing guarantees is essentially the same as that involved in extending loans to other customers.

Commercial at sight letters of credit represents a financing transaction by the Bank to its customer who is usually the buyer/importer of goods and the beneficiary is typically the seller/exporter. Credit risk from this type of letters of credit is limited as the merchandise shipped serves as collateral for the transaction.

Deferred payment letters of credits represent the amounts at risk should the contract be fully affected but the client defaults in repayment to the beneficiary. Deferred payment letters of credit that defaulted by clients are recognized by the Bank as granting of a compulsory loan with a corresponding liability representing the financial obligation of the Bank to pay the beneficiaries and to fulfil the guarantor obligation.

The Bank requires margin deposits to support credit-related financial instruments when it is deemed necessary. The margin deposit required varies from nil to 100% of the value of a commitment granted, depending on the creditworthiness of clients as assessed by the Bank.

The currency trading commitments are commitments to purchase, sell at spot and currency forward and swap commitments. Commitments to purchase, sell at spot are commitments to purchase, sell currency according to exchange rate dealt and payment within 2 (two) days since transaction date. Commitments on forward purchase/sale of foreign currency are the commitments where the Bank commits to carry out the purchase/sale of a foreign currency volume in Vietnam dong or in another foreign currency at a determined forward rate the transaction date. Currency swap commitments are commitments to purchase and sell with the same notional principal amount (only two currencies used for transaction) to one client, including one transaction for term payment at spot and one transaction for term payment in the future with the exchange rate of both transactions determined at spot transaction date.
