NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***8. Disclosure on comparability of information in the interim consolidated financial statements**

The selection of figures and information needs to be presented in the interim consolidated financial statements has been implemented based on the principles of comparability among corresponding accounting periods.

II. ACCOUNTING PERIOD AND REPORTING CURRENCY**1. Fiscal year and accounting period**

The fiscal year is from January 01 and ended December 31 annually.

2. Reporting currency

Vietnam Dong (VND) is used as a currency unit for accounting records.

III. ADOPTION OF ACCOUNTING STANDARDS AND POLICIES**1. Applicable Accounting System**

The Group applies the Vietnamese Corporate Accounting System as guided by Circular No. 200/2014/TT-BTC issued by the Ministry of Finance of Vietnam on December 22, 2014, Circular No. 53/2016/TT-BTC dated March 21, 2016, amending and supplementing certain provisions of Circular No.200/2014, Circular No. 202/2014/TT-BTC issued by the Ministry of Finance of Vietnam on December 22, 2014, and other circulars guiding the implementation of accounting standards issued by the Ministry of Finance in the preparation and presentation of financial statements.

2. Disclosure of compliance with Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System

The Board of Management ensures compliance with the requirements of Vietnamese Accounting Standards and the Vietnamese Corporate Accounting System as stipulated in Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 53/2016/TT-BTC dated March 21, 2016, amending and supplementing certain provisions of Circular No.200/2014, Circular No. 202/2014/TT-BTC issued by the Ministry of Finance of Vietnam on December 22, 2014, and other circulars guiding the implementation of accounting standards issued by the Ministry of Finance in the preparation and presentation of financial statements.

IV. APPLICABLE ACCOUNTING POLICIES**1. Basis of consolidation of financial statements**

The interim consolidated financial statements comprise the financial statements of CNT Group Corporation (the "Company") and its subsidiaries (collectively referred to as the "Group") for the first 09 months of the year 2025.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Group obtains control, and until the date that such control ceases.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Adjustments are made to eliminate any differences in accounting policies to ensure consistency across the Group.

All balances between entities within the Group, as well as revenues, income, and expenses arising from intra-group transactions, including unrealised gains from such transactions that are included in the carrying amounts of assets, are fully eliminated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***1. Basis of consolidation of financial statements (cont.)**

Unrealised losses arising from intra-group transactions that are included in the carrying amounts of assets are also eliminated, except to the extent that the transaction indicates an impairment of the related asset.

Non-controlling interests represent the portion of profit or loss and net assets not held by the Group and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet

Losses incurred by subsidiaries are allocated to non-controlling interests even if such losses exceed the non-controlling interests' share in the net assets of the subsidiaries.

Goodwill (or gain from a bargain purchase) arising from the acquisition of subsidiaries represents the difference between the cost of the investment and the fair value of the identifiable net assets of the subsidiaries at the acquisition date. Goodwill is amortised on a straight-line basis over its estimated useful life, not exceeding 10 years. The Group periodically assesses goodwill for impairment, and if there is evidence that the impairment loss exceeds the annual amortisation amount, the excess impairment is recognised immediately in the period in which it arises.

2. Principle for cash and cash equivalents

Cash includes cash on hand, demand deposit.

Cash equivalents comprise term deposits and other short-term investments with maturity period less than 3 months from the date of acquisition, highly liquid, readily convertible to known amount of cash and subject to an insignificant risk of changes in cash.

3. Principles for accounting financial investments**Held-to-maturity investments**

Held-to-maturity investments include term deposits at banks, loans held to maturity to earn periodic interest, and other investments held to maturity.

Held-to-maturity investments are initially recognised at cost, which includes the purchase price and any directly attributable transaction costs. After initial recognition, if no provision for doubtful debts is made in accordance with legal regulations, these investments are measured at recoverable value. When there is clear evidence that part or all of an investment is irrecoverable, the corresponding loss is recognised in finance expenses for the period and deducted from the carrying amount of the investment.

