compared to the same period*

To: The Hanoi Stock Exchange

**CPC EXPLANATION OF REASONS FOR PRE-TAX PROFIT
DIFFERING BY OVER 10% COMPARED TO THE SAME
PERIOD**

CPC's after-tax profit in the second quarter of 2025 reached more than VND 4.23 billion, a decrease of 12.48% compared to the same period in 2024.

CPC would like to present the basic reasons for the difference of more than 10% over the same period as follows:

- CPC's sales and service revenue in the second quarter of 2025 decreased by 10.25% compared to the same period last year, so its after-tax profit compared to the same period decreased by 12.48% as above.

In the context of the general difficulties of the economy, our company will strive to save costs and utilize all resources to strive to improve the competitiveness of the enterprise.
