No. 02/CBTT-MKV

Report: Explanation for the increase in
Profit after Corporate Income Tax (CIT)
in Q4.2025 by over 10% compared to
the same period in 2024

Dong Thap, 19th January, 2026

To:

- **State Securities Commission of Vietnam (SSC)**
- **Hanoi Stock Exchange (HNX)**

Pursuant to the Q4.2025 financial statements of Cai Lay Veterinary Pharmaceutical Joint Stock Company, the Profit after Corporate Income Tax (CIT) in Q4.2025 was VND 6.984.417.589, compared to VND 196.312.444 in the same period of 2024, representing a increase of VND 6.788.105.145. The Company would like to provide the following explanation for the increase in profit after tax:

- In Q4 2025, the company and its winning partners should secure large orders, resulting in higher profits than planned.
- The company has optimized material consumption, improved production processes, reduced losses, and effectively controlled input costs.

The above factors are the main contributors to the increase in net profit after corporate income tax in quarter IV 2025 compared to the same period in 2024.

We hereby confirm that the information disclosed above is accurate and truthful. We assume full legal responsibility for the content of this disclosure.

Respectfully yours./.

CHAIRMAN OF THE BOARD OF DIRECTORS
Information Disclosure Officer

- Industrial-scale livestock farms
- Production and business of environmental treatment chemicals.

The Company's main activity in the year is the production and trading of veterinary medicines.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

(These notes are an integral part and should be read in conjunction with the financial statements.)

2. BASIS OF PREPARATION AND FISCAL YEAR

2.1 BASIS OF PREPARATION

The accompanying financial statements are presented in Vietnamese Dong (VND), based on the historical cost principle, and in compliance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and relevant legal regulations regarding the preparation and presentation of financial statements.

The Company's financial statements are prepared in accordance with the Enterprise Accounting System issued with Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance, which guides the Enterprise Accounting System, Circular No. 53/2016/TT-BTC dated March 21, 2016, amending and supplementing certain provisions of Circular No. 200/2014/TT-BTC, and other relevant legal regulations related to the preparation and presentation of financial statements.

2.2 ACCOUNTING PERIOD

The accompanying financial statements are prepared for the period of operation from 01 October 2025 to 31 December 2025.

3. MAIN ACCOUNTING POLICIES

The following are the significant accounting policies applied by the Company in preparing these Financial Statements:

3.1 ACCOUNTING STANDARDS AND REGIMES APPLIED

The Company applies the Vietnamese Accounting Standards and the Vietnamese Accounting System, along with relevant legal regulations related to the preparation of financial statements.

3.2 ACCOUNTING ESTIMATES

The preparation of the financial statements complies with the requirements of the Vietnamese Accounting Standards, which require the Board of Directors to make estimates and assumptions that affect the reported amounts of liabilities, assets, and the presentation of contingent liabilities and assets at the reporting date, as well as the reported figures for revenue and expenses throughout the financial year. Actual business results may differ from the estimates and assumptions made.

3.3 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, bank deposits, short-term investments, or investments with high liquidity. High-liquidity investments are those that can be converted into a known amount of cash within no more than three months and carry little risk of changes in their value due to fluctuations in the market.

3.4 RECEIVABLES AND PROVISION FOR BAD DEBTS

Receivables are presented at the book value less the provision for bad debts, which is made when necessary in accordance with the guidelines set forth in Circular No. 228/2009/TT-BTC dated December 7, 2009, and the amended Circular No. 89/2013/TT-BTC dated June 28, 2013, by the Ministry of Finance.

Increase or decrease in the provision for bad debts is recorded as an General and administrative expense for the year

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

(These notes are an integral part and should be read in conjunction with the financial statements.)

3. MAIN ACCOUNTING POLICIES (CONT'D)

3.5 INVENTORIES

Inventory is recognized at the lower of cost or net realizable value. The cost of inventory includes purchase price, direct material costs, direct labor costs, and overhead or other related costs, if any, incurred to bring the inventory to its current location and condition. The cost of inventory is determined using the weighted average cost method. The net realizable value is determined as the estimated selling price less the costs to complete and the marketing, selling, and distribution expenses.

A provision for obsolete inventories is made for the expected loss in value due to impairment (such as obsolescence, damage, etc.) of the Company's inventory based on evidence of value decline at the end of the reporting period.

Increase or decrease in the provision for inventory impairment is recorded as part of the cost of goods sold during the year.

3.6 TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are presented at cost less accumulated depreciation

The cost of tangible fixed assets includes the purchase price and all other directly related costs incurred to bring the asset to a state of readiness for use.

