I. Operating Results for 2024

1.1. Business Conditions in 2024

In 2024, Vietnam's economy achieved notable positive results amid numerous challenges posed by a volatile global economic environment. The country's GDP growth reached an impressive 7.1%, positioning Vietnam as one of the fastest-growing economies in the Asia-Pacific region. This growth not only reflects the inherent strength of the domestic economy but also highlights its resilience and adaptability in the face of international market fluctuations.

In particular, inflation was effectively controlled at 3.63%, significantly lower than the 4.5% target set by the National Assembly. This demonstrates the effectiveness of economic management policies in stabilizing domestic prices of goods and services, thereby reinforcing consumer and investor confidence.

The prolonged low-interest rate environment created favorable conditions for strong development in investment and business activities. Domestic enterprises capitalized on this advantage to expand production and enhance competitiveness. Furthermore, credit growth reached 15.1%, higher than the 13.8% recorded in 2023, indicating that capital flows were efficiently circulated and commercial banks were actively supporting businesses with financing for growth.

1.2. The Company's Business Performance in 2024

In the challenging economic landscape of 2024, marked by global geopolitical volatility and persistently high interest rates, IPA Group's multi-sector business model proved its effectiveness in diversifying risks and seizing opportunities. Operating across various sectors - from financial services to food, from the digital economy to the green economy - IPA Group successfully maintained stability. The connectivity between units within the ecosystem not only optimized operating costs but also generated synergistic value, further strengthening IPA Group's market position.

In 2024, IPA Group continued to expand both in depth and breadth along its core business pillars: financial services, corporate governance solutions, investment in the energy sector, and production and distribution of green and clean products. At the same time, the Group successfully fulfilled the business targets approved by the Annual General Meeting of Shareholders:

Unit: VND billion

Indicator	2024 Plan	2024 Actual	Completion Rate of 2024 Plan	Growth Compared to 2023
Consolidated net revenue	1,080	1,305	121%	14%
Consolidated profit before tax	425	517	122%	51%

In 2024, IPA Group's consolidated net revenue grew by 14% year-on-year and exceeded the revenue target set by the General Meeting of Shareholders by 21%. Consolidated profit before tax reached VND 517 billion, marking a 51% increase compared to the previous year and surpassing the target by 22%. During the year, IPA Group restructured its private equity investment portfolio, thereby contributing to profit growth.

As of the end of 2024, consolidated owners' equity amounted to VND 4,500 billion, up 11% compared to the same period last year. The consolidated return on equity (ROE) in 2024 reached 10.5%, representing a 26% increase from the 2023 ROE of 8.3%.

Consolidated profit after tax stood at VND 470 billion, up 40% compared to 2023, leading to an increase in consolidated return on assets (ROA) to 5.4%, from 3.8% in the previous year.

In 2024, IPA Group's asset structure shifted toward a reduction in short-term assets to VND 1,956 billion and an increase in long-term assets to VND 6,715 billion, focusing on core business sectors with long-term growth potential. The long-term investment portfolio stood at VND 5,739 billion, accounting for 66.2% of the Group's total assets.

IPA Group maintained moderate leverage ratios, with the Debt-to-Total Assets ratio at 0.5 and the Debt-to-Equity ratio at 0.9. These levels reflect a prudent use of financial leverage, achieving both operational efficiency and meeting capital needs while ensuring sound liquidity and solvency.

In addition to exceeding the business plan and maintaining a healthy financial position, IPA Group also achieved the following positive results over the past year:

- Continued to affirm its position, competitive capability, and brand reputation as a leading multi-sector economic and investment group in Vietnam. Most member companies within the IPA Group ecosystem experienced positive business developments and maintain significant growth potential in the medium to long term;
- Completed the restructuring of ownership across member companies. Business activities were reorganized into clearly defined operational segments, improving management efficiency, control mechanisms, and internal support;
- Upheld its mission of delivering positive values and benefits to society, not only in financial terms but also in quality of life, by offering natural and healthy products that promote well-being and sustainable lifestyles;
- Maintained and expanded employment opportunities, with a total workforce of 483 employees as of the end of 2024, representing an 18% increase compared to year-end 2023.

