The General Director ensures the compliance with the requirements of the Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime issued under the Circular No. 200/2014/TT-BTC dated December 22, 2014 as well as the circulars guiding the implementation of accounting standards by the Ministry of Finance in the preparation and presentation of the Financial Statements of this period.

#### IV. APPLIED ACCOUNTING POLICIES

**1. Basis of preparation of Financial Statements**

The financial statements are prepared on the accrual basis (except for the cash flow statement).

**2. Foreign currency transactions**

Transactions in foreign currencies are converted at the actual exchange rates ruling as of the transaction dates. The ending balances of monetary items in foreign currencies are converted at the actual exchange rates ruling as of the balance sheet date.

Foreign exchange differences arisen from foreign currency transactions during the period shall be recorded into financial income or financial expenses. Foreign exchange differences due to the revaluation of ending balances of the monetary items in foreign currencies after offsetting their positive differences against negative differences shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For the foreign currency trading contract (including spot contract, forward contract, future contract, option contract, currency swap): the exchange rate stipulated in the contracts of trading foreign currency between the Company and the bank.
- For receivables: the buying rate of foreign currency ruling as at the time of transaction of the commercial bank where the Company designates the customers to make payments.
- For payables: the selling rate of foreign currency ruling as at the time of transaction of the commercial bank where the Company supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Company makes payments.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are determined according to the following principles:

- For foreign currency deposits: the buying rate of the bank where the Company opens its foreign currency account.

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

- For monetary items in foreign currencies classified as other assets: the buying rate of Vietnam Joint Stock Commercial Bank for Industry and Trade Thanh An Branch (the bank where the Company frequently makes transactions).
- For monetary items in foreign currencies classified as liabilities: the selling rate of Vietnam Joint Stock Commercial Bank for Industry and Trade Thanh An Branch (the bank where the Company frequently makes transactions).

### 3. Cash and cash equivalents

Cash comprises cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates cannot exceed 03 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion at the reporting date.

### 4. Financial investments

#### *Trading securities*

Investments classified as trading securities are those held for the trading purpose with the aim of making profit.

Trading securities are recognized at original costs which include fair value of the payments made at the time of the transaction plus other costs attributable to transaction costs.

The time of recognizing trading securities is when the Company acquires the ownership, as follows:

- For listed securities: recognized at the time of order-matching (T+0).
- For unlisted securities: recognized at the time of acquiring official ownership as stipulated by laws.

Interest, dividends and profit of the periods prior to the acquisition of trading securities are recorded as a decrease in the value of such securities. Interest, dividends and profit of the periods after the purchase of trading securities are recorded in the Company's revenues. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

Provisions for devaluation of trading securities are made for each particular type of securities in the market of which the fair value is lower than original costs. The fair value of trading securities is determined as follows:

- For shares of listed companies: the closing price listed on the stock market at the date of exchange. In case where the stock market is not available for making transaction at the date of exchange, the fair value of shares is the closing price of the preceding transaction section with the date of exchange.
- For shares registered for trading on the trading market of unlisted public companies (UPCOM): the average reference price in the last 30 consecutive trading days before the end of the accounting period announced by the Stock Exchange.
- For shares listed on the stock market, or shares of a joint stock company registered for trading on the Upcom market which have not been traded within 30 days before the date of provisioning, or listed shares which have been delisted, suspended from trading, or stopped from trading: the provisions are made based on the loss of the invested company, equal to the difference between the actual investment capital of the owners and the equity at the end of the fiscal year multiplied by the ratio of the Company's charter capital ownership to the total contributed charter capital.

Increases or decreases in the provisions for devaluation of trading securities are recorded into financial expenses as at the balance sheet date.

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

Gain or loss from transfer of trading securities is recorded into financial income or financial expenses. The costs are determined in accordance with the mobile weighted average method.

#### *Held-to-maturity investments*

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity. Held-to-maturity investments include term deposits in banks and loans for the purpose of earning periodic interest.

Held-to-maturity investments are initially recorded at cost which includes the acquisition price and expenses related to the acquisition transaction of investments. After initial recognition, these investments are measured at their recoverable amount. Interest income from held-to-maturity investments after the acquisition date is recognized in the Income Statement on an accrual basis. Interest earned before the Company holds is recorded as a deduction from the original price at the time of acquisition.

