• Retail sale of games and toys in specialized stores. Detail: Trading children's toys

(Not selling dangerous toys or games, toys or games that are harmful to children's personality education and health, or to social security, order and safety).

2. Accounting period, currency used in accounting

These financial statements were prepared for the annual accounting period 2024 (starting on 01/01/2025 and ending on 31/12/2025).

Financial statements and accounting transactions are expressed in Vietnamese Dong (VND).

3. Applied accounting standards and accounting system

The Company adopts the Vietnamese Corporate Accounting System which is issued under Circular No. 200/2014/TT-BTC dated 22/12/2014 and the Vietnamese Accounting Standards promulgated by the Ministry of Finance.

Form of accounting records: General Journal.

4. Summary of significant accounting policies

4.1 Cash and cash equivalents

Cash includes cash on hand, cash in bank, cash in transit and cash equivalents.

All short-term investments which are collectible or mature of 3 months or less as from purchasing date, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value at reporting date shall be recognized as cash equivalents.

4.2 Financial investments

Loans

Loan receivables are recorded at cost less provision for doubtful debts.

Provision for doubtful debts represents the estimated loss amounts at the balance sheet date for loans which have been overdue for over 9 months or which have not been overdue but the debtor is in the state of insolvency, winding up, missing or absconding. The appropriation of provision is made in conformity with the guidelines of Circular No. 228/2009/TT-BTC dated 7/12/2009 by the Ministry of Finance.

Loans that are monetary items denominated in foreign currency are revalued at the foreign currency buying rate of the commercial bank where the company regularly conducts transactions at the end of the period.

Investments in associates and long-term equity investments in other companies

Provision

Provisions for investments in associates are made if these investments are impaired or suffer losses leading to the possibility of loss of capital of the Company. The appropriation of provision is made in conformity with the guidelines of Circular No. 228/2009/TT-BTC dated 07/12/2009 and Circular No. 89/2013/TT-BTC dated 28/6/2013 by the Ministry of Finance.

Provision for long-term equity investments in other companies is made as follows:

- If an investment in listed shares or the fair value of the investment is determined reliably, the provision shall be made based on the market value of the shares.
- If the market value of the shares is not identifiable, the provision shall be made based on the loss reported in the financial statements of the investee.

With regards to the investees who are required to prepare the consolidated financial statements, the provision is made based on the consolidated financial statements. For other cases, the provision is made based on the financial statements of the investees.

4.3 Receivables

Receivables include trade receivables and other receivables:

- Trade receivables are trade-related amounts arising from trading activities between the Company and its customers.
- Other receivables include non-trade amounts which are not related to trading activities, intra-company transactions.

Receivables are recorded at cost less provision for doubtful debts. Provision for doubtful debts represents the estimated loss amounts at the balance sheet date for overdue receivables which the Company has claimed many times but still has not collected yet or which have not been overdue but the debtor has been in the state of insolvency, doing dissolution procedures, missing or absconding,... The appropriation of provision is made in conformity with the guidelines of Circular No. 228/2009/TT-BTC dated 7/12/2009 by the Ministry of Finance.

Receivables are monitored according to their debtors, principal terms, remaining terms and original currencies.

Receivables that are monetary items denominated in foreign currency are revalued at the buying rate at the end of the period of the commercial bank where the company regularly conducts transactions.

4.4 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost of inventories comprises costs of purchase, costs of conversion and any directly attributable costs of bringing the inventories to their present location and condition. Net realizable value is the estimated selling price less the estimated costs of completing the products and the estimated costs needed for their consumption.

Cost of inventories is calculated using the weighted average method and accounted for using the perpetual method. provision is made in accordance with Circular No. 228/2009/TT-BTC dated 7/12/2009 by the Ministry of Finance.

4.5 Tangible fixed assets

Cost

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state. The costs incurred after the initial recognition of tangible fixed asset shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of those assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the period.

Depreciation

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation period is in conformity with Circular No. 45/2013/TT-BTC dated 25/4/2013 by the Ministry of Finance.

Cụ thể như sau:

<u>Kinds of asset</u>	<u>Depreciation period (years)</u>
Buildings, architectures	5 - 30
Motor vehicles	6 - 10
Office equipment	Fully depreciated

4.6 Intangible fixed assets

Other intangible fixed assets

Other intangible fixed assets are stated at cost less accumulated amortization.

Cost of intangible fixed assets comprises all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready-for-use state.

Other intangible fixed assets are amortized in accordance with the straight-line method. Amortization rate is applied in conformity with Circular No. 45/2013/TT-BTC dated 25/4/2013 by the Ministry of Finance.

<u>Kinds of asset</u>	<u>Amortization period (years)</u>
Accounting software	3

4.7 Payables

Payables include: trade payables and other payables:

- Trade payables are trade-related amounts, arising from trading activities between the company and its suppliers.
- Other payables are non-trade amounts, which are not related to trading activities, intra-company transactions.

Payables are recognized at cost and reported as short-term and long-term payables in the financial statements.

Payables are recognized at the time when the Company's payment obligation arises or when there is certain evidence that a loss is likely to occur.

