IV. AUDITORS

Southern Accounting and Auditing Financial Consulting Services Co., Ltd. (AASCS) was appointed to perform the review of the consolidated financial statements of the Company.

V. DISCLOSURE RESPONSIBILITIES OF THE BOARD OF MANAGEMENT FOR INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The Company's Board of Management is responsible for preparing the Interim Consolidated Financial Statements which give a true and fair view of the financial position of the Company as at June 30th, 2025, and its operation results and its cash flows statement for the 6-month period ended. In preparing these Interim Consolidated Financial Statements, Board of Management commit to comply with the following requirements:

- Develop and maintain internal controls that the Board of Directors and the Board of Management determine as necessary to ensure that the preparation and presentation of consolidated financial statements no longer contains material misstatements due to fraud or due mistake;
- Selecting suitable accounting policies and then applying them consistently;
- Making reasonable and prudent judgments and estimates;
- Prepare the consolidated financial statements on the basis of compliance with accounting standards and system and other related regulations;
- Prepare the consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Company's Board of Management is responsible for ensuring that proper accounting records are kept to disclose the financial position of the Company, with reasonable accuracy at any time, and ensuring that the consolidated financial statements comply with the current regulations of the State. At the same time, Board of Management is also responsible for ensuring the safety the assets of the Company and hence for taking reasonable steps for the prevention and detection of any frauds and other violations.

We, the Board of Management, confirm that the consolidated financial statements give a true and fair view of financial position June 30th, 2025, its consolidated operation results and consolidated cash flows for the 6-month period then ended of the Company in accordance with the Vietnamese Accounting Standard, Vietnamese Enterprise Accounting System and statutory requirements relevant to the preparation and presentation of the financial statements.

VI. APPROVAL OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

We, Board of Management of Trung An Hi-Tech Farming Joint Stock Company approve the Interim Consolidated Financial Statement for the 6-month period ended June 30th, 2025.

Prepared on August 18th, 2025

For and on behalf of the Board of Management

NGUYEN LE BAO TRANG

General Director

No: 752/BCKT-TC/2025/AASCS

REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

**To: Shareholders, Board of Directors, and Board of Management
TRUNG AN HI-TECH FARMING JOINT STOCK COMPANY**

We have reviewed the accompanying interim consolidated financial statements of Trung An Hi-Tech Farming Joint Stock Company, prepared on August 18th, 2025, as set out on page 07 to 42, which comprise the Consolidated Balance Sheet as at June 30th, 2025, Consolidated Income Statement, Consolidated Cash flows Statement for the 6-month period then ended and Notes to the Consolidated Financial Statements.

The Board of Management's responsibilities

The Board of Management is responsible for the preparation and fair presentation of these Interim Consolidated Financial Statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and statutory requirements relevant to the preparation and presentation of the financial statements, and for such internal controls that the Board of Management determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibilities

Our responsibility is to express a conclusion on the Interim Consolidated Financial Statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of Interim Consolidated Financial Statements information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

Currently, the Company is waiting for the verification results of the competent authorities on the issues stated in the Inspection Conclusion of the State Securities Commission dated September 13th, 2023, including: Owners of 15 million TAR shares in the Company's private share offering; Preparation of registration documents for private offering in 2021.

As of the issuance date of this Review Report, the aforementioned issues remain unresolved and continue to impact the Company's interim consolidated financial statements for the 6-month period then ended June 30th, 2025.

Qualified Conclusion

Based on our review, except for the necessary adjustments due to the effects of the matters described in the "Basis for Qualified Conclusion" paragraph, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of Trung An Hi-Tech Farming Joint Stock Company as at June 30th, 2025, and of its consolidated financial performance and its consolidated cash flows for the 6-month period then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to interim consolidated financial reporting.