Accounting for borrowings

Borrowings are the amounts granted according to contracts and agreements signed between the two parties for the purpose of periodically collecting interests and recorded at the original cost less provision for doubtful debts. The provision for doubtful debts is made on the basis of the estimates on the loss due to overdue, undue debts that are unlikely to be recovered because of the insolvency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***3. Principles for accounting financial investments (cont.)****Investments in associates**

Investments in associates are recognised when the Group holds from 20% to less than 50% of the voting rights of the investees, has significant influence, but does not have control over the financial and operating policy decisions of these investees. Investments in associates are presented in the consolidated financial statements using the equity method.

Under the equity method, the investment is carried in the consolidated balance sheet at cost plus post-acquisition changes in the Group's share of the net assets of the associates. The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associates after the acquisition date as a separate line item.

Goodwill arising on acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortised and subject to annual review for impairment.

The financial statements of associates are prepared for the same reporting period as the consolidated financial statements of the Group and using consistent accounting policies. Appropriate consolidation adjustments have been made to ensure the accounting policies are applied consistently with those of the Group where necessary.

Investments in other entities

Equity investment in other entities represents the Group's investment in other entities' equity instruments. However, the Group does not hold any control or joint control right and exercise significant influences over the investees either

The investments are stated at original cost including purchase price and costs directly attributable to the investment.

Regarding the investments the Group holds in a long time (not trading securities) and no significant influences are exercised on the investees, provision for loss will be made as follows:

- + Investments in listed equity or securities measured at fair value with reliably determinable fair values, the provision is recognized based on the market value of the securities.

- + If it is impossible to determine the investments' fair value at the reporting date, the provision will be made on the basis the loss that investee suffers. Basis for making provision for loss of investments in other entities is the consolidated financial statements of the investee (if it is a parent company) or the financial statements of the investee (if it is an independent entity without subsidiaries).

4. Principles for recording trade receivables and other receivables

Receivables are recognized at cost, net of provision for doubtful receivables.

The classifying of the receivables as trade receivables, inter-company receivables and other receivables depends on the nature of the transaction or relationship between the company and debtor.

Method of making provision for doubtful debts: Provision for doubtful debts is estimated for the loss value of the receivables, other held-to-maturity investments similar to doubtful debts that are overdue and undue, but are likely to become possibly irrecoverable due to insolvency of debtors who go bankruptcy, making procedures for dissolution, go missing or run away...

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***5. Principles for recording inventories**

Inventories are stated at original cost less (-) the provision for the decline in value of obsolete and deteriorated inventories.

Original costs are determined as follows

Work in progress: costs of raw materials, labor and other directly costs for producing inventories incurred in the duration of building works in progress.

The project's work-in-progress costs include land clearance costs, consulting fees, infrastructure construction costs, project management expenses, etc.

Inventory property

Property acquired or being constructed for sale in the ordinary course of the Group, rather than to be held for rental or capital appreciation is recognized as inventory. Inventory is measured at the lower of cost and NRV. The cost of inventory includes freehold for land, construction cost, specific costs and other related overhead costs incurred to bring the inventory to its present location and condition.

Method of calculating inventories' value: Special identification.

Method of accounting for the inventories: Perpetual method.

Method of recognizing provision for obsolete inventories: Provision for obsolete inventories is recognized when the NRV of inventories is lower than their cost. is the estimated selling price less the estimated costs of completion and the estimated selling expenses. Provision for obsolete inventories is determined as the excess of the cost of inventories over their net realizable value. Provisions are made for each inventory item where the cost exceeds its NRV.

6. Principles for recording fixed assets**6.1. Tangible fixed assets**

Tangible fixed assets are stated at original cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises all expenditures of bringing the asset to its working condition and location for its intended use. The expenditures incurred beyond their originally assessed standard of performance are capitalised as an additional cost of tangible fixed assets when they have resulted in an increase in the future economic benefits expected to be obtained from the use of those tangible fixed assets. The expenditures which do not meet the above conditions are charged to the expenses in the year.

