REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL INFORMATION

TO: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE BOARD OF MANAGEMENT
NATIONAL CITIZEN COMMERCIAL JOINT STOCK BANK

We have reviewed the interim consolidated financial statements of National Citizen Commercial Joint Stock Bank ("the Bank") consisting of Statement of interim consolidated Financial Position as at June 30, 2025, the interim consolidated Results of Operations, interim consolidated Cash Flow Statement for the period then ended and Notes to the interim consolidated Financial Statements as set out on Page 07 to Page 55, which were prepared on August 19, 2025.

Responsibility of the Board of Management

The Board of Management is responsible for the preparation and fair presentation of the interim consolidated financial statements in accordance with Vietnamese Accounting Standards, Accounting System (Bank) and prevailing regulations applicable to the preparation and presentation of the interim consolidated financial statements and also for the internal control that the Board of Management considers necessary for the preparation and fair presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the Auditor

Our responsibility is to express a conclusion on the accompanying interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Auditing Standards on the Review Engagement No. 2410 - Review of Interim Financial Information performed by the independent auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not give a true and fair view, in all material respects, of the interim consolidated financial position of National Citizen Commercial Joint Stock Bank Investment Joint Stock Company as at June 30, 2025, the interim consolidated results of its operation and its consolidated cash flows for the first six-month accoting period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the legal regulations relating to the preparation and presentation of the interim consolidated financial statements.

Emphasis of matter

Without intending to change the above auditor's conclusion, we would like to draw your attention to the special policies that the Bank has applied during the restructuring period and their actual implementation as follows:

According to Note IV.10 on accounting policies for loans to customers and debt trading activities; and Note IV.11 on debt classification, provisioning and credit risk handling, the recovery of non-performing loans and the provisioning for credit risks are carried out based on the Bank's financial capacity, at a minimum on an annual basis, in accordance with the roadmap to 2030 as set out in the Restructuring Plan approved by the competent authorities on February 7, 2024.

According to Note IV.10.2 on accounting policies for debt trading activities; in case of selling debts to Vietnam Asset Management Company ("VAMC"), debt trading companies and other organizations, the differences between the selling price and the book value of the sold debts are recorded as other receivables. The Bank allocates such differences and reverses accrued interest of the non-performing loans incurred before December 31, 2016 into the annual profit or loss in accordance with the roadmap set out in the Restructuring Plan approved based on the Resolution No. 42/2017/QH14 of the National Assembly, effective from August 15, 2017 on the pilot implementation of bad debt settlement of credit institutions, and the Restructuring Plan approved by competent authorities.

- Note IV.12.5 for special bonds issued by VAMC, the provision is made based on the Bank's financial capacity according to the Restructuring Plan associated with bad debt collection for the period 2023-2025, and the Orientation towards 2030.

- According to Note IV.13.1 on accounting policies for other long-term investments and Note V.7 on capital contributions and long-term investments, the Bank has a plan to divest capital and make provisions according to the Restructuring Plan approved by the competent authority.

- Receivables from debt sales (notes V.5 and V.10.2), the Bank has received additional collateral from third parties to ensure compliance with provisions related to this activity. In the Bank's Restructuring Plan approved by the competent authority on February 7, 2024, these receivables would be collected according to the roadmap and gradually processed based on the Bank's financial capacity. These items are periodically reported to the competent authorities.

- The provision for held-to-maturity investment securities presented in note V.6.2 is being made based on the minimum annual financial capacity according to the roadmap established in the approved Restructuring Plan for the period 2023-2025 and the Orientation towards 2030.

- The Bank has reported to the competent authority and developed a roadmap for the reversal of receivables, interest and fees receivable under other assets as presented in Note V.10 and was approved by the competent authority for the Restructuring Plan associated with bad debt collection in the period 2023-2025, and the Orientation towards 2023.

After receiving feedback from the competent authority on February 7, 2024 on the Restructuring Plan associated with bad debt collection for the period 2023-2025, and the Orientation towards 2030, the Bank reviewed the contents, approved and implemented this restructuring plan in accordance with Resolution No. 1429/2024/NQ-HDQT, 1430/2024/NQ-HDQT dated June 28, 2024 under its authority and reported to the competent authority. The fundamental contents of the Bank's Restructuring Plan are presented in Section VIII.38 Other information and information on going concern - Notes to the interim consolidated financial statements.

Other Matter

The consolidated financial statements of National Citizen Commercial Joint Stock Bank for the six-month accounting period ended June 30, 2024, and for the financial year ended December 31, 2024, were reviewed/audited by another independent auditor and audit firm. The auditor expressed an unmodified opinion and, at the same time, emphasized certain matters related to these financial statements on August 28, 2024, and February 28, 2025.

III. Adoption of Accounting Standards and Policies**Disclosure of compliance with Vietnamese Accounting Standards and the prevailing regulations**

The Bank's consolidated financial statements are prepared at original cost and in compliance with Vietnamese Accounting Standards, the Financial Reporting Regime for Credit Institutions, the regulations of the State Bank of Vietnam, and relevant legal provisions related to the preparation of consolidated financial statements. The consolidated financial statements, therefore, do not aim to present the consolidated financial position of the Bank as well as its consolidated operating results and consolidated cash flows in accordance with accounting principles and practices accepted in countries and jurisdiction other than the Socialist Republic of Vietnam. The accounting principles and practices used in Vietnam may differ from those in other countries.

