**REPORT OF THE BOARD OF GENERAL DIRECTORS
ON BUSINESS AND PRODUCTION RESULTS IN 2025
AND THE BUSINESS AND PRODUCTION PLAN FOR 2026**

**To: The General Meeting of Shareholders of Thang Loi Coffee Joint Stock
Company**

In implementation of the Resolution of the Annual General Meeting of Shareholders and the Resolutions of the Board of Directors on business and production activities in 2025,

Thang Loi Coffee Joint Stock Company convenes the 2026 Annual General Meeting of Shareholders to review the business and production results for 2025 and to implement the directions and tasks for business and production in 2026.

On behalf of the Board of General Directors, I would like to present the Report as follows:

PART ONE

BUSINESS AND PRODUCTION RESULTS IN 2025

I. Performance of business and production activities in 2025

1. General characteristics

Thang Loi Coffee Joint Stock Company was formerly Thang Loi Coffee One Member Limited Liability Company, which was equitized under Decision No. 1128/QĐ-UBND dated April 22, 2016 of the People's Committee of Dak Lak Province. The Company was officially granted the Enterprise Registration Certificate as a joint stock company and commenced operations from October 9, 2019 in accordance with Resolution No. 01/NQ-DHDCĐ dated October 2, 2019 of the General Meeting of Shareholders.

- Total coffee cultivation area: 1,970.65 hectares, including:

+ Contracted coffee plantation area: 1,354.25 hectares / 1,311 contracts.

+ Linked coffee plantation area: 616.40 hectares / 1,107 contracts.

- Total workforce in management and processing as at December 31, 2025: 67 employees, including: 30 female employees; employees with university and postgraduate qualifications: 17 persons, accounting for 25.4%; college-level employees: 5 persons, accounting for 7.5%; intermediate-level employees: 5 persons, accounting for 7.5%; unskilled labor: 40 persons, accounting for 59.7%.

2. Advantages and difficulties:

2.1 Advantages:

Since its conversion to a joint stock company, with strong determination in mindset, will, and action from the Board of Directors, the Company's leadership, and all employees

across departments and processing workshops, the Company has continuously strived to overcome difficulties and innovate its corporate governance approach. The Company has continued to promote communication and mobilization activities, strengthened procurement and export operations, and expanded other business activities such as warehouse and factory leasing, as well as financial operations.

2.2 Difficulties:

2025 was the 7th year since the Company was converted into a joint stock company; however, the Company still faced many difficulties in production and business operations, and public security and order were not ensured. The majority of contractors and linked coffee growers had not cooperated with the Company in fulfilling their obligations under the signed contracts. Although all requests of the contractors had been resolved by civil courts at all levels, and the Company had responded to and handled recommendations and petitions from contractors, combined with communication and mobilization efforts, the situation of the Company did not show positive changes and remained complicated. Specifically:

- More than 1,000 contracts, both expired and unexpired, including newly planted and replanted areas, had not been re-signed under the new legal entity.
- Outstanding contracted output from 2018 to 2025: 17,096 tons of fresh coffee cherries.
- Outstanding land rental payments (including arrears and from 2018–2025): VND 25,393 million.
- Outstanding replanting loan: VND 175 million.
- Outstanding inorganic fertilizer payments: VND 524 million.
- Unauthorized cutting and appropriation of black wattle trees continued to occur. - Public security and order remained complicated.
- The enforcement of legally effective judgments by competent authorities was very slow and was not resolved; there were still 90 cases not yet enforced, including 82 cases where enforcement decisions had been issued upon request but had exceeded the time limit; particularly, there were 2 cases involving 8 violations that had not been enforced for nearly 4 years.

3. Results.

Despite many difficulties in management, direction, and operation of production, with the efforts of the leadership and employees, the Company achieved the following results:

BUSINESS AND PRODUCTION RESULTS IN 2025

No.	Indicator	Unit	Actual 2025	Planned 2025	Actual 2025 vs planned 2025
A	COFFEE PRODUCTS	Ton of coffee beans	2,590	4,110	63%
B	PRODUCTION AND BUSINESS RESULTS				
I	Total revenue	Million VND	391,496	547,500	72%
II	Total cost	Million VND	369,478	532,244	69%
III	Profit before tax	Million VND	22,019	15,256	144%
IV	Corporate income tax	Million VND	4,692	3,204	146%
V	Profit after Corporate Income Tax	VND Million	17,326	12,052	144%

4. Situation of employees' livelihood, employment, and occupational safety

- The Company maintained stable employment for employees with an average income of VND 10,970,565/person/month.
- Periodic health check-ups for employees were fully implemented.
- Occupational safety and hygiene, provision of labor protection equipment, and fire prevention and fighting were ensured.
- Provision of labor protection uniforms for employees was carried out annually in accordance with regulations.
- All other rights and benefits of employees were fully ensured in accordance with legal regulations.

5. Implementation of insurance benefits for employees:

The Company fulfilled its obligations to make full and timely payments for social insurance, health insurance, and unemployment insurance for employees, specifically as follows:

- Social insurance: VND 1,211,493,275; 100%
- Unemployment insurance: VND 95,019,080; 100%;
- Health insurance: VND 216,102,263; 100%

X	Profit after corporate income tax	17,326	12,052	144%	12,114	70%	

2. Specific tasks and solutions:

2.1. For coffee plantation production activities

- All employees of the Company shall continue to strive, remain committed to their duties, maintain firm and stable viewpoints, demonstrate responsibility for their work, and overcome shortcomings, limitations, and difficulties encountered in 2025 in order to better fulfill assigned tasks.

