KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending 31 December, 2025

Notes to the Financial Statement (continued)**NOTES TO THE FINANCIAL STATEMENT****For the fiscal year ending 31 December, 2025****I. OPERATIONAL CHARACTERISTICS****1. Ownership Structure**

Khanh Hoa Water Supply and Sewerage Joint Stock Company (hereinafter referred to as "the Company") is a joint-stock company.

2. Business operation

The Company operates in production and services.

3. Principal activities

The Company's main business activities include: Producing and supplying clean water; Constructing and installing pump stations and water supply and drainage pipelines; Designing water networks and pump station facilities; Consulting and appraising water network and pump station projects.

4. Normal production and operating cycle

The Company's normal production and operating cycle is generally within 12 months.

5. The operating characteristics of The Company in the financial year may affect the financial statements

Profit for this year has increased compared to the previous year due to a rise in net revenue from the Company's business activities, mainly water production. The Company continues to expand its water supply network within the province, which has contributed to increased revenue. Additionally, financial income has risen due to an increase in fixed-term deposits.

6. The Company's structure

As of 30 June, 2025, the Company has 1 associated company as follows:

<u>Name</u>	<u>Address</u>	<u>Voting Rights</u>	<u>Ownership</u>	<u>Interest</u>
Associated Company:				
Suoi Dau Water supply and Sewerage construction investment Joint stock Company	58 Yersin, Tay Nha Trang Ward, Khanh Hoa Province, Vietnam	30%	30%	30%

The Company's subsidiaries as of 30 September, 2025, include:

<u>Name</u>	<u>Address</u>
Xuan Phong Water Plant	Tay Nha Trang Ward – Khanh Hoa Province
Vo Canh Water Plant	Tay Nha Trang Ward – Khanh Hoa Province
Khanh Son Water Plant	Khanh Son Commune – Khanh Hoa Province
Branch of the Khanh Hoa Water Supply and Sewerage Joint Stock Company -	1B Le Hong Phong Street, Nha Trang Ward – Khanh Hoa Province

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

Drainage Construction Enterprise

7. Statement on the Comparability of Financial Statement Information

The corresponding figures for this year are comparable to those of the previous year.

8. Employees

As of the end of the 3rd quarter of 2025, the Company employed 327 staff members (compared to 329 at the beginning of the year).

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal Year

The Company's fiscal year begins on 1 January and ends on 31 December of each year.

2. Reporting Currency

The reporting currency applied to prepare the Financial Statements is the Vietnamese Dong (VND), as most transactions are conducted in VND.

III. ACCOUNTING STANDARDS AND POLICIES APPLIED

1. Applied Accounting System

The Company applies the Vietnamese Accounting Standards and the Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, and other guiding circulars issued by the Ministry of Finance for preparing and presenting financial statements.

2. Compliance Statement on Accounting Standards and Policies

The Board of Directors ensures compliance with the requirements of Vietnamese Accounting Standards and the Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC, as well as other guiding circulars of the Ministry of Finance, in preparing and presenting financial statements.

IV. SIGNIFICANT ACCOUNTING POLICIES

1. Basis for Preparing Financial Statements

Financial statements are prepared based on the accrual basis of accounting (except for cash flow-related information).

2. Cash and Cash Equivalents

Cash includes cash on hand and demand deposits at banks. Cash equivalents are short-term investments with a maturity of no more than three months from the date of investment, which are easily convertible to a known amount of cash and carry minimal risk of change in value.

3. Financial Investments

Held-to-maturity Investments

Investments classified as held-to-maturity are those that the Company intends and is able to hold until maturity. These include term deposits at banks (including promissory notes, certificates of deposit), bonds, redeemable preference shares that the issuer is obligated to repurchase at a specific future date, and loans held to maturity with the objective of earning periodic interest income, as well as other investments intended to be held until maturity.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

Initial recognition of held-to-maturity investments is at cost, including purchase price and transaction costs related to acquiring the investments. After initial recognition, these investments are measured at their recoverable value. Interest income earned after the date of purchase is recognized in the income statement on an accrual basis. Any interest received before the Company acquires the investments is deducted from the initial cost at the time of purchase.

When there is conclusive evidence that a portion or the entire investment may not be recoverable, and the amount of loss can be reliably determined, the loss is recognized in the financial expenses for the period and directly deducted from the value of the investment.

