7. Declaration of the comparability of information in the financial statements (separate)

The figures presented in the Financial Statements (separate) for period from January 01, 2025 to June 30, 2025 are comparable to the corresponding figures for the same period of the previous year.

8. Employees

As at June 30, 2025, the Company had 2,026 employees working. (As of January 01, 2025, there were 1,884 employees).

II. THE FISCAL YEAR, THE CURRENCY USED IN ACCOUNTING**1. The fiscal year**

The Company's fiscal year begins on 01 January and ends on 31 December annual.

This financial statement is the Financial Statement (separate) for the reporting period of Quarter II/2025, ended June 30, 2025.

2. The currency used in accounting

The currency used in accounting and financial statements is Vietnam Dong (VND) because receipts and payments are mainly used in Vietnam Dong (VND).

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM**1. Applicable accounting standards and system**

The Company applied the Vietnamese Accounting Standards, Vietnamese corporate accounting regime, which was guided under Circular No. 200/2014/TT-BTC dated 22/12/2014, Circular No. 53/2016/TT-BTC dated 21/03/2016 issued by the Ministry of Finance related to the preparation and presentation of financial statements.

Accordingly, the accompanying Balance sheet as at June 30, 2025, income statement, statement of cash flows and notes to financial statement for period then ended June 30, 2025 and the use of these reports are not intended for persons who are not provided with information on accounting procedures, principles and practices in Vietnam. And furthermore, they are not intended to present the financial position, results of operations and cash flows in accordance with widely accepted accounting principles and practices in countries and territories other than Vietnam.

2. Declaration of compliance with accounting standards and system

The Executive Board ensures compliance with the requirements of Vietnamese Accounting standards and Vietnamese Corporate Accounting regime issued in accordance with Circular No. 200/2014/TT-BTC dated 22/12/2014, Circular No. 53/2016/TT-BTC dated 21/03/2016 as well as circulars guiding

the implementation of accounting standards of the Ministry of Finance related to the preparation and presentation of financial statements (separate).

IV. APPLICABLE ACCOUNTING POLICIES

1. Basis of preparing the financial statements

These financial statements (separate) were prepared on an accrual basis (excluding information relating to cash flows).

The dependent units have their own accounting systems and operate under a dependent accounting mechanism. The Company's (separate) financial statements are prepared based on the aggregation of the financial statements of its affiliated units. Revenue, expenses, internal transactions, and balances between affiliated units are eliminated when preparing the Company's (consolidated) financial statements.

2. Cash and cash equivalents

Cash comprises cash on hand, cash at bank, cash in transit and cash equivalents.

Cash equivalents are short-term investments which are collectable or mature within 3 months at the date of purchase, readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value

3. Financial investments

Held-to-maturity investments

Investments are classified as held to maturity when the Company has the intention and ability to hold until the maturity date. Held-to-maturity investments include term deposits with banks (including treasury bills, promissory notes), bonds and preferred stocks that must be repurchased by issuers at a certain time in the future and held to maturity loans for the purpose of earning periodic interest and other held to maturity investments.

Held-to-maturity investments are initially stated at historical cost, which includes the purchase price and expenses associated with the purchase of investments. After initial receipt, these investments are recorded at recoverable value. Interest income from held-to-maturity investments after the acquisition date is recognized in the income statement on an accrual basis. Interest earned before the holding of the Company is recorded as a deduction at historical cost at the time of purchase.

When there is solid evidence that a part or all of the investment may not be recoverable and the losses are reliably determined, losses are recognized in financial expenses in the year and reduced direct investment value.

Loans

Loans are stated at cost less allowance for doubtful debts. Provisions for bad debts of loans are made based on expected losses.

Investments in Subsidiaries, Joint Ventures, and Associates

Subsidiary

Subsidiary is an enterprise which is controlled by the Company. Control is achieved when the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

Joint Ventures

A joint venture is established on the basis of a contractual agreement under which the Company and the participating parties carry out economic activities on the basis of joint control. Joint control is understood as the making of strategic decisions related to the operating and financial policies of the joint venture must have the consensus of the parties participating in the joint venture.

