III. Applicable Accounting Standards and Regimes

1. Basis for preparing consolidated financial statements

The Company's consolidated financial statements are prepared on the basis of the financial statements of the Parent Company and the financial statements of the companies controlled by the Parent Company (the Subsidiaries) prepared as at 31/03/2025. Control is achieved when the Company has the power to govern the financial and operating policies of an investee so as to obtain benefits from its activities.

2. Applicable accounting regime

The Company applies the Enterprise Accounting Regime issued under Circular 200/2014/TT-BTC dated December 22nd, 2014.

In particular, Circular No. 210/2009/TT-BTC dated 06/11/2009 of the Ministry of Finance guiding the application of International Accounting Standards on the presentation of financial statements and disclosure of information for financial instruments has not been applied by the Company in the presentation of these financial statements.

3. Statement on Compliance with Accounting Standards and Accounting Regime

The Company's consolidated financial statements are prepared and presented in accordance with Vietnamese Accounting Standards, current Vietnamese Accounting Regime and relevant legal regulations.

4. Applicable accounting form

The company applies the form of bookkeeping on computers, using accounting software built by A-Z Software Company.

IV. Summary of significant accounting policies

1. Principles of recording cash and cash equivalents

Cash is a synthetic indicator reflecting the total amount of money available to the enterprise at the reporting time, including cash in the enterprise's fund and non-term bank deposits recorded and reported in Vietnamese Dong (VND), in accordance with the provisions of the Accounting Law No. 03/2003/QH11 dated 17/06/2003.

Method of converting other currencies into the currency used in accounting

For payments of foreign currency items arising during the fiscal year, they are converted at the actual exchange rate at the time of the foreign currency transaction of the commercial bank where the enterprise conducts the transaction.

At the end of the fiscal year, the balance of foreign currency-denominated cash items is revalued at the buying rate of commercial banks where the enterprise opens accounts.

For the balance of foreign currency amounts such as EUR, JPY, GBP, SGD, AUD without published foreign currency exchange rates, the conversion will be carried out through the exchange rates of a number of major foreign currency units announced by the State Bank of Vietnam according to the average transaction exchange rate of banks at 31/03/2025.

2. Principles of inventory recording

- Principles of inventory recording:

Inventories are measured at the lower of cost and net realizable value.

Cost of inventories includes: direct materials cost, direct labor cost and manufacturing overheads, if any, incurred in bringing the inventories to their present location and condition.

The cost of inventories is determined using the weighted average method. Net realizable value is determined as the estimated selling price less the estimated costs of completion and the costs to be incurred in marketing, selling and distribution.

- Method of setting up inventory price reduction provision:

As of 31/03/2025, the Company has no inventory requiring provision for price reduction.

3. Principles of recording and depreciating fixed assets
3.1 Principles of recording depreciation method of tangible fixed assets

Tangible fixed assets are recorded at original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and remaining value.

The recording of tangible fixed assets and depreciation of fixed assets are carried out in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 and Circular No. 45/2013/TT-BTC dated 25/4/2013 guiding the management, use and depreciation of fixed assets.

The initial cost of a tangible fixed asset comprises its purchase price (net of any trade discounts or rebates), any taxes and any directly attributable costs of bringing the asset to its working condition for its intended use.

Expenses incurred after the initial recognition of tangible fixed assets are recorded as an increase in the original cost of the asset when these expenses certainly increase future economic benefits. Expenses incurred that do not satisfy the above conditions are recorded by the Company as production and business expenses in the period.

The Company applies the straight-line depreciation method for tangible fixed assets. Tangible fixed asset accounting is classified according to groups of assets with the same nature and purpose of use in the Company's production and business activities, including:

<i>Category of fixed asset</i>	<i>Depreciation period (years)</i>
Buildings, structures	15 - 25
Machinery, equipment	05 - 10
Transportation vehicles, transmission equipment	06 - 10
Management equipment, tools	05 - 09
Other fixed assets	05 - 08

3.2 Principles of recording intangible asset depreciation method

The Company's intangible assets include computer software.

The recognition of Intangible Fixed Assets and Depreciation of Fixed Assets are implemented in accordance with Vietnamese Accounting Standard No. 04 - Intangible Fixed Assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 and Circular No. 45/2013/TT-BTC dated 25/4/2013 guiding the management, use and depreciation of fixed assets.

Intangible fixed assets are recorded at original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and remaining value.

The Company applies the straight-line depreciation method for intangible fixed assets, with depreciation periods ranging from 5 to 20 years.

4. Principles of recording financial investments

The Company's long-term financial investments include investments in subsidiaries, joint ventures and other long-term investments, which are recorded at cost, starting from the date of investment.