Accounting System

The Bank applies the accounting system applicable to credit institutions in accordance with Decision No. 479/2004/QĐ-NHNN dated April 29, 2004, financial reporting policies for credit institutions under Decision No. 16/2007/QĐ-NHNN dated April 18, 2007, Circular No. 10/2014/TT-NHNN dated March 20, 2014, Circular No. 49/2014/TT-NHNN dated December 31, 2014 and Circular No. 22/2017/TT-NHNN dated December 29, 2017, Circular 27/2021/TT-NHNN dated December 31, 2021 issued by the State Bank of Vietnam and related accounting standards.

Basis of measurement and accounting estimates applied

The presentation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities. These estimates and assumptions also affect the reported income, expenses and provisions. These estimates are based on assumptions about a number of factors that involve varying degrees of subjectivity and uncertainty. As a result, actual results may vary, resulting in adjustments to the related items in the future.

IV. Applicable Accounting policies**1. Accounting policies for items under the Restructuring Plan for the period 2023-2025 and the orientation towards 2030**

Implementing the "Scheme for Restructuring the System of Credit Institutions in Association with Handling Bad Debts for the 2021-2025 Period" issued under Decision No. 689/QĐ-TTg dated June 08, 2022 by the Prime Minister, based on the approval contents and opinions of the State Bank of Vietnam under Official Letter 62/NHNN-TTGSNH dated February 07, 2024 ("Official Letter 62"), the Bank has completed the construction and approval of the Restructuring Plan for the period 2023-2025 and the Orientation towards 2030 ("Restructuring Plan") according to Resolution No. 1429/2024/NQ-HĐQT dated June 28, 2024, in accordance with the law, and reported to the State Bank of Vietnam.

In the Restructuring Plan for the period 2023-2025 and Orientation towards 2030, the Bank has comprehensively presented the current status of the Bank's operations in various aspects: internal control system, information technology infrastructure, asset quality, financial status, identification of problematic debts requiring appropriate handling mechanisms; based on this, determining comprehensive and overall objectives and solutions, including:

- Financial solutions: increasing charter capital; handling and recovering bad debts and outstanding assets;
- Solutions for additional risk provisioning and reversing accrued interest;
- Solutions for developing safe business operations, aiming to thoroughly address existing issues and enhance the Bank's operational efficiency, ensuring the Bank's healthy, safe, and sustainable development.

The content of the Restructuring Plan for the period 2023-2025 and Orientation towards 2030 approved and implemented according to Resolution No. 1429/2024/NQ-HĐQT is the basis for recognizing, evaluating, and presenting related items in these consolidated financial statements and is specifically presented in Note VIII.38 Other informations and information on going concern.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***2. Changes in accounting policies and disclosures**

The accounting policies adopted by the Bank in the preparation of these consolidated financial statements are consistent with those used in the preparation of the consolidated financial statements for the year ended December 31, 2024.

3. Foreign currency conversion

The exchange rate used for accounting of foreign currency buying and selling transactions is the actual buying and selling rate at the time of arising.

The exchange rate used to account for other foreign currency transactions to convert into Vietnam dong is the average exchange rate of buying and selling spot transfer of that foreign currency at the transaction date.

The ending balance of monetary items in foreign currencies must be revalued at the spot exchange rate at the end of the last working day of the reporting period, if this rate is less than 1% compared to the weighted average buying and selling exchange rate of the last working day of the reporting period. If this exchange rate is greater than 1% compared to the weighted average buying and selling exchange rate of the last working day of the reporting period, the weighted average exchange rate should be used.

Exchange rate as at June 30, 2025

26,085 VND/USD	181 VND/JPY	804 VND/THB
19,298 VND/CAD	17,343 VND/AUD	
30,530 VND/EUR	20,495 VND/SGD	
35,810 VND/GBP	32,677 VND/CHF	

4. Principles for consolidating the financial statements

A subsidiary is an entity controlled by the Bank. Control exists when the Bank has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable are taken into account. The financial statements of a subsidiary are included in the consolidated financial statements from the date on which the Bank obtains control until the date that such control ceases.

Internal balances, transactions and income/expenses arising from internal transactions between subsidiaries and the Bank are eliminated in preparing the consolidated financial statements. The accounting policies of subsidiaries are also changed when necessary to ensure consistency with the accounting policies adopted by the Bank.

5. Cash and cash equivalents

Cash and cash equivalents comprise cash, gold, balances with the SBV, treasury bills and other short-term valuable papers eligible for rediscount with the SBV, balances with other financial institutions and other CIs that are without a term and mature not exceeding three (03) months from the transaction date and securities with recovery or maturity of three (03) months or less from date of purchase.

6. Balances with and loans to other CIs

Deposits and loans to other credit institutions are disclosed and presented at their principal balances at the end of the accounting period.

