**REPORT OF THE GENERAL DIRECTOR
ON BUSINESS PERFORMANCE IN 2024 AND PLAN FOR 2025
(Presented at the 2025 Annual General Meeting of Shareholders)**

I. BUSINESS PERFORMANCE IN 2024

1. Overview of Business and Production Activities in 2024

In 2024, the Vietnamese economy maintained a stable growth trajectory, with GDP growth reaching 7.09%, driven by a strong recovery in exports and foreign direct investment inflows.

However, the furniture industry continued to face significant challenges, including rising raw material costs and intense competition from low-cost imported products, especially from China, putting considerable pressure on domestic enterprises.

Shifts in consumer preferences also impacted production efficiency and product consumption. An increasing number of consumers are concerned with environmentally friendly products, requiring the industry to develop more sustainable offerings. However, this inevitably increases production costs and product pricing.

In addition, the industry encountered risks related to imported wood material supplies and fluctuations in international freight costs, adversely affecting export performance.

2. 2024 Business Performance Results

2.1. Key Performance Indicators

No.	Indicator	Unit	2024 Plan	2024 Actual	% Achieved
1	Net Revenue	VND Billion	850	545,9	64%
2	Profit Before Tax	VND Billion	55	52,9	96%
3	Dividend	%	10%	0	0%

- Net revenue achieved 64% of the plan:

The Company had anticipated launching several new product lines, including wood-grain steel doors, bicycles, electrical cabinets, and electrical equipment. However, results fell short of expectations.

- Profit before tax reached 96% of the plan:

- + Due to revenue reaching only 64% of the plan, profit before tax was also below expectations.

- + In late 2024, the Company made provisions for bad debts and inventory devaluation, leading to increased cost of goods sold and administrative expenses, which reduced profit for the period.

- + Nevertheless, despite underperforming revenue, profit before tax reached 96% of the plan thanks to increased income from investment activities. In addition, the Board of Directors and Executive Board implemented timely and effective decisions that optimized and saved costs, thereby increasing profitability and preserving Company capital.

2.2. Evaluation of Key Operational Aspects in 2024

- Sales & Marketing:

- + Continued innovation in sales approaches, enhanced product promotion and trade marketing activities.

- + Focused on selecting and developing suitable products; invested in researching and developing e-commerce sales strategies. Export sales saw strong growth in 2024.

- + Recovered certain overdue receivables, improving cash flow. Continued strict monitoring of receivables, especially doubtful debts.

- + Actively addressed slow-moving inventory to recover and preserve capital.

- Production Management:

- + Proactively reorganized production and manpower in inefficient areas to increase productivity and product quality.

- + Maintained safe production practices, ensuring occupational safety and fire prevention.

- + Sought alternative, more cost-effective material sources and maximized the use of existing inventories in production.

- Financial Management:

- + Proactively managed cash flow to support operations and reduce capital costs.

- + Prioritized cost control and cash flow management as key objectives to optimize expenditures.

- Investment Activities:

- + Equity Investment Status as of December 31, 2024:

4	Toyota Boshoku Hanoi Co., Ltd.	2500152396	16.336.701.068

+ In 2024, the Company completed the construction of a 5,000m² factory, which was put into operation to serve production and business activities.

- Human Resources and Compensation:

+ Reviewed, revised, and issued new labor norms for direct labor in alignment with actual conditions.

+ Fully implemented employee benefits and entitlements.

+ Continued to innovate in staff evaluation, recruitment, and appointments to enhance workforce quality.

- Corporate Governance:

+ Continued efforts in digital transformation and adapting the Bravo software system to current company needs.

+ Continued applying international management systems and standards in operations, such as ISO, BSCI, QSA, CTPAT, IWAY, GO/NOGO, FSC, IWAY FORESTRY, etc.

+ Expanded and developed new product lines.

II. PLANS AND ORIENTATIONS FOR 2025

1. Challenges:

- The global political and economic situation remains unpredictable. Many major economies continue to implement tight monetary policies, adversely affecting global trade, consumption, and investment.

- Domestic furniture enterprises still face numerous difficulties in production and business activities. Demand in key export markets such as the United States and the European Union has declined significantly. Moreover, increasingly stringent regulations and U.S. tax policies have negatively impacted orders. As a result, competition in furniture exports is growing more intense across global markets.

- Exchange rate fluctuations have led to increased financial costs.
- Issues remain regarding slow-moving inventories and uncollectible receivables from previous years.

2. Advantages:

The Company has a long-standing brand and reputation. Customers continue to place strong trust in the quality of XHC's products, under the slogan: "Enduring Commitment, Lasting Value."

The Board of Directors, Executive Management, and all employees of Xuan Hoa Vietnam Joint Stock Company remain united and committed to sustainable development, reinforcing XHC's position and brand both domestically and internationally.

3. 2025 Business Targets:

No.	Indicator	Unit	2025 Plan
1	Net Revenue	VND Billion	850
2	Profit Before Tax	VND Billion	70
3	Dividend	%	10

4. Solutions to Achieve the 2025 Plan:

In 2025, amidst risks stemming from global trade fluctuations and protectionist policies from major partners, the Vietnamese furniture industry - including Xuan Hoa Vietnam JSC - will continue to face substantial challenges. These include: Fierce competition from low-cost imported products, particularly from China; Cost pressures related to raw materials and logistics; Increasingly strict environmental compliance requirements from export markets; Changes in tax policies in the United States, etc.

