6. Employees		

The number of regular employees of the Company as of September 30, 2025 is 113 people and as of January 1, 2025 is 113 people.

7. Statement on comparability of information in financial statements: information in financial statements is comparable.

II. ACCOUNTING PERIOD, CURRENCY USED IN ACCOUNTING

The Company's fiscal year begins on January 1 and ends on December 31.
Currency used in accounting: Vietnamese Dong (VND).

III. ACCOUNTING STANDARDS AND REGIMES APPLIED

The consolidated financial statements are presented in Vietnamese Dong (VND), prepared based on accounting principles in accordance with the provisions of Circular No. 202/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance, Vietnamese accounting standards and relevant legal regulations.

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis for preparing consolidated financial statements

Consolidated financial statements include the financial statements of the parent company and the financial statements of the subsidiaries.

The financial statements of the parent company and those of subsidiaries used for consolidation are prepared for the same accounting period and apply consistently accounting policies to the same types of transactions and events in similar circumstances.

Investments in subsidiaries excluded from the above consolidation are transferred to the investment in other entities and presented using the cost method.

2. Cash and cash equivalents

Cash reflects the total amount of cash available to the Company at the end of the accounting period, including cash and demand deposits.

Cash equivalents reflect short-term investments with a recovery period of no more than 03 months from the investment date that can be easily converted into a known amount of cash and are subject to no risk of conversion into cash at the reporting date, recorded in accordance with the provisions of Vietnamese Accounting Standards.

3. Currency conversion

Economic transactions arising in foreign currencies are converted into VND at the actual exchange rate on the transaction date. The arising exchange rate difference is reflected in financial income or financial expenses. The exchange rate difference due to revaluation of foreign currency items at the end of the accounting period after offsetting the increase and decrease is recorded in financial income or financial expenses.

The actual transaction exchange rate for expenses paid immediately in foreign currency is the buying rate of the commercial bank where the enterprise makes the payment.

4. Financial investments

4.1 Trading securities

Trading securities are securities held by the Company for trading purposes. Trading securities are recorded in the accounting books at cost, starting from the date the Company acquires ownership and are determined by the total of the fair value of the payments at the time the transaction occurs and expenses related to the purchase of trading securities.

The time of recording trading securities is the time when the Company has ownership, specifically as follows:

- Listed securities are recorded at the time of order matching (T+0);
- Unlisted securities are recorded at the time of official ownership as prescribed by law.

Dividends from periods prior to the date the trading securities were purchased are recorded as a reduction in the value of the investment. Dividends distributed for periods subsequent to the date the trading securities were purchased are recorded in financial income.

Provision for dilutions of trading securities is the larger difference between their original cost and market value, set aside in accordance with the provisions of Circular No. 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance.

- For listed securities, the actual market price of securities is calculated based on the closing price on the last day of the period. ;
- For shares registered for trading on the market of unlisted public companies (Upcom), the actual stock price on the market is determined as the average reference price of trading days in the last 30 days of the period.

When trading securities are sold, the cost of the trading securities is determined using the weighted average method.

4.2 Held to maturity investment:

Held-to-maturity investments include those investments that the Company has the intention and ability to hold until maturity. Held-to-maturity investments include bonds that the issuer must redeem at a certain time in the future, and bank deposits with maturities of more than 3 months.

Held-to-maturity investments are initially recorded at cost, which is the purchase price. After initial recognition, these investments are recorded at their recoverable amount.

Interest arising after the purchase date of held-to-maturity investments is added financial income.

The Company bases the remaining term from the reporting date of investments held to maturity to the expired date to classify them as short-term or long-term.

4.3 Capital investments in other entities

Investments in other entities are initially recorded at cost. In the case of investments in non-monetary assets, the cost of the investment is recorded at the fair value of the non-monetary assets at the time of acquisition.

Investment in associates

Reflects investments in which the Company directly or indirectly holds from 20% to less than 50% of the voting rights of the investee (associate) without other agreement.