The classification of credit risk for deposits and loans to other credit institutions and the corresponding provisioning is carried out in accordance with Circular No. 31/2024/TT-NHNN dated June 30, 2024 ("Circular 31") and Decree 86/2024/ND-CP dated July 11, 2024 ("Decree 86"). Accordingly, the Bank makes specific provisions for deposits (excluding demand deposits at credit institutions, foreign bank branches, deposits at social policy banks as per the regulations of the Governor of the State Bank of Vietnam regarding state credit institutions maintaining deposit balances at social policy banks) at credit institutions, foreign bank branches in accordance with the law, and deposits (excluding demand deposits at foreign credit institutions) as per the method stated in Note IV.10. According to Decree 86, the Bank is not required to make general provisions for the above-mentioned deposits and loans.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six-month accounting period of 2025

Unit: VND million

7. Derivative financial instruments and hedge accounting

The Bank engages in foreign exchange forward contracts, swap contracts, and futures contracts to facilitate customers in transferring, adjusting or reducing exchange rate risks or other market risks, as well as to serve the Bank's business objectives.

Foreign currency forward contracts are agreements to buy or sell a specific currency at a predetermined exchange rate on a future date, settled in cash. These contracts are initially recorded at their nominal value on the transaction date and subsequently revalued periodically. The difference arising from this revaluation is recorded in the "Foreign Exchange Differences" item within "Owners' Equity" and transferred to the consolidated income statement at the end of the accounting period.

Currency swap contracts are commitments that include a commitment to buy and a commitment to sell the same amount of one currency for another at exchange rates determined at the time of the transaction, with different settlement dates for the two commitments. The premium or discount resulting from the difference between the spot exchange rate on the effective date of the contract and the forward rate will be recognized immediately on the effective date of the contract as an asset if positive or a liability if negative on the consolidated financial statements. This difference will be amortized on a straight-line basis into the consolidated income statement over the term of the contract.

The notional amounts of interest rate swap contracts are not recognized on the consolidated financial statements. The interest rate swap differential is recognized in the consolidated income statement on an accrual basis.

8. Accounting for interest income, interest expense and discontinuation of interest accrual

Interest income is recognised in the consolidated statement of income on an accrual basis for loans classified as current loans that are not subject to specific provisioning.

For other debts (including restructured debts maintained as standard debts according to Circular No. 01/2020/TT-NHNN dated March 13, 2020 ("Circular 01"), Circular No. 03/2021/TT-NHNN ("Circular 03") dated April 02, 2021 and Circular No. 14/2021/TT-NHNN ("Circular 14") dated September 07, 2021, Circular No. 02/2023/TT-NHNN dated April 24, 2023 ("Circular 02"), and Circular No. 53/2024/TT-NHNN dated December 04, 2024 ("Circular 53")), the interest on these debts is recognized in the consolidated income statement when the Bank actually receives it.

Interest expenses are recognized in the consolidated income statement on an accrual basis.

9. Fee and commission income

Fee and commission income, including fees received from payment services, treasury services, fees from guarantee services, and other services, is recognized by the Bank in the consolidated statement of income when incurred.

10. Accounting for loans to customers, factoring activities**10.1 Accounting for loans to customers**

Loans to customers are stated at the balances of loans (principal) less provision for loan losses.

Short-term loans are those with a term of up to one year from the disbursement date. Medium-term loans are those with a term of over one year to five years and long-term loans are those with a term of over five years from the disbursement date.

The classification of loans and provisioning for credit risk are carried out in accordance with Circular 31 and Decree 86 as presented in Note IV.11.

10.2 Factoring activities

Selling debts to Vietnam Asset Management Company ("VAMC"), factoring company and other institutions

- The Bank sells debts to VAMC in compliance with Decree No. 53/2013/NĐ-CP issued on May 18, 2013 of the Government, Decree No. 34/2015/NĐ-CP dated March 31, 2015 amending and supplementing some articles of Decree 53/2013/NĐ-CP, Circular No. 19/2013/TT-NHNN dated September 06, 2013 of the State Bank of Vietnam stipulating on trading, handling doubtful debts of Asset Management Company.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

*For the first six-month accounting period of 2025**Unit: VND million*

Special bonds issued by VAMC corresponding the doubtful debts that Bank sells are recorded as held-to-maturity debt securities.

- The Bank sells debts to factoring company and other institutions in compliance with Circular No. 09/2015/TT-NHNN dated July 17, 2015 of the State Bank of Vietnam.

The difference between the selling price and the book value of the sold debts is recorded as other receivables and allocated to the annual profit or loss in accordance with the schedule set out in the Restructuring Plan approved based on the National Assembly's Resolution No. 42/2017/QH14, effective from August 15, 2017, on the pilot implementation of handling non-performing loans of credit institutions, and the Restructuring Plan approved by the competent authorities.

Provisions for these sold but uncollected debts (including debts of VAMC and other debt trading companies) are made based on the Bank's financial capacity according to the roadmap established until 2030 in the approved Restructuring Plan. The Bank periodically reports to the SBV on the progress of implementation according to the approved Restructuring Plan.

