The Company's financial statements comply with Vietnamese Accounting Standards, Vietnamese Accounting Regime in accordant with the Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 amending and supplementing Circular No. 200/2014/TT-BTC of the Ministry of Finance and existing guiding circulars issued by the Ministry of Finance in Vietnam in relating to the preparation and presentation of interim financial statements.

3.2. Comply with the Vietnamese Accounting Standards and Vietnamese Accounting Regime

The Board of Managements is ensure that complied with the Vietnamese Accounting Standards and Vietnamese Accounting System and the current legal regulations relating to the Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 amending and supplementing Circular No. 200/2014/TT-BTC and as well as the guiding implementation of Vietnamese Accounting Standards issued by the Ministry of Finance in relating to the preparation and presentation of interim financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**4.1. Basic of preparation the financial statements**

The financial statements are prepared on the accrual basis (except for information relating to cash flows).

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

4.2. Transactions in foreign currencies

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Company and the bank.
- For capital contribution made or received: the buying rate of the bank where the Company opens its account to receive capital contributed from investors as of the date of capital contribution.
- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Company supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Company makes payments.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are determined according to the following principles:

- For foreign currency deposits: the buying rate of the bank where the Company opens its foreign currency account.
- For monetary items in foreign currencies classified as other assets: the buying rate of Vietinbank – Daklak Branch – as at 31/03/2025 (25,255 VND/USD).
- For monetary items in foreign currencies classified as liabilities: the selling rate of Vietinbank – Daklak Branch – as at 31/03/2025 (25,835 VND/USD).

4.3. Cash and cash equivalents

Cash includes cash on hand and demand deposits in bank. Cash equivalents consist of short-term investments of which the due dates cannot exceed 03 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the reports date.

4.4. Short-term investments

Investments in Subsidiaries and associates

Subsidiaries

Subsidiaries are controlled by the Company. The control is obtained when the Company has the ability to control the financial and operating policies of the investee enterprise so as to obtain economic benefits from the operation of this enterprise.

The investments in the subsidiaries are recognized at their historical costs, which are comprised of purchasing prices or capital contribution and the direct expenses of the investments. In case of making in-kind capital, the historical costs of the investments are the fair values of the in-kind capital as at the contribution date.

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

The dividends and profit earned prior to the day on which the investments are purchased are recorded as the decreases of those investments while the one earned subsequent to the purchasing date are deemed as revenue. The interests, dividends and profit of the following periods after the securities are purchased are recognized as revenue. As for the dividends being distributed by shares, only the increase number of shares is recorded (without recording the values of shares received).

Provision for the loss on the investments in subsidiaries is made if these entities suffer from loss, and the value of the provision is computed on the basis of the difference between the actually contributed capital in subsidiaries, joint ventures and associates and the actual owner's equity multiplied with the capital ownership rates of The Company. If the subsidiaries are required to prepare the Consolidated Financial Statements, these statements shall be used to clarify the provision value.

Any increase/decrease in the provision for the loss on the investments in subsidiaries, joint ventures and associates, which should be made as at the end-date of the fiscal year, is recorded into financial expenses.

4.5. Receivables

Trade and other receivables are stated at cost less provision for doubtful debts.

The classification of receivables is trade receivables and other receivables, which is complied with the following principles:

- Trade receivables reflect the nature of the receivables arising from commercial transactions with purchase - sale between the Company and an independent purchaser.
- Other receivables reflect the nature of the receivables arising from non-commercial transactions, and to be related to the purchase - sale transactions.

The provision for doubtful debts represents the estimated loss due to non-payment arising on receivables that were outstanding at the balance sheet date.

Increases and decreases to the provision balance are recognised as general and administration expenses in the income statement.

4.6. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures for additions, improvements and renewals are capitalised on fixed assets accounts, expenditures for maintenance and repairs are charged to the income statement.

When assets are sold or retired, their cost and accumulated depreciation are removed from the balance sheet and any gain or loss resulting from their disposal is included in the income statement.

Depreciation of tangible fixed assets is calculated on a straight-line basis over the estimated useful life of these assets, which are as follows:

	Years
Buildings	25
Vehicles	10
Office supplies	05-08

4.7. Intangible fixed assets

Intangible fixed assets determined at the initial costs less amortization.

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

The initial cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Costs relating to intangible assets incurred after initial recognition are recognized to the income statement, except for costs which are related to the specific intangible assets and increase benefits economic from these assets.

When assets are sold or liquidated, their cost and accumulated amortisation are removed from the balance sheet and any gain or loss resulting from their disposal is included in the income statement.

The company's intangible fixed assets include:

Land use rights

Land use rights are all the actual costs the Company has paid directly related to land use, including money spent to have the right to use the land, the cost of compensation and clearance, levelling, registration fees ...