Associate

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

Associate is an enterprise in which the Company has significant influence but no control over financial and operating policies. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies.

Investments in associates are started by historical cost, include buying price or capital contribution plus related cost to investment. If investment by non-monetary assets, the cost investment is recored by non-monetary fair value at the time arising.

Dividend and profit of periods before investment are purchased are recorded decrease this investment value. Dividend and profit of periods after investment are purchased are recorded income. Dividend received by shares is only followed the increasing number of shares, not recorded received shares' value/ Recognized at par value.

Allowance for Impairment of Investments in Subsidiaries, Joint Ventures, and Associates The allowance for impairment of investments in subsidiaries, joint ventures, and associates is recognized when a subsidiary, joint venture, or associate incurs a loss. The provision amount is determined as the difference between the actual contributed capital of all parties in the subsidiary, joint venture, or associate and the actual owner's equity, multiplied by the company's ownership percentage in the total actual contributed capital of all parties in the subsidiary, joint venture, or associate. If the subsidiary, joint venture, or associate is required to prepare consolidated financial statements, the basis for determining the provision for impairment is the consolidated financial statements.

Any increase or decrease in the allownace for impairment of investments in subsidiaries, joint ventures, and associates that needs to be recognized at the end of the financial year is recorded in financial expenses.

Investments in equity instruments of other entities

Investments in equity instruments of other entities includes equity instrument investments for which the Group has no control, joint control, or significant influence over the investee.

Investments in equity instruments of other entities are started by historical cost include buying price or capital contribution plus related cost to investment. Dividend and profit of periods before investment are purchased are recorded decrease this investment value. Dividend and profit of periods after investment are purchased are recorded income. Dividend received by shares is only followed the increasing number of shares, not recorded received shares' value.

Provision for impairment of Investments in equity instruments of other entities are made as following:

- If an investment in listed shares or the fair value of the investment is determinedreliably, the provision shall be made according to the market value of the shares.
- With regard to an investment whose fair value is not identifiable at the reporting time, the provision shall be made according to the loss of the investee, the provision is calculated by difference between actual contribution capital of parties in other entities and actual owner's equity multiplied capital contribution ratio of the Group compares with total actual capital contribution of parties in other entities.

Increasing, decreasing provision for impairment of investments in equity instruments of other entities need to be made at the ended day of the fiscal year are recorded as financial expenses.

4. Receivables

Receivables are presented at cost less allowance for doubtful debts.

The classify of trade receivables and other receivables is presented following this principle:

- Trade receivables include commercial receivables generating from purchase-sale related transactions between the Company and buyers, also include receivables from sale export goods conducted by consignees.
- Internal receivables are amounts receivable between the parent entity and its directly affiliated subsidiaries that do not have legal entity status.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

- Other receivables include non-commercial receivables which is not related to buying-selling transactions.

Allowance for doubtful debts is made for each bad debt when:

- Overdue receivables recorded in economic contracts, loan agreements, contract commitments, or debt commitments, that the business has repeatedly claimed but has not yet been able to collect. Determining the overdue duration of a receivable debt that is deemed to be bad and necessitates provisioning is based on the principal payback time as the original purchase and sale contract, regardless of a debt extension between parties;
- Debts receivable are not due for payment but the debtor has fallen into bankruptcy or is undergoing dissolution procedures, missing or absconding.

The increase, decrease in balance of allowance for doubtful debts need to be made at the end of the balance sheet date and recorded in the administrative expenses.

5. Inventories

Inventories are recognized at the lower of cost and net realizable value.

Inventories' cost is determined that:

- Materials, goods: included purchase cost and other directly related cost occurred to recognize inventories' cost at the current place and status.
- Finished goods: Include the cost of raw materials, direct labor, and related manufacturing overhead, allocated based on normal operating capacity. For real estate finished goods, costs include land use rights, direct costs, and related general costs incurred during the investment and construction process.
- Work in progress: Includes only the main raw material costs (or other relevant cost factors)

Net realizable value is the estimated selling price of inventories in the normal course of business, less estimated costs to complete and estimated selling expenses.