An associate is an enterprise in which the Company has significant influence but not control over the financial and operating policies. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control over those policies.

Provision for losses on investments in associates and capital contributions to other entities is the larger difference between the original cost and the Company's ownership portion calculated according to the accounting books of the investee, set up in accordance with the provisions of Circular No. 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance. The financial statements of the investee used to determine the Company's ownership portion are the separate financial statements of the investee.

5. Receivables and allowance for doubtful debts

Receivables are amounts recoverable from customers or others. Receivables are stated at book value less allowance for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or receivables that the debtor is unlikely to be able to pay due to dissolution, bankruptcy or similar difficulties in accordance with the provisions of Circular No. 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance.

6. Inventory

Inventories are measured at cost, if cost is greater than net realizable value, inventories are measured at net realizable value. The cost of inventories includes: purchase expense, processing expense and other directly related expense s incurred in bringing the inventories to their present location and condition. Net realizable value is determined by the estimated selling price less the estimated costs of completion and the estimated costs necessary to consume them.

Inventory is determined by the monthly weighted average method.

Inventories are accounted by using the perpetual inventory method.

Work in progress includes actual costs incurred from construction projects in progress.

7. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. Tangible fixed assets are determined at cost.

The original cost of tangible fixed assets formed from purchase and construction transfer is all expenses that the Company must spend to have fixed assets up to the time the asset is put into a state of readiness for use.

Tangible fixed assets are depreciated using the straight-line method, the depreciation amount is calculated by dividing the original cost (:) by the estimated useful life or the remaining value by the remaining useful time (for assets with a change in depreciation period), in accordance with the provisions of Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance. The specific depreciation periods for each type of asset are as follows:

	Number of years
Housings, buildings	06 - 25
Machines and equipments	03 - 07
Means of transport, transmission equipment	06 - 10
Management equipment and tools	03 - 05
Other tangible fixed assets	03 - 08

8. Intangible fixed assets and depreciation

Intangible fixed assets are stated at cost less accumulated depreciation. The cost of intangible fixed assets is determined at cost.

Intangible fixed assets are depreciated using the straight-line method, based on their estimated useful lives in accordance with the provisions of Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance.

9. Investment property

Investment property includes a house, part of a house or infrastructure owned by the Company and used for the purpose of earning rental income.

Investment property for lease is stated at cost less accumulated depreciation. The cost of investment property is the total cash or cash equivalents paid by the enterprise or the fair value of other consideration given to acquire the investment property up to the time of purchase or completion of construction of the investment property.

Expenses related to investment real estate incurred after initial recognition are recorded as expenses, unless these expenses are likely to make the investment property generate more economic benefits in the future than the initially assessed level of performance, then they are recorded as an increase in original cost.

Investment property for lease is depreciated using the straight-line method, based on an estimated useful life of 25 years, in accordance with the provisions of Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance.

10. Prepaid expenses

Prepaid expenses are recorded according to actual occurrence, including asset repair expenses - interior renovation, insurance expenses and expenses of tools and supplies issued for use.

Asset repair expenses - interior renovation are allocated to the business results by the straight-line method for a maximum of 5 years;

Prepaid expenses are tools, equipment issued for use, insurance expenses, etc., which are allocated to the business results using the straight-line method over an allocation period of 1 to 3 years.

11. Payables

Payables are monitored in detail by original maturity, remaining maturity at the reporting date, payable entities and other factors according to the Company's management needs. The classification of payables as trade payables and other payables is carried out according to the following principles:

- Trade payables include commercial payables arising from purchase-sale transactions;

Other payables include non-commercial payables not related to the purchase, sale, or provision of goods or services, including: dividends payable; payables for social insurance, health insurance, unemployment insurance, and union fees; deposits and other amounts.

12. Accrued expenses

Accrued expenses are recorded based on reasonable estimates of the amounts payable for goods and services used.

Provision in advance for the cost of works under construction according to the estimate of the Company's Board of Directors.

