PART III DISCUSSION

1. Shareholder Mr. Truong Ngoc Tri:

Congratulations to the Executive Board and Board of Directors (BOD) of Bich Chi for achieving an impressive business performance with a 28% increase in revenue, a 63% increase in post-tax profit, and a return on equity (ROE) of 26%.

I respectfully request the Chairing Committee to provide information on the revenue structure between the domestic and export markets, as well as the key export markets of Bich Chi.

=> Response:

Mr. Khôi – Chair: Export revenue currently accounts for 70% of Bich Chi's total revenue, while the domestic market contributes 30%. Due to business strategy reasons, we are unable to provide a detailed breakdown by product. However, the profit margin in the domestic market is consistently higher than in exports

2. Shareholder Mr. Nguyen Thanh Hieu:

Bich Chi's business results in 2024 showed many positive highlights. The establishment of the Standing Committee of the BOD has demonstrated effective support and supervision for the Executive Board – a governance model that not every company can implement.

I suggest that the BOD consider increasing the average income plan for employees to be higher than the actual figure in 2024.

It is also proposed to set up a welfare fund for workers and employees to reward outstanding performance, and to support health-related or hardship situations.

Additionally, I propose increasing the BOD's remuneration to between 1% – 5% of the company's profit value.

=> Response:

Mr. Khôi – Chair: Thanks to the close and effective direction of the Executive Board, the Company has achieved significant growth.

For 2025, the projected average monthly income of employees is set at VND 8.5 million. This figure has been carefully considered, taking into account the current volatile domestic and global economic conditions. However, if business results in 2025 are positive, the BOD will still prioritize maintaining employee income at the same level as 2024.

Regarding the proposal to establish a welfare fund, the BOD recognizes this as a good practice and will consider implementing it appropriately next year.

Mr. Bình – BOD Member: Given the current economic uncertainty, employee salaries will be adjusted based on the company's actual business performance. If the results are favorable, the company will consider increasing wages to acknowledge employees' contributions, and vice versa.

Regarding BOD remuneration, the current BOD members hold nearly 70% of the company's total shares and receive dividends three times per year. Thus, the remuneration amount is symbolic and minor compared to their main income from dividends. This reflects their commitment, responsibility, and long-term dedication to the company's development.

3. Shareholder Ms. Nguyen Thi Khue: As the owner of a small business myself, I truly understand the challenges caused by the sharp decline in raw material prices, which has significantly impacted farmers and poses a risk of future raw material shortages. In such a difficult context, Bich Chi's strong business results in 2024 are highly commendable and offer valuable lessons to learn from.

REPORT OF THE BOARD OF GENERAL DIRECTORS
Business Performance in 2024 and Development Plan for 2025

I. SIGNIFICANT HIGHLIGHTS OF 2024:

- The consumer market continues to expand compared to 2023; however, competition is becoming increasingly intense across all product lines of Bich Chi.
- The cost of raw materials remains high. Specifically, the current price of rice fluctuates around 14,000 VND/kg, while wheat flour reaches 13,000 VND/kg.
- Additionally, the labor market is experiencing significant fluctuations, with a strong trend of workforce mobility. The demand for jobs among workers has increased compared to the previous year, creating challenges in recruitment and employee retention.

II. BUSINESS PERFORMANCE RESULTS IN 2024:

1. Business Performance in 2024:

- Revenue from sales and service provision reached VND 773,292,152,622, an increase of approximately VND 170 billion compared to the same period in 2023, representing a 28% growth.
- Net profit after corporate income tax amounted to VND 105,483,458,001, marking a 65% increase compared to the previous year.
- The average income of employees reached 9,099,000 VND/person/month, an increase of 21% compared to 2023.

2. Evaluation of 2024 Performance:

a. Production Activities:

- The production process was maintained steadily throughout 2024, ensuring sufficient and timely supply of goods to the market.
- Strict compliance with food hygiene and safety standards, fully meeting the stringent requirements of both domestic and international customers.

b. Sales & Distribution:

- Domestic Market:
 - + Distribution activities were effectively managed, successfully introducing Bich Chi's products into major supermarket chains nationwide.
 - + Expanded the network of agents and distributors across all three regions: North, Central, and South.
 - + Recruited and trained experienced sales personnel, particularly in e-commerce

operations on platforms such as Shopee and TikTok.

- Export Market:

+ Effectively capitalize on existing markets while expanding into numerous new potential markets across continents.

+ Assigned personnel to participate in international food exhibitions in China, Japan, Thailand, South Korea, France, Germany, etc., with the goal of strengthening partnerships and enhancing brand visibility.

III. DIRECTIONS FOR 2025:

1. Market Outlook for 2025:

- The consumer market in 2025 is forecasted to slow down, especially in the food industry, as global demand continues to face numerous challenges. Factors such as rising inflation, surging gold and US dollar prices, and the depreciation of the Vietnamese dong will significantly impact market stability.

- The prices of raw materials such as rice and wheat are at risk of fluctuation due to the impact of weather conditions, as well as conflicts in the Middle East and Europe.

- Another objective factor is the election of President Donald Trump, with the trend of increasing import taxes on the US market. This will have a general impact on Vietnam's export market to the world.

- The issue of labor and employment continues to be complicated, affected by income and living costs, affecting workers' lives as well as the ability to maintain a stable human resource.

2. Business Plan for 2025:

- In 2025, based on the Board of Directors' opinions, the Executive Board of Bich Chi Food Joint Stock Company has set the following business targets:

+ Revenue: VND 700 – 800 billion;

+ Net Profit after Tax: VND 80 – 140 billion;

+ Average Employee Income: VND 7.5 – 8.5 million per person per month;

+ Dividend Payout Ratio: 20 – 30% of charter capital.

3. Implementation Measures for 2025:

- Completion and commissioning of Bich Chi 2 Factory, equipped with modern machinery and technology to enhance production capacity, driving revenue and profit growth.

- Investment in infrastructure and compliance with food safety standards, ensuring that facilities meet both domestic and international quality requirements.

- Strengthening and expanding the domestic distribution network, increasing the presence of agents and distributors nationwide. Simultaneously, promoting international trade by participating in global exhibitions to expand export markets.

- Prioritizing environmental protection, focusing on sustainable production solutions to

minimize environmental impact. Actively engaging in social initiatives and contributing to local welfare programs, including poverty reduction efforts.

- Human resource training and development, enhancing professional skills and management capabilities for the workforce. Additionally, implementing succession planning to ensure the company's long-term sustainable growth.
