## **II. BASIS OF PREPARATION**

### **1. Statement of compliance**

These separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to financial reporting.

Vietnam National Textile and Garment Group also prepares and issues its consolidated financial statements. For a comprehensive understanding of Vietnam National Textile and Garment Group's consolidated financial position as at 31 March 2025, its consolidated results of operations and its consolidated cash flows for the three-month period ended 31 March 2025, these separate financial statements should be read in conjunction with Vietnam National Textile and Garment Group's consolidated financial statements

### **2. Basis of measurement**

The separate financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method.

### **3. Annual accounting period**

The annual accounting period of Vietnam National Textile and Garment Group is from 1 January to 31 December.

### **4. Accounting and presentation currency**

Vietnam National Textile and Garment Group's accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial reporting purposes.

### III. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been adopted by the Vietnam National Textile and Garment Group in the preparation of these separate financial statements.

#### 1. Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rates and selling rates at the end of the annual accounting period quoted by the commercial banks where Vietnam National Textile and Garment Group most frequently conducts transactions.

All foreign exchange differences are recorded in the separate statement of income.

#### 2. Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes

#### 3. Investments

##### **Held-to-maturity investments**

Held-to-maturity investments are those that General Director and Board of Directors have the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank. These investments are stated at costs less allowance for doubtful debts.

##### **Investments in subsidiaries, associates and other entities arising during the post-equitisation period**

For the purpose of these separate financial statements, investments in subsidiaries, associates and other entities arising during the post-equitisation period are initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in investment value.

##### **Allowance for diminution in the value of financial investments**

An allowance is made for diminution in value of investments in subsidiaries, associates and other entities if the investee has suffered a loss which may cause Vietnam National Textile and Garment Group to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made.

An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

#### **4. Accounts receivable**

Trade and other receivables are stated at cost less allowance for doubtful debts.

#### **5. Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

Vietnam National Textile and Garment Group applies the perpetual method of accounting for inventories.

#### **6. Tangible fixed assets**

##### ***Cost***

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the separate statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

##### ***Depreciation***

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

- buildings and structures 5 – 50 years
- machineries and equipment 3 – 15 years
- motor vehicles 4 – 15 years
- office equipment 3 – 10 years

#### **7. Intangible fixed assets**

##### ***Land use rights***

Land use rights granted by the State for which land use payments are collected are stated at cost less accumulated amortisation. The initial cost of a land use right comprises any directly attributable costs incurred in conjunction with securing the land use rights. Amortisation is computed on a straight-line basis over 50 years.

##### ***Software***

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised as an intangible asset. Software cost is amortised on a straight-line basis over a period ranging from 3 to 10 years.

## **8. Construction in progress**

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

## **9. Trade and other payables**

Trade and other payables are stated at their cost.

## **10. Provisions**

Except for those defined in other accounting policies, a provision is recognised if, as a result of a past event, Vietnam National Textile and Garment Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## **11. Share capital**

### **Ordinary shares**

Ordinary shares are stated at par value,

The difference between the issuance price and the par value of the shares is recorded as share premium in equity. Incremental costs directly attributable to the issue of shares, net of tax effects is recognised as a deduction from share premium.

## **12. Revenue and other income**

### ***Goods sold***

Revenue from the sales of goods is recognised in the separate statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts.

### ***Services rendered***

Revenue from services rendered is recognised in the separate statement of income in proportion to the stage of completion of the transaction. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

### ***Processing services***

Revenue from processing services is recognised in the separate statement of income when the goods have been processed and accepted by the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

### ***Rental income***

Rental income from leased property is recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

### **13. Financial income**

#### ***Interest income***

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest

#### ***Dividend income***

Dividend income is recognised when the rights to receive dividend is established. Share dividends are not recognised as income. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

Dividends or share of profits in proportion to the surplus due to revaluation of the investments upon determining the enterprise value for the equitisation purpose and at the date of conversion to a joint stock company were not recognised as financial income but only a decrease in the value of investments was recognised

### **14. Lease payments**

Payments made under operating leases are recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the separate statement of income as an integral part of the total lease expense, over the term of the lease.

### **15. Borrowing costs**

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

### **16. Related parties**

Parties are considered to be related to Vietnam National Textile and Garment Group if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.
