No.: 11.../CV-NVN-TCKTHo Chi Minh City, January 23, 2026Subject: Explanation of the difference in business results
the 4th quarter of 2025 compared to the 4th quarter of 2024**To: State Securities Commission
Hanoi Stock Exchange**

In compliance with Circular No. 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance on guidelines for the disclosure of information on the securities market.

Vietnam Plastic Corporation would like to explain the business results for the 4th quarter of 2025 compared to the 4th quarter of 2024 as follows:

1/ The after-tax profit on the income statement for the reporting period has changed by 10% or more compared to the same period last year:**+ For the Company's separate financial statements:**

- After-tax profit for the 4th quarter of 2025: **profit of VND 2,524,375,052**
- After-tax profit for the 4th quarter of 2024: **profit of VND 575,550,579**

Main reasons for the increase in profit compared to the same period last year:

+ Revenue from sales and services decreased sharply compared to the same period of the previous year, mainly because in Q4/2025 the Company focused on restructuring its production and business operations, limiting the implementation of orders with low efficiency. This was also the main reason for the significant decrease in cost of goods sold compared to the same period.

+ Financial income increased considerably, mainly due to dividends received from joint ventures and associates.

+ Selling expenses decreased as the Company reduced warehouse rental costs and related expenses.

+ General and administrative expenses increased, primarily due to provisions made for long-term receivables.

+ Other income and expenses increased because the Company liquidated several unused assets and incurred associated disposal costs.

+ For the Consolidated Financial Statements:

- After-tax profit for the 4th quarter of 2025: **loss of VND (3,931,908,105)**
- After-tax profit for the 4th quarter of 2024: **profit of VND 1,181,686,614**

Main reasons for the decrease in profit compared to the same period last year:

+ Revenue from sales and services decreased sharply compared to the same period of the previous year, mainly because in Q4/2025 the Company focused on restructuring its production and business operations, limiting the implementation of orders with low efficiency. This was also the main reason for the significant decrease in cost of goods sold compared to the same period.

+ Financial income dropped significantly, mainly due to a decrease in foreign exchange gains.

- + Financial expenses decreased as the Company fulfilled its bank debt obligations, resulting in no interest expenses during this period.
- + Selling expenses decreased due to optimized warehouse and related costs.
- + General and administrative expenses increased, primarily due to provisions made for long-term receivables.
- + Other income and expenses increased because the Company liquidated several unused assets and incurred associated disposal costs.
- + Profit from joint ventures and associates increased as these entities performed better than in the same period last year.

2/ The after-tax profit in the reporting period turns into a loss, changing from a profit in the same period of the last year (or vice versa):

+ For the Consolidated Financial Statements:

- After-tax profit for the 4th quarter of 2025: **loss of VND (3,931,908,105)**
- After-tax profit for the 4th quarter of 2024: **profit of VND 1,181,686,614**

Main reasons for the loss in Q4/2025:

- + Revenue from sales and services decreased sharply compared to the same period of the previous year, mainly because in Q4/2025 the Company focused on restructuring its production and business operations, limiting the implementation of orders with low efficiency. This was also the main reason for the significant decrease in cost of goods sold compared to the same period.
- + Financial income dropped significantly, mainly due to a decrease in foreign exchange gains.
- + Financial expenses decreased as the Company fulfilled its bank debt obligations, resulting in no interest expenses during this period.
- + Selling expenses decreased due to optimized warehouse and related costs.
- + General and administrative expenses increased, primarily due to provisions made for long-term receivables.
- + Other income and expenses increased because the Company liquidated several unused assets and incurred associated disposal costs.
- + Profit from joint ventures and associates increased as these entities performed better than in the same period last year.

Vietnam Plastic Corporation prepares this explanation letter for the State Securities Commission and the Hanoi Stock Exchange for your information.

Sincerely,