Other matter

The audit report on the Company's consolidated financial statements for the fiscal year ended December 31st, 2024 is a "Disclaimer of Opinion" report due to two issues:

As of now, the Company is awaiting for the verification results of the competent authorities on the issues stated in the Inspection Conclusion of the State Securities Commission dated September 13, 2023, including: Owners of 15 million TAR shares in the Company's private share offering; Preparation of registration documents for private offering in 2021. Information related to the inventory figures disclosed in the audited financial statements for the year of 2022, with a value of VND 1.255.542.463.892. We are unable to assess and quantify the impact of these issues on the Company's consolidated financial statements for the years ended December 31st, 2023 and December 31st, 2024.

The Company has addressed and rectified the issue related to the inventory figures recorded in the audit report for the year of 2022.

II. ACCOUNTING PERIOD, CURRENCY UNIT USED IN ACCOUNTING**1. Accounting period**

Annual accounting period of Company is from 01st January to 31st December.

2. Currency unit

The accounting currency unit is Vietnam Dong (VND).

III. ACCOUNTING STANDARDS AND ACCOUNTING SYSTEM**1. Accounting system**

The Company applies Enterprise Accounting System issued under the Circular No.200/2014/TT-BTC dated December 22, 2014 by Ministry of Finance as well as the circulars of the Ministry of Finance giving guidance on the implementation of the accounting standards and system.

2. Declaration on compliance with Accounting Standards and Accounting System

The Board of Management ensure to follow all the requirements of the current Vietnamese Accounting standards and Vietnamese Enterprise Accounting system issued under the Circular No.200/2014/TT-BTC dated December 22, 2014, the Circular No.53/2016/TT-BTC in year 2016 amending and supplementing Circular No. 200/2014/2014/TT-BTC as well as circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing consolidated financial statement.

IV. ACCOUNTING POLICIES**1. Basis of preparation financial statements**

The consolidated financial statements are prepared on the basis of accrual accounting (except for information related to cash flows).

2. Cash and cash equivalents

Cash includes cash on hand, demand deposits, cash in transit and monetary gold. Cash equivalents are short-term investments (for a period not exceeding 3 months) that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

3. Financial investment

Financial investment is the outside investments with purpose to use capital reasonably and improve efficiency of business operations such as investments in subsidiaries, joint ventures, associates, investment in securities and other financial investments ...

For the preparation of consolidated financial statements, the financial investment must be classified as bellows:

- Having maturity not exceeding 12 months or 01 normal production period are classified as short - term.
- Having maturity exceeding 12 months or 01 normal production period are classified as long - term.

Investments held to maturity

Investments held to maturity include investments that the Company has the intention and ability to hold to maturity, including: term deposits with banks (including all kinds of promissory notes, treasury bills), bonds, preferred shares that the issuer is required to re-buy them at a certain time in the future; loans held to maturity for the purpose of earning interest periodically and other investments held to maturity.

Investments held to maturity are recognized beginning on the date of purchase and are initially measured at the purchase price and expenses related to the investments purchase. Interest income from investments held to maturity after the purchase date is recognized in the income statement on an accrual basis. Interest income earned before the holding company is deducted from the original cost at the time of purchase.

In the case, there are reliable evidences showing a part or all of the investments may not be recoverable and amount of loss can be reliably determined, the losses have recorded in financial expenses in the period and direct deduction of investment value.

Investments in subsidiaries, associates

Subsidiaries are enterprises controlled by the Company. Control is achieved when the Company has the ability to control the financial and operating policies of the investee enterprise in order to obtain economic benefits from that enterprise's activities.

Investments in subsidiaries are recognized at cost. Dividends and profits of periods before the investment is purchased are accounted for as a decrease in the value of that investment itself. Dividends and profits of periods after the investment is purchased are recorded as revenue. Dividends received in shares are only tracked by the number of additional shares, the value of shares received is not recorded.