The cost of tangible fixed assets constructed by contractors includes the value of the completed and handed-over project, any directly related costs, and registration fees, if applicable.

The cost of tangible fixed assets constructed by the Company includes construction costs, actual production costs incurred, as well as installation and testing costs.

Tangible fixed assets are depreciated using the straight-line method based on the estimated useful life. The specific depreciation periods are as follows:

Assets categories	Depreciation period (year)
Building and Structures	10 - 31
Machinery and equipment	03 - 10
Office equipment	03
Means of transportation	06

3.7 LEASED ASSETS

A lease is considered a finance lease when most of the rights and risks related to asset ownership are transferred to the lessee. All other leases are regarded as operating leases.

A finance leased asset is recorded as asset of the Company at its fair value on the lease commencement date, or, if lower, at the present value of the minimum lease payments. The liability owed to the lessor (principal debt) is reflected in the finance lease liability balance on the Balance Sheet. The interest portion of the lease payments is recognized as an expense in the income statement over the lease term using a fixed interest rate on the remaining balance of the finance lease liability for each accounting period.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

(These notes are an integral part and should be read in conjunction with the financial statements.)

3. MAIN ACCOUNTING POLICIES (CONT'D)

3.7 LEASED ASSETS (CONT'D)

The lease expenses are recognized in the Income Statement over the lease term using the straight-line method. Finance lease assets are depreciated using the straight-line method over their estimated useful life, similar to the treatment of owned assets, or over the lease term, whichever is shorter, as follows:

Assets categories	Depreciation period (year)
Machinery and equipment	10

3.8 LONG TERM CONSTRUCTION IN PROGRESS

Assets under construction for production, leasing, management, or any other purposes are recorded at cost. This cost includes service costs and related interest expenses in accordance with the company's accounting policies. Depreciation of these assets is applied in the same way as other assets, starting from the time the asset is ready for use.

3.9 REVENUE RECOGNITION

Revenue is recognized when the Company has the ability to receive identifiable economic benefits with certainty. Net revenue is determined based on the fair value of amounts collected or to be collected after deducting trade discounts, sales allowances, and returns. At the same time, revenue is recognized when the following conditions are met:

Sales revenue

Revenue is recognized when the result of the transaction can be reliably determined and the Company is able to collect economic benefits from the transaction. Revenue from sales is recognized when goods are delivered and ownership rights are transferred to the buyer.

Revenue from providing services

Revenue is recognized when the result of the transaction can be reliably determined and the Company is able to collect economic benefits from the transaction. Revenue from providing service is recognized when there is evidence of the percentage of completion of the service provided at the end of the reporting period.

When the result of a service transaction cannot be reliably determined, revenue is recognized in proportion to the costs incurred that are expected to be recoverable.

Financial revenue

Interest income is recognized on an accrual basis, determined based on the balance of deposit accounts and the applicable interest rate.

Profit from investments is recognized when the Company has actually received the interest.

NOTES TO THE FINANCIAL STATEMENTS (CONT'D)

(These notes are an integral part and should be read in conjunction with the financial statements.)

3. MAIN ACCOUNTING POLICIES (CONT'D)

3.10 BORROWING COST

Borrowing costs directly related to the purchase, construction, or production of assets that require a relatively long time to be completed and ready for use or business are added to the asset's cost until the asset is put into use or business. Income arising from the temporary investment of borrowed funds is deducted from the cost of the related asset.

All other borrowing costs are recognized in the Income Statement as incurred.

3.11 TAXATION

Corporate income tax (if any) represents the total value of current taxes payable and deferred taxes.

The current tax payable is calculated based on taxable income for the year. Taxable income differs from the net profit presented in the Income Statement as it excludes income or expenses that are taxable or deductible in other years (including carryforward losses, if any), and also excludes non-taxable or non-deductible items. The corporate income tax is calculated at the applicable tax rate of 20% on taxable income.

The determination of the Company's income tax is based on the current tax regulations. However, these regulations may change over time, and the final determination of corporate income tax depends on the outcome of audits conducted by the relevant tax authorities.

Other taxes are applied in accordance with the current tax laws in Vietnam.

3.12 RELATED PARTIES

Parties are considered related if one party has the ability to control or exercise significant influence over the other party in making decisions regarding financial and operational policies.

Accordingly, the related parties of the Company are Mavin Group Joint Stock Company, the members of the Board of Directors and the Board of Management of the Company, and the companies in which Mavin Group Joint Stock Company has invested. All transactions and balances with related parties arising during the period from 01 October 2025 to 31 December 2025, are presented by the Company in the disclosures below.
