REPORT
(BUSINESS PRODUCTION RESULTS FOR THE 2024-2025 ACCOUNTING YEAR
AND BUSINESS PRODUCTION PLAN FOR THE 2025-2026 ACCOUNTING YEAR)
At the 2025 Annual General Meeting of Shareholders

To: *Respected Shareholders;*

Dear Meeting participants

Implementing the Resolution of the 2024 Annual General Meeting of Shareholders of Kon Tum Sugar Joint Stock Company;

Based on the production and business performance of Kon Tum Sugar Joint Stock Company in the accounting year 2024-2025; On behalf of the Board of Directors, the General Director of the Company reports to the General Meeting of Shareholders on the production and business performance results in the accounting year 2024-2025 and the production and business plan for the accounting year 2025-2026, with the following main contents:

PART I
BUSINESS PRODUCTION RESULTS
FOR THE 2024-2025 ACCOUNTING YEAR

In the 2024-2025 accounting year, the world political situation is complicated and unpredictable; strategic competition is fierce; armed conflicts are escalating between Russia and Ukraine; Iran and Israel; gasoline prices are increasing; exchange rates and interest rates are fluctuating. The Company's production and business activities in the 2024-2025 accounting year are affected by high prices of raw materials and fuel, increasing the Company's production costs. In the first 6 months of 2025, world sugar prices continued to decrease to the lowest level since the beginning of 2023. The reason is due to changes in supply in major sugar producing countries in the world such as Brazil, India, and Thailand. The domestic market in Vietnam continues to be under heavy pressure due to excess supply and weak consumption. Commercial fraud and sugar smuggling still occur in many localities, in large quantities. Although the authorities have strengthened control, the subjects operate in a complex and sophisticated manner, making it difficult to prevent, putting pressure on domestic consumption, leading to a sharp decrease in domestic sugar prices, and an increase in the Company's sugar inventory.

In the above context, the Board of Directors and the Executive Board have applied a flexible and timely sugarcane purchasing policy, decided on the appropriate timing and price of goods consumption, and reduced expenses to reduce product costs. Therefore, although the total revenue target did not meet the plan, the Company's pre-tax and post-tax profits for the 2024-2025 accounting year exceeded the plan assigned by the 2024 Annual General Meeting of Shareholders by over 29%.

I. SOME KEY TARGETS OF THE 2024-2025 ACCOUNTING YEAR

- Total Net Revenue: 341,002 million VND, reaching 69.11% of the year plan).
- Profit before corporate income tax: 34,824 million VND, reaching 129.94% of the year plan.
- Profit after corporate income tax: 34,096 million VND, reaching 129.15% of the year plan.

II. RAW SUGARCANE WORKS

1. Purchase and transportation of raw sugarcane.

- Total sugarcane output purchased in the 2024-2025 crop reached 88% of the plan. Although the plan was not completed, the sugarcane output purchased in the 2024-2025 crop increased by 10% compared to the 2023-2024 crop. The main reason for not completing the plan was due to:

+ For sugarcane in the region: unfavorable weather, late rain, early rain, prolonged drought... have affected the growth and development of sugarcane, so sugarcane output did not meet the set plan.

+ For sugarcane outside the region: At the end of the season, factories in the Gia Lai area increased sugarcane prices very high to attract sugarcane to their factories. The company is far from the raw material area, transportation costs are high so it is difficult to compete, leading to failure to complete the sugarcane production plan purchased outside the region.

- In the 2024-2025 crushing season, the Company carried out reasonable pruning and harmoniously balancing sugarcane in the region and outside the region, so the purchased sugarcane output basically meets the operating capacity of the Factory. Payment for sugarcane was made fully and promptly, this is an important factor to stabilize the purchased sugarcane output and ensure the trust of people to continue to stick with sugarcane.

- The arrangement and operation of transportation vehicles were quite smooth and reasonable. The sugarcane brought to the factory was basically fresh, clean and of guaranteed quality. There was no situation of sugarcane being cut and waiting for transport vehicles, or sugarcane being dried in the field for longer than the prescribed time).

2. Investment in care and development of new planting areas, replanting in the 2024-2025 crop to prepare for the 2025-2026 harvest.

- The raw material area is always invested and developed by the Company with many synchronous policies and solutions. The policies for developing the sugarcane raw material area are researched appropriately, and the sugarcane purchasing policies are flexibly renewed from time to time.

- The Board of Management actively propagates and guides the Company's investment policy and development of raw material areas, actively seeks vacant land to increase the area, especially this year the Company develops additional forms of cooperation with other businesses to grow sugarcane, increasing the source of raw materials for production and processing.

- The Company's investment in sugarcane area in recent years has continuously increased, the expected area ready for harvest for the 2025-2026 crop increases by 18% compared to the 2024-2025 crop.

