4. Auditor

Moore AISC Auditing and Informatics Services Company Limited ("Moore AISC") has been appointed as the independent auditor for the first 06 months of the year 2025 of the Company.

5. The Board of Management's responsibility for the interim separate financial statements

The Board of Management of the Company is responsible for the preparation of financial statements which give a true and fair view of the financial position of the Company as at June 30, 2025, the separate financial performance and the separate cash flows for the first 06 months of the year 2025. In preparing these interim separate financial statements, the Board of Management is required to:

- Select suitable accounting policies and then apply them consistently;
- Made judgments and estimates that are reasonable and prudent;
- The interim separate financial statements of the Company are prepared on the going concern basis unless it is inappropriate to presume that the Company will continue in business;
- Fully disclose the identities of the Company's related parties and all relationships and transactions with related parties that have occurred.

The Board of Management is responsible for ensuring that accurate accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the interim separate financial statements are prepared in compliance with the Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System presented in the notes to the interim separate financial statements. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management has not identified any information related to fraud or suspected fraud that could affect the Company and involve the Board of Directors, the Board of Management, employees with significant roles in internal control, or other matters where fraud could have a material impact on the interim separate financial statements.

REPORT OF BOARD OF DIRECTORS

For the first 06 months of the year 2025

6. Approval of the interim separate financial statement

We approve the attached interim separate financial statements to give a true and fair view, in all material respects of the financial position of the Company as at June 30, 2025 as well as the results of its operations and its cash flows for the first 06 months of the year 2025, in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and other statutory requirements relevant to the preparation and presentation of interim separate financial statements.

For and on behalf of the Board of Directors

Nguyen Thanh Nha

Chairman

Ho Chi Minh City, Vietnam

August 27, 2025

No: A0625255-SXR/MOORE AISC-DN6

REPORT ON REVIEW OF INTERIM SEPARATE FINANCIAL STATEMENTS**TO: SHAREHOLDERS, BOARD OF DIRECTORS AND BOARD OF MANAGEMENT
HO CHI MINH CITY ELECTRIC POWER TRADING INVESTMENT CORPORATION**

We have reviewed the interim separate financial statements of **Ho Chi Minh City Electric Power Trading Investment Corporation** (hereinafter referred to as "the Company") consisting of separate balance sheet as at June 30, 2025, separate income statement, separate cash flow statement for the first 06 months of the year 2025 and notes to the interim separate financial statements as set out on page 06 to page 42, which were prepared on August 27, 2025.

The Board of Management's responsibility

The Company's Board of Management is responsible for the preparation and fair presentation of the interim separate financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and other statutory requirements relevant to the preparation and presentation of the interim separate financial statements and also for the internal control that the Board of Management considers necessary for the preparation and fair presentation of the interim separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the interim separate financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 – Review of interim financial information performed by the independent auditor of the entity.

A review of the interim separate financial information covers inquiries, primarily of persons responsible for financial and accounting matters and performance of analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Auditing Standards and consequently does not enable us to obtain the assurance that we would become aware of all significant matters that might be identified in an audit and that accordingly no audit opinion is expressed.

Basis for qualified conclusion

As presented in Note V.7 (detail of "Work in progress") of the accompanying interim separate financial statements including:

- The general administrative expenses of each construction contracting division that had not been considered for allocation from prior years, with a balance of VND 12,498,253,760 as January 1, 2025, of which VND 1,546,411,943 was recognized by the Company in the Income Statement for the current period.
- The long-outstanding expenses relating to projects currently suspended, which have not yet been considered for impairment, with a balance of VND 1,100,342,844.

Based on the documents provided by the Company and the alternative audit procedures performed, we were unable to determine the exact amount to be allocated or the impairment provision to be recognized as an expense in the separate income statement for the current period. However, the impact of this matter does not have a pervasive effect on the overall interim separate financial statements for the first 06 months of the year 2025.

Auditor's qualified conclusion

Based on our review, except for the effects of the matter described in the "Basis for Qualified Conclusion" paragraph, the attached interim separate financial statements give a true and fair view, in all material respects of the financial position of **Ho Chi Minh City Electric Power Trading Investment Corporation** as at June 30, 2025, as well as the results of its operations and its cash flows for the first 06 months of the year 2025, in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and other statutory requirements relevant to the preparation and presentation of interim separate financial statements.

