III. DIRECTION OF OPERATION IN 2026

1. Assess the situation

2026 is a difficult year, with competition for the new Reference Books market of educational units from many units inside and outside the VNEPH system. Therefore, the Board of Management needs to continue to make more efforts, promote advantages, research and innovate on management orientation, production and business activities, consolidate and expand markets, build effective investment plans and projections to bring about the highest production and business efficiency. The challenging factors to note in 2026 include:

- Increased prices of input materials such as printing paper, printing, transportation, electricity, water, warehouse rental, etc., causing difficulties for the Company's production and business activities.

- Unhealthy inventory situation: On September 15, 2025, the government issued Resolution No. 281/NQ-CP – Issuing the Government's action program to implement Resolution No. 71/NQ-TW dated August 22, 2025, of the Politburo on a breakthrough in education and training development, which includes the content of unifying a single set of textbooks nationwide from the 2026 – 2027 school year. This content has led to a larger inventory volume compared to the same period, affecting capital turnover ability and increasing storage costs.

- Difficult-to-collect receivables: Difficult-to-collect receivables from debts arising from 2018 and earlier amount to a total value of 7.3 billion VND, which creates significant pressure on the Company's cash flow and liquidity.

2. Operational plan and implementation orientation for 2026

Based on the actual situation of the Company, the Board of Directors sets the following operating directions for 2026:

2.1 Financial indicators:

No.	Target	Plan
1	Total revenue	77.1 billion VND
2	Profit before tax	9.9 billion VND
3	Profit ratio (Profit before tax/Charter capital)	9.7%
4	Dividend rate	8%

Authorize the Board of Directors to invest in projects and companies with potential to promote effective use of the company's capital.

2.2 Operational direction in 2026:

In the difficult conditions of the socio-economic situation of the world in general and Vietnam in particular, the Board of Directors directs the Executive Board to implement measures to ensure the maintenance and development of the market, and maintain production and business efficiency. The key tasks of the Board of Directors and Executive Board of the Company in 2026 are as follows:

- Strengthen and stabilize the human resources and professional organization. Review the structure of the human resources team in the direction of improving the quality and professional qualifications of workers, ensuring staff life is stable and growing, training and fostering to promptly meet the Company's human resource needs.

- Organize regular meetings of the Board of Directors at least once a quarter to manage the company's activities; Focus on directing production and business activities in 2025 to complete the annual plan assigned by the General Meeting of Shareholders;

- Financial investment to use capital more effectively than savings.

- Organize the exploitation of new topics and products suitable to market needs, continue to find and associate with partners who have many topics suitable for the market.

- Focus on customer care to maintain and develop the market.

- Instruct the Company to be cautious in inventory issues: consider deciding on printing quantity and limit inventory. Continue to collect debts that are difficult to collect from 2018 and before and collect debts thoroughly to avoid overdue debts to preserve capital.

- Organize extraordinary meetings to promptly resolve and handle arising issues.

- Strictly control the Company's costs, implement solutions to reduce operating costs to the lowest level. Balance capital resources, use capital effectively to maximize

profits, ensure income and life of employees, pay dividends to shareholders and have accumulated resources to structure and expand business fields and lines for the following years.

Hanoi, March 30, 2026

REPORT ON 2025 PRODUCTION AND BUSINESS PERFORMANCE RESULTS AND DIRECTIONS AND TASKS OF THE 2026 PRODUCTION AND BUSINESS PLAN

Dear Congress!

Dear shareholders, on behalf of the Board of Directors of Hanoi Education Book Joint Stock Company, I would like to report the results of production and business activities in 2025 and the direction, production and business plan, and implementation solutions for 2026 to the Shareholders' Meeting as follows:

Part I: Characteristics of the situation in 2025

1. Advantages

- The book and education market in 2025 continues to witness the increase of competitors both inside and outside the Educational Publishing House system (VNEPH). Private enterprises and organizations in the industry continue to seek ways to increase their presence and capture the market.

- The Company always receives attention and timely direction from the Board of Directors and the Board of General Directors; the Executive Board and the staff in the Company always have a high consensus in their work. The staff in the Company are qualified, always united, have a spirit of self-awareness and high responsibility.

2. Disadvantages

- Vietnam's economy in 2025 will still face many difficulties, the market will have more and more organizations and individuals participating in the business of the same products as the Company, creating fierce competition.

- In 2025, the company faced many difficulties due to the overall impact on the education sector, especially the preparation for the introduction of a unified textbook set from the 2026–2027 academic year, which led partners to reduce their orders for reference books. The shrinking market caused revenue and profit to decline and inventory to increase. However, the company still maintained a stable position thanks to innovations in the book and educational product portfolio, particularly in the reference book segment. The Board of Directors highly appreciates the proactiveness and flexibility in management and operation by the Executive Board, helping the company maintain stable operations amid increasingly fierce competition.

- The situation of counterfeit and pirated books is becoming increasingly sophisticated, making it difficult to control and protect copyrights. In 2025, the Education Book Joint Stock Company in Hanoi faces difficulties in various aspects of its operations:

- *Topics, manuscripts*: Limited number of new topics, fierce competition for reference books in the market.