3. Debt collection work for investment in raw material areas

Debt collection work this season was carried out quite well, with 99.4% of the debt receivable being collected as planned. The main reason why debts from some households could not be collected as planned was due to the harsh weather conditions in the local sugarcane growing area, drought, poor growth of sugarcane, low productivity, causing sugarcane growers to not be able to pay their debts to the Company. The remaining overdue debts from previous seasons were insignificant and had been provisioned according to the current financial regime.

II. SUGAR PRODUCTION AND PROCESSING AND REPAIR OF MACHINERY AND EQUIPMENT

The company has effectively implemented the 2024 major periodic repair plan; mobilized all resources and material resources to ensure the most economical and effective operation. The results of the equipment after repair and renovation are basically stable; the technical parameters on the production line are guaranteed; the ratio of clean cane/sugar and the total recovery efficiency are better than the Plan and better than the previous crop, the finished sugar meets the warehouse standards, meeting customer requirements. However, the equipment safety performance is not high.

III. ORGANIZATION, LABOR, SALARY.

- In the 2024-2025 accounting year, a number of official employees have reached retirement age according to the regime, the Board of Directors of the company has directed departments and production teams to review the entire workforce, rearrange positions in accordance with the professional qualifications, skills and working capacity of each person; at the same time, recruit new employees for the vacant positions, in order to promptly meet the management and operation of the company's production and business activities.

- The company always cares about the lives and incomes of employees, salaries are paid in full and on time; employee policies are implemented in accordance with the provisions of the labor law. After the end of the 2024-2025 production season, the company organized domestic tours for employees, creating a connection between employees and the company and demonstrating the care and concern of the company's leaders for employee.

- The company regularly pays attention to propaganda, training on labor safety and hygiene, and fire prevention to raise awareness among workers.

- Improve working conditions and working environment, create conditions for employees to work in a safe, clean and hygienic environment to increase productivity, product quality, effective and sustainable production activities; prevent and stop occupational accidents and diseases.

IV. PRODUCT CONSUMPTION WORKS.

In the 2024-2025 accounting year, product consumption will face many difficulties, with sales slower than in previous years. The main reason is that the world sugar market has plummeted to its lowest level in the past three years, coupled with smuggled sugar and trade fraud that have not been thoroughly controlled, and with heavy pressure from excess domestic supply.

Product consumption is strictly managed by the Board of Directors. The Executive Board strictly implements the sales policy approved by the Board of Directors.

V. FINANCIAL WORKS.

The Company's financial work is strictly managed, the financial situation is transparent and healthy, capital is preserved, ensuring the interests of shareholders and employees. Expenses are strictly controlled and extremely economical, this is also an important reason for increasing the Company's profits. All activities are checked and supervised by the Board of Supervisors. Information work, timely reporting, settlement in accordance with regulations, ensuring effective operation and business.

VI. CHARITY, SOCIAL SECURITY

Charitable social work is an extremely necessary work for enterprises, contributing to the good implementation of the Party's policies and the State's policies, and at the same time promoting the brand and reputation of enterprises located in the province. In order to facilitate the Company's production and business activities, in 2024-2025, the Company supported the cost of building rural roads in wards and communes in the province, actively participated in supporting the Green Chung Cake Support Festival in ethnic minority communes with sugarcane material areas throughout the province and many other charitable activities.

PART II

(BUSINESS PRODUCTION RESULTS FOR THE 2025-2026 ACCOUNTING YEAR)

1. Business plan for accounting year 2025-2026:

- Total net revenue): 461.300 (million dong)
- Profit before corporate income tax: 12.100 (million dong)
- (Profit after corporate income tax): 11.500 (million dong)

2. Some solutions to implement.

In order to well implement the above-mentioned planning targets, and at the same time orient the development of the Company in the following years, the Board of Directors proposes a number of solutions to submit to the General Meeting of Shareholders, specifically as follows:

2.1. About Raw materials:

Develop a strategy for developing raw material areas in the next 3-5 years, to have a basis for issuing appropriate investment policies, aiming at sustainable development of raw material areas, ensuring harmonious interests between the Company and sugarcane growers.

- Continue working with local authorities at all levels to review and search for land funds to develop and expand the area of raw material areas in new communes of Quang Ngai province for the following years.

- Continue to maintain and expand investment in developing some areas in neighboring areas in Gia Lai Province to supplement raw materials for the Factory to operate at full capacity).

- Continue to mobilize to expand the remaining land area for growing cassava and other crops in communes of the old Kon Tum province and new communes in Quang Ngai province.

- Continue to advise the Board of Directors to issue appropriate investment and purchasing policies to encourage people to stick with sugarcane for the long term.

- Strengthen propaganda and mobilization work, organize and integrate into meetings, conferences... of villages and hamlets to disseminate the Company's investment and purchasing policies. Continue to organize training courses on new farming models using synchronous mechanization methods to develop and expand the sugarcane area stably and sustainably.