As at June 30, 2025, the Company had one (01) directly owned subsidiary as follows:

<i>Company's name and address</i>	<i>Principal activities</i>	<i>Percentage of shareholding</i>	<i>Percentage of owning</i>	<i>Percentage of voting right</i>
Tradin One Co., Ltd. 3rd Floor, No. 14A, Street No. 85, Quarter 1, Tan Hung ward, Ho Chi Minh City, Vietnam	- Architecture and technical consulting; - Activities in the field of construction.	100%	100%	100%

NOTES TO THE SEPARATE FINANCIAL STATEMENTS*For the first 06 months of the year 2025**Unit: VND***8. Disclosure on comparability of information in the interim separate financial statements**

The selection of figures and information needs to be presented in the interim separate financial statements has been implemented based on the principle of comparability among corresponding accounting periods.

II. ACCOUNTING PERIOD AND REPORTING CURRENCY**1. Fiscal year**

The fiscal year is begun on January 01 and ended December 31 annually.

The accounting period of the first 06 months begun on January 01 and ended June 30 annually.

2. Reporting currency

Vietnam Dong (VND) is used as a currency unit for accounting records.

III. ADOPTION OF ACCOUNTING STANDARDS AND POLICIES**1. Applicable Accounting System**

The Company applies the Corporate Accounting Standards and System approved by the Ministry of Finance in Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 53/2016/TT-BTC dated March 21, 2016, amending and supplementing certain provisions of Circular No. 200/2014/TT-BTC, and circulars guiding the implementation of accounting standards of the Ministry of Finance on the preparation and presentation of separate financial statements.

2. Disclosure of compliance with Vietnamese Accounting Standards and the Vietnamese Accounting System

The Board of Management of the Company ensures compliance with the requirements of the Corporate Accounting Standards and System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 53/2016/TT-BTC dated March 21, 2016, amending and supplementing certain provisions of Circular No. 200/2014/TT-BTC, as well as circulars guiding the implementation of accounting standards by the Ministry of Finance in the preparation and presentation of separate financial statements.

IV. APPLICABLE ACCOUNTING POLICIES**1. Principles for recording cash and cash equivalents**

Cash on hand, demand deposit and cash in transit.

Cash and cash equivalents comprise term deposits and other short-term investments with an original maturity of three months or less, highly liquid, readily convertible to known amount of cash and subject to an insignificant risk of changes in value.

2. Principles for recording financial investments**Held-to-maturity investments**

Held-to-maturity investments are term bank deposits.

The held-to-maturity investments are initially recorded at the original cost including buying price and costs attributable to the acquisition of the investments.

Investments in subsidiaries

Investments in subsidiaries are recognized when the Company holds more than 50% of the voting rights and has the power to govern the financial policies and activities so as to obtain economic benefits from the activities of that company. When the Company no longer holds control over the subsidiary, investments in subsidiaries are written down.

Investments in subsidiaries are initially recorded at cost and are not subsequently adjusted for changes in the investor's capital contribution to the investee's net assets. Cost includes the purchase price and directly attributable investment-related expenses. In case of non-monetary assets investment, the investment fee should be recorded at the fair value of the non-monetary assets at the date of occurrence.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the first 06 months of the year 2025

Unit: VND

2. Principles for recording financial investments (cont.)

Provision for loss of investment in subsidiaries, joint ventures, and associates is made when the Company who receive investment capital suffer from loss causing the possibility to lose capital or when the value of investments in subsidiaries, joint ventures, and associates is impaired. The financial statements of the investee are the base for making provision for loss of investment.

Investments in other entities

Equity investment in other entities represents the Company's investment in other entities' equity instruments. However, the Company does not hold any control or joint control right and exercise significant influences over the investees either.

The investments are stated at original cost including purchase price and costs directly attributable to the investment.

In case of non-monetary assets investment, the investment fee should be recorded at the fair value of the non-monetary assets at the date of occurrence.

Regarding the investments the Company holds in a long time (not trading securities) and no significant influences are exercised on the investees, provision for loss will be made as follows:

+ Investments in listed equity or securities measured at fair value with reliably determinable fair values, the provision is recognized based on the market value of the securities.

+ If it is impossible to determine the investments' fair value at the reporting date, the provision will be made on the basis the loss that investee suffers. Basis for making provision for loss of investments in other entities is the separate financial statements of the investee (if it is a parent company) or the financial statements of the investee (if it is an independent entity without subsidiaries).