When the assets are sold or disposed, their original costs and the accumulated depreciation which have been written off and any gain or loss from disposal of assets are recorded in the income statement.

Determination of original costs of tangible fixed assets:

Tangible fixed assets purchased

The original cost of purchased tangible fixed assets shall consist of the actual purchase price less (-) trade discounts or reduction plus (+) taxes (excluding taxes to be refunded) and relevant expenses calculated to the time when such fixed assets are put into operation such as fees for installation and trial operation of fixed assets; specialists and other direct costs.

For fixed assets that are buildings and structures attached to land use rights, the value of the land use rights is separately determined and recognised as an intangible fixed asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***6. Principles for recording fixed assets (cont.)****6.2. Method of depreciating and amortizing fixed assets**

Depreciation is charged to write off the cost of fixed assets on a straight-line basis over their estimated useful lives. Useful life means the duration in which the tangible fixed assets produce their effect on production and business.

The estimated useful life for assets is as follows:

<i>Buildings and structures</i>	<i>05 - 10 years</i>
<i>Machinery and equipment</i>	<i>03 - 10 years</i>
<i>Transportation and facilities</i>	<i>03 - 15 years</i>
<i>Office equipment</i>	<i>03 - 10 years</i>

7. Principles for recording prepaid expenses

Prepaid expenses are all expenses that actually incurred but relate to the operating result of several accounting periods. The Group's prepaid expenses include: Selling expenses of the Ha Tien land project (such as brokerage expenses, advertising costs, and other expenses incurred in relation to land sales at the Ha Tien New Urban Area project), mining rights and quarry rental fees of the Tra Duoc quarry and other prepaid expenses.

Method of allocating prepaid expenses: The determination and allocation of prepaid expenses into costs of production and business operation of each period is on a straight-line basis. Based on the nature and level of each expense, the term of allocation is defined as follows: short-term prepaid expenses should be allocated within one year; Long-term expenses should be allocated in the term from 12 months to 36 months. Particularly, the brokerage expenses for land sales at the Ha Tien New Urban Area project are allocated based on the revenue recognized during the period.

8. Principles for recording liabilities

Liabilities are recorded at original cost and not lower than the payment obligation.

Liabilities shall be classified into trade payables, inter-company payables and other payables depending on the nature of transactions and relationship between the Group and debtors.

Liabilities must be kept records in detail according to payment schedule, creditor, type of original currency (including revaluation of liabilities payable which satisfying the definition of monetary assets denominated in foreign currencies) and other factors according to requirements of the enterprise.

At the reporting date, if it is evident that there is an unavoidable loss, an amount payable shall be recorded according to cautious rules.

9. Principles for recording accruals

Accrued expenses include estimated costs payable for the provisional calculation of the cost of land lots sold and other accrued expenses, which are recognised based on reasonable estimates of amounts payable for goods and services received during the period but for which invoices or sufficient accounting documents have not yet been obtained. These expenses are recorded in the production and business costs of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***10. Principles for recording provision liabilities**

Provisions are recognized when the following conditions are satisfied: the Group has a present (legal or constructive) obligations as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated.

The recognized value of a provision liability which is estimated to be the most reasonable for settling the present obligation at the balance sheet date.

The environmental remediation and restoration costs are accrued by the Company in accordance with Decision No. 139/QĐ-UBND issued by the People's Committee of Kien Giang Province on January 18, 2012, approving the environmental rehabilitation and restoration project for the extraction and processing of construction stone at the Tra Duoc Lon quarry in Binh Tri commune, Kien Luong district, Kien Giang province.

11. Principles for recoding unearned revenue

Unrealized revenue is the revenue which will be recorded in correspondence with the obligations that the Group must perform in one or more following accounting periods.