- Continue testing and restructuring sugarcane varieties suitable for the soil and climate of Quang Ngai province, searching for new sugarcane varieties with high yield and sugar content; applying advanced science and technology to sugarcane cultivation to increase average sugarcane yield from 80 tons/ha or more and average sugar content to ≥ 10 CCS, in order to increase income for sugarcane farmers.

- Urge sugarcane farmers to take care of sugarcane according to technical procedures, specifically clean grass before fertilizing, and apply enough fertilizer according to the company's standards. Regularly check the fields, promptly detect pests (if any) for prevention, for high ground, too dry land, sugarcane is poorly developed, encourage sugarcane farmers to use pumps to irrigate. Instruct sugarcane farmers to apply fertilizer at the right time and in the right amount to ensure sugarcane grows and develops for a long time.

1.2. About Sugar production and processing:

- Strengthen management and operation in each production stage, improve labor productivity to minimize loss, save production materials to improve recovery efficiency.

- Focus on reviewing and re-evaluating the production line, organizing the synchronous and unified implementation of investment items, renovation, inspection and repair to invest in additional equipment to increase pressing capacity, increase recovery efficiency and ensure the progress of the Company's production season.

- Continue to research and apply new technology to manufacturing and processing, improve production efficiency, product quality, and increase recovery efficiency; continue to review and reduce costs, practice savings in all areas to lower product costs and be competitive in the market.

2.3. Business department group:

- Develop a business plan, segment the consumption market in the province, outside the province, and traditional customers to serve as a basis for making a consumption plan. Always create a close, sustainable relationship with the Company's traditional customers to consume all products, ensuring high economic efficiency for the Company. Listen to customers' opinions and suggestions, thereby making necessary adjustments in business management, product quality to better serve customers, contributing to improving the Company's business efficiency

- Continue to improve the management and operation apparatus. Recruit, train and rearrange human resources in specialized departments in a streamlined manner, ensuring sufficient capacity and suitability for the job position to complete assigned tasks well according to new requirements.

- Comply with the provisions of law on environmental protection, pay attention and invest appropriately in environmental protection, wastewater treatment system, industrial hygiene to meet environmental requirements according to regulations.

Above is the Report of the Board of Management on the results of production and business activities in the accounting year 2024-2025 and the Production and Business Plan for the accounting year 2025-2026. We respectfully submit to the Congress for consideration and comments so that the Executive Board can implement the accounting year 2025-2026 more effectively.

Sincerely thanks!

**2. Evaluation of the implementation results of the 2024 Annual General
Meeting of Shareholders Resolution for the accounting year 2024-2025**

In the 2024-2025 accounting year, the world's political and economic situation is still facing many major challenges such as international geopolitical conflicts that increase the risk of supply chain disruption; tight monetary policies in many countries, weakening global trade and investment; especially extreme weather events due to the impact of climate change that threaten food security and energy security. Although

inflation has cooled down, monetary policy is being loosened; global trade, consumption and investment are gradually recovering but are still uncertain; increased protectionist barriers and trade defenses affect import and export activities in the region and the world.

The domestic sugar industry is facing many challenges. High inventories, competitive pressure from imported and smuggled sugar, along with the increase of alternative products such as corn syrup are causing difficulties for businesses. These factors have affected the production and business activities of Kon Tum Sugar Joint Stock Company in the 2024-2025 accounting year. However, with the determination of the Board of Directors, the flexibility of the Board of Management in choosing the time, price of purchasing raw sugarcane, selling price of sugar products, the business results of the Company in the 2024-2025 accounting year have exceeded the target of profit after corporate income tax assigned by the General Meeting of Shareholders by 29.15%.

Other issues of the 2024 Annual General Meeting of Shareholders Resolution have been fully and promptly implemented by the Board of Directors.

3. Regarding cash dividend payment for accounting year 2023-2024

According to the profit distribution plan approved by the 2024 Annual General Meeting of Shareholders, the Company will pay cash dividends at a rate of 10% of charter capital.

The Board of Directors has approved Resolution No. 12/NQ-HĐQT/2025 dated February 24, 2025 to finalize the list of shareholders receiving dividends. Shareholders whose names are on the list of shareholders on the last registration date of March 11, 2025 will receive dividends according to the above plan.

The payment of dividends for the accounting year 2023-2024 has been completed by the Company in accordance with current laws and the Resolution of the 2024 Annual General Meeting of Shareholders.

II. ACTIVITIES OF THE BOARD OF DIRECTORS FOR THE 2024-2025 ACCOUNTING YEAR.

1. Personnel situation of the Board of Directors for the accounting year 2024-2025

- In the accounting year 2024-2025, the number of Board members remained stable from the beginning of the year to the end of the year. Currently, the Company's Board of Directors still has a sufficient structure of 03 members according to current law.