11. Debt classification and provision for credit risk

The Bank applies the quantitative method prescribed in Article 10 of Circular 31 in classifying debts for assets (hereinafter referred to as "debts") including:

- Lending;
- Finance leasing;
- Discounting, rediscounting of negotiable instruments and other securities;
- Factoring;
- Credit extension by issuance of credit cards;
- On-behalf payments under off-balance sheet commitments (including payments made on behalf of customers to fulfill their obligations under guarantee agreements and in letter of credit (L/C) operations (except for the cases specified in point n of this Clause) and other on-behalf payments under off-balance sheet commitments);
- Purchase and entrusted purchase of corporate bonds (including bonds issued by other credit institutions) which have not yet been listed on securities market or have not yet been registered for trading on the UPCOM trading system (hereinafter referred to as "unlisted bonds"), excluding the purchase of unlisted bonds with trusted funds to which the trustee bears the risk;
- Entrustment for credit extension;
- Making deposits (except for demand deposits made at credit institutions and foreign bank branches ("FBBs"), deposits made at social policy banks in accordance with regulations of the Governor of the State Bank of Vietnam on state-owned credit institutions' maintenance of balance of deposits at social policy banks) at credit institutions and FBBs as prescribed by law, and making deposits (except for demand deposits) at overseas credit institutions;
- Buying and selling debts according to regulations of the State Bank of Vietnam (hereinafter referred to as "SBV"), except for bad debt buying and selling transactions conducted between credit institutions or FBBs and Vietnam Asset Management Company ("VAMC");
- Repos of government bonds on securities market in accordance with regulations of law on issuance, registration, depositing, listing and trading of government debt instruments on securities market;
- Purchase of certificates of deposit issued by other credit institutions and FBBs;
- Issuance of deferred payment L/Cs containing a provision that the beneficiary is entitled to receive sight payment or advanced payment before the L/C due date, and L/C reimbursement in the form of an agreement with the customer to make payment using the reimbursing bank's funds from the date on which the reimbursing bank pays the beneficiary; L/C payment by negotiation;
- Outright purchase without recourse of sets of documents presented under L/Cs, except where a commercial bank or FBB buys outright a set of documents presented under an L/C which it issued.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six-month accounting period of 2025

Unit: VND million

Accordingly, the customer's debt group is the debt group with the highest risk when performing debt classification simultaneously according to Article 10, Article 11 of Circular 31 and the highest debt group at the customer's credit institutions provided by the Credit Information Center of Vietnam ("CIC") of the State Bank at the time of debt classification.

Debts are classified according to the risk levels as follows: Standard debts, Debts needing attention, Substandard debts, Doubtful debts and Debts likely giving rise to loss. Bad debts are debts which are classified as Substandard debts, Doubtful debts and Potential loss of capital debts. Debts are classified and provision at the end of each month of the fiscal year.

From March 13 2020 to June 30, 2022, the Bank applied the policy of loan restructuring, interest and/or fees exemption or reduction and loan classification retention for loans that meet conditions according to Circular No. 01/2020/TT-NHNN dated March 13, 2020 ("Circular 01"), Circular No. 03/2021/TT-NHNN ("Circular 03") dated April 02, 2021 and Circular No. 14/2021/TT-NHNN ("Circular 14") dated September 07, 2021 issued by the State Bank of Vietnam providing regulations on loan restructuring, interest and/or fees exemption or reduction and loan classification retention to assist customers affected by the COVID-19 pandemic.

The Bank applies Circular No. 02/2023/TT-NHNN dated April 24, 2023 ("Circular 02") issued by the State Bank of Vietnam regulating about credit institutions and foreign bank branches restructuring the debt repayment period and maintain the same debt group to support customers in difficulty. Accordingly, the Bank considers restructuring the repayment period for the principal and/or interest balance of debts based on customers' requests, financial capacity of credit institutions, foreign bank branches and meeting the regulations in Article 4 of Circular 02.

From December 04, 2024, the Bank has applied policies to restructure debt repayment terms and maintain debt classification to support customers meeting the requirements of Circular 53 and Decision 1510, which regulate the restructuring of debt repayment terms and maintaining debt classification to support customers facing difficulties due to the impact and damage of Typhoon No. 3.

Debt classification for off-balance sheet commitments

The Bank classifies guarantees, letters of credit (except for cases where assets have been recorded), payment acceptances and irrevocable lending commitments and other commitments that incur credit risks (collectively referred to as off-balance sheet commitments) into groups specified in Article 9, Article 10 or Article 11 of Circular 31. Accordingly, off-balance sheet commitments are classified according to the following risk levels: Standard debt, Debt requiring attention, Substandard debt, Doubtful debt and Debt with potential loss of capital.