Investments in Associates

Associated Company

An associated company is an entity over which the Company has significant influence but does not have control over its financial and operating policies. Significant influence is the ability to participate in the financial and operating policy decisions of the investee but not control or jointly control those policies.

Initial Recognition

Investments in associated companies are initially recognized at cost, including the purchase price or contributed capital plus directly attributable investment costs. In cases where the investment is made using non-monetary assets, the cost of the investment is recorded at the fair value of the non-monetary assets at the time of the transaction.

Dividends and profits from periods prior to the acquisition of the investment are deducted from the carrying value of the investment itself. Dividends and profits from periods after the acquisition of the investment are recognized as revenue. Dividends received in the form of shares are only recorded as an increase in the number of shares, without recognizing the value of the shares received.

Provision for Investment Losses in Associated Companies

A provision for investment losses in associated companies is established when the associated company incurs losses. The provision amount is determined as the difference between the actual capital contribution of the parties to the associated company and the actual equity, multiplied by the Company's ownership ratio in the associated company's charter capital. If the associated company prepares consolidated financial statements, the provision for losses is based on the consolidated financial statements.

Adjustments to the provision for investment losses in associated companies, determined as of the financial year-end, are recognized in financial expenses.

4. Receivables

Receivables are presented at their book value, net of provisions for doubtful debts.

Receivables are classified as trade receivables and other receivables based on the following principles:

- Trade receivables represent amounts due from customers that are of a commercial nature, arising from transactions involving the purchase and sale of goods or services between the Company and independent buyers.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

- Other receivables represent non-commercial amounts due that are unrelated to purchase or sale transactions.

Provisions for doubtful debts are established for each doubtful receivable based on the expected level of loss that may occur.

Increases or decreases in the balance of provisions for doubtful debts, as required at the end of the financial year, are recognized in administrative expenses.

5. Inventories

Inventories are recorded at the lower of cost and net realizable value (NRV).

The cost of inventories is determined as follows:

- Raw materials: Includes purchase costs and other directly related costs incurred to bring the inventory to its current location and condition.
- Work-in-progress costs: Includes the cost of primary raw materials, labor costs, and other directly related expenses.

The cost of inventory is calculated using the weighted average method and accounted for under the perpetual inventory system.

NRV is the estimated selling price of inventory in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Provisions for inventory write-downs are established for each item of inventory whose cost exceeds its NRV. For unfinished services, provisions are calculated based on the specific type of service with its own pricing. Increases or decreases in the provision for inventory write-downs required at the end of the accounting period are recognized in the cost of goods sold.

6. Prepaid Expenses

Prepaid expenses include actual costs incurred that relate to the production and business activities of multiple accounting periods. The Company's prepaid expenses mainly consist of expenses for tools, equipment, and costs for repairing, renovating, and installing pipelines. These prepaid expenses are allocated over the prepaid period or the period during which the corresponding economic benefits are realized.

Tools and Equipment

Tools and equipment in use are allocated to expenses using the straight-line method over an allocation period of no more than 36 months.

Repair, Renovation, and Installation Costs for Pipelines

Costs related to the repair, renovation, and installation of pipelines are allocated to expenses using the straight-line method over an allocation period of no more than 36 months.

7. Tangible fixed assets

Tangible fixed assets are presented at cost less accumulated depreciation. The cost of tangible fixed assets includes all expenses incurred by the Company to acquire the assets up to the point they are ready for use. Post-acquisition costs are added to the cost of the fixed asset only if it is certain that these costs will increase the future economic benefits derived from using the asset. Costs that do not meet this condition are recorded as production or business expenses in the period.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

When tangible fixed assets are sold or liquidated, their cost and accumulated depreciation are derecognized, and any resulting gain or loss is recorded as income or expense in the period.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The depreciation periods for various types of tangible fixed assets are as follows:

<u>Type of Fixed Asset</u>	<u>Useful Life (Years)</u>
Buildings and structures	05 - 25
Machinery and equipment	03 - 08
Transportation and transmission equipment	06 - 16
Management tools and equipment	03 - 05

8. Intangible fixed assets

Intangible fixed assets are presented at cost less accumulated amortization.