Land use rights are not determined deadline not be amortized.

4.8. Prepaid expenses

Prepaid expenses include:

Tools and equipment

The tools and equipment have been put into use and are amortized to expense under the straight-line method to time allocation not too 03 years.

4.9. Accounts payable and accrued expenses

Accounts payable and accrued expenses are recognized for amounts to be paid in the future, which related to receive the goods and services. Accrued expenses are recorded based on reasonable estimates payment.

The classification of liabilities is payable to suppliers, accrued expenses, internal payables and other payables, which complied with the following principles:

- Trade payables reflect the nature of the payables arising from commercial transactions with purchase of goods, services, property between the Company and an independent sellers.
- Accrued expenses reflect the payables for goods and services received from the seller or provided with the purchaser but have not been paid until having invoices or having insufficient billing records, accounting records, and payables to employees including salary, production costs, sales must accruals.
- Other payables reflects the nature of the payables of non-commercial, not related to the purchase, sale, rendering service transactions.

4.10. Capital

Owner's equity

Capital is recorded according to the amount actually invested by shareholders.

Share premium

Share premium is recorded at the difference between the issuance price and the face value upon the initial issuance, additional issuance or the difference between re-issuance price and the net book value of treasury shares. Direct expenses related to additional issuance and re-issuance of treasury shares are recorded as a decrease in share premium.

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

Others

Other sources are formed by additional results from operations and revaluation of assets and residual value between the fair value of the assets which are given donations after subtracting taxes payable (if any) related to these assets.

Treasury stocks

When acquiring shares issued by the Company, payables including expenses related to the transaction are recorded as treasury shares and are reflected as a deduction in equity. When reissued, the difference between the price of re-release and the book value of treasury shares are recorded in the item "equity premium".

4.11. Distribution of net profits

Profit after tax is distributed to shareholders after an appropriation of funds under the Charter of the Company as same as the law and is approved by the General Meeting of Shareholders.

The distribution of profits to shareholders is considered to non-cash items in undistributed profit may affect cash flow and ability to pay dividends as profit from revaluation of assets contributed as capital, interest due to the revaluation of monetary items, the financial instruments and other non-cash items.

Dividends are recognized as liabilities when approved by the General Meeting of Shareholders.

4.12. Borrowing costs

Borrowing costs include interest and other costs incurred directly related to the borrowings.

Borrowings costs are recognized as expenses when incurred. Where the borrowing costs directly attributable to the acquisition, construction or production of uncompleted assets requires a substantial period (over 12 months) to get ready for use or sales, borrowing costs can be capitalized. For specific loan serves the construction of fixed assets and real estate, interest is capitalized, regardless the period of construction is less than 12 months. The income arising from the temporary investment of the borrowings is deducted from the related asset.

For general loans including use for purposes of the construction or production of uncompleted assets, the capitalization of borrowing costs is determined in proportion to the cost capitalization weighted average arising for basic construction or production of that asset. The capitalization rate is calculated in proportion to the weighted average rate of borrowings outstanding during the year, except for specific borrowings serving the purpose of a specific property.

4.13. Revenue

Revenue from sales of goods

Sale of merchandise shall be recognized if it simultaneously meets the following five (5) conditions:

- The enterprise has transferred the majority of risks and benefits associated with the right to own the products or goods to the buyer;
- The enterprise no longer holds the right to manage the goods as the goods owner, or the right to control the goods;
- Turnover has been determined with relative certainty. When the contract stipulates that the buyer is entitled to return the products and goods purchased under specific conditions, the Company may only record revenue when such specific conditions no longer exist and the buyer is not entitled to return the products or goods (except for cases where customers have the right to return goods in exchange for goods, other services);
- The enterprise has gained or will gain economic benefits from the good sale transaction; and
- It is possible to determine the costs related to the goods sale transaction.

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

Revenue from sales of service rendered

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. In case that a transaction involves the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the interim balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the company. When the contract stipulates that the buyer is entitled to return the purchased services under specific conditions, the revenue is only recognized when those specific conditions no longer exist and the buyer is not entitled to return the services provided;
- The percentage of completion of the transaction at the interim balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest

Interest is recognized on an accrual basis, are determined on the balance of cash in bank and the actual interest rate for each period.

Dividends and profits received

Dividends and profit shared are recognized when the Company receive the notice of dividends or profit from the capital contribution. Dividends which received by shares, only follow up the number of shares increases, no recognition of the value of shares.

4.14. Corporate income tax

Corporate income tax ("CIT") for the year comprises current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount is calculated on taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between accounting and tax, non-deductible expenses as well as adjusted income are not taxed and losses be transferred.

