#### II. ACCOUNTING PERIOD, CURRENCY USED IN ACCOUNTING

1. Annual accounting period (starting from January 01 and ending on December 31).
2. The currency used in accounting is Vietnam Dong (VND).

#### III. ACCOUNTING STANDARDS AND REGIMES APPLIED

##### 1.1. Accounting regimes applied:

The Company applies the Vietnamese Accounting Regime issued in accordance with Circular No. 200/2014/TT-BTC dated December 22, 2014, the amended and supplemented circulars and the Enterprise Accounting Regime, Vietnamese Accounting Standards issued by the Ministry of Finance.

##### 1.2. Declaration on compliance with Accounting Standards and Accounting Regime:

The Company applies the Vietnamese Accounting Standards and guideline documents issued by the State. The Financial Statements are prepared and presented in accordance with all regulations of each standard and circular which guides the implementation of current Accounting Standards and Regimes.

#### IV. ACCOUNTING POLICIES APPLIED

##### 1. *Change in accounting policies*

On December 22, 2014, the Ministry of Finance issued Circular No. 200/2014/TT-BTC guiding the Enterprise Accounting Regime to replace Decision No. 15/2006/QĐ-BTC dated March 20, 2006 and take effect for the fiscal year starting from or after January 01, 2015.

##### 2. *Principles for determining cash equivalents*

Cash and cash equivalents are short-term investments with maturity not exceeding 3 months which are readily convertible into cash and are subject to an insignificant risk of change in value since the acquisition date at the reporting date.

##### 3. *Principles for recognizing inventories*

Inventories are calculated according to the original costs. If the net realizable value is lower than the original cost, inventories are calculated by net realizable value. The original costs of inventories include the cost of purchasing and the related costs incurred directly to get the inventory at the current location and status.

Inventory value at the end of period is determined on the weighted average basis

Inventories are accounted for on a regular basis.

Provision for inventory devaluation made at the end of the period is the difference between the original cost of inventories and the net realizable value.

##### 4. *Principles for recognizing trading receivables and other receivables*

Accounts receivable from customers, prepaid payments to suppliers, internal receivables and other receivables at the time of reporting in case of:

- Having a recovery or payment term of less than 1 year shall be classified as a short-term asset.

- Having a recovery or payment term of more than 1 year shall be classified as a long-term asset.

Provision for doubtful receivables: Provision for doubtful receivables shows the expected value of the receivables that may not be paid by the customers for the receivables at the time of preparing the Financial Statements.

##### 5. *Principles for recognizing and depreciating fixed assets*

Tangible fixed assets, intangible fixed assets are recognized at the original cost. In the course of use, tangible fixed assets and intangible fixed assets are recognized at the original cost, accumulated depreciation and retaining value.

Depreciation is based on straight-line method. The depreciation period is estimated as follows:

Houses, buildings	06 - 30 years
Machinery, equipment	06 - 15 years
Means of transportation	06 - 10 years
Office facilities	03 - 10 years
Intangible assets and other assets	04 - 11 years

##### 6. *Principles for recognizing financial investments*

Short-term investment securities are bought and sold on the stock market and can recover capital in no more than one year.

Short-term investment securities are recognized at the actual purchase price of securities (original cost including the purchase price and transaction brokerage fees.

At the end of the year, if the market price of short-term investment securities is reduced below the original cost the provision for impairment of short-term investment securities shall be made.

Financial investments at the time of reporting in case of:

- Having a recovery or maturity term of no more than 3 months from the date of purchase of such investment shall be considered "cash equivalents"

- Having a recovery term of less than 1 year shall be classified as a short-term asset

- Having a recovery term of more than 1 year shall be classified as a long-term asset

#### **7. Principles for recognizing and capitalizing borrowing costs**

Borrowing costs are recognized in the production and business expenses in the period when incurred, deducting the borrowing costs directly related to construction investment or production of unfinished assets which are included in the value of such assets (capitalized) when all the conditions specified in No. 16 "Borrowing costs", Vietnam Accounting Standards are met.

#### **8. Principles for recognizing and allocating prepaid expenses**

Prepaid expenses related only to production and business expenses of the current fiscal year are recognized as short-term prepaid expenses.