Payables are monitored according to their creditors, principal terms, remaining terms and original currencies. Payables that are monetary items denominated in foreign currency are revalued at the selling rate at the end of the period of the commercial bank where the company regularly conducts transactions.

4.8 Loans and finance lease liabilities

Loans and finance lease liabilities are recorded at cost and classified into current and non-current liabilities in the financial statements.

The Company monitors loans and finance lease liabilities according to their creditors, loan agreements, principal terms, remaining terms and original currencies. Loans and finance lease liabilities that are monetary items denominated in foreign currency are revalued at the selling rate at the end of the period of the commercial bank where the company regularly conducts transactions.

Borrowing costs

Borrowing costs comprise interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recognized as an expense in the period in which they are incurred, except to the extent that they qualify the conditions to be capitalized in accordance with Accounting Standard "Borrowing costs".

Borrowing costs associated with a particular borrowing for the purpose of obtaining a qualifying asset shall be capitalized as part of the cost of that asset. For general borrowing funds, the borrowing costs eligible for capitalization in the period shall be determined according to the capitalization rate, which is the weighted average of the borrowing costs applicable to the borrowings of the Company that are outstanding during the period.

Capitalisation of borrowing costs shall be suspended during extended periods in which it suspends active development of a qualifying asset, except to the extent that the suspension is necessary. Capitalization shall be ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

4.9 Owners' equity

Owners' contributed capital reflects the actually contributed capital amount.

Share premium reflects the difference between the par value and issue price and of the shares issued.

Profit after corporate income tax (excluding foreign exchange gains from revaluation of balances at the balance sheet date) is available for appropriation to funds and to shareholders as provided for in the Company's Charter or Resolution of the General Shareholders' Meeting.

Profit distribution is only carried out when the Company has undistributed profit after tax. Dividends and profits paid to shareholders shall not exceed the undistributed profit after tax.

4.10 Revenue recognition

Revenue from sales and service provision is recognized to the extent that it is probable to obtain economic benefits, it can be reliably measured and the following conditions are also met:

Revenue from the sale of goods is recognized in the income statement when the significant risks and rewards of ownership have been transferred to the buyer and there are no significant uncertainties regarding recovery of the consideration due or the likely return of goods.

Revenue from service provision is recognized when the services have been rendered. In case that the services are to be provided in many accounting periods, the determination of revenue in each period is done on the basis of the service completion rate as of the balance sheet date.

Revenue from financing activities is recognized when revenue is determined with relative certainty and it is possible to obtain economic benefits from the transactions.

Interests are recognized on the basis of the actual term and interest rates

Dividends and profits shared are recognized when the Company has the rights to receive dividends or profit from the capital contribution.

Other income is the income derived out of the Company's scope of business and recognized when it can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company.

4.11 Revenue deductions

Revenue deductions include trade discounts, sales rebates and sales returns.

Revenue deductions arising after the end of the accounting period but before the issuance of the financial statements are considered events requiring adjustments to reduce revenue for the reporting period.

4.12 Cost of goods sold

Cost of goods sold and the corresponding revenue are recognized simultaneously according to the matching principle.

Decreases in cost of goods sold during the period include reversal of inventory allowance, returned goods, trade discounts, and sales discounts received after the goods have been sold,...

4.13 Financial expenses

Financial expenses reflect expenses or losses related to financial investment activities: interest expense, payment discounts for buyers, provision for diminution in value of trading securities, provision for loss from investment in other entities and other expenses attributable to investing activities.

4.14 Selling expenses, administrative expenses

Selling expenses reflect expenses actually incurred in the process of selling products, goods, rendering services.

Administrative expenses reflect expenses actually incurred related to the overall administration of the Company.

4.15 Current corporate income tax expense, deferred corporate income tax expense

Corporate income tax expenses comprise current income tax and deferred income tax.

Current income tax is the tax amount computed based on the taxable income in the period at the tax rates ruling at the balance sheet date. The difference between taxable income and accounting profit is due to the adjustments of temporary differences between tax and accounting figures as well as those of non-taxable or non-deductible income and expenses.

Deferred income tax is determined for temporary differences at the balance sheet date between the tax base of assets and liability and their carrying amount for financial reporting purpose.

4.16 Tax rates and charges paid to the State Budget that the Company is applying

Office equipment, dictionaries are subject to the 5% tax rate; Other goods such as stamps, labels, forms, equipment,

· Corporate Income Tax (CIT): CIT rate of 20 % is applicable

· Other taxes and charges are paid in accordance with the prevailing regulations.

4.17 Financial instruments

Initial recognition

Financial assets

A financial asset is recognized initially at cost plus transaction costs directly attributable to the acquisition of the asset. The Company's financial assets include cash on hand, short-term deposits, trade receivables, other receivables, loans, financial investments and other financial assets.

Financial liabilities

A financial liability is recognized initially at cost plus transaction costs directly attributable to the issuance of such liability. The Company's financial liabilities include trade payables, loans and finance lease liabilities and other payables.

Subsequent measurement

Currently, there has been no requirement for subsequent measurement of financial instruments.

4.18 Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.
