In the fourth quarter of 2025, Vicem Bim Son Packaging Joint Stock Company maintained stable production and business operations. The after-tax profit for the period reached 596 million VND, equivalent to 162% compared to the same period in 2024 (an increase of 113%). The main reason for the after-tax profit in the third quarter of 2025 increasing by 113% compared to the same period in 2024 is:

The prices of key input raw materials, such as resin pellets for fiber production and coating resins, decreased by approximately 8%–12% compared to the same period in 2024