- Providing information and reports to non-directly managing members of the Board of Directors is done regularly and fully to promptly serve the direction and supervision of the Board of Directors over the Board of General Directors.

2. Summary of Board of Directors meetings and Board of Directors decisions.

The Board of Directors operates on the principle of compliance with the provisions of law; Charter, Internal regulations on corporate governance and Resolutions of the General Meeting of Shareholders.

Pursuant to the Resolution of the 2024 Annual General Meeting of Shareholders and the actual situation of the Company, in the accounting year 2024-2025, the Board of Directors held 4 regular meetings, thematic meetings and meetings to resolve urgent matters. In addition, the Board of Directors also organized to collect members' opinions in writing. The Board of Directors issued 18 Resolutions and 6 Decisions to implement the production and business plan set forth by the 2024 Annual General Meeting of Shareholders. The Resolutions and Decisions of the Board of Directors focus on directing key issues such as:

- Company development strategy, capital mobilization, sales policy, risk management policy... aim at the best management standards to increase production and business efficiency.
- Policy on investment in developing raw material areas and policy on purchasing raw sugarcane.
- Approving quarterly business performance results and determining plans for the following quarter and approving matters under the authority of the Board of Directors.
- Directing investment work, periodic repairs on schedule, machinery and equipment ensuring technical requirements, stable operation, saving costs for the Company.
- Timely direct and resolve urgent issues related to the Company's production and business activities, ensuring effective production and business activities.
- Continue to direct the fundamental improvement of the organizational structure of the Company's management and operation, ensuring streamlining and efficiency. Focus on training and fostering of staff and technical workers to improve professional qualifications, improve staff quality, and meet the Company's operational requirements).
- Directing the procurement of chemical materials for production and product consumption for the 2024-2025 crop).

3. Evaluation of the Board of Directors' performance

The Board of Directors always upholds the principle of democratic centralism. All meetings of the Board of Directors are chaired by the Chairman of the Board of Directors. Resolutions and Decisions of the Board of Directors are built on the principle of collective, ensuring objectivity and consensus of the Board of Directors members, in accordance with the functions and powers of the Board of Directors as prescribed by law.

The work of the Board of Directors has been carried out in accordance with the Resolution of the Shareholders' Meeting, in compliance with the Company's Charter and the Board of Directors' Operating Regulations.

The Board of Supervisors and key members of the Board of Management are invited to attend meetings of the Board of Directors or receive full documents in cases where written opinions of Board members are sought.

Periodically or irregularly, the Board of Directors conducts inspections, evaluates results and directs production and business activities, resolves difficulties and problems of the Board of Management, in order to maximize the Company's operational efficiency.

The close attention of the Board of Directors has helped the Company's operations stabilize, overcome difficulties and challenges, and exceed the basic targets of the 2024-2025 accounting year.

The members of the Board of Directors have properly performed their assigned functions and tasks, fully participated in the activities of the Board of Directors, and actively contributed to the completion of the Company's overall plan.

The Chairman of the Board of Directors has operated the Board of Directors' activities in accordance with the provisions of law and the Company's Charter, always accompanying and promptly supporting the activities of the Board of Management.

Based on the provisions of law, the Company's Charter and the Internal Regulations on Corporate Governance, the Board of Directors self-assessed that in the accounting year 2024 - 2025, the Board of Directors and each member of the Board of Directors had successfully completed the assigned tasks.

5. Results of monitoring for the General Director and other executives.

The Board of Directors always closely monitors the actual situation of the Company to propose appropriate policies and decisions to promptly direct and create favorable conditions for the Board of General Directors to complete the production and business tasks set forth by the General Meeting of Shareholders.

In the 2024-2025 accounting year, the Company has exceeded the target of profit after corporate income tax by 29.15%. The Board of Directors highly appreciates the efforts of the Board of Directors in implementing the Production and Business Plan.

During the course of operating the Company, the General Director and other executives have organized the implementation of the Resolutions of the General Meeting of Shareholders, the Resolutions and Decisions of the Board of Directors in accordance with the functions, tasks and powers stipulated in the Company's Charter of Organization and Operation, the Internal Management Regulations and the provisions of law.

The Executive Board received active support from local authorities at all levels, focusing on developing raw material areas, so the sugarcane area for harvest in the 2024-2025 season increased significantly compared to previous seasons.

Pursuant to the Company's Charter of Organization and Operation, Internal Regulations on Corporate Governance, the Board of Directors assesses that in the accounting year 2024-2025, the Company's General Director and other executives have excellently completed their assigned tasks.