When firm evidence shows that a portion or the whole investments may be unrecoverable and the amount of loss can be measured reliably, the loss will be recorded in financial expenses in the year and recorded in decrease of the investment's value.

#### *Loans*

Loans are determined at original costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

#### *Investments in associates*

An associate is an entity which the Company has significant influence but not the control to govern the financial and operating policies. Significant influence is the right to participate in making the associate's financial and operating policies but not control those policies.

#### *Initial recognition*

Investments in subsidiaries, and associates are initially recognized at original costs, including the cost of purchase or capital contributions plus other directly attributable transaction cost. In case of investment in non-monetary assets, the costs of the investment are recognized at the fair value of non-monetary assets at the arising time.

Dividends and profits of the periods prior to the purchase of investments are recorded as a decrease in value of such investments. Dividends and profit of the periods after the purchase of investments are recorded into the Company's revenues. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

#### *Provisions for impairment of investments in associates*

Provisions for impairment of investments in associates are made when these entities suffers from losses at the rate equal to the difference between the actual capital invested by investors in associates and the actual owner's equity multiplying by the Company's rate of capital contribution over the total actual capital invested by investors in associates.

Increases or decreases in the provision for impairment of investments in associates is recorded into financial expenses as of the balance sheet date.

#### *Investments in equity instruments of other entities*

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Company to have the control, joint control or significant influence on these entities.

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contributions plus other directly attributable transaction cost. Dividends and profits of the periods prior to the purchase of investments are recorded as a decrease in value of such investments. Dividends and profit of the periods after the purchase of investments are recorded into the Company's revenues. Particularly, the dividends paid in form of shares are not recorded as an increase in values, but the increasing quantity is followed up.

Provisions for impairment of investments in equity instruments of other entities are made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provisions are made on the basis of the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provisions are made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by investors and the actual owner's equity multiplying (x) by the Corporation's rate of capital contribution over the total actual capital invested by investors in these investees.

Increases or decreases in the provisions for impairment of investments in equity instruments of other entities as of the balance sheet date are recorded into financial expenses.

#### 5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt:

- For overdue debts:

- Based on the age of overdue debts to calculate the provision, specifically as follows:
  - + 30% of the value for debt overdue from more than 6 months to less than 1 year.
  - + 50% of the value for debt overdue from 1 year to less than 2 years.
  - + 70% of the value for debt overdue from 2 years to less than 3 years.
  - + 100% of the value for debt overdue from 3 years or more.
- Or based on the estimated loss of each debt to calculate the provision.

- For debts that are not overdue but are unlikely to be recovered: based on the estimated loss to make the allowances.

Increases or decreases in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into General and administration expenses.

#### 6. Inventories

Inventories are recognized at the lower of cost and net realizable value.

Costs of inventories are determined as follows:

## SONG DA INDUSTRY TRADE JOINT STOCK COMPANY

Address: Yen Nghia Ward, Hanoi City

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

- Raw materials, merchandises: comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work in progress: comprises costs of production and business collected according to each completed stage. The cost of unfinished products is calculated based on the cost of direct main materials, including only the cost of direct main materials.
- Finished products: comprise costs of raw materials, direct labor, and manufacturing overhead allocated based on the normal operating level.

Costs of inventories are determined in accordance with the weighted average method and recorded in line with the perpetual method.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases, decreases in the obligatory allowance for inventories as of the balance sheet date are recorded into Costs of goods sold.

#### 7. Prepaid expenses

Prepaid expenses comprise actual expenses arising but relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include the following expenses:

##### *Instrument and tools*

Instruments and tools that have been put into use are allocated to expenses using the straight-line method with an allocation period of no more than 3 years.

##### *Fixed asset repair costs*

Fixed asset repair costs that arise once and have a high value are allocated to expenses using the straight-line method with an allocation period of no more than 3 years..

##### *Office rental costs*

Office rental costs at the service floor of the T2 Building - Thang Long Victorya Project are allocated according to the actual rental period in accordance with the time the State grants the right to lease the project's land.

