Mr. Nguyen Van Cuong	Head of Production Division (from 19/05/2025)
Mr. Dao Anh Thang	Head of Business Division (from 19/05/2025)

RESPONSIBILITIES OF THE THE BOARD OF GENERAL DIRECTORS

The Board of General Directors is responsible for preparing the consolidated financial statements that give a true and fair view of the financial position of the Company, its financial performance and statement of cash flows of the Company during the period. In preparing these consolidated financial statements, the Board of General Directors is required to:

- Select suitable accounting policies and apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures that should be disclosed and explained in the consolidated financial statements;
- Prepare the consolidated financial statements base on a going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the consolidated financial statement so as to minimize errors and fraud.

The Board of General Directors is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the consolidated financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of General Directors is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

TIEN PHONG PLASTIC JOINT STOCK COMPANY

No. 02 An Da Street, Gia Viên Ward, Hai Phong City, Viet Nam

The Board of General Directors confirms that the Company has complied with the above requirements in preparing these consolidated financial statements.

On behalf of the Board of General Directors,

Chu Van Phuong
General Director

Hai Phong, 18 July 2025

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

1. REPORTING ENTITY

(a) Ownership Structure

Tien Phong Plastic Joint Stock Company ("the Company") was formerly a State-owned enterprise which was equitised pursuant to Decree No. 64/2002/ND-CP dated 19 June 2002 issued by the Government on promulgating the restructuring of State-owned enterprises to joint stock companies. The equitisation of the Company was implemented in accordance with Decision No. 80/2004/QĐ-BCN dated 17 August 2004 issued by the Minister of Industry and Trade.

After equitisation, the Company is a joint stock company incorporated under the Law on Enterprise of Vietnam in pursuant to the Enterprise Registration Certificate No. 0200167782 issued by the Hai Phong Department of Planning and Investment on 30 December 2004. The Company's Enterprise Registration Certificate has been amended several times, the most recent of which is dated 1 August 2024.

The consolidated financial statements of the Company for the First Quarter 2025 comprise the Company and its subsidiaries and the interest of the Company in associates.

(b) Principal Activities

The licensed activities of the Company and its subsidiaries are as follows:

- Manufacturing and trading plastic products for civil consumption, usage in construction, industry, agriculture, fisheries and transportation;
- Construction of apartment buildings, infrastructures, high quality housing, offices for lease, trade centres and market buildings;
- Construction of other civil engineering works;
- Providing warehouse and storage services, road transportation and other supporting services for transportation; and
- Trading of real estate and land use rights; and
- Education and training at all levels, vocational training, foreign language teaching, life skills, giftedness and other tutoring services.

During the period, the principal activities of the Company and its subsidiaries are to manufacture and trade plastic products for civil consumption and usage in construction, industrials, agriculture, fisheries and transportation.

(c) Normal operating cycle

The normal operating cycle of the Company and its subsidiaries is generally within 12 months.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(d) Company structure

As at 30 June 2025 and 1 January 2025, the Company had 2 subsidiaries, 3 associates.

As at 30 June 2025, the Company and its subsidiaries had 1,371 employees (1/1/2025: 1,360 employees).

2. BASIS OF PREPARATION

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to these financial reporting.

(b) Basis of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Company and its subsidiaries is from 1 January to 31 December.

(d) Accounting and presentation currency

The Company's and its subsidiaries' accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statement presentation purpose.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been adopted by the Company and its subsidiaries in the preparation of these consolidated financial statements.

The accounting policies that have been adopted by the Company and its subsidiaries in the preparation of these consolidated financial statements are consistent with those adopted in the preparation of the latest annual consolidated financial statements.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(ii) Associates

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated interim financial statements include the Company's share of the profit or loss of the associates, after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases. The carrying amount of investments in associates is also adjusted for the alterations in the Company's proportionate interest in the associates arising from changes in the associates' equity that have not been included in the income statement (such as revaluation of fixed assets, or foreign exchange translation differences, etc.).

When the Company's share of losses exceeds its interest in an associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the associate.

(iii) Transactions eliminated on consolidation

Intra-group transactions, balances and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements. Unrealised gains and losses arising from transactions with associates are eliminated against the investment to the extent of the Company's interest in the associates.

(iv) Business combination

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

(b) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rates and account transfer selling rates, respectively, at the end of the accounting period quoted by the commercial bank where the Company or its subsidiaries most frequently conduct transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(c) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(d) Investments

(i) Held-to-maturity investments

Held-to-maturity investments are those that the Company's or its subsidiaries' Board of General Directors has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank and long-term bonds. These investments are stated at costs less allowance for doubtful debts.

(ii) Equity investments in other entities

Equity investments in other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value.

Allowance is made for diminution in investment values if the investee has suffered a loss which may cause the Company or its subsidiaries to lose their invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(e) Accounts receivables

Trade and other receivables are stated at cost less allowance for doubtful debts.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items less the estimated costs of completion and estimated costs to sell.

The Company and its subsidiaries apply the perpetual method of accounting for inventories.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(g) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the period in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(iii) Depreciations

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

-	buildings and structures	5 – 25 years
-	machineries and equipment	3 – 20 years
-	motor vehicles	3 – 12 years
-	office equipment	3 – 8 years

(h) Intangible fixed assets

(i) Land use rights

Land use rights are stated at cost less accumulated amortisation. The initial cost of a land use rights comprises any directly attributable costs incurred in conjunction with securing the land use rights. Land use rights with indefinite term are not amortised.

(ii) Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 38 months.

(iii) Technology license

Technology license comprises the expenses incurred up to the date of putting technology license into use. Technology license is amortised on a straight-line basis over 2 years.

(i) Construction in progress

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(j) Long-term prepaid expenses

(i) Prepaid land costs

Prepaid land costs comprise prepaid land lease rentals, including those for which the Company and its subsidiaries obtained land use rights certificate but are not qualified as intangible fixed assets under the prevailing laws and regulations, and other costs incurred in conjunction with securing the use of leased land. These costs are recognised in the consolidated statement of income on a straight-line basis over the term of the lease from 27 to 44 years.

(ii) Tools and instruments

Tools and instruments include assets held for use by the Company and its subsidiaries in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulations. Cost of tools and instruments are amortised on a straight-line basis over a period ranging from 2 to 3 years.

(iii) Other long-term prepaid expenses

Other long-term prepaid expenses comprise expenses for periodic renovation, repair, billboards rental which are recognised at cost and amortised on a straight-line basis over a period ranging from 2 to 5 years.

(k) Trade and other payables

Trade and other payables are stated at their cost.

(l) Provision

A provision is recognised if, as a result of a past event, the Company and its subsidiaries have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(m) Share capital

Ordinary shares

Ordinary shares are stated at issue price less any costs directly attributable to the issue of shares, net of tax effects. These costs are recognised as a deduction from share premium.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(n) Taxation

Income tax on the consolidated profit for the period comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) Revenue and other income

(i) Goods sold

Revenue from the sale of goods is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts.

(ii) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(iii) Dividend income

Dividend income is recognised when the right to receive dividend is established.

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(p) **Leases**

(i) ***Leased assets***

Leases in terms of which the Company and its subsidiaries, as lessees, assume substantially all the risks and rewards of ownership are classified as finance leases. Assets held under other leases are classified as operating leases and are not recognised in the Company's consolidated balance sheet. All of the Company's and its subsidiaries' leases are operating leases.

(ii) ***Lease payments***

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense, over the term of the lease.

(q) **Borrowing costs**

Borrowing costs are recognised as an expense in the period in which they are incurred.

(r) **Earnings per share**

The Company presents basic earnings per share for its ordinary shares. Basic earnings per share is calculated by dividing the profit attributable to the ordinary shareholders of the Company (after deducting any amounts appropriated to bonus and welfare fund and compensation for the Board of Management and the Audit Committee for the annual accounting period) by the weighted average number of ordinary shares outstanding during the period.

As at reports, the Company had no potential diluted ordinary shares and therefore does not present diluted earnings per share.

(s) **Segment reporting**

A segment is a distinguishable component of the Company and its subsidiaries that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

The Board of General Directors is of the opinion that the Company and its subsidiaries operate in one single business segment, which is to manufacture and trade plastic products for civil consumption and usage in construction, industrials, agriculture, fisheries and transportation. The geographical segment of the Company and its subsidiaries is determined based on the country from which revenue is generated. The Board of General Directors is of the opinion that the Company and its subsidiaries primarily operate in one single geographical segment, which is Vietnam.

(t) **Related parties**

Parties are considered to be related to the Company and its subsidiaries if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and its subsidiaries and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

The accompanying notes from page 7 to 23 are an integral part of these consolidated financial statements

NOTES TO THE FINANCIAL STATEMENT

FORM B 09a-DN/HN

These notes form an integral part of and should be read in conjunction with the financial statements

(u) Comparative information

Comparative information in these consolidated interim financial statements is presented as corresponding figures. Under this method, comparative information for the prior period/year is included as an integral part of the current period's financial statements and is intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in these consolidated interim financial statements is not intended to present the Company's consolidated financial position, consolidated results of operation or consolidated cash flows for the prior period/year.

(v) Accounting estimates

In preparing these consolidated financial statements, the Board of General Directors has made several accounting estimates. Actual results may differ from these estimates. During period, there were not any significant changes in accounting estimates made at the end of the prior annual accounting period affecting these consolidated financial statements.