General provision

According to Article 7 of Decree 86, the general provision amount shall account for 0.75% of total outstanding balance of debts classified into groups 1 to 4, except the following:

- Deposits made at CIs and FBBs in accordance with regulations of law and at overseas CIs;
- Loans, forwards of valuable papers between CIs and FBBs in Vietnam;
- Purchases of certificates of deposit or bonds issued by CIs and FBBs onshore;
- Repos of government bonds on the securities market in accordance with law on issuance, registration, depositing, listing and trading of government debt instruments on securities market;
- Other debts derived from the operations specified in clause 2 Article 3 of this Decree between CIs and FBBs in Vietnam as prescribed by law.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six-month accounting period of 2025

Unit: VND million

Specific provision

Specific provision is made on monthly basis and recorded in the Bank's consolidated income statement. The specific provision as at 31 December is made based on the outstanding principal balance less collaterals' discounted value, then multiplied by provision rates which are determined based on the debt classification as at 31 December. The basis for determination of the value and discounted value for each type of collateral is specified in Decree 86. The debt classification and specific provision rates for each group are presented as follows:

Group	Classifications of debt	% of specific provision
Group 1	Current debts	0%
Group 2	Special mentioned debts	5%
Group 3	Sub-standard debts	20%
Group 4	Doubtful debts	50%
Group 5	Loss debts	100%

For the debts identified in the Restructuring Plan, the Bank has been approved by the SBV for a settlement plan according to the roadmap developed by the Bank until the end of 2030. Provisions are made according to the roadmap of the Restructuring Plan. The Bank periodically reports to the State Bank on the progress of implementation according to the approved Restructuring Plan.

Using credit risk provision

Provisions are recognized as an expense in the consolidated statement of income and are used to settle debts classified in group 5, liquidated, bankrupt, or deceased or missing person and to deal with the loss of property for the debt in accordance with Decree 86.

12. Investment securities**12.1 Classification**

Investment securities include available-for-sale investment securities and held-to-maturity investment securities. The Bank initially recognizes investment securities at cost and classifies investment securities into proper categories at purchase date. According to Official Letter No. 2601/NHNN-TCKT dated April 14, 2009 by the SBV, for investment securities, the Bank is allowed to reclassify maximum of one time after initial recognition.

Held-to-maturity investment securities are debt securities with fixed maturities and fixed or determinable payments, where the Bank has positive intention and ability to hold until maturity.

Available-for-sale investment securities are debt securities which are held for an indefinite period and may be sold at any time.

12.2 Recognition

The Bank recognizes investment securities on the date that it acquires substantial all the risks and rewards of ownership of these securities.

12.3 Measurement

Debt securities are initially stated at cost, including transaction costs and other directly attributable costs. They are subsequently recognized at amortized cost (affected by premium/discount amortization) less provision for credit risk and diminution. Premium and discounts arising from purchases of debt securities are amortized to the consolidated statement of profit or loss on a straight-line basis from the acquisition date to the maturity date.

Post-acquisition interest income of available-for-sale debt securities and held-to-maturity debt securities is recognized in the consolidated statement of profit or loss on an accrual basis. The accrued interest before the Bank purchases debt securities will be deducted from the value of the accrued interest account when received.

Provision for diminution in value of securities is made when the carrying value is higher than the market value in compliance with Circular 48/2019/TT-BTC issued by the Ministry of Finance on August 8, 2019 and Circular 24/2022/TT-BTC issued by the Ministry of Finance on April 7, 2022. Provision for diminution is recognized in the "Net gain/(loss) from trading of investment securities" item of the consolidated statement of profit or loss.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million*

For Government bonds, Government-guaranteed bonds and municipal bonds, the Bank does not make provisions for these investments.

For corporate bonds that are listed, registered for transactions, the market price of bonds is the latest transaction price at the Stock Exchange within 10 days to the balance sheet date. If there is no transaction within 10 days to the balance sheet date, no provision is calculated for these investments.

The Bank is required to make provision for credit risk for corporate bonds (including bonds issued by other CIs) which have not yet been listed on stock exchanges or have not yet been registered for trading on the UPCoM trading system under Circular 31 and Decree 86 as described in Note IV.11.

Other unlisted debt securities (excluding unlisted corporate bonds mentioned above) are stated at cost less provision for diminution in value determined by market value of securities. If there is no market value or market value cannot be determined reliably, these securities will be recognized at their carrying amount.

Provision for investment securities will be reversed when a subsequent increase in the recoverable amount of the investment securities is due to an objective event occurring after the provision is recognized. Provision is reversed only up to the carrying amount of these securities before provision has been made.

12.4 De-recognition

Investment securities are derecognized when the contractual rights to the cash flows from these securities expired or when the substantial risks and rewards of ownership of these securities have been transferred.

12.5 Special debt securities issued by VAMC

Special debt securities issued by VAMC are term valuable papers issued by VAMC to buy non-performing debts of the Bank and recorded as held-to-maturity debt securities.

Special debt securities are recorded at face value at the transaction date and recognized at the face value less specific provision during the holding term.

The face value of special debt securities is equivalent to the book value of outstanding principal portion of the doubtful debt after deducting the specific provision which has been made but unused of that debt.

Specific provisions for special bonds are made based on financial capacity until 2030 according to the restructuring plan approved by competent authorities. The Bank periodically reports to the State Bank on the progress of implementation according to the approved restructuring plan.