The cost of inventories is calculated using the weighted average method and is accounted for using the perpetual method.

Allowance for decline inventory is made for each inventory item with a cost higher than its net realizable value. For unfinished services, the provision is determined based on each service type with a separate pricing structure. Any increase or decrease in the provision balance at the financial year-end is recorded in cost of goods sold.

6. Prepaid expenses

Prepaid expenses are classified into short-term prepaid expense and long-term prepaid expenses on the Balance sheet and are allocated over the prepaid period or the period in which economic benefits are generated from these expenses.

Prepaid expenses are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepaid expenses of the Company include:

Tools and instruments

Cost of tools and instruments being put into use are allocated in accordance with the straight-line method for a period of not more than 36 months.

Fixed Asset Repair Expenses

One-time major fixed asset repair expenses are allocated to costs using the straight-line method over 36 months

Prepaid Land Rental Advantage

The prepaid land rental advantage represents the value of the land rental payment for the land currently used by the company, which was reassessed at the time of enterprise valuation for equitization as of September 30, 2016, according to the conclusion of the State Audit Office of Region

DAK LAK RUBBER JOINT STOCK COMPANY*Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province**FINANCIAL STATEMENT (SEPARATE)**Quarter II/2025 ended June 30, 2025*

12. The prepaid land rental advantage is allocated to expenses using the straight-line method over the remaining lease period (315 months), starting from the date the company officially converted into a joint-stock company (from October 1, 2018, to December 31, 2044).

Goodwill

Goodwill is recognized based on the figures in the Enterprise Valuation Report as of September 30, 2016. It is allocated to expenses using the straight-line method over 36 months.

7. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible fixed assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready for use state.

The costs incurred after the initial recognition of tangible fixed assets shall be recorded as increase in their historical cost if these costs are certain to augment future economic benefits obtained from the use of these assets. Those incurred costs which fail to meet this requirement must be recognized as production and business expenses in the year.

When tangible fixed assets are sold or liquidated, their cost and accumulated depreciation are written off, and arisen gain/loss are recorded into the income or the expenses in the year.

Depreciating the cost of tangible fixed assets is calculated on straight-line method. Depreciation amount determined is based on historical cost and estimated useful-life of the assets. The time of depreciation is:

<u>Kind of assets</u>	<u>Depreciation period (year)</u>
Buildings, Architectures	05 – 30
Machinery and equipment	05 – 15
Means of transportation	05 – 15
Equipment and management tools	04 – 09
Perennial plants	20

The depreciation of fixed assets for rubber plantations is carried out based on Official Dispatch No. 1937/BTC-TCDN dated February 9, 2010, issued by the Corporate Finance Department – Ministry of Finance regarding the depreciation of rubber plantations, and Decision No. 221/QĐ-CSVN dated April 27, 2010, issued by the Vietnam Rubber Group on the promulgation of depreciation rates for rubber plantations over a 20-year exploitation cycle. Specifically:

<u>Year of Exploitation</u>	<u>Depreciation rate (%)</u>	<u>Year of Exploitation</u>	<u>Depreciation rate (%)</u>
Year 1	2,5	Year 11	7,0
Year 2	2,8	Year 12	6,6
Year 3	3,5	Year 13	6,2
Year 4	4,4	Year 14	5,9
Year 5	4,8	Year 15	5,5
Year 6	5,4	Year 16	5,4
Year 7	5,4	Year 17	5,0
Year 8	5,1	Year 18	5,5
Year 9	5,1	Year 19	5,2
Year 10	5,0		

The annual depreciation amount is determined by multiplying the historical cost of the rubber plantation by the depreciation rate applicable for that year.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

The depreciation amount for the final year (20th year) is determined based on the remaining value of the rubber plantation in the last year of exploitation.