6. Transactions between the Company and related parties

In the accounting year 2024 - 2025, transactions between the Company and related parties are carried out transparently, publicly, and within the authority, and are strictly controlled and fully and promptly disclosed in the Notes to Financial Statements - Information on related parties in the Company's quarterly financial statements, reviewed

semi-annual financial statements and audited annual financial statements. Details of the reports have been published in the Shareholder Relations section on the website: www.ktsduongkontum.vn.

III. ORIENTATION OF ACTIVITIES FOR THE 2025-2026 ACCOUNTING YEAR AND IMPLEMENTATION SOLUTIONS

I. Orientation for the 2025-2026 accounting year:

In the context of the world economy still having many instabilities, challenges due to the conflict between Russia and Ukraine, the conflict in the Middle East region between Iran and Israel, smuggling and trade fraud of domestic sugar products have not been thoroughly controlled. Climate change has greatly affected the productivity and quality of many raw sugarcane growing areas. Prices of agricultural materials (fertilizers, pesticides) and industrial chemicals have increased sharply

To stabilize production and business activities, overcome difficulties and challenges, ensure shareholders' rights; at the same time create jobs and stabilize the lives of employees, the Board of Directors proposes the following production and business plan for the accounting year 2025-2026 as follows:

Production and business plan for accounting year 2025-2026

- Total net revenue: 461.300 million VND
- Profit before corporate income tax: 12.100 million VND
- Profit after corporate income tax: 11.500 million VND

II. Some solutions to implement

1. Raw cane area development work

Continue to study, amend and supplement investment policies to support and serve sugarcane growers in a practical and effective manner to develop sugarcane raw material areas; gradually stabilize key raw material areas in areas surrounding the factory.

Continue working with local authorities at all levels of Quang Ngai province to review and search for land funds, develop additional sugarcane areas in the 2025-2026 crop year and the following years.

Focus on closely and effectively directing investment in sugarcane development in the region, striving for the raw material area to basically meet the factory's capacity by 2030.

Develop a strategy for developing raw material areas in the next 3-5 years to have a basis for issuing appropriate investment policies for each year, aiming at sustainable

development of raw material areas, ensuring harmony of interests between Enterprises and sugarcane growers.

Continue to maintain and expand investment in developing some areas in neighboring areas in Gia Lai Province to supplement raw materials for the Factory to operate at full capacity.

Strengthen testing and structuring of new sugarcane varieties with high yield and sugar content, replacing old sugarcane varieties currently in production to increase income for sugarcane growers.

2. Production and processing work

Continue to research and apply new technologies to investment, production and business. Continue to review and evaluate the overall equipment of the existing sugar processing line, to have a plan to invest in additional machinery and equipment to ensure a synchronous line, stable pressing capacity, improve recovery efficiency and product quality.

3. Management, human resources and finance:

- Strictly manage costs, improve financial management capacity, closely monitor investment and use capital for production and business and invest effectively, ensuring continuous, stable and sustainable development.

- Continue to reorganize the human resources apparatus in a streamlined and dynamic manner with a team of highly qualified and professional management staff. Build a new leadership and management mechanism systematically, acquire new business knowledge to improve corporate governance capacity.

Above is the Report on the Board of Directors' activities for the accounting year 2024-2025 and the orientation for the accounting year 2025-2025 submitted to the 2025 Annual General Meeting of Shareholders. The Board of Directors looks forward to receiving the long-term support and commitment of Shareholders, partners and employees.

Respectfully submit to the General Meeting of Shareholders for consideration and approval.

Sincerely thanks !

Total :		192.000.000

V. RESULTS OF SUPERVISION OF PERFORMANCE OF THE BOARD OF DIRECTORS, GENERAL DIRECTOR AND OTHER EXECUTIVES OF THE ENTERPRISE IN THE 2024-2025 ACCOUNTING YEAR

The Board of Directors of the Company has proactively followed the goals and orientations of the Resolution of the 2024 Annual General Meeting of Shareholders and the practical situation of the Company to provide timely guidance, well meeting the requirements of the tasks.

The Board of Directors always closely monitors the activities of the Board of Management, promptly resolves the recommendations/proposals of the Board of Management and matters under the authority of the Board of Directors to facilitate the operations of the Company's Board of Directors.

The Board of Directors has organized regular and extraordinary meetings in the form of expansion for the members of the Board of Management and the Board of Supervisors to participate, and at the same time passed many important decisions by asking for written opinions, Resolutions and Decisions of the Board of Directors focusing on implementing the Resolution of the General Meeting of Shareholders, issuing policies, solutions, directing the production and business activities of the Company: Orienting the company's development strategy, directing the purchase of raw materials, selling the Company's products and goods, perfecting and innovating investment policies, supporting the expansion of raw material areas, directing the investment in upgrading equipment, annual major repairs, and capital mobilization...

Management work is carried out strictly according to issued regulations, ensuring timely and complete disclosure of information to shareholders and authorities.