Tools and equipment used of great value; the cost of overhauling fixed assets incurred at one time of too large shall be accounted into long-term prepaid expenses for gradual allocation to business results over many years.

The calculation and allocation of long-term prepaid expenses into production and business expenses for each accounting period are based on the nature and extent of each type of expense to select reasonable allocation methods and forms. Prepaid expenses are gradually allocated to production and business expenses using the straight-line method.

#### **9. Principles for recognizing payable expenses**

The actual expenses have not been incurred but are deducted in advance from production and business expenses in the period to ensure that the actual expenses incurred do not cause a surge to production and business expenses on the basis of ensuring the principle of appropriateness between revenue and expenses. When expenses incur, if there is a difference with the amount appropriated, the accountant shall make additional entries or write down expenses corresponding to the difference.

#### **10. Principles for recognizing trading payables and other payables**

Payables to suppliers, internal payables, other payables, loans at the time of reporting in case of:

- Having payment term of less than 1 year shall be classified as short-term debt.
- Having payment term of more than 1 year shall be classified as long-term debt.

Deferred income tax is classified as long-term debt.

#### **11. Principles for recognizing equity**

Owner's equity is recognized according to the actual contributed capital and the contributed capital from the issuance of shares is recognized at par value.

Capital surplus is recognized as an increase difference due to the issuance of shares higher than par.

Dividends payable to shareholders are recognized as payables in the Company's Balance Sheet after the dividend announcement of the Board of Directors of the Company.

Fund shares are issued by the Company and subsequently redeemed. Fund shares are recognized at the actual value and presented on the Balance Sheet as a decrease in equity. The exchange rate difference reflected on the Balance Sheet arises from the end-of-period revaluation of foreign currency items of basic construction investment activities.

Undistributed after-tax profit on the Balance Sheet is profit from the operation of the business after deducting (-) adjustments due to retroactive application of changes in accounting policies and retroactive adjustment of material errors of the previous years.

#### **12. Principles and methods for recognizing turnover**

##### **Sales Revenue**

Sales revenue is recognized when at the same time, the following conditions are met:

The majority of the risks and benefits associated with ownership of product or goods have been transferred to the customers;

The Company no longer holds the right to manage the goods as the owner of the goods or the control of the goods;

Revenue is determined with relative certainty.

The Company has obtained or will obtain an economic benefit from the sales transaction;

Identify the expenses related to sales transactions.

##### **Revenue from service provision**

The revenue from service provision is recognized when the outcome of that transaction is determined reliably. If the service provision is related to several periods, the revenue is recognized in the period in accordance with the results of the work completed on the date of the Balance Sheet of that period.

The outcome of a service provision transaction is determined when the following conditions are met:

- Revenue is determined with relative certainty.

- Possibly obtain economic benefits from the service provision transaction;

- Determine the work completed on the date of the Balance Sheet;
  - Determine the costs incurred for the transaction and the costs to complete that service provision transaction.
- The portion of service work completed is determined by the method of assessing completed work.

#### *Revenue from financial activities*

The revenue arising from interest, royalties, dividends, distributed profits and other financial activities revenues is recognized when at the same time, the following two (2) conditions are met:

- Possibly obtain economic benefits from the service provision transaction;
  - Revenue is determined with relative certainty.
- Dividends and distributed profits are recognized when the Company has the right to receive dividends or profits from the capital contribution.

#### **13. Principles and methods for recognizing financial expenses**

Expenses recognized in financial expenses include:

- Expenses or losses related to financial investment activities;
  - Loans and borrowing costs.
  - Losses due to changes in exchange rates of transactions arising related to foreign currencies.
  - Provision for impairment of securities
- The above amounts are recognized according to the total arising in the year, not offset with financial activity revenue.

#### **14. Principles and methods for recognizing current income tax, deferred income tax**

Current corporate income tax is determined on the basis of taxable income and the corporate income tax rate in the current year.

Quarterly, record the current corporate income tax amount temporarily paid into the current income tax. At the end of the fiscal year, the difference will be recorded to increase or decrease the amount of corporate income tax payable based on the declaration of corporate income tax finalization.

Deferred income tax is determined on the basis of deductible temporary differences, taxable temporary differences and CIT rates.
