SCI E&C Joint Stock Company would like to explain that the Profit after Corporate income tax of the second quarter of 2025 in the Consolidated financial statement changes by 10% or more compared to the same period of the previous year (previous period) as follows:

Unit: VND

No.	Item	Quarter II of 2025	Quarter II of 2024	Differences ratio %
1	Net revenue from sales and services rendered	275,913,091,593	280,847,684,345	(1.76)%
2	Cost of goods sold	250,067,914,694	267,025,845,005	(6.35)%
3	Gross profit from sales and services rendered	25,845,176,899	13,821,839,340	86.99%
4	Financial income	6,892,741,817	1,403,723,191	391.03%
5	Financial expenses	11,117,507,727	8,228,889,569	35.10%
6	Net profit from operating activities	8,108,130,867	(7,205,003,649)	(212.53)%
7	Other profit (loss)	36,756,222	9,304,803,262	(99.60)%
8	Profit after corporate income tax	8,144,887,089	836,822,447	873.31%

Reasons :

During the period, the Company was starting to construct new projects, so both Revenue and Cost of goods sold decreased. The decrease rate of Cost of goods sold is different from decrease rate of Revenue, leading to an increase in Gross profit on sales and services rendered this period compared to the previous period.

Financial income in this period increased compared to the previous period due to exchange rate differences arising from overseas construction activities. The financial expenses for this period increased compared to the previous period due to a rise in the Company's interest expenses. Aggregating the above factors, the net profit from operating activities in this period increased compared to the previous period.

Other profits decreased compared to the previous period, as in the second quarter of

2024, the Company generated income from the reversal of warranty provisions for some projects.

Combining the above factors, the Profit after corporate income tax increased when compared to the previous period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements***4 . SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies, which have been adopted by the Company in the preparation of these financial

Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the Accounting period. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) up to 31 December each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

Intragroup transactions and balances are eliminated in full on consolidation.

Non-controlling interests represents the portion of profit or loss and net assets of subsidiaries not held by the Company. Non-controlling interests consist of the amount of those non-controlling interests at the date of the original business combination and the non-controlling interests' share of changes in equity since the date of the combination. Losses in subsidiaries are respectively attributed to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Financial Instruments***Initial recognition***

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, deposits, financial investments and derivative financial instruments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, obligations under finance leases, borrowings and derivative financial instruments.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial recognition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements***Foreign currency transactions**

The foreign currency transactions during the Accounting period are converted into Vietnam dong with the real exchange rate at the transaction date. Real exchange rates are determined as the following principles:

- When buying or selling foreign currency: are exchange rates concluded in contracts of foreign exchange sale between Company and commercial banks;
- When capital contribution or receipt of contributed capital: are exchange rate of purchase of foreign currency of the bank where Company opens the account to receive capital from investors at the date of the contribution of capital;
- When recording receivables: are exchange rates of purchase of commercial banks where Company assigned customers to make payment at the time of incurred transactions;
- When recording liabilities: are exchange rates of purchase of commercial banks where Company expects to conduct transactions at the time of incurred transactions;
- When purchases of assets or expenses paid immediately in foreign currency: are the rate of purchase of commercial banks where Company makes payments.

Real exchange rate upon re-determining accounts derived from foreign currencies at the date of the Consolidated financial statements determined on the following principles:

- For accounts classified as asset: applies exchange rates of purchase of commercial banks where Company regularly conducts transaction;
- For foreign currency deposited in bank: applies exchange rate of purchase of the bank where Company opens foreign
- For accounts classified as liabilities: applies exchange rates of selling foreign currency of commercial banks where Company regularly conducts transaction.

All sums of real exchange rates for foreign currency transactions in the Period and real exchange rate upon re-determining accounts derived from foreign currencies at the end of the Period are recorded immediately to results of business operations in accounting Period.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments***Trading securities***

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent periods, investments in trading securities are measured at cost less provision for impairment of such investments.

With regard to investments in trading securities, the provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements***Equity investments in other entities**

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

With regard to investments held long-term (other than trading securities) without significant influence on the investee: If the investment is made in listed shares or the fair value of the investment is determined reliably, the provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, the provision shall be made based on the Financial Statements at the provision date of the investee.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The cost of inventory is calculated by weighted average method/first in first out method

Inventory is recorded by perpetual method

Method for valuation of work in process at the end of the Period:

- Works in progress is obtained for each construction project unfinished or related unrecognised revenue, corresponding to the workload unfinished at the end of the period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements***Leasing**

Leasing assets is considered a financial lease when most of the benefits and risks of asset ownership are transferred to the lessee. All other leases are considered operating leases.

Assets held under finance leases are recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives, as follows:

- | | |
|----------------------------|---------------|
| - Machine, equipment | 04 - 08 years |
| - Transportation equipment | 08 years |

Intangible assets and amortisation**Patents and trademarks**

Patents and trademarks are measured initially at purchase cost and are amortised on the straight-line basis over their estimated useful lives.

Financial assets and financial liabilities are not revalued according to fair value at the year ended because Circular No. 210/2009/TT-BTC and prevailing statutory regulations require to present Financial Statements and additional note for financial instruments but do not provide any relevant instructions for assessment and recognition of fair value of financial assets and liabilities, excluding provisions for bad debts and provision for devaluation of securities investments which are presented in relevant notes.

Financial risk management

The Company's financial risks including market risk, credit risk and liquidity risk. The Company has developed its control system to ensure the reasonable balance between cost of incurred risks and cost of risk management. The Board of Directors of the Company is responsible for monitoring the risk management process to ensure the appropriate balance between risk and risk control.

Market risk

The Company's business operations will bear the risks of changes on prices, exchange rates and interest rates.

Price Risk

The Company bears price risk of equity instruments from short-term and long-term security investments due to uncertainty on future prices of the securities. Long-term securities are held for long-term strategies, at the end of the fiscal year, the Company has no plans to sell these investments.

Exchange rate risk

The Company bears the risk of exchange rate due to fluctuation in fair value of future cash flows of a financial instrument according to changes in exchange rates if loans, revenues and expenses of the Company are done in foreign currencies other than VND.

Interest rate risk

The Company bears the risk of interest rates due to fluctuation in fair value of future cash flow of a financial instrument according to changes in market interest rates if the Company has time or demand deposits, loans and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain any interest profitable for its operation purpose.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Consolidated financial statements***Credit Risk**

Credit risk is risk in which the potential loss may be incurred if a counterpart fails to perform its obligations under contractual terms or financial instruments. The Company has credit risk from operating activities (mainly for trade receivables) and financial activities (including bank deposits, loans and other financial instruments).