The Board of Directors and other executives of the enterprise have operated the Company's activities in accordance with the functions, duties and powers stipulated in the Charter of Organization and Operation and the Company's Internal Management Regulations.

The Board of Directors has closely followed the Resolution of the General Meeting of Shareholders, the Resolutions and Decisions of the Board of Directors, proactively and flexibly in purchasing sugarcane outside the region, so although the sugarcane output in the region is still low, the total sugarcane output purchased

basically meets the operating capacity of the factory, contributing significantly to reducing product costs and increasing production and business efficiency.

The Board of Supervisors assessed the management and direction of the Board of Directors, the operation of the Board of Management and other executives in the 2024-2025 accounting year in accordance with the provisions of law, the Charter of the Company's organization and operation, and the Resolution of the General Meeting of Shareholders. The Board of Directors, the Board of Management and other executives of the enterprise have excellently completed the tasks assigned by the General Meeting of Shareholders.

VI. RESULTS OF MONITORING PRODUCTION AND BUSINESS ACTIVITIES

1. Results of implementing key production and business targets of the accounting year 2024-2025

No.	TARGETS	Unit	Plan	Implemented	Plan completion rate %
1	Total net revenue	Million dong	493.400	341.002	69,11
2	LProfit before corporate income tax	Million dong	26.800	34.824	129,94
3	Profit after corporate income tax	Million dong	26.400	34.096	129,15

Although the Company did not complete the revenue plan in the 2024-2025 accounting year, the Board of Directors and the Board of Management were flexible in product consumption and sugarcane purchasing, well managed economic and technical norms, saved costs, and reduced product prices, so the after-tax profit target increased by 29.15% compared to the assigned plan.

2. Some main areas of operation of the Company

a. Raw sugarcane works

The total clean sugarcane amount purchased this season reached 88% of the plan but increased by 10% compared to the 2023-2024 season. The debt collection work of the Board of Directors was quite good, the Company collected 99.4% of the debt receivable in the plan, the outstanding debt from previous seasons was insignificant and provisions were made according to the regulations of the current financial regime.

The Board of Directors and the Board of Management have issued appropriate investment support policies, actively promoted and mobilized, along with the continuous increase in sugarcane prices in recent crops. In addition, the Company has also cooperated with other units to grow sugarcane itself, so the sugarcane area invested in recent crops has continuously increased, the area prepared for harvest in the 2025-2026 crop increased by 18% compared to the 2024-2025 crop, this is a result worth encouraging.

b. Sugar production and processing

The production and processing work of the 2024-2025 season has some positive aspects, namely: The ratio of clean cane/sugar and the total recovery efficiency are better than the Plan and better than the previous season, the sugar quality is stable, meets standards, and the color is relatively uniform.

However, production still has some shortcomings, namely: equipment safety performance and crushing performance was lower than planned and decreased compared to the previous season.

c. Purchasing of materials and spare parts

The procurement of materials and spare parts is carried out openly and transparently with reasonable prices. Chemical materials are supplied promptly, meeting the requirements of production and maintenance.

d. Product consumption

The Board of Management has carried out the consumption of products in accordance with the approval of the Board of Directors. The management and import and export of products are strict, so far there has been no surplus or shortage of products. However, as presented above, due to the decrease in world sugar prices and the impact of trade fraud and smuggled sugar, the consumption of products in the 2024-2025 accounting year has encountered many difficulties, the inventory of sugar products has increased, and by June 30, 2025, the Company had only consumed 29% of the total sugar output of the 2024-2025 season.

e. Labor and salary.

The company implements labor policies, wages and employee benefits (social insurance, health insurance, unemployment insurance, meal allowances...) in accordance with the law and regulations of the Board of Directors.

VII. DIVIDEND PAYMENT FOR THE 2023-2024 ACCOUNTING YEAR

Pursuant to Resolution No. 12/NQ-HĐQT/2025 dated February 24, 2025 of the Annual General Meeting of Shareholders, the Company has completed the dividend payment for the accounting year 2023-2024 at a rate of 10%/on charter capital in accordance with the provisions of law.

VIII. RESULTS OF FINANCIAL SITUATION MONITORING FOR THE 2024-2025 ACCOUNTING YEAR

Financial report for accounting year 2024-2025:

The Company's 2024-2025 financial statements have been audited by RSM Vietnam Auditing and Consulting Co., Ltd. (Audit Report No.768/2025/KT-RSMHCM, dated 27/8/2025) and have been reported by the Board of Directors at this General Meeting. The Board of Supervisors agrees with the opinions of the Independent Auditor on the Financial Statements for the accounting year ending June 30, 2025.

Based on the audited financial statements for the accounting year 2024-2025 and the analytical data presented by the Board of Management at the Board of Directors' meetings, the Board of Supervisors assessed that the financial statements have honestly and reasonably reflected in all material aspects the financial situation of the Company as of June 30, 2025, the business performance as well as the cash flow

statement for the accounting year 2024-2025 in accordance with current accounting standards, regimes and relevant legal regulations.