13. Capital contribution, long-term investments**13.1. Accounting for Other Long-Term Investments**

Long-term investments are investments with the rate lower than 11% of the equity of the economic organizations in which the Bank is a founding shareholders or strategic partner or holds control over the establishment, decisions on financial policies and operations throughout the agreement on delegation of staffs joining in the Board of Management. Long-term investments are recorded at original cost.

For other long-term investments, the Bank plans to divest its investment under roadmap of the Restructuring Plan approved by the SBV.

13.2. Provision for long-term investments

Provision for long-term financial investments is made when the Bank determines economic institutions that the Bank invests suffers from loss (except for the loss that was defined in the business plan before investment) in compliance with Circular 48 and Circular 24. Accordingly, the provision for long-term financial investments is the difference between the actual paid-in capital of parties at the economic institutions and actual owners' equity multiply (x) the ratio of the Bank's invested capital against total actual paid-in capital of parties at the economic institutions. For investments in listed securities or where the market value of the investment is reliably determined, provisions are made based on the market value of the securities.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***14. Accounting for tangible fixed assets**

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred beyond their originally assessed standard of performance are capitalised as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are charged to the expenses in the period.

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the consolidated income statement in the period..

Determination of original costs of tangible fixed assets

Tangible fixed assets purchased

The original cost of purchased tangible fixed assets consists of the actual purchase price less (-) trade discounts or reduction plus (+) taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when such fixed assets are put into operation such as fees for installation and trial operation of fixed assets; specialists and other direct costs.

<i>Transportation and facilities</i>	<i>8 years</i>
<i>Accounting software</i>	<i>5 years</i>
<i>Other fixed assets</i>	<i>5 years</i>
<i>Intangible fixed assets</i>	<i>Maximum 20 years</i>

Land use rights which are granted for an definite term are amortized in conformity with the term stated in the certificate of land use right.

Land use rights which are granted for an indefinite term are carried at cost and not amortised.

17. Receivables**Receivables classified as credit risk bearing assets**

Receivables classified as credit risk assets are recognized at cost

Receivables classified as credit risk assets are subject to debt classification and provisioning for credit risk by the Bank in accordance with legal regulations on provisioning and use of provisions to handle risks, as presented in Note V.11.

Other receivables

Other receivables not classified as credit risk assets are recognized at cost.

Other receivables are considered for provisioning for credit risk based on the overdue age of the debt or the anticipated loss that may occur in cases where the debt is not yet due but the economic organization is bankrupt or undergoing dissolution procedures; the debtor is missing, absconding, being prosecuted, tried, or serving a sentence by legal authorities, or has died. Provision expenses are recognized in the "Operating expenses" item on the consolidated income statement.

For overdue receivables, the provisioning levels are stipulated in Circular 48 and Circular 24.

18. Prepaid expenses and deferred expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the separate statement of financial position and amortized over the period for which the amount is paid or the period in which economic benefit is generated in relation to these expenses.

19. Provisions

Provisions are recorded when: the Bank has present obligations as a result of past events; It is probable that an outflow of resources will be required to settle the obligation; The obligation is estimated reliably; Provision is not recorded for the operating loss in the future.

When there are similar obligations, the possibility of outflow of resources due to the settlement of obligations is determined by considering the whole group in general. Provision will be made through the outflow due to obligation settlement is very small.

20. Deposits and borrowings from other CIs, deposits from customer and issuance of valuable papers

Deposits and borrowings from other CIs, deposits from customers and issuance of valuable papers are presented at the principal balance at the end of the accounting period.

At initial recognition, valuable papers issuance costs are recorded as a reduction in the principal balance of the valuable papers issued. The Bank allocates these costs to "Interest and similar costs" using the straight-line method in accordance with the term of the valuable papers.

For the first six-month accounting period of 2025

Unit: VND million

21. Principles and methods for recognizing corporate income tax and corporate income tax expenses

Income tax on the profit or loss for the year comprises current and deferred tax when profit or loss of one accounting period is determined.

Current tax: is the tax payable (or recoverable) on the taxable income and tax rate enacted in current year in accordance with the law on corporate income tax.

Deferred tax: is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred income tax liability is provided for all temporary differences, deferred income tax asset is only provided when there is enough taxable profit in the future for deducting the temporary differences.

The carrying amount of deferred tax assets must be reassessed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax assets to be utilized. The unrecognized deferred tax assets will be reassessed at each balance sheet date and recognized to the extent that it has become probable future taxable profit will allow the deferred tax asset to be utilized.

The deferred tax is charged or credited in the consolidated income statement except when it relates to items recognized directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxable entity and the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The tax amounts payable to the State budget will be finalized with the tax office. Differences between the tax amounts payable specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

22. Accounting for borrowing, issuance of debt securities, equity instruments

Borrowing costs are interest and other costs incurred in direct relation to borrowings of an enterprise; Borrowing costs are recognised as an expense in the year in which they are incurred are capitalised as part of the cost of the assets concerned when they satisfy conditions stipulated in the Vietnamese Accounting Standards.