The cost of intangible fixed assets includes all expenses incurred by the Company to acquire the assets up to the point they are ready for use. Post-acquisition costs related to intangible fixed assets are recorded as production or business expenses in the period unless these costs are associated with a specific intangible fixed asset and increase the economic benefits derived from it.

When intangible fixed assets are sold or liquidated, their cost and accumulated amortization are derecognized, and any resulting gain or loss is recorded as income or expense for the year.

Types of Intangible Fixed Assets:

Land Use Rights

Land use rights include all actual expenses incurred by the Company directly related to the use of the land, such as payments for acquiring land use rights, compensation costs, land clearance costs, leveling costs, and registration fees. These land use rights are amortized using the straight-line method based on the land lease term.

Computer Software Programs

Costs related to computer software programs that are not integral components of related hardware are capitalized. The cost of computer software includes all expenses incurred by the Company up to the point the software is ready for use. Computer software is amortized using the straight-line method over a period not exceeding 5 years.

9. Work-in-Progress Construction Costs

Work-in-progress construction costs reflect direct expenses (including related borrowing costs in accordance with the Company's accounting policies) incurred for assets under construction, machinery and equipment being installed for production, leasing, or management purposes, as well as costs related to ongoing repairs of fixed assets. These assets are recorded at cost and are not depreciated.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

10. Payables and Accrued Expenses

Payables and accrued expenses are recognized for amounts to be paid in the future related to goods and services already received. Accrued expenses are recognized based on reasonable estimates of the amounts to be paid.

Payables are classified as trade payables, accrued expenses, and other payables according to the following principles:

- **Trade Payables:** Represent amounts payable of a commercial nature arising from transactions involving the purchase of goods, services, or assets, with suppliers that are independent of the Company.
- **Accrued Expenses:** Reflect amounts payable for goods or services already received from suppliers or delivered to customers but not yet paid due to the absence of invoices or incomplete accounting documentation. They also include amounts payable to employees for leave wages and provisions for production and business expenses.
- **Other Payables:** Represent non-commercial amounts payable that are unrelated to the purchase, sale, or supply of goods and services.

Payables and accrued expenses are classified as short-term or long-term on the Balance Sheet based on their remaining term as of the financial year-end.

11. Science and Technology Development Fund

The Science and Technology Development Fund is established to create financial resources for the Company's science and technology activities, including:

- Providing financial support to implement science and technology research topics and projects.
- Supporting science and technology development:
 - Equipping facilities and technical infrastructure for science and technology activities.
 - Purchasing machinery and equipment to directly modernize technology for production.
 - Acquiring technology licenses, patents, utility solutions, industrial designs, scientific and technological information, documents, and related products to support science and technology activities.
 - Paying salaries, hiring experts, or contracting with scientific and technological organizations to perform science and technology activities.
 - Expenses for training science and technology personnel in accordance with legal regulations on science and technology.
 - Funding initiatives for technical improvements and production optimization.
 - Costs associated with collaborative research and development in science and technology with Vietnamese organizations and enterprises.

Fixed assets formed from the Science and Technology Development Fund are recorded as a reduction in the fund and are not subject to depreciation.

The appropriation rate for the Science and Technology Development Fund is 10% of taxable income for the year, as stipulated in the fund's charter and operating guidelines, and is recorded as an expense. If annual expenses for science and technology activities exceed the available balance in the fund, the excess amount is either recorded as an expense or allocated to subsequent years.

12. Owners' Equity

Owners' capital

Owners' capital is recognized based on the actual capital contributed by the shareholders.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

Share premium

Share premium is recognized as the difference between the issuance price and the par value of shares during the initial or additional issuance, the difference between the reissue price and the book value of treasury shares, and the equity component of convertible bonds upon maturity. Direct costs related to additional share issuance and reissuance of treasury shares are deducted from the share premium.

Owners' other capital

Other owners' capital is formed from allocations of business results, asset revaluation, and the residual value between the fair value of donated, gifted, or sponsored assets and any taxes payable (if applicable) related to these assets.

Treasury shares

When the Company repurchases its own shares, the payment, including any related transaction costs, is recorded as treasury shares and reflected as a deduction from equity. Upon reissuance, the difference between the reissue price and the book value of the treasury shares is recorded under the "Share Premium" account.