2. Asset and capital situation

Criteria	Date 01/7/2024	Date30/6/2025	% Increase, decrease)
Current assets	279.685	361.922	29,4
Long-term assets	203.387	194.866	-4,2
Total assets	483.072	556.788	15,3
Short-term debt	227.437	286.104	25,8
Long-term debt	27.828	14.828	- 46,7
Equity	227.807	255.856	12,3
Total capital	483.072	556.788	15,3

3. Summary of some basic financial indicators

Targets	Unit	30/06/2024	30/06/2025
1. Equity ratio to total capital	%	47,2	46
2. Debt to total capital ratio	%	52,8	54
3. Quick ratio (Cash and cash equivalents + current investments/current liabilities)	Lần	0,085	0,103
4. Current ratio (current assets/current liabilities)	Lần	1,23	1,26
Accounting year		2023-2024	2024-2025
5. Return on Equity (Profit after tax/Equity)	%	13,6	13,3
6. Return on assets after tax (Profit after tax/Total assets)	%	7	6,1

- At June 30, 2025, short-term assets increased by 29.4% compared to June 30, 2024, correspondingly, short-term debt between the two above-mentioned times also increased by 25.8%, the main reason is as stated in Point d, Section 2, Part VI above, due to the impact of smuggling and trade fraud, consumption encountered many difficulties, the Company could not sell goods, inventory increased, leading to an increase in short-term assets and short-term debt.

- The ratio of equity to total capital at June 30, 2025 decreased slightly compared to June 30, 2024. The ratio of after-tax profit to equity in the 2024-2025 accounting year decreased slightly compared to the 2023-2024 accounting year.

- Estimated losses on assets (bad debts, inventories) have been fully provisioned in accordance with current financial regulations. The Company's financial situation is healthy.

IX. ASSESSMENT OF TRANSACTIONS BETWEEN THE COMPANY AND RELATED PERSONS

Transactions between the Company and related parties are carried out in accordance with current laws. These transactions are conducted in a public and transparent manner, the purchase and sale of goods and services with related parties is carried out according to market mechanisms.

X. ASSESSMENT OF COORDINATION BETWEEN THE BOARD OF SUPERVISION, THE BOARD OF DIRECTORS, THE MANAGEMENT BOARD AND SHAREHOLDERS.

The coordination between the Board of Supervisors, the Board of Directors, the Board of Management and shareholders is carried out on the principle of ensuring the stability and sustainable development of the Company and ensuring the rights of Shareholders in accordance with the provisions of law and the Company's Charter.

The Board of Directors, the Board of Supervisors and the Board of Management regularly communicate and exchange information, coordinate well in production and business activities as well as perform tasks assigned by the General Meeting of Shareholders.

In the accounting year 2024-2025, the Supervisory Board has closely coordinated with the Board of Directors and the Executive Board in performing its assigned functions and tasks. The Supervisory Board has always received the support and close supervision of shareholders, and the active cooperation of the Board of Directors and the Executive Board. Resolutions, Decisions and policies of the Board of Directors and the Executive Board have been promptly provided to the Supervisory Board. The Board of Directors always invites the Supervisory Board to attend meetings. The Executive Board always creates favorable conditions for the Supervisory Board to access the Company's activities.

During the 2024-2025 accounting year, the Supervisory Board did not receive any requests from shareholders or groups of shareholders requesting inspection of the Company's production and business activities, the management work of the Board of Directors or the operation work of the Board of Directors.

PART B

BOARD OF SUPERVISION'S 2025-2026 OPERATION PLAN

In the accounting year 2025-2026, the Board of Supervisors will maintain regular and periodic quarterly and annual control work according to the provisions of the Company's Charter and the Board of Supervisors' Operating Regulations with the general goal of supervising the Company's production and business activities and finances; supervising management and operation activities; coordinating activities with the Board of Directors, the Executive Board and shareholders.

Specific tasks:

- Supervise the implementation of the Resolution of the General Meeting of Shareholders, Resolutions and Decisions of the Board of Directors.
- Monitor compliance with laws, company charters and company rules and regulations in business management and operation.
- Monitor the plans and implementation of production and business activities of the Board of Directors and the Executive Board in implementing business strategies. Check each specific issue if deemed necessary or upon request of

shareholders or groups of shareholders in accordance with the provisions of the Enterprise Law and the Company Charter.

- Review and analyze the Company's periodic financial reports, promptly provide independent opinions and recommendations to the Board of Directors and the Board of Management.
- Other tasks according to the functions and duties of the Board of Supervisors.