13. Provision for payables

Provisions for payables are recorded based on the best estimate of the expenditure required to settle the present obligation at the reporting date.

Provisions for payables include: product warranties, goods, construction works and other provisions for payables.

14. Unearned Revenue

Unearned revenue reflects customers' prepayments for the Company's apartment rentals.

15. Equity

Owner's equity at the end of the accounting period reflects the equity of internal and external shareholders, recorded according to the actual capital contributed by shareholders, calculated according to the par value of issued shares.

Non-controlling interest is a portion of the profits and net assets of a subsidiary attributable to interests not owned by parent company, directly or indirectly through subsidiaries. Non-controlling interest is presented in the consolidated balance sheet as a separate item in equity. Non-controlling interest is also presented as a separate item in the consolidated income statement.

16. Revenue and other income

Revenue from providing services is recognized when all of the following conditions are simultaneously satisfied:

- Revenue is confirmed with relative certainty

Construction contract revenue

For construction contracts stipulating that contractors are paid according to the value of the performed volume, when the results of the construction contract performance are reliably determined and confirmed by the customer, revenue related to the contract is recorded corresponding to the completed work confirmed by the customer in the period reflected on the issued invoice.

Financial revenue includes: interest on deposits, bond interest, dividends, distributed profits; profits from selling trading securities and long-term financial investments.

Other income reflects income arising from events or transactions separate from the Company's normal business operations, in addition to the above revenues.

17. Cost of goods sold

Cost of goods sold is recorded according to actual occurrence in accordance with revenue, including: capital value of products, goods, services sold during the period; depreciation, repair costs, operating costs of real estate investment lease under the operating lease method.

18. Financial expenses

Financial expenses include: losses from selling trading securities and long-term financial investments, provisions for devaluation of trading securities and losses on investments.

Exchange rate differences reflect actual exchange rate differences arising during the period from foreign currency-denominated transactions.

19. Selling and administrative expenses

Selling expenses reflect actual sales staff costs incurred in the process of selling products, goods, and providing services during the accounting period.

Business management expenses reflect the Company's general management expenses incurred during the accounting period, including: salary expenses for business management employees; social insurance, health insurance, unemployment insurance, union fees for business management employees; depreciation of fixed assets used for business management; real estate tax, land rent; electricity, water, telephone, and outsourced service costs; other cash expenses.

20. Tax

Current income tax expense reflects the corporate income tax payable arising in the period. The determination of the Company's taxes is based on current tax regulations.

Taxable income may differ from total accounting profit before tax as reported in the income statement because taxable income excludes items of income or expense that are taxable or deductible in other years (including losses carried forward, if any) and further excludes items that are not taxable or deductible.

Deferred income tax income reflects the difference between deferred income tax liabilities reversed during the year and deferred income tax liabilities incurred during the year.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled. Deferred tax is recognised in the consolidated income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also recognised in equity.

21. Principles and methods of preparing consolidated financial statements **Method of eliminating internal transactions**

Balances of items on the balance sheet, intra-company transactions within the same Company, unrealized intra-company profits arising from these transactions are eliminated completely. Unrealized losses arising from intra-company transactions are also eliminated, unless the costs creating such losses are unrecoverable. Intra-company transactions are assumed to have been fully realized during the period.

Method of recording non-controlling interest

Non-controlling interests represent the portion of the profit or loss in the results of operations and net assets of a subsidiary not held by the Company and are presented as a separate item in the consolidated income statement and in the consolidated balance sheet (as part of equity). Non-controlling interests consist of the amount of the non-controlling interests at the date of the original business combination and the non-controlling interest in changes in equity since the date of the business combination. Losses incurred by a subsidiary are allocated to the non-controlling interest, even if such losses are greater than the non-controlling interest in the net assets of the subsidiary.

22. Related parties

Parties are considered to be related to the Company if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be organizations or individuals, including close family members of any individual considered to be a related party.
