Re: Explanation for profit after tax increased or decreased  
compared to the same period last year

Hanoi, October ....., 2025

Attention: - State Securities Commission;  
- Hanoi Stock Exchange.

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance guiding information disclosure on the stock market.

VINACOMIN - Viet Bac Mining Industry Holding Corporation would like to explain the increase in profit after tax in the third quarter of 2025 and the cumulative profit for nine months of 2025 of the Parent company's financial statements and Consolidated financial statements, compared to the same period last year:

Unit: Million dong

Items	Quarter III				Cumulative year			
	Year 2025	Year 2024	Difference		Year 2025	Year 2024	Difference	
			Amount	Rate (%)			Amount	Rate (%)
Profit after tax of the Parent Company	11,799	31,860	-20,061	-63	149,314	146,197	3,117	2
Profit after tax of Consolidated Financial Statements	16,684	37,780	-21,096	-56	198,077	166,503	31,574	19

The profit after tax for the third quarter of 2025 in the Parent company's financial statements and the Consolidated financial statements decreased compared to the same period last year. The main reason was that increased input costs led to higher expenses, thereby reducing profits compared to the same period last year. However, the accumulated figures for nine months of 2025 still increased compared to the same period last year: the Parent Company's financial statements rose by 2%, and the consolidated financial statements rose by 19%, mainly due to higher consumption volume which resulted in increased revenue and profit.

VINACOMIN - Viet Bac Mining Industry Holding Corporation hereby reports to the State Securities Commission and Hanoi Stock Exchange for information.
