**NOTES TO THE INTERIM FINANCIAL STATEMENTS**

**FORM NO, B09A - DN**

*(The explanations from page 07 to page 26 are constituent parts of the financial statements)*

Currency used in accounting: Vietnam Dong (VND),

**3, APPLIED ACCOUNTING STANDARDS AND REGIME**

Financial statements are presented in Vietnam Dong (VND), prepared based on accounting principles in accordance with the provisions of the corporate accounting regime issued in Circular No, 200/2014/TT-BTC dated December 22, 2014, Circular No, 53/2016/TT-BTC dated March 21, 2016 of the Ministry of Finance, Vietnamese accounting standards and related legal regulations to the preparation and presentation of financial reports,

**4, SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The following are the main accounting policies applied by the Company in preparing these financial statements:

**4.1. Basis for preparing financial statements**

Financial statements are prepared on the basis of accrual accounting (except for information related to cash flows),

**4.2. Foreign currency conversion**

The principle of foreign currency conversion is implemented in accordance with the provisions of Vietnam Accounting Standard No, 10 - Effects of exchange rate changes and Circular No, 179/2012/TT-BTC dated 24/10/2012 of the Ministry of Finance,

During the period, economic operations arising in foreign currencies are converted into VND at the actual exchange rate on the date of incurrence, The exchange rate difference is reflected in the revenue from financial activities (if profit) and financial expenses (if loss), Monetary items of foreign currency origin shall be revaluated according to the actual exchange rate at the end of the annual accounting period, The exchange rate difference due to the revaluation is reflected in the exchange rate difference and is carried forward to the revenue from financial activities (in case of profit) and financial expenses (in case of loss) at the end of the accounting period,

Types of exchange rates applied in the accounting period:

Principles for determining the actual exchange rate:

Actual exchange rates for transactions in foreign currencies arising in the period:

+ The actual transaction rate when recording receivables: is the purchase rate of the commercial bank where the Company designates the customer to pay at the time the transaction arises;

+ Actual transaction rate when recording liabilities: is the selling rate of the commercial bank where the Company is expected to transact at the time the transaction arises,

Actual exchange rates when re-evaluating currency items of foreign currency origin at the time of making financial statements:

+ The actual exchange rate when revaluating currency items of foreign currency origin classified as assets: is the foreign currency purchase rate of the commercial bank where the Company regularly has transactions at the time of making financial statements, For foreign

**NOTES TO THE INTERIM FINANCIAL STATEMENTS**

**FORM NO, B09A - DN**

*(The explanations from page 07 to page 26 are constituent parts of the financial statements)*

currency deposits to banks, the actual exchange rate when re-evaluated is the purchase rate of the bank where the company opens the foreign currency account,

Principles for determining the book-recorded exchange rate:

Nominal actual book exchange rate: It is the exchange rate upon recovery of receivables, deposits, deposits or payment of liabilities in foreign currencies determined according to the exchange rate at the time of arising transactions or at the time of period-end assessment of each object,

Mobile weighted average book rate: means the exchange rate used by the Money Account Creditor when paying in foreign currency, determined on the basis of taking the total value reflected at the Cash Account Debit side divided by the actual amount of foreign currency available at the time of payment,

The exchange rate used for conversion at the time of January 1, 2025 is 25,251 VND/USD (Joint Stock Commercial Bank for Foreign Trade of Vietnam - Head Office) and 24,110 VND/USD (Prosperity And Growth Commercial Joint Stock Bank), as of October 30, 2025 is 26,424 VND/USD (Prosperity And Growth Commercial Joint Stock Bank),

**4.3. Cash and cash equivalents**

Cash reflects all of the Company's existing cash at the end of the accounting period, including cash and demand bank deposits,

Cash equivalents reflect short-term investments with a payback period of not more than 03 months from the date of investment that can be easily converted into a specified amount of money and there is no risk in converting into cash at the time of reporting, recorded in accordance with the provisions of Vietnam Accounting Standard No, 24 - Cash Flow Report,

**4.4. Financial investments**

**Investments held to maturity:**

These are bank deposits with terms over 3 months that are not classified as cash equivalents,

**Investment in capital contribution to other units:**

These are investments in capital instruments but the Company does not have control, joint control or significant influence over the investee,

**4.5. Accounts receivable**

Receivables are monitored in detail according to the principal term, remaining term at the time of reporting, receivables, type of currency and other factors according to the Company's management needs, The classification of receivables as customer receivables and other receivables shall be carried out according to the following principles:

- Customer receivables include commercial receivables arising from transactions of a buy-sell nature;

**NOTES TO THE INTERIM FINANCIAL STATEMENTS**

**FORM NO, B09A - DN**

*(The explanations from page 07 to page 26 are constituent parts of the financial statements)*

- Other receivables include receivables that are not commercial and not related to purchase and sale transactions, including: advances; deposits, deposits; must be collected for supplies and goods used to replace damaged materials and goods during the product warranty period,

The Company shall base itself on the remaining term at the time of reporting the receivables to classify them as long-term or short-term and re-evaluate the monetary items of foreign currency origin according to the principles presented in Explanation No, 4.2, Receivables recorded must not exceed the recoverable value,

**4.6. Inventory**

The Company's inventory includes: raw materials, goods and unfinished production and business costs determined according to the original price, in case the original price is greater than the net realizable value, the inventory is determined according to the net realizable value (According to Accounting Standard No, 02: Inventory),