13. Profit Distribution

Profit after corporate income tax is distributed to shareholders after allocations to reserves as stipulated in the Company's Charter and legal regulations, and upon approval by the General Meeting of Shareholders (GMS).

When distributing profits to shareholders, consideration is given to non-monetary items included in undistributed post-tax profits that may affect cash flow and dividend payment capacity. These items include gains from asset revaluation used as capital contributions, gains from the revaluation of monetary items, financial instruments, and other non-monetary items.

Dividends are recognized as liabilities once approved by the GMS and upon issuance of a dividend payment resolution by the Board of Directors.

14. Revenue Recognition

Revenue from goods sold

Revenue from the sale of goods is recognized when all of the following conditions are satisfied:

- The Company has transferred the majority of risks and benefits associated with ownership of the goods to the buyer.
- The Company no longer retains control or managerial involvement over the goods as the owner.
- Revenue can be reliably measured. For contracts where the buyer has the right to return goods under specific conditions, revenue is recognized only when those conditions no longer exist, and the buyer no longer has the right to return the goods (except for cases where the buyer exchanges goods for other goods or services).
- The Company has received or will receive the economic benefits from the sales transaction.
- The costs associated with the sales transaction can be identified.

Revenue from services rendered

Revenue from providing services is recognized when all of the following conditions are satisfied:

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

- Revenue can be reliably measured. For contracts where the buyer has the right to return services under specific conditions, revenue is recognized only when those conditions no longer exist, and the buyer no longer has the right to return the services provided.
- The Company has received or will receive the economic benefits from the service transaction.
- The portion of services completed by the reporting date can be determined.
- The costs incurred for the transaction and the costs required to complete the service can be identified.

For services rendered over multiple periods, revenue for the period is recognized based on the results of the completed portion of the service as of the financial year-end.

Interest Income

Interest income is recognized on a time-proportion basis using the effective interest rate for each period.

15. Revenue deductions

Revenue deductions include returns of goods and services, which are recognized as a reduction of revenue in the same period the goods or services are sold.

For goods or services sold in previous years, where returns occur in the current year, revenue is adjusted according to the following principles:

- If the return occurs before the issuance of the financial statements, it is recognized as a reduction of revenue in the financial statements for the current year.
- If the return occurs after the issuance of the financial statements, it is recognized as a reduction of revenue in the financial statements for the following year.

16. Borrowing Costs

Borrowing costs include interest expenses and other directly related costs incurred in connection with loans.

Borrowing costs are recognized as expenses when incurred. If borrowing costs are directly attributable to the acquisition, construction, or production of qualifying assets under construction that require a substantial period of time (over 12 months) to be ready for their intended use or sale, such costs are capitalized as part of the asset's value. For specific loans used for constructing fixed assets or investment properties, interest is capitalized even if the construction period is less than 12 months. Any income earned from the temporary investment of borrowed funds is deducted from the asset's original cost.

For general borrowings used partly for the construction or production of qualifying assets, the amount of borrowing costs capitalized is determined using a capitalization rate applied to the weighted average cumulative expenditure incurred for the construction or production of the asset. The capitalization rate is calculated as the weighted average interest rate of outstanding loans during the period, excluding specific loans directly attributable to the acquisition of a particular asset.

17. Expenses

Expenses are reductions in economic benefits, recognized at the time a transaction occurs or when it is reasonably certain that they will occur in the future, regardless of whether payment has been made.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

Expenses and the revenues they generate must be recognized simultaneously according to the matching principle. In cases where the matching principle conflicts with the prudence principle, expenses are recognized based on the nature of the transaction and in compliance with accounting standards to ensure a fair and truthful representation of the transaction.

18. Corporate income tax

The corporate income tax expense includes current corporate income tax and deferred corporate income tax.

Current corporate income tax

Current corporate income tax is calculated based on taxable income. Taxable income differs from accounting profit due to temporary differences between tax and accounting treatments, non-deductible expenses, adjustments for non-taxable income, and carried-forward losses.

Deferred corporate income tax

Deferred corporate income tax is the tax payable or recoverable due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized only to the extent that it is probable that taxable profits will be available in the future to utilize these deductible temporary differences.