Provision for investments losses in subsidiaries are made when the subsidiary incurs a loss at a level equal to the difference between the actual capital contributions of the parties in the subsidiary and the actual equity multiplied by the capital contribution ratio of the Corporation/Enterprise compared to the total actual capital contribution of the parties at the subsidiary. If the subsidiary is the subject of preparation of the Consolidated Financial Statements, the basis for determining loss provisions is the Consolidated Financial Statements.

Loans

Loans are determined at cost less provisions for bad debts. Provision for bad debts of loans is established based on the expected level of loss that may occur.

Investments in other entities' equity instruments

Investments in other entities' equity instruments reflect equity instrument investments but the Company does not have control, co-control or significant influence over the investments.

Investments in equity instruments of other entities are initially recognized at cost, which includes the purchase price or capital contribution plus direct costs related to investment activities. Dividends and profits of periods before the investment is purchased are accounted for as a decrease in the value of that investment itself. Dividends and profits of periods after the investment is purchased are recorded as revenue. Dividends received in shares are only tracked by the number of additional shares, the value of shares received is not recorded/recorded at par value.

4. Receivables

All receivables must be recorded detail by aging, by each client and in original currency if any and others details depending on the management request of the company.

The classification of receivables must be managed as bellows:

- Trade receivables: any receivable having from trading activities between the company and its clients: selling goods, providing service, disposal of assets, exported receivable of consigner through the consignee;
- Intra-company receivables: receivables between the company with its dependent branches;
- Other receivables: are non trade receivables and do not relate to trading activities.

For the preparation of consolidated financial statements, the receivables must be classified as bellows:

- Having maturity not exceeding 12 months or 01 normal production period are classified as short - term.
- Having maturity exceeding 12 months or 01 normal production period are classified as long - term.

At the reporting date, the company revaluates the receivables which have balance in foreign currency (except for advance to suppliers; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the buying price quoted by commercial bank which is trading with the company at the reporting date.

Provisions for bad debts: The bad debts are made provision at the balance sheet date. The provision or reversal is made at the reporting date and is recorded as management expense of the fiscal year. For the long-term bad debts in many years, the company tried to collect but cannot and there is evidence that the client has insolvency, the company may sell these long-term bad debts to debt collection company or write off (according to regulations and charter of the company).

5. Inventories

Inventories are stated at original cost. Where the net realizable value is lower than cost, inventories should be measured at the net realizable value.

The original cost of inventory is determined as follows:

- Raw materials and goods: includes purchasing costs and other directly related costs incurred to bring inventory to its current location and condition.
- Finished products: includes raw material costs, direct labor and related manufacturing overhead costs that are further allocated based on normal operating levels/land use rights costs, direct costs and Related general costs incurred during the investment and construction process of real estate products.
- Cost of production and business in progress: only includes the cost of main raw materials (or other appropriate cost elements).

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to sell them.

The assets are purchased for the production, use or sale are not presented in this item on the balance sheet but are presented in item Long-term assets, including:

- Unfinished products have a production and rotation period exceeding one regular business cycle (over 12 months);
- Supplies, equipment, spare parts with a reserve time of over 12 months or more than a normal production and business cycle.

Cost of inventories are determined in accordance with method: weighted average.

Inventories are recorded in line with perpetual method.

Provision for devaluation of inventories: Provision for devaluation of inventories is made at the end of the period as the difference between the original cost of inventories greater than their net realizable value. For services provided in progress, the provision for discounts is calculated according to each type of service with a separate price. Increases and decreases in provision for devaluation of inventories that need to be appropriated at the end of the accounting period are recorded in cost of goods sold.

6. Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. Cost of a tangible fixed asset is the amount of all expenses paid by the Company to acquire an asset at the time the asset is put into operation for its intended use. The costs incurred after the initial recognition is only recorded an increase in the price of the fixed asset if these cost are sure to increase the economic benefits in the due to the use of that property. These costs do not satisfy the above conditions are recognized as an expense in the period.

When a fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain/(loss) arisen are posted into the income or the expenses during the period.