Unearned revenue includes amounts received in advance from customers under land purchase agreements where the land has not yet been transferred.

Method of allocating unearned revenue is on the principle of conformity with obligations that the Group will perform in next one or several accounting periods.

12. Principles for recording borrowings

Borrowings are total amounts the Group owes to banks, institutions, financial companies and other objects (excluding borrowings under the form of bond or preferred stock issuance which require the issuer to repurchase at a certain time in the future).

Borrowings are monitored in detail according to creditor, agreement and borrowed asset.

13. Principles for recording borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds are recognised as an expense in the year in which they are incurred, except where the borrowing costs related to borrowings in respect of the construction or production of uncompleted assets, in which case the borrowing costs incurred during the period of construction are computed in those assets' value (capitalised) as part of the cost of the assets concerned when they satisfy conditions stipulated in the VAS No. 16 "Borrowing costs".

14. Principles for recording owners' equity**Share capital**

Share capital is the amount that is initially contributed or supplemented by shareholders. Share capital will be recorded at the actual contributed capital by cash or assets calculated according to the par value of issued shares in the early establishment period or additional mobilization to expand operation.

Share premium is the difference between the cost over and above the nominal value of the first issued or additionally issued share and the differences (increase or decrease) of the actual receiving amount against the repurchase price when treasury share is reissued. In case where shares are repurchased to cancel immediately at the purchase date, shares' value recorded decrease the business capital source at purchase date is the actual repurchase price and the business resource should be written down according to the par value and share premium of the repurchased shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***14. Principles for recording owners' Equity (cont.)****Undistributed profit**

Undistributed earnings reflects the Group's cumulative after-tax segment result as of the reporting date.

The distribution of profit is based on the charter of the Group approved by the annual shareholder meeting.

15. Principles for recognizing treasury shares

The owners' equity instruments acquired by the Group (treasury share) are recorded at original cost and deducted into the owners' equity. The Group does not record gain (loss) when purchasing, selling, issuing or cancelling its equity instruments. Upon reissue, the difference between reissue price and cost will be recorded in item "Share premium".

16. Principles for recording revenues**Revenue from goods sold**

Revenue from sales is recognized when all 5 following conditions have been satisfied: 1) The enterprise has transferred to the buyer the significant risks and rewards of ownership of the goods; 2) The enterprise retains neither continuing managerial involvement as an owner nor effective control over the goods sold; 3) The amount of revenue can be measured reliably; 4) The economic benefits associated with the transaction has flown or will flow to the enterprise; 5) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from service rendered

Revenue from services rendered is recorded when the result of the supply of services is determined reliably. In case where the services are rendered in several periods, the revenue will recorded by the part of completed works at the balance sheet. Revenue from services rendered is determined when the following four conditions have been satisfied: 1. The revenue is determined firmly; 2. The economic benefits associated with the transaction has flown or will flow from the supply of the services; 3. Part of completed works can be determined at the balance sheet date; 4. The costs incurred or to be incurred in respect of the transaction can be measured reliably.

If the contract's results cannot be determined firmly, the revenue will be recorded at the recoverable level of expenses recorded.

Revenue from asset lease

Revenue from asset lease is recorded on the principle of allocating advanced lease amount in conformity with lease term.

Revenue from sale of real estate

For works, work items of which enterprises being investors: Recording turnovers from sales of real estate must satisfy five following conditions: 1. The real estate has completed and transferred to the buyers, enterprises have transferred risks and benefits associated with ownership of the real estate to the buyers; 2. Enterprises no longer hold the right to manage the real estate as real estate's owners or the right to control the real estate; 3. The turnover is determined reliably; 4. Enterprises have received or will receive economic benefits from the sales of the real estate; 5. Costs related to sales of the real estate may be determined.

