*Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance on disclosure of information on the securities market.*

Trung An Hi-Tech Farming Joint Stock Company would like to provide explanations on the following matters:

**The differences in profit after tax between the reviewed separate financial statements and consolidated financial statements for the first six months of 2025 and the first six months of 2024 are as follows:**

<b>Items</b>	<b>First half of 2025 (reviewed)</b>	<b>First half of 2024 (reviewed)</b>	<b>Difference</b>
Net profit after tax on separate financial statement	(26.485.726.467)	(8.333.744.359)	-217,81%
Net profit after tax on consolidated financial statements	(22.011.282.308)	(8.242.867.402)	-167,03%

Reason:

The profit after tax for the first half of 2025 in the reviewed separate financial statements was VND -26.48 billion, a decrease of VND 18.15 billion compared to the same period last year of VND -8.33 billion. The profit after tax for the first half of 2025 in the reviewed consolidated financial statements was VND -22.01 billion, a decrease of VND 13.77 billion compared to the same period last year of VND -8.24 billion.

The profit after tax for the first half of 2025 in both the separate and consolidated financial statements decreased compared to the first half of 2024, and both recorded losses. The main reason is that sales activities during this period were lower than in the same period last year. In addition, in the same period of the previous year, the Company recorded financial income from term deposits, whereas in the current year, such income was not received as all term deposits had already been settled.

Best regards!