8. Intangible fixed assets

Intangible fixed assets are stated at initial cost less accumulated amortization.

The cost of tangible fixed assets comprises their purchase price and all the costs incurred by the Company to acquire those assets as of the time of putting such assets into the ready for use state.

The costs related to intangible fixed assets arising after initial recognition are recognized as production and business expenses in the year unless these costs are associated with a specific intangible fixed asset, and increase economic benefits from these assets.

When intangible fixed assets are sold or liquidated, their cost and accumulated depreciation are written off, and arisen gain/loss are recorded into the income or the expenses in the year.

Intangible fixed assets of the Company are:

Software program

Costs related to computer software programs that are not an integral part of the related hardware are capitalized. The historical cost of computer software includes all expenses incurred by the Company up to the point when the software is ready for use. Computer software is depreciated using the straight-line method over a period of 10 years.

Present value of liquidation value of rubber plantation in business

According to Clause 4, Article 10 of Circular 17/2015/TTLT/BNNPTNT-BTC dated April 22, 2015 of the Ministry of Agriculture and Rural Development, the current value of the liquidation value of the rubber plantation in operation is recorded as an intangible fixed asset. The current value of the liquidation value of the rubber plantation in operation is not depreciated during the period of use of the rubber plantation in operation and will be depreciated once at the time of liquidation of the rubber plantation.

9. Construction in progress

Construction expenses in progress reflect the cost directly attributing (including relevant interest expense suitable with the accounting policies of the Company) to the assets in the process of building, machinery and equipment being installed to serve the purpose of manufacturing, leasing and management, as well as costs related to the repair of fixed assets are performing. These assets are recorded at cost and are not amortized

10. Liabilities and Accrued expenses payable

Liabilities and accrual expenses are recognized for payable amounts in the future related to the received goods and services. Accruals are recognized based on the reasonable estimates of the payable amounts.

Payables are classified as trade payables, accruals, internal payables and other payables comply with the following principles:

- Trade payables reflect the commercial elements arising from purchasing transactions of goods, services, assets and the seller is an independent entity, include payables from import by a trustee.
- Accrual expenses reflect the payables to the received goods and services from seller or provided to buyer but not yet paid due to do not have invoice or insufficient accounting records and vouchers and payable to employees on sabbatical salary, operating costs must be accrued.
- Other payables reflect the non-commercial elements unrelated to selling - purchasing transactions, rendering of services.

Other Payables reflect amounts payable that are non-commercial in nature and not related to transactions involving the purchase, sale, or provision of goods and services.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

11. Loans and finance lease liabilities

Loans and finance lease liabilities are reflected at historical cost and classified into current liabilities and long-term liabilities when presented in the Financial Statement

The Company monitors loans and finance lease liabilities according to their creditors, loan agreements, principal terms, remaining terms and original currencies. Loans and financial lease liabilities that are monetary items denominated in foreign currencies are revalued at the selling exchange rate at the end of the period of the commercial bank where the Company regularly has transactions.

12. Owners' equity

The owner's contributed capital

The owner's contributed capital reflects the amount of capital actually contributed by the shareholders.

Capital surplus

Capital surplus is recognized by the difference between the issuing price and the denomination of shares at the first issue, additional issuance, the difference between the reissue price and the book value of treasury shares and the Capital portion of convertible bonds at maturity. Direct expenses related to the additional issuance of shares and re-issuance of treasury shares are recorded to reduce the capital surplus.

The owner's other funds

The owner's other funds are formed by supplementing from the results of business operations, asset revaluation and the remaining value between the fair value of donated, gifted, or sponsored assets after subtracting payable tax (if any) related to these assets.

13. Profit distribution

Profits after corporate income taxes is distributed to the shareholders after building funds in accordance with the Company's Charter as well as law and the approval of the General Meeting of Shareholders.

The profit distribution is considered non-cash items included in undistributed earnings that may affect cash flows and ability to pay as interest due to revaluation of assets contributed as capital; revaluation of monetary items; revaluation of financial instruments and other non-monetary items.

