*Re: Explaining the difference of
more than 10% on PAT from the
year-ago period*

Dear: - State Securities Commission of Vietnam
 - Hanoi Stock Exchange

Based on the business performance results for the year 2025, Petrokimex Saigon Transportation and Service Joint Stock Company (PSC) records profit after tax: 7.741.077.260 VND, a difference of more than 10% on PAT from the year-ago period due to:

- Total transportation and petroleum output increase compared to the same period in 2024, specifically as follows:

+ The transportation output is 124% compared to the same period in 2024;

+ The petroleum output is 109% compared to the same period in 2024.

- In addition, land rental expenses in 2025 decreased to only 91% compared to the same period in 2024.

The Company continues to implement management solutions and cost-reduction measures, while optimizing operating expenses, thereby improving the efficiency of its production and business activities.

Financial management and cost control have been carried out strictly and effectively, helping to optimize resources and increase profits from the Company's production and business operations.

Above figures are the reasons making the difference on net profit comparing to the same period the year, more than 10%.
