#### IV. DISCUSSION AT THE GENERAL MEETING

Mr. Nguyen Tan Thanh, Chairman of the Meeting, shared with shareholders the Company's strategic direction and key business plans for the upcoming period.

During the discussion session, 04 shareholders raised a total of 10 questions, as summarized below:

**Question 1:** In 2025, in addition to its core business, BV Land expanded its investment portfolio through capital contributions and share acquisitions with a total value exceeding VND 600 billion. Could the Management provide further details on these transactions?

**Question 2:** Could the Management elaborate on the Company's profit plan for 2026, particularly the key contributing projects?

**Question 3:** In the context of rising interest rates affecting homebuyers, has the Company adjusted its sales policies? What are BV Land's plans to adapt to slower market liquidity?

**Question 4:** The Company plans to conduct a private placement of 50 million shares to increase capital for Tay Bac Bac Ninh Investment Joint Stock Company. Is this intended for investment in the Northwest Urban Area project in Bac Ninh City? Could the Management provide details on the implementation plan for this project?

**Question 5:** In addition to the new project in Bac Ninh where BV Land acts as the developer, does the Company plan to develop any other new projects in the near future?

**Question 6:** Is BV Land facing any challenges in its plan to transfer its listing to HOSE?

**Question 7:** Does the Management believe that the Company's current share price reflects its intrinsic value? What measures are being taken to improve liquidity and enhance shareholder value?

**Question 8:** Most groups use profit attributable to the parent company in consolidated financial statements for dividend distribution. Why does BV Land use profit based on separate financial statements instead?

**Question 9:** What is the forecast for business performance in the first quarter of 2026?

**Question 10:** When increasing charter capital, companies typically prioritize offering shares to existing shareholders before conducting private placements. Why has the Company chosen private placement instead of a rights offering?

Mr. Nguyen Tan Thanh and Mr. Ly Tuan Anh, on behalf of the Board of Directors, addressed the above questions and clarified the matters raised by shareholders. The shareholders acknowledged and agreed with the responses provided, and no further opinions were raised.

## REPORT ON THE ACTIVITIES OF THE BOARD OF DIRECTORS IN 2025 AND THE PLAN FOR 2026

**Respectfully submitted to: Annual General Meeting of Shareholders 2026**

The Board of Directors respectfully submits to the Annual General Meeting of Shareholders the report on its performance in 2025 and the operational plan for 2026 as follows:

### I. GENERAL ASSESSMENT

In 2025, the Board of Directors of BV Land continued to be entrusted by the Annual General Meeting of Shareholders with the responsibility for governance, strategic direction, and oversight of the Company's operations, ensuring sustainable business development while optimizing shareholders' interests.

The year 2025 presented a mixed economic landscape, characterized by Vietnam's notable achievements alongside persistent global challenges. Domestically, Vietnam recorded an impressive GDP growth rate of 8.02%, ranking among the highest globally. Inflation was effectively controlled at 3.31%, creating a stable environment for production and consumption activities. However, the global economic context continued to pose substantial risks. Although global growth was maintained at approximately 2.5%–3.2%, geopolitical tensions, tariff challenges, trade protectionism, rising public debt, and other uncertainties remained unresolved and increasingly unpredictable. Overall, while 2025 was a successful year for Vietnam's economy, it also underscored significant challenges in sustaining high and stable growth amid global volatility.

Against the backdrop of strong domestic economic growth and expectations of a robust recovery in the real estate market—supported by the gradual resolution of legal bottlenecks - the Board of Directors submitted to the Annual General Meeting of Shareholders an ambitious growth plan for 2025. This plan was based on the expectation that certain projects would complete legal procedures for commencement and that ongoing projects would meet conditions for sales launch and revenue recognition. The results for 2025 demonstrate that, through thorough research, careful preparation, and professional product development and sales management, projects launched during the year—such as the Bavella Green Park Urban Area Project and the Diamond Hill Thai Nguyen Apartment Project—achieved positive business performance. As a result, the Company and its affiliated entities within the real estate segment recorded substantial year-on-year growth in revenue and profit compared to 2024, approaching the targets approved by the Annual General Meeting of Shareholders.

**III. ORIENTATIONS OF THE BOARD OF DIRECTORS FOR 2026**

In 2026, global GDP growth is projected to remain modest, estimated at around 2.6%–3.3%, reflecting economic divergence among regions and persistent risks arising from public debt, rising trade protectionism, and geopolitical instability. Against this backdrop, Vietnam has set an ambitious economic growth target of over 10%, driven by both traditional growth engines and emerging drivers such as the digital, green, and circular economy. The real estate market is expected to gradually regain momentum while maintaining a cautious outlook, particularly under the significant influence of high bank lending interest rates. Housing products serving genuine residential demand are anticipated to continue leading market activity.

Building upon the capabilities accumulated in recent years and the projects currently under implementation or scheduled for launch in the near future, the Board of Directors has set a high growth target for both separate and consolidated revenue and profit, with a minimum growth rate of over 22%. In order to achieve these objectives, the Board of Directors has identified several key priorities:

- The Company will coordinate with its member units, including BV Invest and Areca Vietnam, to accelerate the sale of remaining products at Bavella Green Park, Diamond Hill Thai Nguyen, and Tay Dinh Tri Social Housing Project. For the Diamond Hill Bac Giang project, priority will be given to resolving legal procedures related to the issuance of ownership certificates in order to launch the commercial podium and low-rise shophouse products. For the Diamond Hill Thai Nguyen project, construction will be completed in accordance with the planned schedule to ensure eligibility for inspection, handover, and revenue recognition within 2026.
- The Company will continue to implement legal procedures for investment projects and commence construction in line with approved schedules, while simultaneously seeking opportunities to develop additional projects and expand its land bank to support the

Company's next stage of development.

- Synchronous solutions will also be implemented to strengthen the BV Land corporate brand as well as the individual brands of each project product line. Through these initiatives, the Company aims to further enhance brand recognition and reputation, positioning BV Land as a premium real estate developer dedicated to creating sustainable, human-centered, and distinctive living spaces.
- In parallel, the Company will maintain strong relationships with credit institutions while proactively identifying additional capital mobilization channels to ensure adequate funding for upcoming investment projects.
- The Board of Directors will continue to enhance the effectiveness of the internal control system, quality management framework, and enterprise risk management practices to ensure sound governance and operational stability.
- The Company will also strengthen and enhance the effectiveness of the internal control system, quality management, and risk management.
- At the same time, the Company will persist in implementing programs and action plans aimed at improving the quality of human resources and enhancing labor productivity. Efforts will also focus on deepening the development of corporate culture in order to strengthen employees' trust and alignment with the Company's core values.

The above constitutes the report of the Board of Directors on its operational results in 2025 and the orientations for 2026, respectfully submitted to the General Meeting of Shareholders for approval.