The carrying amount of deferred tax assets is reviewed at the end of each accounting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to utilize the benefits of all or part of the deferred tax assets. Previously unrecognized deferred tax assets are reassessed at the end of each accounting period and recognized if it becomes probable that future taxable profits will be sufficient to recover these deferred tax assets.

Deferred tax assets and liabilities are measured using the tax rates expected to apply in the year when the asset is realized, or the liability is settled, based on the rates enacted or substantively enacted as of the end of the accounting period. Deferred tax is recognized in the income statement, except for cases where it relates to items directly recorded in equity, in which case it is recorded directly in equity.

Deferred tax assets and liabilities are offset when:

- The Company has a legal right to offset current tax assets against current tax liabilities; and
- Deferred tax assets and liabilities relate to corporate income tax managed by the same tax authority:
 - For the same taxable entity; or
 - The Company intends to settle current tax liabilities and assets on a net basis, or realize the assets and settle the liabilities simultaneously in each future period when significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

19. Related Parties

Parties are considered related if one party has the ability to control or significantly influence the other party's decisions regarding financial and operating policies. Parties are also deemed related if they are subject to common control or significant common influence.

In assessing the relationship between related parties, the substance of the relationship takes precedence over legal form.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Notes to the Financial Statement (continued)

20. Segment Reporting

A business segment is a distinguishable component engaged in the production or provision of products or services, subject to risks and economic benefits different from those of other business segments.

A geographical segment is a distinguishable component engaged in the production or provision of products or services within a specific economic environment and is subject to risks and economic benefits different from those of segments operating in other economic environments.

Segment information is prepared and presented in accordance with the accounting policies applied for the preparation and presentation of the Company's financial statements

21. Financial Instruments

Financial Assets

The classification of financial assets depends on their nature and purpose, determined at the time of initial recognition. The Company's financial assets include cash and cash equivalents, trade receivables, and other receivables.

At the time of initial recognition, financial assets are recorded at cost, including transaction costs directly related to those financial assets.

Financial Liabilities

The classification of financial liabilities depends on their nature and purpose, determined at the time of initial recognition. The Company's financial liabilities include trade payables, loans, and borrowings, as well as other payables.

At the time of initial recognition, financial liabilities are recorded at cost, net of transaction costs directly related to those financial liabilities.

Equity Instruments

Equity instruments represent contracts that provide evidence of residual interest in the Company's assets after deducting all liabilities.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and presented on a net basis in the Balance Sheet only when the Company:

- Has a legal right to offset the recognized amounts; and
- Intends to settle on a net basis or realize the assets and settle the liabilities simultaneously.

KHANH HOA WATER SUPPLY AND SEWERAGE JOINT STOCK COMPANY

Địa chỉ: 58 Yersin Street, Tay Nha Trang Ward, Khanh Hoa Province

FINANCIAL STATEMENTS

For the fiscal year ending 31 December, 2025

Notes to the Financial Statement (continued)**14b. Corporate income tax (CIT)**

The Company pays CIT for income from water production activities at a tax rate of 10%, while income from other activities is subject to a tax rate of 20%.

The CIT payable for the year is estimated as follows:

	Accumulated to 3rd quarter, 2025
Total Accounting Profit Before Tax	71.831.440.540
Adjustments to Accounting Profit to Determine Taxable Income:	
- Additions	187.400.752
- Deductions	-
Taxable Income	72.018.841.292
Corporate Income Tax Rates	20%
CIT Payable at the Standard Tax Rate	14.403.768.258
CIT adjustments due to applying a different Tax rate	(6.970.751.033)
CIT after adjustments due to applying a different Tax rate	7.433.017.225
CIT Accrued in Previous Quarters	4.438.199.328
Total Remaining CIT Payable	2.994.817.897

The determination of CIT payable is based on current tax regulations. However, these regulations are subject to change over time, and tax rules for various transactions can be interpreted differently. Therefore, the amount of tax presented in the financial statements may change following tax authority audits.

14c. Resource Tax

The company is required to pay resource tax on water used for production, with a tax base of 4,000 VND/m³ and a tax rate of 1%.

14d. Land Lease and Property Tax

Land lease and property taxes are paid according to the notification from the tax authority.

14e. Other Taxes

The company declares and pays taxes in accordance with regulations.

15. Short-Term Payables

	Ending balance	Beginning balance
