2. Basis of preparation

(a) Statement of compliance

The consolidated interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to interim financial reporting.

(b) Basis of measurement

The consolidated interim financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Corporation and its subsidiaries is from 1 January to 31 December.

(d) Accounting and presentation currency

The Corporation's and its subsidiaries' accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statement presentation purpose. All amounts have been presented in VND, unless otherwise noted.

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Corporation and its subsidiaries in the preparation of these consolidated interim financial statements.

The accounting policies that have been adopted by the Corporation and its subsidiaries in the preparation of these consolidated interim financial statements are consistent with those adopted in the preparation of the latest annual consolidated financial statements.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Corporation. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(ii) Non-controlling interests

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

June 2025 (continued)

Form B 09a – DN/HN
*((Issued under Circular No. 202/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance))*

Changes in the Corporation's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners. The difference between the change in the Corporation's share of net assets of the subsidiary and any consideration paid or received is recorded directly in retained profits under equity.

(iii) Associates

Associates are those entities in which the Corporation has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated interim financial statements include the Corporation's share of the profit or loss of the equity accounted associates, after adjustments to align the accounting policies with those of the Corporation, from the date that significant influence commences until the date that significant influence ceases. The carrying amount of investments in equity accounted investees is also adjusted for the alterations in the investor's proportionate interest in the investees arising from changes in the investee's equity that have not been included in the income statement (such as revaluation of fixed assets, or foreign exchange translation differences, etc.).

When the Corporation's share of losses exceeds its interest in an equity accounted associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Corporation has an obligation or has made payments on behalf of the associate.

(iv) Transactions eliminated on consolidation

Intra-group transactions, balances, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements. Unrealised gains and losses arising from transactions with equity accounted associates are eliminated against the investment to the extent of the Corporation's interest in the associate.

(b) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate at the end of the interim accounting period quoted by the commercial bank where the Corporation and its subsidiaries most frequently conducts transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

(c) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(d) Investments

(i) Held-to-maturity investments

Held-to-maturity investments are those that the Corporation or its subsidiaries have the intention and ability to hold until maturity. Held-to-maturity investments represent term deposits at banks. These investments are stated at costs less allowance for doubtful debts.

(ii) Equity investments in other entities

Equity investments other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Corporation to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(e) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

The Corporation and its subsidiaries apply the perpetual method of accounting for inventories.

(g) Tangible fixed assets

(i) Cost

Livestock

Livestock are stated at cost less accumulated depreciation. The initial cost of livestock comprises all actual costs and any directly attributable costs incurred in forming and raising livestock until bringing the livestock to its productive condition for its intended use (i.e., when the livestock reach the age of 16 months).

Other tangible fixed assets

Other tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after other tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of other tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of other tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

▪ buildings and structures	5 – 50 years
▪ plant and equipment	4 – 30 years
▪ motor vehicles	5 – 10 years
▪ office equipment	3 – 8 years
▪ livestock	4 – 8 years
▪ others	3 – 8 years

(h) Intangible fixed assets

(i) *Advantages of land lease rights, trademarks and material zones*

Advantages of land lease rights, trademarks and material zones are intangible fixed assets obtained by the Corporation upon acquisition of subsidiaries and are initially recognised at fair value at the acquisition date.

Advantages of land lease rights are amortised on a straight-line basis over the remaining period of the land lease contracts. Advantages of trademarks are amortised on a straight-line basis over 20 years. Advantages of material zones are amortised on a straight-line basis over 18 years.

(ii) Computer software and management software

Cost of acquiring new computer software and management software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Computer software and management software cost is amortised on a straight-line basis over 2 to 3 years.

(i) Construction in progress

Construction in progress represents the costs of tangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

(j) Long-term prepaid expenses

(i) Tools and instruments

Tools and instruments include assets held for use by the Corporation and its subsidiaries in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulations. Cost of tools and instruments are amortised on a straight-line basis over a period ranging from over 2 to 3 years.

(ii) Other long-term prepaid expenses

Other long-term prepaid expenses comprise expenses for periodic renovation, repair, billboards rental which are recognised at cost and amortised on a straight-line basis over a period ranging from 18 months to 36 months.

(k) Goodwill

Goodwill arises on the acquisition of subsidiaries. Goodwill is measured at cost less accumulated amortisation. Cost of goodwill represents the excess of the cost of the acquisition over the Corporation's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree. When the excess is negative (gain from bargain purchase), it is recognised in the consolidated statement of income.

Goodwill arising on acquisition of a subsidiary is amortised on a straight-line basis over 10 years. Carrying value of goodwill arising on acquisition of a subsidiary is written down to recoverable amount as management determines that it is not fully recoverable.

(l) Trade and other payables

Trade and other payables are stated at their cost.

(m) Provision

A provision is recognised if, as a result of a past event, the Corporation and its subsidiaries have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more (“the eligible employees”) voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee’s compensation at termination. Provision for severance allowance has been provided based on employees’ years of service and their average salary for the six-month period prior to the end of the accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Corporation and its subsidiaries are excluded.

(n) Share capital

Ordinary shares

Ordinary shares are stated at issue price less any costs directly attributable to the issue of shares, net of tax effects. These costs are recognised as a deduction from share premium.

(o) Taxation

Income tax on the consolidated profit for the period comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(p) Revenue and other income

(i) Goods sold

Revenue from the sale of goods is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts.

(ii) Services rendered

Revenue from services rendered is recognised in the consolidated statement of income in proportion to the stage of completion of the transaction. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(iii) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(iv) Dividend income

Dividend income is recognised when the right to receive dividend is established. Share dividends are not recognised as income. Dividends received which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

(q) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense, over the term of the lease.

(r) Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalized as part of the cost of the assets concerned.

(s) Earnings per share

The Corporation presents basic earnings per share (“EPS”) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders (after deducting any amounts appropriated to bonus and welfare fund for the accounting period) of the Corporation by the weighted average number of ordinary shares outstanding during the period.

As at 30 June 2025 the Corporation had no dilutive potential ordinary shares. As a result, requirement for presentation of diluted EPS is not applicable.

(t) Segment reporting

A segment is a distinguishable component of the Corporation and its subsidiaries that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Board of General Directors is of the opinion that the Corporation’s and its subsidiaries’ principal activities are raising dairy cows, production and trading of products related to dairy cows. Therefore, the Corporation and its subsidiaries do not present a report by business segments.

Geographical segment of the Corporation and its subsidiaries is determined based on the country of generating revenue. The Board of Management is of the opinion that the Corporation and its subsidiaries operate in one geographical area which is Vietnam.

(u) Related parties

Parties are considered to be related to the Corporation and its subsidiaries if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Corporation and its subsidiaries and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Related companies refer to the parent company of the Corporation and its subsidiaries and associates.

(v) Comparative information

Comparative information in these consolidated financial statements is presented as corresponding figures. Under this method, comparative information for the prior period is included as an integral part of the current period financial statements and is intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in these consolidated financial statements is not intended to present the Corporation’s and its subsidiaries’ consolidated financial position, results of operation or cash flows for the prior period.
