Details: Production of glue and prepared substances; production of various types of incense.

## **II. ACCOUNTING PERIOD AND CURRENCY UNIT**

1. The accounting period starts on January 1 and ends on December 31 of each year.
2. The currency unit used in accounting: Vietnamese Dong (VND)

## **III. ACCOUNTING REGIME AND APPLICABLE ACCOUNTING STANDARDS**

### **1. Applied Accounting Regime**

The Company applies the Vietnamese Accounting System issued in accordance with Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance.

### **2. Applied Accounting Bookkeeping System:**

The Company applies computerized accounting records. As of the closing date for financial statements, the Company has fully printed financial statements, general ledgers, and detailed accounting records.

### **3. Applied Accounting Standard:**

The management of Hanoi - Kinh Bac Agriculture and Food Joint Stock Company declares compliance with Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting Regime issued in accordance with the Company's business activities.

## **IV. APPLIED ACCOUNTING POLICIES**

The following are the key accounting policies that the Company has applied for bookkeeping and the preparation of financial statement.

### **1. Principles for Determining Cash: Cash on Hand, Bank Deposits, and Cash in Transit:**

#### **- Principles for Determining Cash Equivalents:**

Cash equivalents are short-term investments with a maturity of no more than three (03) months that can be readily converted into cash and carry minimal risk of value fluctuations from the date of acquisition at the reporting date;

*(These notes are an integral part of the financial statements)*

**- Principles and Methods for Converting Foreign Currencies into the Accounting Currency:**

- Transactions in foreign currencies are translated into Vietnamese Dong at the actual exchange rate of the transaction bank at the time of the transaction. At the end of the financial year, monetary items denominated in foreign currencies are revalued at the average interbank exchange rate announced by the State Bank of Vietnam on the reporting date.
- Exchange rate differences arising during the period from monetary items denominated in foreign currencies are recorded in financial income or financial expenses in the financial year. Exchange rate differences arising from the revaluation of year-end balances—such as cash on hand, bank deposits, and cash in transit denominated in foreign currencies—are offset against increases and decreases. Any remaining difference is recognized in financial income or financial expenses in the year.

**2. Principles for Recognizing Trade Receivables and Other Receivables:**

**- Recognition Principles:**

Trade receivables, advances to suppliers, internal receivables, and other receivables at the reporting date are classified as follows:

- Receivables with a collection or settlement period of less than one (01) year (or within a business cycle) are classified as current assets.
- Receivables with a collection or settlement period of more than one (01) year (or beyond a business cycle) are classified as non-current assets.

**- Allowance for Doubtful Debts:**

The allowance for doubtful debts represents the estimated loss in value of receivables that may not be collected from customers at the reporting date. The provision for doubtful debts is made in accordance with Circular No. 228/2009/TT-BTC dated December 7, 2009, issued by the Ministry of Finance.

**3. Recognition of Fixed Assets and Depreciation of Fixed Assets:**

**- Recognition of Tangible and Intangible Fixed Assets:**

Fixed assets are initially recognized at cost. During their use, fixed assets are accounted for based on three criteria: cost, depreciation, and remaining value. The cost of fixed assets is determined as the total expenses incurred by the entity to acquire the asset, up to the point when the asset is ready for use.

**- Depreciation Method for Tangible and Intangible Fixed Assets:**

Depreciation of tangible fixed assets is carried out using the straight-line method, based on the estimated useful life and the cost of the asset. The depreciation period is calculated in accordance with the depreciation schedule outlined in Circular No. 45/2013/TT-BTC dated April 25, 2013, issued by the Ministry of Finance. The specific depreciation rates are as follows:

Asset Type	Useful life
- Buildings and structures	15 - 50 years
- Machinery and equipment	06 - 20 years
- Vehicles	10 years

- Management Tools and Equipment 03 - 05 years
- Land Use Rights Cost 50 years

#### 4. Principles for Recognizing Financial Investments:

The Company's long-term financial investments are recognized at cost, starting from the date of capital contribution or the date of purchase of shares or bond.

