To: - State Securities Commission of Vietnam
 - Hanoi Stock Exchange

Pursuant to the regulations on information disclosure applicable to public companies, VSC Green Logistics Joint Stock Company (stock code: GIC) hereby provides an explanation regarding the fluctuation of 10% or more in the profit after corporate income tax as stated in the Q4 2025 business performance report compared to the same period of the previous year, as reflected in the financial statements, as follows:

Unit: VND

No	Indicator	Q4/2025	Q4/2024	Positive variance	Percentage increase (%)
1	Profit after corporate income tax	4.821.806.406	3.791.743.312	1.030.063.094	27,17

Main reason:

Due to a decrease in depreciation and outsourced service costs compared to the same period last year, the after-tax profit for the fourth quarter of 2025 increased by VND 1,030,063,094 (equivalent to an increase of 27.17% year-on-year). This was the primary factor driving the overall growth in profit as shown in the Financial Statements