Inventory is determined by the nominal price method,

Inventories shall be accounted according to the method of regular declaration,

Unfinished production and business expenses are determined according to each ongoing and unsettled project, including the value of raw materials, goods and other expenses directly related to the implementation of projects,

**4.7. Tangible fixed assets, intangible fixed assets and depreciation**

Tangible fixed assets and intangible fixed assets are presented at historical cost minus the accumulated wear and tear value, The historical cost of tangible fixed assets and intangible fixed assets is determined according to the original price,

The historical cost of tangible fixed assets and intangible fixed assets formed from procurement, investment, construction and transfer are all costs that the Company must spend to have fixed assets up to the time of putting such assets into a state of readiness for use,

Tangible fixed assets are depreciated according to the straight-line method, the depreciation amount is calculated by dividing the historical cost (:) by the estimated useful life, in accordance with the provisions of Circular No, 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance, The specific depreciation calculation time of asset classes is as follows:

	<u>Number of years of depreciation</u>
Machinery and equipment	03 - 07
Management equipment and instruments	03 - 05
Means of transport, transmission equipment	06 - 07

Intangible fixed assets include computer software, labor management software and Support Center software, information system software that are depreciated according to the straight-line method, based on the estimated useful life from 03 to 05 years, in accordance with the provisions of Circular No, 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance,

**4.8. Costs of unfinished capital construction**

The cost of unfinished capital construction includes the cost of training human resources, salaries and other expenses to invest in new research projects, upgrading existing products, and investing in IT infrastructure,...

*(The explanations from page 07 to page 26 are constituent parts of the financial statements)*

**4.9. Upfront costs**

Prepaid expenses are recorded according to the actual incurred, including: costs of tools, instruments, office repair costs, office rental costs and internet charges for business activities of many accounting periods,

Expenses for tools, tools for use, and expenses for office repairs shall be allocated to the results of business activities by the straight-line method from 12 to 24 months from the date of incurrence,

The cost of renting an office represents the amount of rent paid in advance, which is allocated to the results of business activities in a straight line method corresponding to the lease period,

Internet charges represent the amount paid in advance, which is allocated to the results of business activities in a straight line method corresponding to the time of use,

The Company shall classify short-term or long-term prepaid expenses based on the contractual prepayment period or the allocation time of each type of expense and shall not reclassify them at the time of reporting,

**4.10. Liabilities**

Liabilities are monitored in detail according to the original term, remaining term at the time of reporting, payables and other factors according to the Company's management needs, The classification of payables as payables to sellers, payable expenses and other payables shall be carried out on the following principles:

- Payables to sellers include commercial payables arising from transactions of a buy-sell nature;
- Payable expenses are the deductions before actual production and business expenses incurred in the period;
- Other payables include non-commercial payables, not related to the purchase, sale and supply of goods and services, including: payable trade union dues and other payables.

The company bases on the remaining term at the time of reporting of liabilities to classify as long-term or short-term, Liabilities are recorded not lower than the obligation to pay,

**4.11. Payable provisions**

Payable provisions shall be recorded only when the following conditions are satisfied:

- The company has current debt obligations (legal obligations or joint obligations) as a result of an event that has already occurred;
- A decrease in the economic benefits that may result in the requirement to pay the debt obligation;
- Give a reliable estimate of the value of that debt obligation,

Payable provisions are recorded based on the most reasonable estimate of the amount of money that will have to be spent to pay debt obligations;

Provision for warranty of products, goods and works as committed to customers or according to the provisions of the contract is the Company's estimate of the debt payable for the 12-

month warranty period applied to products and goods on the basis of the Company's experience in the probability of defective products, repair costs at the works,

**4.12. Equity**

The owner's contributed capital as of September 30, 2025 reflects the contributed capital of shareholders inside and outside the enterprise, recorded according to the actual contributed capital of shareholders contributing shares, calculated according to the par value of issued shares,

**4.13. Revenue and other income**

Sales revenue is recognized when the following conditions are satisfied at the same time:

- The company has transferred most of the risks and benefits associated with the ownership of products and goods to the buyer;
- The company no longer holds the right to manage the goods as the owner or control of the goods;
- Revenue is determined with relative certainty;
- The company has or will derive economic benefits from the sale;
- Identify expenses related to sales transactions,

Revenue from provision of services shall be recognized when the following conditions are satisfied at the same time:

- Revenue is determined with relative certainty;
- The company has obtained or will derive economic benefits from the transaction of providing such services;
- Identify the part of the work completed at the time of reporting;
- Identify the costs incurred for the transaction and the costs to complete the transaction to provide such services,

Revenue from financial activities includes interest on deposits, margins, dividends distributed and interest on exchange rates, Concrete:

- Interest is determined relatively firmly on the basis of deposit balance, deposit and actual interest rate for each period,
- Dividends to be distributed are recorded according to the notice of the dividend payer,
- The exchange rate difference reflects the actual exchange rate difference interest incurred in the period of foreign-currency derivative operations and the exchange rate difference interest due to the revaluation of foreign currency-derived monetary items at the time of reporting,

Other income reflects income arising from events or operations separate from the Company's ordinary business activities, in addition to the above-mentioned revenues,