1.3. Business Performance by Sector

Financial Services

In 2024, member companies of IPA Group operating in the financial services sector overcame both internal and external challenges to achieve positive results. Notably:

- VNDIRECT Securities Corporation – a member of IPA Group – demonstrated resilience in its development strategy and adaptability. Despite a slight decline in profit compared to the previous

year, VNDIRECT maintained its position among the leading securities companies in the market with stable and sustainable business performance. In terms of capital market operations, VNDIRECT successfully maintained a strong balance sheet structure with a high proportion of liquid assets by expanding its portfolio of bonds issued by banks. In the securities services segment, despite facing a cybersecurity incident, VNDIRECT recorded growth in the number of clients and retained a notable market share across all three stock exchanges.

- I.P.A Securities Investment Fund Management Limited Company (IPAAM) also achieved solid business results in 2024, with growth in both revenue and profit, ensuring effectiveness in its professional investment and fund management strategy. IPAAM's performance was driven by optimized governance, strategic investments, and effective cost-control policies.

Consumer Goods and Green Agriculture

In 2024, IPA Group's member companies made notable strides in the consumer goods, macrobiotic food, and green agricultural product sectors through investments in production infrastructure, standardization of production processes, supply chain management, and optimization of data governance systems. These core elements enhanced the Company's brand value and credibility. IPA Group's subsidiaries invested in R&D and launched new products and brands such as Delivie French bread and NAO Coffee organic coffee. Member companies also launched new product lines under the brands VinaBee (honey products), Shantra (ancient tea), and Tỏi lá Thảo mộc (a new generation of body care and home cleaning products).

Technology and Digital Transformation Services

In the past year, IPA Solution – a company specializing in technology and digital transformation solutions – made strong investments in technology and R&D. IPA Solution rolled out various innovation projects, thereby realizing advanced technology solutions for its partners. Products deployed to clients included customer management systems, operations management systems, and asset management systems, all designed using IPA Solution's proprietary architecture to enhance flexibility and reduce implementation time. IPA Solution offers flexible and secure digital solutions that meet a wide range of client demands.

Corporate Governance Advisory

IPA Management – a member company of the Group – provides specialized advisory services in corporate governance, including legal governance, human resource management, talent development, financial governance, and operational management. Over the past year, IPACM supported various companies within the IPA ecosystem to improve organizational structure, standardize operations, and enhance governance efficiency, aligning with modern governance practices and sustainable development goals. IPACM also delivered governance advisory packages aiming to align with advanced standards and emerging trends in sustainable management.

Training and Human Capital Development

Over the past year, IPA Group's subsidiaries actively implemented training programs to build employee competencies across the ecosystem and for partner companies. These programs focused on enhancing professional, managerial, and business skills, tailored to specific roles and aligned with real-world needs. Through in-depth training and practical coaching, the Group aimed to build a high-quality professional workforce that supports sustainable development and improved competitiveness.

In the coming period, IPA Academy – the Group's training and development unit – will further strengthen the delivery of training services aimed at enhancing professional skills for personnel of

partner enterprises. Particular emphasis will be placed on integrating sustainable governance content into training programs, with the goal of supporting enterprises in improving operational efficiency while meeting international standards on environmental, social, and governance (ESG) practices.

Investment and Energy

In 2024, real estate investment projects by IPA Group's subsidiaries made meaningful progress in completing legal procedures in preparation for future implementation. In the energy sector, hydropower continued to play an important role. The electricity output of Bac Ha Energy Joint Stock Company increased by 34% compared to 2023. Additionally, the Group invested in rooftop solar power installation services and has already secured its first customers. This new business area not only expands the Group's operational portfolio but also contributes to the national objective of promoting renewable energy and sustainable green growth in line with the State's overarching policy.

II. Business Plan for 2025

2.1. Economic Outlook for 2025

According to the General Statistics Office, Vietnam's GDP grew by 6.93% year-on-year, marking the highest growth rate since 2020 and surpassing the baseline growth scenario, although still falling short of the 7.7% target set under the Government's Resolution No. 01/NQ-CP. However, achieving this ambitious target will face considerable challenges amid increasing global economic uncertainties, notably the United States' protectionist trade policies and other geopolitical tensions worldwide. In response to such developments, the Government of Vietnam stands ready to implement more aggressive economic stimulus measures to mitigate emerging risks and support growth in 2025.

2.2. Business Plan for 2025

In alignment with the Group's development strategy for 2025 and the subsequent years as presented in the Board of Directors' Report, the Board of Management and the Board of Directors have reached a consensus on the consolidated business plan of IPA Group for 2025, as follows: (i) Consolidated total revenue: VND 1,180 billion; (ii) Consolidated profit after tax: VND 468 billion; (iii) Parent company's total revenue: VND 620 billion; (iv) Parent company's profit after tax: VND 360 billion.
