- However, the Company's consolidated revenue has continuously declined over the past three years, which is very alarming: a 10% decrease in 2023 compared to 2022, a 13% decrease in 2024 compared to 2023, and a 21% decrease in 2024 compared to 2022.
The actual consolidated revenue achievement rates for the three years were: 87% of the target in 2022, 80% in 2023, and 79% in 2024 compared to the plans approved by the General Meeting of Shareholders.

Consolidated revenue	875.00	687.06	(187.94)	-21.5%	79%	980.00	785.79	(194.21)	-19.8%	80%	1,000.00	871.48	(128.52)	-12.9%	87%

The continuous decline in revenue and profit, if not addressed promptly, will cause significant difficulties for the Company in generating operating cash flows and may result in the loss of strategic partners in business and production activities.

The Board of Directors and the Executive Board need to implement urgent measures to immediately improve this situation.

❖ **Assessment of coordination:**

- The coordination between the Supervisory Board and the Board of Directors and the Executive Board was assessed as effective and ensured independence.