#### 8. Fixed assets

##### 8a. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years for various types of tangible fixed assets are as follows:

## FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

### Notes to the Financial Statements (cont.)

---

| <u>Types of fixed assets</u> | <u>Years</u> |
|------------------------------|--------------|
| Buildings and structures     | 10 – 30      |
| Machinery and equipment      | 3 – 6        |
| Vehicles                     | 5            |
| Office equipment             | 2 - 5        |

#### 9. Construction-in-progress

Construction in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Company) directly related to assets under construction and machinery and equipment under installation to serve for production, leasing, and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

#### 10. Payables and accrued expenses

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services already received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Company, including payables when importing through a trustee.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Balance Sheet on the basis of their remaining term as of the balance sheet date.

#### 11. Owner's equity

##### *Capital*

Capital is recorded according to the actual amounts invested by shareholders.

##### *Share premiums*

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

##### *Treasury shares*

When a share capital in the owner's equity is re-purchased, the amount payable including the expenses related to the transaction is recorded as treasury shares and is recorded as a decrease in owner's equity. When this share capital is re-issued, the difference between the re-issuance price and book values of treasury shares is recorded in "Share premiums".

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

#### 12. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

#### 13. Recognition of revenues and incomes

##### *Revenue from sale of goods, finished products*

Revenue from the sale of goods, finished products is recognized when all the following conditions are simultaneously satisfied:

- The Company's significant risks and rewards of ownership of products or goods are transferred to the buyer;
- The Company does not retain control over the goods or managerial involvement with them to the degree usually associated with ownership;
- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the goods or products provided under specific conditions, revenue is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the goods or products provided (except in cases where the customer has the right to return the goods or products in exchange for other goods or services).
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The costs in respect of the transaction can be measured reliably.

##### *Revenue from leasing operating assets*

Revenue from leasing operating assets is recognized in accordance with the straight-line method during the lease term. Rentals received in advance for several periods are allocated to revenues in consistence with the lease term.

##### *Interest*

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

##### *Dividends and profit shared*

Dividends and profit shared are recognized when the Company has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity of shares is followed up.

#### 14. Revenue deductions

Revenue deductions include sales discounts, sales allowances and sales returns arising in the same period in which the products or goods are sold and adjusted to reduce the revenue of the period.

In case the products or goods were sold in previous years but the related sales discounts, sales allowances or sales returns incur this year, revenue deductions will be recorded according to the following principles:

- If the revenue deduction occurs before the issuance of the Financial Statements: the revenue deduction is recorded in the Financial Statements of this period.

### FINANCIAL STATEMENTS FOR THE SECOND QUARTER

of the fiscal year ended December 31, 2025

#### Notes to the Financial Statements (cont.)

---

- If the revenue deduction occurs after the issuance of the Financial Statements: the revenue deduction is recorded in the Financial Statements of the following period.

#### 15. Borrowing costs

Borrowing costs include loan interest and other costs incurred directly relevant to borrowings. Borrowing costs are recorded as an expense when it is incurred.

#### 16. Expenses

Expenses are those that result in outflows of the Company's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

#### 17. Corporate income tax

Corporate income tax is the current income tax. It is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

#### 18. Related parties

A party is considered a related party in case that party is able to control the other party or to cause material effects on the financial decisions as well as the operations of the other party. A party is also considered a related party in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

#### 19. Segment reporting

A business segment is a distinguishable component that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

Segment information is prepared and presented in compliance with the accounting policy applied to the preparation and presentation of the Company's Financial Statements.

During the period, the Company's activities were mainly in the field of cement packaging production (revenue and direct assets accounted for over 90%) and in a geographical area which is the territory of Vietnam (for foreign areas, the main activities arising from the sale of goods and finished products are presented in note VI.1 - Revenue from sale of goods and rendering of services), so the Company did not present a report by segment.

- (i). As of the date of preparing the Financial Statements, the Company had not estimated the profit that can be used for appropriation of the bonus and welfare fund due to lack of information.

Basic/Diluted EPS of the previous year was recalculated due to the deduction of the appropriation for the bonus and welfare fund in accordance with the Resolution of 2024 Annual General Meeting of Shareholders. This recalculation made basic/diluted EPS of the previous year decrease from VND 59.93 to VND 11.69.