#### 5. Principles for Capitalizing Borrowing Costs and Other Costs:

##### - *Principles for Capitalizing Borrowing Costs:*

- Borrowing costs directly related to the investment in construction or the production of unfinished assets are capitalized as part of the asset's value. These include interest expenses, amortization of bond issuance discounts or premiums, and other costs incurred during the borrowing process.
- The capitalization of borrowing costs will be suspended during periods in which the construction or production of unfinished assets is interrupted, unless such interruption is necessary.
- Capitalization of borrowing costs will cease when the activities necessary to prepare the unfinished asset for its intended use or sale are completed. Borrowing costs incurred thereafter will be recognized as expenses in the period in which they arise.
- Income earned from temporary investments or separate borrowings, while awaiting the use of funds to acquire unfinished assets, must be deducted from the borrowing costs that are capitalized.
- The borrowing costs capitalized in a period must not exceed the total borrowing costs incurred during that period. The interest and the amortization of discounts or premiums capitalized during each period should not exceed the actual interest and amortized discounts or premiums for that period.

##### - *Principles for Capitalizing Other Costs:*

- Prepaid Expenses: Prepaid expenses that relate to investment in construction, renovation, or upgrading of fixed assets during the period are capitalized into the fixed assets being invested in or upgraded.
- Other Costs: Other costs incurred for investment in construction, renovation, or upgrading of fixed assets during the period are capitalized into the fixed assets being invested in or upgraded.

##### - *Principles for Capitalizing Other Costs:*

- Prepaid expenses that are related solely to the current fiscal year should be recognized as operating expenses in that fiscal year.
- The calculation and allocation of long-term prepaid expenses to production and business expenses in each accounting period should be based on the nature and amount of each cost, selecting an appropriate allocation basis and method.

#### 6. Recognition of Trade Payables and Other Payables:

Trade payables, intercompany payables, other payables, and loans as of the reporting date are recognized as follows:

- Payables with a payment term of less than 1 year or within one operating cycle are classified as short-term liabilities.
- Payables with a payment term of more than 1 year or exceeding one operating cycle are classified as long-term liabilities.

#### 7. Tax Obligations:

- *Value Added Tax: The Company declares and pays VAT to the Hanoi Tax Department. Monthly VAT returns for both input and output taxes are filed in accordance with current tax laws.*
- *Corporate Income Tax: The Company pays Corporate Income Tax at a rate of 20%.*
- *Other Taxes: The Company applies tax policies in accordance with the provisions of the current tax laws in Vietnam.*

#### 8. Principles for Recognizing Equity and Funds:

The owner's equity investment in the Company is recognized based on the actual capital contributed by The owner's investment in the Company is recognized based on the actual capital contributed by the owner..

Unappropriated retained earnings represent the profit from the Company's operations after deducting corporate income tax for the current year, as well as adjustments due to the retrospective application of changes in accounting policies and the retrospective correction of material prior-period errors.

The Company's funds are allocated according to the decisions made in the resolutions of the Annual General Meeting of Shareholders.

#### 9. Revenue Recognition Principles:

- *Sales revenue is recognized when all of the following conditions are met:*

- The majority of the risks and rewards associated with ownership of the product or goods have been transferred to the buyer;
- The Company no longer retains control over the goods, as the owner or custodian of the goods;
- The revenue can be reliably measured;
- The Company has received or will receive economic benefits from the sale transaction;
- The costs associated with the sale transaction can be reliably measured.

- *Financial Income*

Revenue arising from interest, royalties, dividends, profit sharing, and other financial income is recognized when both of the following conditions are simultaneously met:

- There is a reasonable expectation that economic benefits will be received from the transaction;
- The revenue can be reliably measured.

#### 10. Cost of Goods Sold Recognition Principles

- The cost of services is recognized based on the actual costs incurred to complete the service, in alignment with the revenue recognized during the period.