Dividends are record as payables at the time of approval of the shareholders' meeting.

14. Recognition of revenue

Revenue is recognized when the Company has the ability to receive certain economic benefits that can be reliably determined. Revenue are determined at the fair value of the amounts collected or to be earned after deduction of trade discounts, sales devaluation and sales returns.

Revenue from selling goods and finished products

Revenue from sales is recognized when all of the following conditions are met:

- The Company has transferred most of risks and benefits associated with ownership of products, goods to the buyer.
- The Company no longer hold the right to manage goods as owners or the right to control goods.
- Revenue is determined with relative certainty.
- The Company has gained or will gain economic benefits from the good sale transaction.
- Costs related to sale transactions may be determined.

Revenue from services rendered

Revenue of a service provision transaction is recognized when the outcome of that transaction is determined reliably. In case the service is performed for many periods, the revenue recorded during the period is based on the results of the work completed on the end of the fiscal year date. The

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

outcome of the service provision transaction is determined when all of the following conditions are satisfied:

- Revenue is determined relatively reliably.
- It is possible to obtain economic benefits from the service provision.
- Determine the completed work portion at the end of the fiscal year.
- Determine the costs incurred for the transaction and the cost to complete the transaction to provide that service.

Revenue from lease operating assets

Revenue from lease operating assets is recorded on a straight-line method over the term of the lease. Revenue received in advance of many periods are allocated to revenue in accordance with the rental period.

Interest

Interest is recognized on an accrual basis, determined on the balance of deposit accounts and actual interest rates for each period.

Dividends and shared profit

Dividends and shared profit are recognized when shareholders are entitled to receive dividends or profits from the capital contribution. Received dividends are shares, that are only monitored for the increase in the number of shares, do not recognize the value of shares received.

15. Revenue deductions

Revenue Deductions are amounts adjusted as reductions to the total revenue in the year, including trade discounts/ sales rebate/ and sales returns.

Revenue deductions arising in the same period as the sale of products, goods, or services shall be deducted from the revenue of that period;

For products, goods, or services that were sold in previous periods but are subject to trade discounts, sales discounts, or returns in subsequent periods, the revenue reduction shall be recorded according to the following principles:

- If the discounts, sales reductions, or returns occur before the issuance of the financial statements, the revenue shall be reduced in the financial statements of the reporting period (previous period).
- In case products, goods, and services must be discounted, have trade discounts, or are returned after the issuance of the Financial Statement, record a reduction in revenue for the period in which it occurs (the following period).

16. Cost of goods sold

Cost of goods sold is the total cost of goods, finished products and direct costs of the volume of goods and services provided, other expenses are included or recorded reducing in the cost of goods.

17. Financial expenses

Financial expenses are the costs related to financial activities include expenses or losses related to financial activities/ lending and borrowing expenses/ Allowance for decline in value of trading securities/ Allowance for impairments in other entities/ Loss on foreign currency sales/ Foreign exchange loss...

18. Selling expenses and General administration expenses

Selling expenses and General administration expenses are all costs related to the process of selling products, goods, rendering of services and general administration expenses of the Company.

19. Borrowing costs

Borrowing costs include loan interest and other costs directly related to loans.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

Borrowing costs are recognized into expenses when incurred. Where the borrowing costs are directly related to the investment in construction or production of assets in progress need a long enough period (more than 12 months) to be put into use for the intended purpose or sold, these borrowing costs are capitalized. For separate loans for the construction of fixed assets, investment properties, interest is capitalized even if the construction period is less than 12 months. Income arising from temporary investment of loans is recorded at a decrease in the cost of related assets.

For general loans, which are used to invest in construction or production of assets in progress, the capitalized borrowing costs are determined by the capitalization ratio to the average accumulated cost arise for the investment in capital construction or manufacturing of that asset. Capitalization rates are calculated using weighted average interest rates on outstanding loans during the year, excluding separate loans to form a particular asset.