For real estate divided into plots for sale: The investors record the turnovers for the plot sold if satisfy the following conditions: 1. Risks and benefits associated with the land use rights are transferred to the buyer; 2. The turnover is determined reliably; 3. Costs related to sale of plots may be determined; 4. Enterprises have received or will receive economic benefits from sales of the plots.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***16. Principles for recording revenues (cont.)****Financial income**

Financial incomes include interests from demand deposits and other financial incomes.

Income arising from interests of the enterprises shall be recognized if they simultaneously satisfy the two (2) conditions below
1. It is possible to obtain economic benefits from the concerned transactions; 2. Income is determined with relative certainty.

Interests incomes recognized on the basis of the actual time and interest rates in each period.

When an amount which has been recorded as an income becomes irrecoverable, such irrecoverable or uncertainly recoverable amount must be accounted as expense incurred in the year, but not recorded as income decrease.

17. Principles and methods for recognizing the cost of goods sold**Cost of goods sold and services provided**

The cost of goods sold and services provided during the year is recorded in the income statement based on the costs incurred from goods, materials sold, and other costs provided during the year. The cost of goods is recognized at the time the transaction occurs or when it is relatively certain that it will arise in the future, regardless of whether the payment has been made or not. The cost of goods sold and revenue are recognized simultaneously in accordance with the matching principle. Costs exceeding the normal consumption level are immediately recorded in the cost of goods sold based on the prudence principle.

Cost of real estate business

The cost of real estate sold during the year is recognised in the income statement is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

From 2003 to 2017, the Group recorded the cost of goods sold for the business activities of the Ha Tien New Urban Area infrastructure investment project based on an estimated fixed percentage of revenue, rather than the actual costs incurred for the project. From 2018 up to the date of this financial statement, the Group has recorded the cost of goods sold for the business activities of the infrastructure investment project based on the budget approved by the Group's Board of Directors. This change in accounting estimate by the Group's Management Board was based on reasonable estimates at each stage of the project. The cumulative cost of goods sold for this real estate project will be adjusted and fully recorded at the time of final settlement of the project.

18. Selling expenses and administrative expenses

Selling expenses represent the actual costs incurred in the course of selling products, primarily consisting of brokerage commission expenses.

Administrative expenses represent the general management costs of the company, including expenses such as salaries, wages, and allowances for administrative staff; social insurance, health insurance, trade union fees, and unemployment insurance for administrative employees; office supplies, tools and equipment, and depreciation of fixed assets used for administrative purposes; land rental fees and business license tax; provision for doubtful debts; outsourced services (such as electricity, water, telephone, fax, property insurance, fire and explosion insurance, etc.); and other cash expenses (such as hospitality and customer conference costs).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***19. Principles and methods of recording corporate income tax (CIT)**

Corporate income tax includes the current corporate income tax expense and the deferred corporate income tax expense arising during the year, which serve as the basis for determining the Group's after-tax business performance in the current financial year.

Current income tax expense represents the corporate income tax payable based on taxable profit for the year and applicable tax rate.

Deferred corporate income tax expense is the amount of corporate income tax payable in the future, arising from the recognition of deferred tax liabilities during the year and the reversal of deferred tax assets recognized in previous years. The Group does not include in this account deferred tax assets or deferred tax liabilities arising from transactions that are recognized directly in equity.

Deferred corporate income tax income is the amount that reduces the deferred corporate income tax expense, arising from the recognition of deferred tax assets during the year and the reversal of deferred tax liabilities recognized in previous years.

The Group only offsets deferred tax assets and deferred tax liabilities when it has a legal right to offset current tax assets against current tax liabilities, and the deferred tax assets and deferred tax liabilities relate to corporate income taxes managed by the same tax authority for the same taxable entity. Additionally, the Group intends to settle the current tax liabilities and current tax assets on a net basis.

The tax amounts payable to the State budget will be finalized with the tax office. Differences between the tax amounts payable specified in the book and the tax amounts under finalization will be adjusted when the tax finalization has been issued by the tax office.

