6. Content of the information disclosure:

6.1. Financial statements for the fourth quarter of 2025 of Van Lang Technology Investment and Development Joint Stock Company were prepared on January 20, 2026, including: Balance sheet, Income statement, Cash flow statement, Financial statement footnotes.

6.2. Explanation of profit difference between the Financial Statements for the fourth quarter of 2025 and the Financial Statements for the same period of the fourth quarter of 2024

Explanation content:

In the fourth quarter of 2025, the Company recorded a profit after tax of **VND 0.399 billion, down 94.19%** compared to the same period in 2024 (profit after tax of **VND 6.863 billion**).

This decline was mainly due to a decrease in the number of students, leading to a significant decrease in revenue. Specifically, net revenue in this period reached **VND 0.83 billion, down VND 9.075 billion - equivalent to 91.61%** compared to the same period last year. However, in the fourth quarter of 2025, revenue was also recorded from providing corporate governance consulting services to partner companies, which is a new direction to diversify the company's revenue portfolio.

The decrease in revenue led to a corresponding adjustment in direct expenses, including cost of goods sold and selling expenses.
