*Regarding the explanation of after-tax profit in the financial report for the third quarter of 2025, which increased by 113% compared to the same period last year.*

**To:               - State Securities Commission  
                      - Hanoi Stock Exchange**

In the third quarter of 2025, Vicem Bim Son Packaging Joint Stock Company maintained stable production and business operations. The after-tax profit for the period reached 363 million VND, equivalent to 213% compared to the same period in 2024 (an increase of 113%). The main reason for the after-tax profit in the third quarter of 2025 increasing by 113% compared to the same period in 2024 is:

The prices of key input materials, such as PP fiber pellets, decreased compared to the same period in 2024.