3. Principles for recording trade receivables and other receivables

Receivables are recognized at cost, net of provision for doubtful receivables.

The classifying of the receivables as trade receivables and other receivables depends on the nature of the transaction or relationship between the company and debtor.

Method of making provision for doubtful debts: Provision for doubtful debts is estimated for the loss value of the receivables, other held-to-maturity investments similar to doubtful debts that are overdue and undue, but are likely to become possibly irrecoverable due to insolvency of debtors who go bankrupt, making procedures for dissolution, go missing or run away....

4. Principles for recording inventories

Inventories are stated at original cost less (-) the provision for the decline in value of obsolete and deteriorated inventories.

Original costs are determined as follows:

- Raw materials, materials, goods: includes purchase price, transportation costs and other directly related costs incurred to get the inventory at its current location and condition.
- Work in progress: costs of raw materials, labor and other directly costs for producing inventories incurred in the duration of building works in progress.

Method of calculating inventories' value: Weighted average method.

Method of accounting for the inventories: Perpetual method.

Method of recognizing provision for obsolete inventories: Provision for obsolete inventories is recognized when the NRV of inventories is lower than their cost. is the estimated selling price less the estimated costs of completion and the estimated selling expenses. Provision for obsolete inventories is determined as the excess of the cost of inventories over their net realizable value. Provisions are made for each inventory item where the cost exceeds its net realisable value.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the first 06 months of the year 2025

Unit: VND

5. Principles for recording fixed assets**5.1 Tangible fixed assets**

Tangible fixed assets are stated at original cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred beyond their originally assessed standard of performance are capitalised as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are charged to the expenses in the period.

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the income statement.

The original cost of purchased tangible fixed assets shall consist of the actual purchase price less (-) trade discounts or reduction plus (+) taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when such fixed assets are put into operation such as fees for installation and trial operation of fixed assets; specialists and other direct costs.

The original cost of a tangible fixed asset formed from capital construction under the mode of tendering shall be the finalisation price of the construction project, other relevant fees plus (+) registration fee (if any).

Fixed assets which are buildings, structures attached to land use right, the value of land use right is computed separately and recorded as intangible fixed assets.

5.2. Principles for recording intangible fixed assets

Intangible fixed assets are recognized at historical cost minus (-) accumulated depreciation. The historical cost of intangible fixed assets includes all expenses incurred by the enterprise to acquire the intangible fixed asset up to the point it is expected to be put into use.

Land use right

The original cost of an intangible fixed asset which is the land use right is the amount paid for legally acquiring land use rights from others, including compensation costs, site clearance costs, land leveling costs, and registration fees.

Computer software

The original cost of a in tangible fixed asset which is the computer software shall be the total of actual expenses incurred by the Company to obtain the computer software.

5.3 Method of depreciating and amortizing fixed assets

Depreciation is charged to write off the cost of fixed assets on a straight- line basis over their estimated useful lives. Useful life means the duration in which the tangible fixed assets produce their effect on production and business.

The estimated useful life for assets is as follows:

<i>Buildings and structures</i>	<i>05 - 25 years</i>
<i>Transportation and facilities</i>	<i>06 - 10 years</i>
<i>Office equipment</i>	<i>04 - 06 years</i>
<i>Computer software</i>	<i>03 years</i>

Land use rights which are granted for an indefinite term are carried at cost and not amortised.

6. Principles for recording construction in progress

Construction in progress is stated at original cost. These are all necessary costs to build the project such as expenses of construction, equipment, project management, consultancy on construction investment and other expenses.

These costs are capitalised as an additional cost of asset when the works have been completed. After the works have been finalized, the asset will be handed over and put into use.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS*For the first 06 months of the year 2025**Unit: VND***7. Accounting principles for business cooperation contract (BCC)**

The Company initially records amounts contributed to BCC at original cost and reflects as other receivables.

BCC in form of jointly controlled assets

Jointly controlled assets under BCC mean any asset which is purchased or constructed for the purpose of the joint-ventures and bring benefits to ventures in accordance with the Joint-venture Contract. Each venture may take a share of the output from the jointly controlled assets and each bears an agreed share of the expenses incurred.

Equities (monetary) contributed in BCC and recorded in the financial statements are contributed assets in joint ventures based on the contract.

8. Principles for recording prepaid expenses

Prepaid expenses are all expenses that actually incurred but relate to the operating result of several accounting periods. The Company's prepaid expenses include: Tools and supplies,...