In 2025, the corporate income tax rate applied to the Group's business performance is 20%.

20. Principle of recognizing basic earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) after tax for the year attributable to ordinary shareholders of the Group (after adjusting for the bonus and welfare fund) by the weighted average number of ordinary shares outstanding during the year.

21. Principle of recognizing diluted earnings per share

Diluted earnings per share amounts are calculated by dividing the net profit after tax attributable to ordinary equity holders of the Group (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***22. Financial instruments****Initial recognition****Financial assets**

Financial assets within the scope of Circular No. 210 /2009/TT-BTC issued by the Ministry of Finance on 6 November 2009 providing guidance for the adoption in Vietnam of the International Financial Reporting Standards on presentation and disclosures of financial instruments ("Circular 210") are classified, for disclosures in the notes to the consolidated financial statements, as financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables or available-for-sale financial assets as appropriate. The Group determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at cost plus directly attributable transaction costs.

The Group's financial assets include cash and short-term deposits, trade and other receivables, loan receivables, quoted and unquoted financial instruments and derivative financial instruments.

Financial liabilities

Financial liabilities within the scope of Circular 210 are classified, for disclosures in the notes to the consolidated financial statements, as financial liabilities at fair value through profit or loss or financial liabilities measured at amortised cost as appropriate. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at cost, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments.

Subsequent re-measurement

Currently, there is no requirement to remeasure the value of financial instruments after initial recognition.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated balance sheet if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

23. Related parties

Related parties include enterprises and individuals who, directly or indirectly through one or more intermediaries, have control over or are controlled by the Group. Related parties also include entities and individuals who directly or indirectly hold voting rights and have significant influence over the Group, key management personnel such as the Board of Directors and the Board of Management, close family members of these individuals, as well as entities affiliated with or associated with these individuals. When assessing each related party relationship, the substance of the relationship is considered rather than its legal form.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the first 09 months of the year 2025

Unit: VND

24. Principles for the presentation of segment reports

A segment is a separately identifiable component of the Group that engages in the production or provision of individual products or services, or a group of related products or services (business segment), or engages in the production or provision of products or services within a specific economic environment (geographical segment). Each segment bears risks and derives economic benefits that are different from those of other business segments or from those of operations in other economic environments.

VII. OBJECTIVES AND FINANCIAL RISKS MANAGEMENT POLICIES

Major risks of financial instruments include market risk, credit risk and liquidity risk.

The Board of Management considers the application of management policies for the above risks as follows:

1. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to the changes in market prices. There are three market risks: interest rate risk, foreign exchange risk and other price risks, for example risk of stock price. Financial instruments affected by the market risks include: borrowings, liabilities and deposits, available-for-sale investments.

The sensitivity analysis has been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and the proportion of financial instruments in foreign currencies are all constant.

When calculating the sensibility analysis, the Board of Management assumes that the sensibility of available-for-sale liability in the balance sheet and related items in the income statement is affected by changes in the assumption of corresponding market risks. This analysis is based on the financial assets and liabilities that the Group held as at Sep 30, 2025 and Sep 30, 2024.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***1. Market risk (cont.)***Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to the changes in market prices. Market risks due to change in interest rate of the Group mainly relate to: trade receivables, other receivables, borrowings and liabilities, cash and short-term deposits.

The Group manages the interest rate risk by analyzing the competition status in the market in order to apply the interest rate that brings benefits to the Group and still in the limit of its risk management.

Sensibility to interest rate

The sensibility of borrowings and liabilities, cash and short-term deposits of the Group to changes that may occur at reasonable level in the interest rate is illustrated as follows.

Real Estate Risk

The Group has determined the following risks related to the list of real estates investment: (i) Expenses of development project may increase in case of the delay in making plan. The Group has hired consultants who are specialized in requirement of specific planning in the project scale in order to decrease risks that may arise in the duration of planning; (ii) Risk of the fair value of investment in real estates due to basis factors arisen from market and customers.