Depreciation method of tangible fixed assets: Tangible fixed assets are depreciated according to the straight line method based on the estimated useful time as follows:

- Buildings, structures	50	years
- Machines and equipment	03 - 15	years
- Means of transportations	06 - 12	years

7. Finance lease fixed assets

Leases asset is classified as finance lease if mostly the risks and rewards associated with ownership of the asset are with the lessee. Finance lease fixed assets are stated at cost less accumulated depreciation. The cost of a finance lease fixed asset is the lower of the fair value of the leased asset at the beginning of the lease agreement and the present value of the minimum lease payments. The discount rate used to calculate the present value of the minimum lease payment for the lease agreement is the interest rate implied in the lease agreement or the rate stated in the agreement. In case it is not possible to determine the implicit interest rate in the lease agreement, use the loan interest rate at the beginning of the lease.

Finance lease fixed asset are depreciated on a straight-line basis over their estimated useful time. In the unlikely event that the Company will acquire title to the assets at the end of the lease time, the fixed assets will be depreciated over the shorter of the lease time and the estimated useful time. Depreciation years/depreciation rate of finance lease fixed asset are as follows:

- Machines and equipment	25 years
--------------------------	----------

8. Intangible fixed assets

Intangible fixed assets are recorded at cost less accumulated depreciation.

The historical cost of intangible fixed assets includes all costs that the Company must spend to acquire the fixed asset up to the time the asset is put into a ready-to-use state. Costs related to intangible fixed assets that arise after initial recognition are recorded as production and business costs in the period unless these costs are associated with a specific intangible fixed asset, and increase economic benefits from these assets.

When intangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain/(loss) arisen are posted into the income or the expenses during the period.

The Company's intangible fixed assets include:

Land use rights

Land use rights are all actual expenses spent by the Company directly related to the land to be used, including: money spent to acquire land use rights, expenses for compensation and site clearance, ground leveling, registration fees... Land use rights with indefinite are not depreciated.

Land use rights are the land rent that the Company pays once for many years and are granted a Land Use Right Certificate. The leased land use rights are depreciated over the land lease term (from 44 to 46 years).

9. Construction in progress

Construction in progress reflect costs directly related to the construction of the factory and the installation of unfinished machinery and equipment and not yet installed. Assets in the process of construction in progress and installation are not depreciated.

10. Prepaid expenses

The calculation and allocation to expense to each accounting period based on the nature, level of each prepaid expense to determine the allocation method properly and consistently.

Prepaid expense is recorded separately: incurred, allocated amount to its cost center and carried amount.

Prepaid expense is classified as follows:

- Prepaid expense related to purchase or service not exceeding 12 months or 01 normal production period, from incurred date, are classified as short - term.
- Prepaid expense related to purchase or service exceeding 12 months or 01 normal production period, from incurred date, are classified as long - term.

11. Payables and accrued expenses

Payables and accrued expenses are recognized for amounts to be paid in the future for goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of trade payables, accrued expenses, Intra-company payables and other payables is done according to the following principles:

- Trade payables: any payable having from trading activities from purchase, using service, import though consigner;
- Accrued expenses reflect amounts payables for purchase, using service from suppliers or providing already by supplier but not yet paid due to lack of supporting documents and payables to employee are allowed to record to expense;
- Intra-company payables: payables between the company with its dependent branches;
- Other payables: are non trade payables and do not related to trading activities.

For the preparation of consolidated financial statements, the payables must be classified as bellows:

- Having maturity not exceeding 12 months or 01 normal production period are classified as short - term.
- Having maturity exceeding 12 months or 01 normal production period are classified as long - term.

At the reporting date, the Company revaluates the payables denominated in foreign currency (except for advance from clients; if we have evidence that the supplier will not supply the good or provide the service and the company will receive back this advance in foreign currency, this advance will be treated as monetary item having foreign currency) at the selling price quoted by commercial bank which is trading with the Company at the reporting date.

12. Loans and finance lease liabilities

Loans in the form of issuance of bond or preference share with preferential terms required the issuer to repurchase at a certain time in the future shall not be reflected on this item.

Loans, debts should be monitored in detail for each entity, each contract and each type of loan assets. The financial lease liabilities are stated at present value of minimum lease payment or the fair value of the lease assets.

For the preparation of consolidated financial statements, the loans and finance lease liabilities must be classified as bellows:

- Having maturity not exceeding 12 months or 01 normal production period are classified as short - term.
- Having maturity exceeding 12 months or 01 normal production period are classified as long - term.

At the reporting date, the Company revaluates the loans and finance lease liabilities denominated in foreign currency at the selling price quoted by commercial bank which is trading with the Company at the reporting date.

13. Borrowing costs

Borrowing costs include loan interest and other costs incurred directly related to the loans.

Borrowing costs are recognized as an expense during the period. Where borrowing costs are directly related to the investment in construction or production of unfinished assets that require a sufficiently long period (more than 12 months), before they can be put into use for the predetermined purpose or sold. This borrowing cost is capitalized. For specific loans for the construction of fixed assets and investment real estate, interest is capitalized even if the construction period is less than 12 months. Income arising from temporary investment of loans is recorded as a reduction in the historical cost of related fixed assets.

For general loans which are used for investment in construction or production of unfinished assets, the capitalized borrowing cost is determined to the capitalization rate to weighted average accumulated cost for the investment in capital construction or production of that asset. The capitalization rate is calculated using the weighted average interest rate on outstanding loans for the period, excluding separate loans for the purpose of forming a specific asset.

14. Capital

Contributed capital

Capital contribution is stated at actually contributed capital of Company's shareholders.

Share capital surplus

Share capital surplus is recorded according to the difference between the issue price and the par value of shares when initially issued, additional issues, the difference between the reissue price and the book value of treasury shares and the structure of shares capital portion of the convertible bond upon maturity. Direct costs related to the issuance of additional shares and re-issuance of treasury shares are recorded as a decrease in share capital surplus.

15. Profit distribution

Profit after corporate income tax is distributed to shareholders after funds have been appropriated according to the Company's Charter as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to shareholders takes into account non-monetary items in undistributed after-tax profits that may affect cash flow and the ability to pay dividends such as interest due to asset revaluation. Contribute capital and profits due to revaluation of monetary items, financial instruments and other non-monetary items.

Dividends are recorded as liabilities when approved by the General Meeting of Shareholders.

16. Revenue and income recognition***Revenue from sale of goods***

Revenue from sale of goods should be recognised when all the following conditions have been satisfied:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement as a neither owner nor effective control over the goods sold;
- The amount of revenue can be measured reliably. When the contract prescribes that the buyer is entitled to return the service purchased under specific conditions, the enterprise may record revenue only when those specific conditions no longer exist and the buyer is not entitled to return the service provided (except where the customer has the right to return the goods in exchange for other goods or services);
- The economic benefits associated with the transaction of goods sold have flown or will flow to the Company;
- The costs incurred or to be incurred in respect of the transaction of goods sold can be measured reliably.

Revenue from rendering of services

Revenue from rendering of services is recognized when the outcome of that transaction can be determined reliably. In case the service is performed in many periods, the revenue recognized in the period is based on the results of the work completed at the end of the accounting period. Revenue from rendering of services should be recognised when all the following conditions have been satisfied:

- The amount of revenue can be measured reliably. When the contract prescribes that the buyer is entitled to return the service purchased under specific conditions, the enterprise may record revenue only when those specific conditions no longer exist and the buyer is not entitled to return the service provided;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The stage of completion of the transaction at the balance sheet date can be measured reliably;
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest

Interest is recognized on an accrual basis, determined on the balance of deposit accounts and the actual interest rate each year.

Other income

Other income includes income other than the company's production and business activities: sale and liquidation of fixed assets; fines due to customers' breach of contract; compensation from third parties to compensate for lost assets; revenue from bad debts that have been written off; debts payable with unidentified owners; income from gifts in cash or in kind...

17. Revenue deductions

The revenue reduction adjustment is made as follows:

- Adjust the revenue reduction of the period if the revenue deductions arise in the same period as the consumption of products, goods and services;
- Adjust the revenue reduction as follows if the revenue deductions arise after the consumption period of products, goods and services:
 - + Adjust the revenue reduction on the Financial Statement of the reporting period if the revenue deductions arise before the issuance of the Financial Statement;
 - + Adjust the revenue reduction on the Financial Statement of the period after the reporting period if the revenue deductions arise after the issuance of the Financial Statement.

Trade discounts payable are discounts given by a company to customers who purchase goods in large quantities.

Sales discount is a deduction for the buyer due to poor quality, degraded products or goods that do not meet the specifications specified in the economic contract.

Returned goods reflect the value of products and goods returned by customers due to reasons such as breach of commitment, breach of economic contract, poor quality, loss of quality, incorrect type or specification.

18. Costs of goods sold

Cost of good sold includes cost of finished goods, trade goods, services, property, construction unit sold in the production period and expense related to real estate activities...

Damaged or lost value is allowed to record to cost of goods sold after deduction of compensation (if any).

For the used material over the normal production capacity, labor and general production cost is not allowed to record to production cost but allowed to record to cost of good sold after deduction of compensation (if any), even these finished goods are not sold.

19. Financial expenses

Items recorded into financial expenses consist of: expense or loss related to financial investment; lending and borrowing expense; expense related to investment to joint venture, associates; loss from share transfer; provision of share decrease or investment; loss on trading foreign currency, ...

20. Selling and general administration expenses

Selling expense is recorded in the period of selling finished goods, trade goods and providing service.

Administrative expense reflects the general expense of the company, including: labor cost; social and health insurance, unemployment fund, union cost of management employee; office material expense, tools, depreciation of assets using for management; land rental, business licence tax; bad debt provision; outsourcing expense and other cash expenses...

21. Foreign currency transactions

Transactions arising in foreign currencies are converted at the exchange rate at the date of the transaction. The balance of monetary items denominated in foreign currencies at the end of the accounting period are converted at the exchange rate on that date.

Exchange rate differences arising during the period from transactions in foreign currencies are recorded in financial income or financial expenses. Exchange rate differences due to revaluation of monetary items denominated in foreign currencies at the end of the accounting period after clearing the increase and decrease difference are recorded in financial income or financial expenses.

The exchange rate used to convert transactions arising in foreign currency is the actual exchange rate at the time the transaction occurred. Actual exchange rates for transactions in foreign currencies are determined as follows:

- Actual exchange rate when buying and selling foreign currencies (spot foreign exchange forward contract, future contract, option contracts, swap contract): to apply exchange rate which is concluded in contract signed between Company and commercial banks;
- If the contract does not stipulate the payment rate:
 - + For capital contribution: to apply buying rate of the bank where the Company open the capital bank account;

- + For receivables: to apply buying rate of the bank where the Company assigned customers to make payment at the time of incurred transactions;
- + For payables: to apply selling rate of the bank where the Company expects the transactions at the time of incurred transactions;
- + For purchases of assets or expenses to be paid immediately in foreign currency (not through the payables account): to apply buying rate of the bank where the Company made payments.

The exchange rate used to re-evaluate the balance of monetary items denominated in foreign currencies at the end of the accounting period is determined according to the following principles:

- For foreign currency deposits in banks: foreign currency buying rate of the bank where the Company opens foreign currency accounts.
- For monetary items denominated in foreign currencies classified as other assets: the Company's Bank's foreign currency buying rate is regularly traded.
- For monetary items denominated in foreign currencies classified as liabilities: the Company's Bank's foreign currency selling rate is regularly traded.

22. Corporate income taxes

Corporate income tax expense includes current corporate income tax and deferred corporate income tax.