Method of allocating prepaid expenses: The determining and allocating of prepaid expenses into costs of production and doing business of each period is on a straight-line basis. Based on the nature and level of each expense, the term of allocation is defined as follows: short-term prepaid expenses should be allocated within one year; Long-term expenses should be allocated in the term from over 12 months to 36 months.

9. Principles for recording liabilities

Liabilities are recorded at original cost and not lower than the payment obligation.

Liabilities shall be classified into trade payables and other payables depending on the nature of transactions and relationship between the Company and debtors.

Liabilities must be kept records in detail according to payment schedule, creditor, type of original currency (including revaluation of liabilities payable which satisfying the definition of monetary assets denominated in foreign currencies) and other factors according to requirements of the enterprise.

At the reporting date, if it is evident that there is an unavoidable loss, an amount payable shall be recorded according to cautious rules.

10. Principles for recording borrowings

Borrowings are total amounts the Company owes to banks, institutions, financial companies and other objects (excluding borrowings under the form of bond or preferred stock issuance which require the issuer to repurchase at a certain time in the future).

Borrowings and financial lease liabilities are monitored in detail according to creditor, agreement and borrowed asset.

11. Principles for recording payables to Employees, Salary Policies, and Mandatory Insurance Contributions

Salaries are calculated and accrued as expenses during the year based on the Company's Salary Regulations and employment contracts. Accordingly, contributions to social insurance, health insurance, and unemployment insurance are also accrued in compliance with current regulations.

Salaries paid to employees are specified in their employment contracts.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

*For the first 06 months of the year 2025**Unit: VND***12. Principles for recognizing accrued expenses**

Accrued expenses include costs related to construction activities, consulting, surveys, design, etc., that have been incurred during the reporting period but have not yet been paid. These expenses are recognized based on reasonable estimates of amounts payable under specific contracts and agreements.

13. Principles for recording provision liabilities

Provisions are recognized when the following conditions are satisfied: the Company has a present (legal or constructive) obligations as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

The recognized value of a provision liability which is estimated to be the most reasonable for settling the present obligation at the balance sheet date.

The Company's provisions for payables include provisions for warranties of construction works and sold products. In previous years, the Company's Board of Directors applied a recognition method based on the actual costs incurred for warranty repairs, as the estimated impact of potential losses on the value of construction works and sold products was deemed insignificant. As of the reporting date, the Company's Board of Directors has reviewed and projected potential losses that may occur for certain construction works and sold products during the period. Accordingly, provisions have been made in compliance with the guidelines of relevant regulations.

14. Principles for recording owners' equity**Share capital**

Share capital is the amount that is initially contributed or supplemented by shareholders. Share capital will be recorded at the actual contributed capital by cash or assets calculated according to the par value of issued shares in the early establishment period or additional mobilization to expand operation.

Undistributed profit

Undistributed earnings record the Company's accumulated results after CIT at the reporting date.

The distribution of profit is based on the charter of the Company approved by the annual shareholder meeting.

15. Principles for recognizing treasury shares

The owners' equity instruments acquired by the Company (treasury share) are recorded at original cost and deducted into the owners' equity. The Company does not record gain (loss) when purchasing, selling, issuing or cancelling its equity instruments.

16. Principles for recording revenues**Revenue from goods sold**

Revenue from sales is recognized when all 5 following conditions have been satisfied: 1. The enterprise has transferred to the buyer the significant risks and rewards of ownership of the goods; 2. The enterprise retains neither continuing managerial involvement as an owner nor effective control over the goods sold; 3. The amount of revenue can be measured reliably; 4. The economic benefits associated with the transaction has flown or will flow to the enterprise; 5. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the first 06 months of the year 2025

Unit: VND

16. Principles for recording revenues (cont.)**Revenue from service rendered**

Revenue from services rendered is recorded when the result of the supply of services is determined reliably. In case where the services are rendered in several periods, the revenue will record by the part of completed works at the balance sheet. Revenue from services rendered is determined when the following four conditions have been satisfied: 1. The revenue is determined firmly; 2. The economic benefits associated with the transaction has flown or will flow from the supply of the services; 3. Part of completed works can be determined at the balance sheet date; 4. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

If the contract's results cannot be determined firmly, the revenue will be recorded at the recoverable level of expenses recorded.