PART C

BOARD OF SUPERVISORS' RECOMMENDATIONS

1. Although the sugarcane area invested by the Company for harvest in the 2025-2026 season has increased compared to previous seasons, compared to the operating capacity of the Factory, the invested sugarcane output is still modest. In order to proactively source raw materials, it is recommended that Shareholders, the Board of Directors and the Executive Board continue to have appropriate policies to expand the invested sugarcane area, ensuring sugarcane output for the Factory's regular operations in the coming years.

2. The Board of Directors and the Executive Board have paid attention to the recruitment and training of human resources. However, the Company is still lacking in skilled and professional workers, especially in the key areas of the Sugar Factory (electricity, sugar cooking, etc.). It is recommended that the Board of Directors and the Executive Board continue to have appropriate policies to recruit additional skilled workers for the Company.

3. Request the Board of Management to overcome difficulties, promote product consumption, increase capital turnover to reduce business costs).

Above is the report on the implementation results of the 2024-2025 accounting year tasks and the 2025-2026 accounting year operation plan of the Board of Supervisors of Kon Tum Sugar Joint Stock Company. The Board of Supervisors respectfully submits to the General Meeting of Shareholders for consideration and approval.

Wishing all shareholders and delegates good health and a successful Meeting.

Sincerely thanks./.

PROPOSAL

ANNUAL GENERAL MEETING OF SHAREHOLDERS 2025

Re: Approval of transactions with shareholders, managers, related parties of the Company and authorization to the Board of Directors to implement and decide on the remaining contents of forementioned transactions.

To: The General Meeting of Shareholders

- Pursuant to the Law on Enterprises No. 59/2020/QH14 dated June 17, 2020 (as amended and supplemented by Law No. 76/2025/QH15 dated June 17, 2025);

- Pursuant to the Law on Securities No. 54/2019/QH14 dated November 26, 2019 (as amended and supplemented by Law No. 56/2024/QH15 dated November 29, 2024);

- Pursuant to Decree No. 155/2020/ND-CP dated December 31, 2020, detailing the implementation of certain articles of the Law on Securities (as amended and supplemented by Decree No. 245/2025/ND-CP dated September 11, 2025);

- Pursuant to the Regulations of Kon Tum Sugar Joint Stock Company as approved by the Annual General Meeting of Shareholders on September 25, 2022.

In the current context, seizing opportunities is one of the prerequisites for achieving business efficiency. At the same time, in order to ensure that the Company's production and business activities remain flexible, taking advantage of competitive strengths and inherent advantages in the relationship between Kon Tum Sugar Joint Stock Company (the "Company") and its related parties, thereby promoting business activities, the Board of Directors respectfully submits to the General Meeting of Shareholders for approval the following contents:

1. Approval of transactions with shareholders, managers, and related parties:

Considering that transactions involving the purchase and sale of sugar, molasses, raw materials, services, etc., may result in the total value of transactions arising within twelve (12) months from the date of the first transaction amounting to 35% or more of the total asset value stated in the latest financial statements of the Company, between the Company and one of the following individuals:

- Members of the Board of Directors, members of the Supervisory Board, the General Director, other managers, and their related persons;

- Shareholders, authorized representatives of shareholders holding more than 10% of the total common shares of the Company, and their related persons;

- Enterprises related to the subjects specified in Clause 2, Article 164 of the Law on Enterprises.

(Hereinafter collectively referred to as "**Related Transactions**"), which fall under the approval authority of the General Meeting of Shareholders. Accordingly, the Board of Directors respectfully submits to the General Meeting of Shareholders for approval the

categories and principal contents of such Related Transactions as specified in Appendix 01 attached to this Proposal.

Considering that the detailed implementation of the Related Transactions as specified in Appendix 01 must be carried out, monitored, and timely adjusted in accordance with the actual circumstances as well as the operational and business needs of the Company and the market, the Board of Directors respectfully submits to the General Meeting of Shareholders for approval the authorization to the Board of Directors to perform the tasks as set forth in Section 2 of this Proposal.

2. Contents of Authorization to the Board of Directors

2.1/ Authorized tasks: The General Meeting of Shareholders approves the authorization for the Board of Directors to decide and carry out the remaining contents and tasks in order to sign and implement the Related Transactions as specified in Appendix 01 attached to this Proposal.

2.2/ Duration of authorization: The authorization shall take effect from the date the General Meeting of Shareholders approves this Proposal until the General Meeting of Shareholders issues a resolution to revoke or otherwise amend it.

2.3/ Scope of authorization: The Board of Directors is entitled to directly exercise the authorized tasks or to further delegate such authority to the General Director or other managers of the Company in accordance with the Company's Regulation, internal regulations, or an authorization document issued by the Board of Directors from time to time, in order to perform the tasks specified in Section 2.1 of this Proposal.

The Board of Directors respectfully submits this Proposal to the General Meeting of Shareholders for consideration and approval./.