20. Foreign currency transaction

Transactions denominated in foreign currencies are converted into VND using the actual exchange rate at the date of the transaction. The balances of monetary items denominated in foreign currencies at the year end are revaluated at the actual exchange rate of that date.

Foreign exchange differences arising on transactions in foreign currencies in the period are recognized in financial income or expenses. Exchange differences arising from revaluation of monetary items denominated in foreign currencies at the fiscal year ended date, after balancing increase and decrease differences, are recorded in financial income or expenses.

Exchange rate used for converting transactions denominated in foreign currency is the actual exchange rate at the time of the transactions. Actual exchange rates for foreign currency transactions are determined as follows:

- Actual exchange rate when trading foreign currencies (forex forward contracts for immediate delivery, forward contracts, futures contracts, options contracts, swap contracts): the exchange rate in the foreign currency trading contract signed between the Company and the bank.
- In case the contract does not state the payment rate:
 - For capital contributions or receipt of capital contributions: the buying rate of the bank where the Company opens its account to receive investors' capital at the date of contribution.
 - For receivables: the buying rate of the commercial bank where the Company appoints its customer for making payment at the transaction time.
 - For payables: the selling rate of commercial bank where the Company anticipates conducting transactions at the date of the transactions.
 - For purchases of assets or expenses paid immediately in foreign currency (not through the payable accounts): the buying rate of the commercial bank where the Company makes payment.

Exchange rate used for revaluation of balance of the monetary items denominated in foreign currencies at the end of the fiscal year is determined based on the following principles:

- For foreign currency accounts in banks: the buying rate of the bank where the Company opens its foreign currency accounts.
- For monetary items denominated in foreign currencies classified as other assets: the buying rate of the bank where the Company regularly has transactions.
- For monetary items denominated in foreign currencies classified as liabilities: the selling rate of the bank where the Company regularly has transactions.

21. Corporate income tax

Corporate income tax during the period includes current income tax and deferred income tax.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

Current income tax

Current income tax is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as adjustment of non-taxable incomes and transferred losses.

Deferred corporate income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the financial statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of taxable income in the future against which the temporarily deductible differences can be used.

Book values of deferred corporate income tax assets are considered at the balance sheet dates and will be reduced to the rates that ensure enough taxable income against which the benefits from a part of or all of the deferred income tax can be used. Deferred corporate income tax assets are not yet recorded in before that will be reconsidered as at the accounting period ended and recorded when being reliably taxable profit to be able to use these deferred income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rates to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the income statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity of the company.

Deferred income tax assets and deferred income tax liabilities should be offset when:

- The Company has a legal right to implement the offset of current income tax assets and current income tax payable; and
- Those deferred income tax assets and deferred income tax payable related to corporate income tax is administered by the same tax authority:
 - For the same taxable entity; or
 - The Company intends to pay current income tax payable and current income tax assets on the basis of net or recover assets at the same time with the payment of liabilities in each future period when the significant deferred income tax payable or deferred income tax assets to be paid or recovered.

22. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. Parties are also considered to be related if they are subject to common control or common significant influences.

When considering the relationship of related parties, the nature of the relationship is much paid attention to rather than its legal form.

DAK LAK RUBBER JOINT STOCK COMPANY

Address: 30 Nguyen Chi Thanh, Tan An ward, Dak Lak province

FINANCIAL STATEMENT (SEPARATE)

Quarter II/2025 ended June 30, 2025

(*) This is the value of the rubber plantation that has been subject to recovery under Decision No. 1903/QĐ-UBND dated August 20, 2020, issued by the People's Committee of Dak Lak Province. The Company has ceased investment and maintenance. Nguyen Hoang Investment and Development JSC, the project's investor, made an advance compensation payment of VND 10,000,000,000 to the Company. However, since Nguyen Hoang JSC does not meet the conditions to implement the project, it has not fully paid the compensation to the Company as per the approved plan. As a result, the Company has not yet handed over the land to the State and is currently recording the costs under construction in progress and advances from customers.