To overcome these difficulties, the Executive Management of Xuan Hoa Vietnam JSC will implement the following comprehensive solutions:

- Continue improving product quality, upgrading technology, and building a strong brand to compete effectively in both domestic and international markets.
- Intensify efforts in project acceptance, payment processing, and debt collection - especially on long-overdue receivables - to improve cash flow.
- Rigorously address stagnant and slow-moving inventory to recover capital and preserve assets.
- Review and revise internal policies and regulations to align with current legal requirements.
- Continue optimizing and redesigning traditional product lines to reduce material consumption and improve efficiency.

- Develop and design new products, including pursuing international cooperation for product development

- Seek out new suppliers to secure better pricing; enhance material and inventory cost control to reduce production costs and improve competitiveness

- Review and restructure the production organization, including both indirect departments and workshops, to better fit the Company's management model and improve operational efficiency

- Take proactive measures to strengthen sales and marketing. Establish a professional marketing and sales system

- Actively work with banks to negotiate financial products with the most favorable costs, ensuring sufficient cash flow for operations

III. CONCLUSION

The above is the report on the business performance of 2024 and the operational plan for 2025 presented by Xuan Hoa Vietnam Joint Stock Company to the General Meeting of Shareholders.

In 2025, the business environment will remain complex, with both opportunities and challenges intertwined. The entire workforce of Xuan Hoa Vietnam JSC is determined to remain united, make every effort, overcome existing limitations, and strive to achieve the business goals set for 2025 ./.

1. Assessment of the Company's Operations in 2024

The year 2024 was marked by global instability, with ongoing major geopolitical conflicts - particularly the Russia - Ukraine war and escalating tensions in the Middle East - continuing to impact the world economy. While overall global growth remained stable, these conflicts significantly hindered meaningful economic recovery.

For Xuan Hoa Vietnam Joint Stock Company, 2024 was a year of both significant challenges and potential opportunities. The circumstances demanded bold, adaptive, and innovative leadership to navigate uncertainties and ensure the Company's resilience.

Despite the difficult environment, the Board of Directors and the entire workforce made considerable efforts to fulfill the mandates of the General Meeting of Shareholders and achieved the following results:

- To fulfill the 2024 Annual General Meeting Resolutions, the BOD directed measures to reduce production costs, such as organizational restructuring, technological innovation, investment in machinery, and workforce realignment to boost productivity.

- Assessment of the Executive Board and management staff:

+ Although none of the three targets (Net Revenue, Profit Before Tax, Dividend) were met, the Executive Board and management made significant efforts, achieving a 38% increase in profit before tax compared to 2023.

+ The Executive Board closely followed and executed the tasks assigned by the Annual General Meeting and BOD, maintained workforce stability, and fulfilled obligations to the State.

- Related Party Transactions in 2024:

The BOD managed shareholders in accordance with the Company Charter and applicable laws.

II. ORIENTATION OF THE BOARD OF DIRECTORS FOR 2025

The year 2025 is expected to continue to pose challenges to the global economy in general and Xuan Hoa Vietnam JSC in particular, due to ongoing global economic recession and increasing competitive pressures.

In 2025, Xuan Hoa Vietnam JSC will continue to engage in purchase/sale transactions with related parties such as DeMy Furniture JSC, Xuan Hoa Elevator JSC, Xuan Hoa Power JSC, and Toyota Boshoku Hanoi Co., Ltd.

The BOD has set the following 2025 targets:

ELECTION REGULATIONS

For Members of the Supervisory Board Term 2025 - 2030

Xuan Hoa Vietnam Joint Stock Company

To ensure the rights of shareholders and to avoid confusion during the election of Supervisory Board members for the 2025-030 term, the Chairman of the General Meeting proposes that the General Meeting of Shareholders approve the following Election Regulations:

I. PRINCIPLES OF SUPERVISORY BOARD MEMBER ELECTION

- Number of Supervisory Board members to be elected: 03 members.
- Each shareholder shall have a total number of votes equal to the number of shares they own multiplied by the number of Supervisory Board members to be elected.
- Shareholders may allocate all of their votes to one or more candidates.
- The total number of votes allocated must not exceed the shareholder's total number of votes.
- If a shareholder does not wish to vote for a particular candidate, they may either leave the vote box blank or mark an "X" in the space provided for that candidate's vote count.
- Shareholders may assign different numbers of votes to different candidates based on their level of trust in each candidate.

II. ELECTION PROCEDURE

1. Ballot Paper

- The ballot for the election of Supervisory Board members shall be yellow.

The ballot must clearly state the following information: Full name of the shareholder; ID card/Citizen ID/Passport number; Number of shares held or represented; Total number of votes; List of candidates for election to the Supervisory Board; And bear the official seal of Xuan Hoa Vietnam Joint Stock Company affixed in the upper left corner.

2. Voting Method

- Shareholders shall indicate the specific number of votes they assign to each candidate in the space provided.

- The total number of votes allocated must not exceed the shareholder's total number of votes. If the total exceeds the allowed number, the ballot shall be deemed invalid.

- If a shareholder does not wish to vote for a particular candidate, they must cross out (X) the vote field for that candidate. The candidate's name must not be crossed out.

- Voting shall begin upon the order of the Chairman of the General Meeting or the Head of the Vote Counting Committee, and shall conclude once the last shareholder casts their vote into the ballot box.

- After the voting period ends, the shares of any shareholder who did not cast their ballot shall not be counted in the total number of shares with voting rights for the corresponding election item.

- If a shareholder requests a replacement ballot due to damage, errors, or incorrect entries - and has not yet submitted their vote, and the voting time has not yet expired – they may request a new ballot from the Secretary of the General Meeting. The used or damaged ballot must be returned and will be collected and submitted to the Chairman by the Secretary.

- The total number of votes allocated exceeds the shareholder's entitled number of votes;
- It is a blank ballot (no votes assigned to any candidate);
- It has candidate names crossed out;

6. Election Results