5. Principles of recognition and capitalization of borrowing costs

The Company's short-term loans are recorded in accordance with contracts, loan agreements, receipts, payment vouchers and bank documents.

Loan expenses are recorded in financial expenses.

6. Principles of recognition and allocation of long-term prepaid expenses

Long-term prepaid expenses include the value of tools and supplies issued for use and are expected to provide future economic benefits to the Company for a period of one year or more. These expenses are capitalized as long-term prepaid expenses and are allocated to the income statement using the straight-line method over three years in accordance with current accounting regulations.

7. Principle of recording payable expenses

The Company's payable expenses are the advance payment of interest expenses for loan contracts that stipulate interest payment in advance and advance payment of meals, electricity and water costs and other expenses as stipulated in the contract. The recorded interest value is determined based on the contract, loan agreement and actual loan term. Electricity and water costs are recorded based on the notification of the service provider.

8. Principle of owner's equity recognition

The Company's owner's equity is recorded at the actual amount of capital contributed by the owner.

The Company's capital for basic construction investment is recorded when the superior unit, the General Department of Logistics, provides capital for basic construction investment.

Undistributed profit after tax is the profit from the business's operations after deducting the current year's corporate income tax expense and adjustments due to retroactive application of changes in accounting policies and retroactive adjustment of material errors of previous years.

9. Principles and methods of revenue recognition

The Company's revenue includes revenue from sales of medical equipment, medicines, supplies, repair, installation, warranty and maintenance services for medical equipment; rental of premises and training services, import entrustment and revenue from interest on bank deposits and from dividends on shared profits.

Revenue from the sale of goods and products is determined at the fair value of the amounts received or to be received according to the accrual principle, recorded when transferring goods to customers, issuing invoices and receiving payment acceptance from customers, in accordance with the 5 conditions for revenue recognition specified in Vietnamese Accounting Standard No. 14 - "Revenue and other income".

Revenue from providing services is determined when the service is completed, accepted, liquidated, invoiced and accepted for payment by the customer, in accordance with the 4 conditions for recognizing revenue specified in Vietnamese Accounting Standard No. 14 - "Revenue and other income". The completed part of the service is determined by the percentage of completion method.

Revenue from deposit interest and loan interest is recorded on the basis of time and actual interest rate of each period, in accordance with the two conditions for recording revenue arising from interest, royalties, dividends and shared profits as prescribed in Vietnamese Standard No. 14 - "Revenue and other income".

Revenue from dividend payments is recognized based on the business results of the investee according to the capital contribution ratio. When there is an official dividend announcement, the Company makes adjustments to the business results of the year in which the announcement is received.

Advances from customers are not recognized as revenue in the period.

10. Principles and methods of recording financial expenses

Financial expenses recorded in the Consolidated Income Statement are total financial expenses incurred during the period, not offset against financial revenue, including interest expenses, exchange rate differences realized during the period and other financial expenses.

11. Principles and methods of recording current corporate income tax expenses and deferred corporate income tax expenses

Current corporate income tax expense is determined on the basis of taxable income and corporate income tax rate in the current year.

12. Other accounting principles and methods

12.1 Principles of recording receivables and payables

Principles for determining customer receivables are based on the Contract and recorded according to the Sales Invoice issued to the customer.

Advance payments to sellers are accounted for based on bank documents and economic contracts.

Principles for determining payables to sellers are based on the Contract, warehouse receipt and recorded according to the seller's Purchase Invoice.

Advance payments from buyers are recorded based on contracts and bank documents.

Quarter 1 2025

(continues)

12.2 Principles of recording short-term and long-term loans

Short-term and long-term loans are recorded on the basis of receipts, bank documents, loan agreements and loan contracts. Loans with a term of 1 fiscal year or less are recorded as short-term loans by the Company.

12.3 Obligations on Tax

Value Added Tax (VAT)

The Company applies VAT declaration and calculation according to the guidance of current tax law with VAT rate of 5% for medical equipment and medicine, 8% and 10% for other supplies and goods and is not subject to tax for training services and medical supplies for war invalids.

Corporate income tax

The company applies a corporate income tax rate of 20% on taxable profits.

The determination of the Company's corporate income tax is based on current tax regulations. However, these regulations change from time to time and the final determination of corporate income tax depends on the results of the examination by the competent tax authority.

Other taxes

Other taxes and fees must be declared and paid by the enterprise to the local tax authority in accordance with current regulations of the State.

12.4 Principles of recording cost of goods sold

Cost of goods sold is recorded and aggregated according to the value and quantity of finished products, goods, and materials sold to customers, consistent with revenue recorded during the period.

Cost of service is recorded at actual costs incurred to complete the service, consistent with revenue recorded in the period.