Current corporate income tax

Current income tax is calculated based on taxable income and tax rate for the year. Taxable income is different from accounting profit presented on the Income Statement due to adjustments to non-taxable income or non-deductible expenses and losses carried forward.

The company is responsible to pay corporate income tax at the rate of 20% on taxable income.

Deferred corporate income tax

Deferred income tax is determined on temporary differences between the book values and the tax base of assets and liabilities for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized only when it is probable that taxable profits will be available in the future against which these deductible temporary differences can be used.

Book values of deferred corporate income tax assets are considered at the balance sheet dates and will be reduced to the rates that ensure enough taxable income against which the benefits from a part of or all of the deferred income tax can be used. Previously unrecognised deferred tax assets are reviewed at the end of the reporting period and recognised when it is probable that sufficient taxable profit will be available against which the unrecognised deferred tax asset can be used.

Deferred income tax assets and deferred income tax liabilities are determined according to the tax rates expected to apply to the year the property was recovered or liabilities are paid, based on the tax law in effect at the end of the accounting period. Deferred income tax is charged or credited to the Interim Income statement and recognized directly to equity when it is also dealt with in the equity account.

The tax reports of the Company will be inspected by the Tax department. Since the different about application of the laws and regulations on tax can be interpreted by many ways; therefore, the tax amounts presented on the financial statements can be changed in accordance with the Tax Department's final decision.

23. Related parties

The party is considered as related party if one party has capacity to control or has significant impact to other party in the decision of financial and operation activities. All parties are recognized as related parties if having the same control or significant impact.

In the review of related parties, nature of the relationship is considered more than legal form.

24. Segment reporting

Business field department: A distinguishable part of an enterprise that is participated in the production process or provision of an individual product or service, a group of related products or services in which this department is subject to risks and benefit of economic different from other business departments.

Geographical area department: A distinguishable part of an enterprise that is participated in the production process or provision of products or services within a particular economic environment in which this department may be subject to risks and benefit of economic different from business departments in other economic environments.

25. Financial instruments

Basis of Circular No. 75/2015/TT-BTC dated May 18th 2015 of the Ministry of Finance, before accounting standards for financial instruments and the guiding documents were issued, the Board of Management of the Company decided not presented and notes about financial instruments in accordance with Circular No. 210/2009/TT-BTC of consolidated financial statements of the company.

26. Method of preparing consolidated financial statements

Consolidated balance sheet

The consolidated balance sheet is prepared on the basis of consolidating the balance sheet of the Parent Company and its subsidiaries by each item by adding equivalent items of assets, liabilities, and equity on the principle of:

- For items that are not adjusted, they are added directly to determine the equivalent item of the consolidated balance sheet.
- For items that need to be adjusted, adjust and then combine to consolidate these items and present them on the consolidated balance sheet. The adjusted targets related to the consolidated balance sheet of the Company include:
 - + Investments of the parent company into subsidiaries;
 - + The interests of uncontrolled shareholders;
 - + Receivables and payables between the Parent Company and Subsidiaries;
 - + Unrealized profits and losses arising from internal transactions.

Consolidated income statement

The consolidated income statement is prepared on the basis of consolidating the income statement of the Parent Company and its Subsidiaries by item by adding equivalent items according to the following principles:

- For items that are not adjusted, they are added directly to determine equivalent items of the income statement.
- For items that must be adjusted, adjust and then combine to consolidate and present the consolidated income statement. The adjusted targets related to consolidation income statement includes:
 - + Sales revenue, cost of goods sold between the parent company and subsidiaries;
 - + Revenues from financial activities and financial operation expenses between the parent company and its
 - + Benefits of shareholders do not control the profit after corporate income tax;
 - + Unrealized gains and losses arising from internal transactions between the Parent Company and the Subsidiaries.

V. ADDITIONAL INFORMATION FOR ITEMS SHOWN IN THE CONSOLIDATED BALANCE SHEET