23. Owners' equity

The charter capital is the amount that is contributed by shareholder and supplemented from the profit after tax according to the Resolution of the shareholder meeting or base on the charter of the Bank. The chartered capital will be recorded at the actual contributed capital by cash or assets calculated according to the par value of issued shares in the early establishment period or additional mobilization to expand operation.

Share premium reflects the increase/decrease in the difference between the issuance price of shares and their par value when issuing shares for the first time or additional shares, as well as the increase/decrease in the difference between the issuance price of shares and the repurchase price when reissuing treasury shares. Any direct costs related to share issuance are recognized as a deduction from share premium.

Treasury share is the share the Bank issued and purchased back. The payment for purchasing share, including directly attributable expenses, will be deducted into the owners' equity till the treasury share has been cancelled or reissued. The received amount from reissue or sale of the treasury share, deducting expenses related to the reissue or sale will be included in the owners' equity.

Other owners' capital: Business resource which is added from the operating result or offered, sponsored or under assets revaluation.

Funds and reserves: The Bank allocates the following reserve funds before distributing profits in accordance with the Law on Credit Institutions No. 47/2010/QH12 dated June 16, 2010, Decree No. 93/2017/ND-CP dated August 07, 2017 on the financial regime for credit institutions, foreign bank branches, and financial supervision, evaluation of the efficiency of state capital investment in credit institutions wholly owned by the state, and credit institutions with state capital, and according to the Bank's Charter.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***Principle for recognising retained earnings**

Principle for recognising retained profit: the retained profit is recorded as the profit (loss) from the Bank's result of operation after deducting the current year corporate income tax and the adjusted items due to the retroactive application of changes in accounting policy and adjustments for material misstatement of the previous year.

The distributing of profit is based on the charter of the Bank and the Board of Management proposal approved by the annual shareholder meeting.

24. Entrustment activities at risk of credit institutions

The Bank implements entrustment activities for lending on behalf of other economic or credit institutions.

The invested capital from entrustment and entrustment receiving activities is recorded when the entrustment contract has been signed and the entrusted fund has been implemented. Rights and obligations of entrustor and entrustee to profit, distribution of profit, entrustment fee and other rights and obligation specified in the contract.

The Bank's entrustment activities include:

Entrustment activities not exposed to risk

Assets held for the purpose of managing on the behalf, investment entrustment receiving and lending are not considered as the Bank's assets and this not included in the financial statements.

Entrustment receiving activities exposed to risk

The Bank conducts entrustment receiving activities for lending customers. The Bank records debt outstanding from entrustment fund in loans to customers. The policies applicable to loans to customers is carried out in compliance with the State Bank of Vietnam as mentioned in Notes IV.10.

25. Principles for recording earnings per share

Basic earnings per share is calculated by dividing net income available to common shareholders before appropriating to Bonus and Welfare Fund by the weighted-average number of common shares outstanding during the period.

Diluted EPS is calculated by dividing net income available to common shareholders (after adjusting dividends of preferred convertible shares) by the weighted-average number of common share outstanding and the weighted-average number to be issued in case where all dilutive potential common are converted into common shares.

26. Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Bank. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Bank that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Bank and close members of the family of these individuals and companies associated with these individuals also constitute related parties. In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

37. Risk management policies for financial instruments

Financial risks include credit risk, market risk and operating risk.

37.1 Credit risks

Credit risks are incurred in case the Bank's customers and partners do not fulfill their obligations causing the financial loss. The credit risks are resulted from loans and guarantee under all form.

The Bank bears credit risks in investments in debt securities and other risks in its transactions ("transaction risk") including assets in the list of transactions outside the shareholders' equity, derivative instruments and payments outstanding with partners.

The credit risks are the most significant risks in the Bank's business, so the Board of Management manages them carefully. A division for managing credit risks, which is responsible for frequently reporting to the Board of Management and the head of each unit are in charge of the management and control of credit risks.

37.1.1 Measurement of credit risk for determining loss and making provision**(a) Loans and guarantee**

The measurement of credit risks are done before and during the lending term.

The Bank has built the model for supporting the measurement of credit risk. The scaling model is used in all material items and set a foundation for measuring the risks of violation on payment provision before and during the lending term.

Based on the above measurement, the Bank classifies loans and makes provisions in accordance with Circular No. 31 and Decree 86 of the State Bank of Vietnam to measure and classify loans and guarantees as presented in Note IV.11.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***(b) Debts securities**

Investments of the Bank in debts securities are debts instruments issued by the Government and prestigious credit, economic institutions. Credit risks are estimated by each specific debt in case the Bank assumes that there is change in credit risk of its partners. These investments are considered as a way to ensure a better credit plan and maintain available credit sources for meeting requirements of capital supply.

37.1.2 Policies to control and minimize credit risks

The Bank controls credit risks by applying the credit limit to risks (on and off-balance sheet) relating to each customer or group of customers as stipulated by the State Bank of Vietnam. Besides, credit risks are controlled by periodically reviewing groups of mortgaged assets and analyzing the capacity to pay interest and principal portion of the loans of existing and potential customers.