Principles for recording revenues of a construction contract

Revenues of a construction contract include: Initial revenue inscribed in the contract; and increase and decrease amounts in the contract performance, bonuses and other payments, provided that these amounts are capable of changing the revenue and can be reliably determined. Revenue of a construction contract is determined as the reasonable value of received or to be-received amounts. The determination of the contractual revenue is affected by many uncertain factors which depend on future events. The estimation must often be corrected upon the occurrence of such events and the settlement of uncertain factors. As a result, the contractual revenue may be increased or decreased in each specific period.

Construction contract revenues and costs are recognized in the following two cases:

In case the construction contract defines that the contract shall be entitled to payment basing on the value volume achieved: when achieving results of construction contract are estimated reliably and confirmed by customers, then revenues and expenditures related to the contract recorded in proportion to the completed work confirmed by the customer in period are recorded in the bills set up.

For fixed price construction contracts, the contract results shall be reliably estimated when the following four (4) conditions are simultaneously met: 1. Total contract revenue can be reliably calculated; 2. Enterprises can get economic benefits from the contract; 3. Costs for completing the contract and the work already completed at the time of compiling financial statements can be reliably calculated; 4. Costs related to the contract can be clearly identified and reliably calculated so that actual total contract cost can be compared with the total cost estimates.

For cost plus construction contracts, the contractual results shall be reliably estimated when the following two conditions are simultaneously met: 1. Enterprises can get economic benefits from the contract; 2. Costs related to the contract can be clearly identified and reliably estimated regardless of whether they are reimbursed or not.

Principles for recording financial income

Financial incomes include interests and income from other financing activities (Foreign exchange gains).

Income arising from interests shall be recognized if they simultaneously satisfy the two (2) conditions below 1. It is possible to obtain economic benefits from the concerned transactions; 2. Income is determined with relative certainty.

- Interests recognized on the basis of the actual time and interest rates in each period;

When an amount which has been recorded as an income becomes irrecoverable, such irrecoverable or uncertainly recoverable amount must be accounted as expense incurred in the period, but not recorded as income decrease.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

*For the first 06 months of the year 2025**Unit: VND***17. Principles and methods for recognizing the cost of goods sold**

The cost of goods sold and services provided during the period is recorded in the income statement based on the costs incurred from goods, materials sold, and other costs provided during the year. The cost of goods is recognized at the time the transaction occurs or when it is relatively certain that it will arise in the future, regardless of whether the payment has been made or not. The cost of goods sold and revenue are recognized simultaneously in accordance with the matching principle. Costs exceeding the normal consumption level are immediately recorded in the cost of goods sold based on the prudence principle.

18. General and administrative expenses

General and administrative expenses represent common expenses, which include payroll costs for office employees' (salaries, wages, allowances, etc.); social insurance, health insurance, trade union fees and unemployment insurance; stationery expenses, material expenses, depreciation expenses of fixed assets used for administration activities; land rental, license tax; provision for doubtful debts; utility services (electricity expenses, water expenses, phone, fax, property insurance, fire and explosion insurance etc.); sundry expenses .

19. Principles and method of recording financial expenses

Financial expenses include expenses related to borrowing cost and provision for devaluation of financial investment.

Financial expenses are recorded in details by their content and determined reliably when there are sufficient evidences on these expenses.

20. Principles and methods of recording corporate income tax (CIT)

Corporate income tax includes the current corporate income tax expense and the deferred corporate income tax expense arising during the year, which serve as the basis for determining the Company's after-tax business performance in the current financial year.

Current income tax expense represents the corporate income tax payable based on taxable profit for the year and applicable tax rate.

The tax amounts payable to the State budget will be finalized with the tax office. Differences between the tax amounts payable specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

The company is obligated to pay corporate income tax at a rate of 20% on taxable income.

21. Financial instruments**Initial recognition****Financial assets**

Financial assets within the scope of Circular No. 210 /2009/TT-BTC issued by the Ministry of Finance on 6 November 2009 ("Circular 210") are classified, for disclosures in the notes to the separate financial statements, into financial assets recognized at fair value through the income statement, borrowings and receivables or available-for-sale financial assets as appropriate. The Company determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at cost plus directly attributable transaction costs.

Financial assets of the Company comprise cash, short-term deposits, trade accounts receivables and other receivables, held-to-maturity investments.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the first 06 months of the year 2025

Unit: VND

21. Financial instruments (cont.)**Financial liabilities**

Financial liabilities within the scope of Circular 210 are classified, for disclosures in the notes to the separate financial statements are appropriately classified as financial liabilities recognized through the separate income statement. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at cost, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings.