Deferred income tax

Deferred income tax is the corporate income tax will pay or will be refunded by the temporary differences between the carrying amounts of assets and liabilities for the purpose of preparing the financial statements and the basis to calculate income tax. Deferred income tax is recognized for all temporary differences tax. Deferred tax assets are only recognized when the certainty of future get the taxable profits to use those temporary deductible differences.

The carrying amount of deferred tax assets are reconsidered at closing of the financial year and will be reversed to make sure that there is enough taxable profit to allow the benefit assets to be used fully or partly. The deferred tax assets were not previously recognized is reconsidered at closing of the financial year and is recognized when it is sure to enough taxable profit to be able to use this deferred tax assets.

Deferred tax assets and deferred income tax payable is calculated at the estimated tax rates that is applied in the asset is realized or the liability is settled in accordance with the tax rates in effect at closing fiscal year. Deferred income tax is recognized in the income statement and record directly to equity when the tax relates to items directly to equity.

Tax settlement of the Company and its subsidiaries will be assessed by the Tax Department. Due to the application of laws and regulations on taxes for different incurred transactions which can be

NOTES TO THE FINANCIAL STATEMENTS

For the fiscal year ended 31 March 2025

explained in many different ways, tax payable presented in the financial statements can be immediately changed according to the decision of the tax authorities.

4.15. Segment reporting

A segment is a component which can be separated by the Company engaged in sales of goods or rendering of services ("business segment"), or sales of goods or rendering of services within a particular economic environment ("geographical segment"). Each segment is subject to risks and returns that are different from those of other segments.

A geographical segment is a separately identifiable segment that is specifically engaged in producing or providing products or services within a particular economic environment and that is subject to risks and rewards. economic benefits different from those of business segments in other economic environments.

4.16. Instrument

Financial assets

The classification of financial assets depends on their nature and purposes and is determined at the date of initial recognition. The financial assets are comprised of cash and cash equivalents, trade receivables, other receivables and other loans.

As at the initial recognition, these financial assets are recorded at their historical costs plus transaction expenses.

Financial Liabilities

The classification of financial liabilities depends on their nature and purposes and is determined at the date of initial recognition. The financial liabilities of the company include trade payables, borrowings, and other payables.

At the date of initial recognition, except for the liabilities related to financial lease or acquisition and convertible bonds which are recorded at amortized cost, other financial liabilities are recorded at original cost plus other costs directly related to those financial liabilities.

Equity instrument

Equity instrument is the contract which can prove the remaining benefits in the assets of the company after deducting all of its liabilities.

Offsetting financial instruments

Financial assets and financial liabilities shall be offset against each other and reflected at their net values in the balance sheet when, and only when, the Company:

- has a legal right to offset the recognized amounts; and
- has intention either to settle on a net basis, or to recognize the asset and to settle the liability simultaneously.

4.17. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

Buon Ma Thuot City, 18 April 2025

No.: 29../CV-CT

“V/v: Explanation of profit discrepancies”

To: - **STATE SECURITIES COMMISSION OF VIETNAM;**
- **HANOI STOCK EXCHANGE**

Daklak Rubber Investment Joint Stock Company was established under Business Registration Certificate No. 6001 271719 first issued by Department of Planning and Investment of Daklak Province on 24/02/2012, with the 9th amendment registered on 09/06/2022.

We would like to provide an explanation regarding the profit discrepancies in the parent company's financial statements and the consolidated financial statements for Q1 2025 compared to the same period in 2024.

1. Financial Statements of the Parent Company:

The post-tax profit for Q1 2025 in the Parent Company's report reached VND 9,944,671,584, compared to VND 4,962,229,813 in the same period of 2024 — an increase of VND 4,982,441,771 or 100.4%. The rise in post-tax profit was primarily driven by a 31.3% increase in rubber latex sales revenue in Q1 2025, which led to a VND 4.3 billion increase in gross profit, along with a VND 1.1 billion (or 18.7%) increase in financial income compared to the same period in 2024.

2. Consolidated Financial Statements:

Consolidated post-tax profit for Q1 2025 reached VND 55,854,321,600, an increase of VND 34,948,040,478 or 167% compared to the same period in 2024, which recorded a profit of VND 20,906,281,122. The increase in profit after tax was mainly driven by a 74.1% rise in the Group's revenue from rubber latex sales in Q1/2025, which led to a 149.2% increase in gross profit, equivalent to an increase of VND 48.5 billion compared to the same period in 2024.

The above outlines the key factors influencing profit fluctuations in Q1 2025 compared to the same period in 2024. The Company respectfully reports this to the State Securities Commission of Vietnam, the Hanoi Stock Exchange, and all shareholders of the Company.

Sincerely!

Recipients:

- As above;
- Board of Directors, Executive Board, Supervisory Board