The Bank issues some policies and practices to minimize credit risks. A traditional and popular method is to hold secured assets for capital advances. Types of assets pledged as security for loan and advances include:

- Properties: house;
- Right towards operating assets: head office, machinery and equipment, inventory, receivables;
- Right towards financial instruments: equity securities and debt securities.

For secured loans, the collateral is independently valued by the Bank, applying specific discount rates to determine the maximum loanable value. The discount rate for each type of collateral is guided in Decree 86 issued by the Government and is adjusted by the Bank for each specific case. When the fair value of the collateral decreases, the Bank will require the borrower to mortgage additional assets to maintain a safe level of risk for the loan.

The credit risks of commitments including letter of credit, financial guarantee contract are the same with credit risks of loan. L/C together with vouchers and commercial L/C is the Bank's written commitment to pay to third party with the amount stipulated by specific terms and conditions on behalf of its customers, so risk is less than direct loans. The issuance of credit letter and financial guarantee contract follows the process of assessing and approving the credit for loans and advances to customers except when the customers deposit 100% for relevant commitments.

37.2 Market risk

Market risks are incurred when the fair value of future cash flows of certain financial instrument fluctuate following the change of the market value. The market risks are resulted from the open status of interest rate, monetary products and equity instruments. All of these products are under the impact of the fluctuation of the market in general and each type of market as well as the change in fluctuation level of the market: interest rate risk, currency risk and other risks.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***37.2. Market risks****37.2.2 Currency risks**

Currency risk is the risk in which the value of financial instrument changes due to the changes in exchange rate. The Bank is established and operates in Vietnam and its reporting currency is VND. The currency the Bank uses for its transactions is also VND. Most of loans and advances to customers of the Bank are in VND and USD. However, some other assets are in currencies other than VND and USD, so the Bank has built the limit for each type of currencies. The monetary status is supervised on daily basis and strategy to prevent risks is applied by the Bank to ensure that the monetary status will be kept in already-built limit.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS*For the first six-month accounting period of 2025**Unit: VND million***37. Management of financial risks (continued)****37.3 The fair value of financial assets and liabilities**

Financial assets and liabilities are stated at original cost less provision of devaluation of assets. Therefore, the book value of financial assets and liabilities of the Bank may be different from their fair value.

At present, the Bank has not determined the fair value of all financial assets and liabilities. The Bank will present the fair value of those assets and liabilities when the authority has given detailed guidance thereon.

38. Other Information and Going Concern

Implementing the "Project to restructure the system of credit institutions associated with handling bad debts for the period 2021- 2025" approved by the Prime Minister in Decision No. 689/QĐ-TTg dated June 8, 2022 ("Project 689"), the Bank has signed a consulting service contract with Ernst & Young Vietnam Company Limited (E&Y). Accordingly, E&Y has reviewed the Bank's entire asset portfolio, identified the list of bad debts and outstanding assets from a prudent perspective, determined solutions and a roadmap to handle bad debts and other identified outstanding assets including: debt classification, risk provision; specific roadmap for handling and collecting outstanding debts and assets; handling accrued interest that must be withdrawn, etc. as a basis for the Bank to develop a Restructuring Plan associated with handling bad debts in the period 2023-2025 and the Orientation towards 2030.

Based on the orientation and solutions stated in Project 689, the guidance documents of the SBV and the results of review and assessment of E&Y, the Bank has developed the Restructuring Plan for the period 2023-2025 and the Orientation towards 2030, which specifically presents: (i) Achievements, shortcomings, limitations, difficulties, causes and lessons learned in implementing the Restructuring Plan 2019-2020; (ii) Evaluation of the current state of the Bank's operations as at December 31, 2022; (iii) The Bank's Restructuring Plan for the period 2023-2025 and the Orientation towards 2030 includes viewpoints, restructuring goals as well as restructuring solutions and implementation route, including Proposal to allow the Bank to: gradually allocate provision, withdraw accrued interest on the basis of revenue- expenditure balance, have a debt collection plan for loans classified from group 2 to Group 5, have a plan to recover long-term investments according to each year's route, have a plan to handle debt assets, and increase charter capital to improve financial capacity.

The bank has submitted to the SBV Restructuring Plan for the period 2023-2025 and the Orientation towards 2030, and received feedback from the SBV on February 7, 2024. Accordingly, the Bank reviewed the contents commented by the SBV to complete, supplement, and approved the Restructuring Plan according to Resolutions No. 1429/2024/NQ-HĐQT and 1430/2024/NQ-HĐQT dated June 28, 2024, within its authority and reported to the SBV.

With the Restructuring Plan as presented, the Bank remains confident in its ability to continue as a going concern.

Other than the information presented under the Restructuring Plan above, the Bank does not have any contingent liabilities, commitments, or any other relevant information as at the end of this financial period that requires adjustment or disclosure in the consolidated financial statements.

39. Subsequent events

As of the date of these consolidated financial statements, there have been no significant events occurring after June 30, 2025, that could have a material impact on the Bank's financial position and require adjustments or disclosures in these consolidated financial statements for the period from January 01, 2025 to June 30, 2025.