Subsequent re-measurement

Currently, there is no requirement to remeasure the value of financial instruments after initial recognition.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the separate balance sheet if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

22. Related parties

Related parties include enterprises and individuals who, directly or indirectly through one or more intermediaries, have control over or are controlled by the Company. Related parties also include entities and individuals who directly or indirectly hold voting rights and have significant influence over the Company, key management personnel such as the Board of Directors and the Board of Management, close family members of these individuals, as well as entities affiliated with or associated with these individuals. When assessing each related party relationship, the substance of the relationship is considered rather than its legal form.

23. Segment reporting

A segment is a distinguishable component of the Company that is engaged either in producing or providing related products or services (business segment), or in producing or providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

5. Other receivables (cont.)

(*) Based on the cooperative agreement for the implementation of the project titled "Wind-Powered Electricity Generator, Two Coaxial InS-W-1000 Systems," No. 11/CNS-NCPT dated January 17, 2012, and the relevant appendices between Ho Chi Minh City Electric Power Trading Investment Corporation and Saigon Industry Corporation (CNS). Accordingly, the project is funded by the Ho Chi Minh City Department of Science and Technology with a budget of VND 43,926,000,000, and the implementation capital contributed by both parties amounts to VND 119,827,231,889, with each party contributing VND 59,913,615,945. As of June 30, 2025, the Company has invested VND 31,122,853,312 in the project.

According to Supervision Report No. 653/CNS-QLDA dated June 20, 2025, of Saigon Industry Corporation (CNS), the project is currently in the stage of manufacturing and outdoor testing of the first turbine unit in the Russian Federation, with acceptance of three turbine units expected to be completed by the end of 2025. The report also states that the project is still facing many difficulties regarding funding sources, site location, and other objective factors. Therefore, CNS has proposed and recommended that the Ministry of Industry and Trade request the Government of the Russian Federation to provide support for the implementation of the project.

(*) The Company's tax finalization will be subject to inspection by the tax authorities. As the application of tax laws and regulations to various types of transactions can be interpreted in different ways, the tax amount presented in the separate financial statements may be adjusted based on the tax authorities' decisions.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS*For the first 06 months of the year 2025**Unit: VND***VII. OBJECTIVES AND FINANCIAL RISKS MANAGEMENT POLICIES**

Major risks of financial instruments include market risk, credit risk and liquidity risk.

The Board of Management considers the application of management policies for the above risks as follows:

1. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to the changes in market prices. There are three market risks: interest rate risk, foreign exchange risk and other price risks, for example risk of stock price. Financial instruments affected by the market risks include: borrowings, liabilities and deposits.

The following sensibility analysis relates to the financial position of the Company as at June 30, 2025 and June 30, 2024.

The sensitivity analysis has been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and the proportion of financial instruments in foreign currencies are all constant.

When calculating the sensibility analysis, the Board of Management assumes that the sensibility of available-for-sale liability in the balance sheet and related items in the income statement is affected by changes in the assumption of corresponding market risks. This analysis is based on the financial assets and liabilities that the Company held as at June 30, 2025 and June 30, 2024.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in market prices. Market risks due to change in interest rate of the Company mainly relate to: trade receivables, other receivables, borrowings and liabilities, cash and short-term deposits.

The Company manages the interest rate risk by analyzing the competition status in the market in order to apply the interest rate that brings benefits to the Company and still in the limit of its risk management.

Sensibility to interest rate

The Company does not analyze the sensibility to the interest rate since change in the interest rate at the reporting date is insignificant.

2. Credit risk

Credit risk is the risk due to the customers' failure to perform its obligations causing the financial loss for the Company. The Company bears credit risks from production and doing business activities (mainly receivables from trading securities, trade receivables and other receivables) and from its financial activities including bank deposits and other financial instruments.

Trade receivables

The Company minimizes the credit risk by only doing business with entities who have good financial capacity and closely keeping track of the receivables to speed up the recovery of debts. On the basis of this method and receivables related to different customers, the credit risk does not concentrate on a certain customer.

Bank deposits

The Company mainly maintains deposits in big and prestigious banks in Vietnam. The Company assesses that the concentration level of credit exposure to deposits is low.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

For the first 06 months of the year 2025

Unit: VND

3. Liquidity risk

Liquidity risk is the risk that arises from the Company's difficulty in fulfilling financial obligations due to lack of capital. The liquidity risk of the Company mainly arises from the difference of maturity of the financial assets and liabilities.