2. Credit risk

Credit risk is the risk due to the customers' failure to perform its obligations causing the financial loss for the Group. The Group bears credit risks from production and doing business activities (mainly receivables from trading securities, trade receivables and other receivables) and from its financial activities including bank deposits and other financial instruments.

Trade receivables

The Group minimizes the credit risk by only doing business with entities who have good financial capacity and closely keeping track of the receivables to speed up the recovery of debts. On the basis of this method and receivables related to different customers, the credit risk does not concentrate on a certain customer.

Loan Receivables

The Group mitigates credit risk by only allowing member companies to borrow money with limits, loan durations, and borrowing purposes regulated internally by the Group and specified in individual contracts. The Group considers the credit risk related to receivables from lending to be low.

Bank deposits

The Group mainly maintains deposits in big and prestigious banks in Vietnam. The Group assesses that the concentration level of credit exposure to deposits is low.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***3. Liquidity risk**

Liquidity risk is the risk that arises from the Group's difficulty in fulfilling financial obligations due to lack of capital. The liquidity risk of the Group mainly arises from the difference of maturity of the financial assets and liabilities.

The Group supervises liquidity risk by maintaining an amount of cash, cash equivalents and borrowings from banks at the level that the Board of Management considers as sufficient to satisfy the Group's activities and minimize the influences of changes in cash flows.

Collateral

The Group has used the land use rights in Ha Tien City New Urban Area as collateral for the Group's long-term borrowings (refer to note V.17 – Borrowings).

VIII. FINANCIAL ASSETS AND FINANCIAL LIABILITIES - See page 45.

The fair value of financial assets and financial liabilities is stated at the value that the financial instruments are convertible in present transaction among partners, except for compulsory sale or disposal.

The Group uses the following methods and assumptions to estimate the fair value:

The fair value of cash on hand and short-term deposits, trade receivables, trade payables and other short-term liabilities is equivalent to the book value of these items because these instruments are in short-term.

- The fair value of securities and financial investments, whose fair value cannot be reliably determined due to the absence of a highly liquid market for these securities and financial investments, is presented at their book value.

Except for the above-mentioned items, the fair value of financial assets and financial liabilities has not been evaluated and determined officially as at Sep 30, 2025 and Sep 30, 2024. However, the Board of Management has assessed that the fair value of financial assets and liabilities is not significantly different from the book value at the period end.

IX. OTHER INFORMATION**1. Contingent liabilities, commitments and other information**

None of these contingent liabilities, commitments and other important financial information that occurred since the end of the accounting period that need to be adjusted or noted in the consolidated financial statements.

2. Subsequent events

There has been no significant subsequent event since the end of the financial year that need to be adjusted or noted in the separate financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS*For the first 09 months of the year 2025**Unit: VND***4. Presentation of segment asset, revenue and operating result - See page 46.**

For management purposes, the Group's organizational structure is divided its operations into key segments based on production and business sectors as follows:

- Production department: quarry operations, construction equipment rental, quarry leasing, and brick production;
- Service segment: leasing premises in Ha Tien; leasing utility service areas - Lotteria and Coffee operations at the Ha Tien City New Urban Area;
- Real Estate Business Segment: sale of land at the Ha Tien New Urban Area, Phao Dai Ward, Ha Tien City, Kien Giang Province;
- Merchandise trading segment: trading of construction materials;

There is no segment reporting according to the geographical area as the operation of the Group is only in Vietnam, so there is no difference in risk and economic benefits which are necessary to be disclosed.

5. Information on going-concern operation: The Group will continue its operation in the future.

IX.4 Principles for presenting assets, revenue and operating results by segment

4.1 Major segment reporting: by business sector

As of Sep 30, 2025, the Group reports its operation by business sector. The Group provides a detailed analysis of items by business sector as follows:
