Re: Explanation of the over 10% in profit
after tax in the QII/2025 financial statement
compared to QII/2024.

Hanoi, July 18, 2025

To: **The State Securities Commission**

The Hanoi Stock Exchange

Profit after tax in Q2/2025 is: VND 8,1 billion, a decrease of 34%, equivalent to VND 4,2 billion compared to Q2/2024, due to the following reasons:

Sales output in Q2/2025 decreased by 13% compared to the same period.

Raw zinc prices increased by over 20% compared to the same period. This is the main reason for the increased proportion of the cost of goods sold in net revenue, leading to a decrease in profit for the period.

The above are the main reasons for the decrease in profit after tax in Q2/2025 compared to the same period.

Sincerely.