The Company supervises liquidity risk by maintaining an amount of cash, cash equivalents and borrowings from banks at the level that the Board of Management considers as sufficient to satisfy the Company's activities and minimize influences of changes in cash flows.

The following table summarizes liquidity deadline of the Company's financial liabilities on the basis of estimated payments in accordance with contract which are not discounted:

As at June 30, 2025	Under 1 year	From 1-5 years	Over 5 years	Total
Borrowings and liabilities	18,041,931,131	-	-	18,041,931,131
Trade payables	93,620,099,038	-	-	93,620,099,038

Others	101,042,602	-	-	101,042,602
Total	116,731,314,961	-	-	116,731,314,961

As at December 31, 2024	Under 1 year	From 1-5 years	Over 5 years	Total
Borrowings and liabilities	12,173,278,881	-	-	-
Trade payables	64,672,114,602	-	-	64,672,114,602
Accured expenses	5,022,534,170	-	-	5,022,534,170
Others	116,992,602	-	-	116,992,602
Total	81,984,920,255	-	-	69,811,641,374

The company is able to access capital sources and with regards to due borrowings within 12 months, the Company may continue to be lent by its current creditors.

Collateral

The Company does not hold any secured assets of the third party as at June 30, 2025 and December 31, 2024.

VIII. FINANCIAL ASSETS AND FINANCIAL LIABILITIES - See page 42.

The fair value of financial assets and financial liabilities is stated at the value that the financial instruments are convertible in present transaction among partners, except for compulsory sale or disposal.

The Company uses the following methods and assumptions to estimate the fair value:

The fair value of cash on hand and short-term deposits, trade receivables, trade payables and other short-term liabilities is equivalent to the book value of these items because these instruments are in short-term.

Except for the above-mentioned items, the fair value of financial assets and financial liabilities has not been evaluated and determined officially as at June 30, 2025 and December 31, 2024. However, the Board of Management has assessed that the fair value of financial assets and liabilities is not significantly different from the book value at the period end.

4. Presentation of segment asset, revenue and operating result

The Company's Board of Directors has determined that management decisions are primarily based on the types of products and services the Company provides, rather than the geographical areas where such products and services are delivered. Therefore, the Company's primary reporting is based on business areas. As the Company has no branches and operates solely in Ho Chi Minh City, it does not present segment reports by geographical area.

4.1 Segment report: By business area

For the first 06 months of the year 2025, the Company makes segment report by business sector: Commerce, Counseling and Construction. The Company analyses the revenue and cost of goods sold as follows:

Segment	Net revenue	Cost of goods sold	Gross profit
Commerce	251,556,026,885	242,787,329,246	8,768,697,639
Counseling	4,369,938,487	3,902,593,302	467,345,185
Construction	27,531,015,847	29,460,347,826	(1,929,331,979)
Total	283,456,981,219	276,150,270,374	7,306,710,845

For the first 06 months of the year 2024, the Company makes segment report by business sector: Commerce, Counseling and Construction. The Company analyses the revenue and cost of goods sold as follows:

Segment	Net revenue	Cost of goods sold	Gross profit
Commerce	24,379,299,583	24,324,557,119	54,742,464
Counseling	874,024,485	1,256,477,656	(382,453,171)
Construction	11,659,106,870	12,230,831,137	(571,724,267)
Total	36,912,430,938	37,811,865,912	(899,434,974)

5. Information on going-concern operation: The Company will continue its operations in the future.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS*For the first 06 months of the year 2025**Unit: VND***V.2. Financial investments (cont.)**

(1) Tradin One Co., Ltd. was established under the Enterprise Registration Certificate for a single-member limited liability company No. 0317430280, dated August 12, 2022, issued by the Ho Chi Minh City Department of Planning and Investment. Its primary business activities involve architecture, technical consulting, and construction. The ownership ratio is 100%. In first 06 months of 2025, the company has not yet commenced official operations.

(*) As of the reporting date, the Company has not determined the fair value of these investments for disclosure in the interim separate financial statements, due to the absence of a quoted market price and because Vietnamese Accounting Standards and the Vietnamese Enterprise Accounting System do not yet provide guidance on calculating fair value using valuation techniques. The fair value of these investments may differ from their carrying amount.