- Further strengthen patrol and inspection activities at plantation plots to monitor, record, report, and promptly handle violations in contracted coffee plantations, especially plots subject to court judgments and enforcement decisions, in order to prevent loss of Company assets and avoid the generation of additional assets beyond the scope of judgments, which would cause difficulties in enforcement.

- Continue to effectively carry out communication and mobilization activities for contractors to gradually improve their awareness and cooperate with the Company in strictly fulfilling contractual obligations.

- Strengthen debt recovery efforts through various forms and measures to achieve results at least 30% higher than in 2025.

- Inspect and review coffee plantations with poor growth and low productivity, and seek approval from the Board of Directors for liquidation. Under this policy, the Company will co-invest capital from the first year of replanting and renovation of coffee plantations, while developing processes and investment norms for replanting to be implemented.

- Continue to initiate legal proceedings against certain leading opposing cases as well as cases involving unauthorized transfer of coffee plantations, and the cutting and appropriation of black wattle trees in contracted coffee plantations.

- Develop and promulgate procedures and regulations on the management and handling of violations and transfer of contracted coffee plantations.

- Coordinate with enforcement authorities and relevant agencies to strictly and thoroughly enforce legally effective judgments, demonstrating the strictness of the law, thereby gradually stabilizing the Company's situation through the handover of assets from enforcement agencies, auctioning of plantations, and signing of contracting agreements with successful bidders.

2.2. For coffee trading activities (external procurement)

Based on actual market conditions, the Company shall adjust purchase and sales volumes appropriately. Priority shall be given to signing short-term contracts and quickly fixing prices to avoid losses caused by price declines.

- Promote sales to traditional partners, while strengthening connections and establishing relationships with new customers to increase trading volume.

- Offer a diverse range of products for both domestic and export markets. Closely monitor market conditions and fix selling prices appropriately to ensure business efficiency.

- Coordinate with processing workshops to supervise and direct coffee production activities, as well as quality control work of the QC department to ensure output quality in accordance with signed contracts with customers.

- Establish and maintain relationships with inspection service providers, customs authorities, and other relevant parties to complete export procedures on schedule.

- Invest in modern machinery and equipment to improve processing capacity, consumption, and expansion of business operations.

2.3. For roasted and instant coffee processing activities

- Complete recruitment of personnel with experience in trading and market development.

- Develop markets for roasted and instant coffee products both domestically and internationally, and promote exports.

- Implement production, processing, and trading of ground coffee in accordance with approved plans.

- Invest in modern machinery and equipment to improve processing capacity, consumption, and expansion of business operations.

2.4. Other business activities

- Operate financial activities flexibly to increase revenue and reduce interest expenses.

- Utilize warehouse and yard facilities or seek capable partners for cooperation in investing in warehouses and agricultural processing facilities to increase revenue and expand business operations.

2.5. Other tasks

- Coordinate closely with the Company's equitization steering committee to carry out the finalization of State capital at the enterprise.

- Continue to work with and urge relevant provincial departments to advise the Provincial People's Committee to approve the Company's land use plan in Ho Chi Minh City and Binh Duong.

- Continue to work with and urge relevant provincial departments to advise the Provincial People's Committee to approve the issuance of land use right certificates for the Company.

- Implement grassroots democracy regulations within the enterprise and coordinate with the trade union to organize employee conferences in accordance with legal regulations.

This is the report on the business and production results in 2025 and the directions, objectives, tasks, and solutions for the implementation of the 2026 plan, respectfully submitted to the General Meeting of Shareholders for consideration and approval.

Sincerely././.

In 2025, the Board of Directors strictly implemented corporate governance, human resource strategy... in line with the scope of powers and duties of the Board of Directors as stipulated in the Charter of organization and operation of Thang Loi Coffee Joint Stock Company.

The Board of Directors maintained meetings in accordance with regulations, holding at least one meeting per quarter to review and decide on matters within its authority, with the participation of the Supervisory Board and the Company's Board of General Directors.

The Board of Directors assigned specific responsibilities to each member and enhanced the advisory role of management staff. Members of the Board of Directors made great efforts to fulfill their duties, always acting in the interests of shareholders while maintaining a harmonious balance with the interests of the Company and its Employees.

2. Implementation of the Resolutions of the 2025 Annual General Meeting of Shareholders

The year 2025 continued to be a challenging year, and certain outstanding issues remained unresolved, such as:

- Regarding finance: The Company has not yet been approved for the final settlement of capital handover between Thang Loi Coffee One Member Limited Liability Company and Thang Loi Coffee Joint Stock Company, affecting the Company's financial operations.

- The security and order situation remained complicated; the group of instigators continued to incite and coerce contract workers and associated coffee growers to oppose the company; unauthorized felling and appropriation of Senna siamea trees on contracted plots continued, causing losses to state and corporate assets; unauthorized construction of makeshift huts exceeding regulations; unauthorized construction of drying kilns... and when the company and local authorities arrived to handle the situation, crowds gathered to resist.

- Over 80 cases, including first-instance, appellate, and cassation cases, have become legally effective. Some cases have been pending for over four years. To date, the enforcement agency has only executed 01 case and voluntarily enforced 06 cases, while the remaining cases have not been executed, leading to a disregard for the law and opposition to the company.

- Regarding production: The Company's production situation continued to face difficulties and challenges as the majority of contract workers still did not cooperate with the Company in fulfilling contract agreements, resulting in low collection of contracted output in 2025 and other outstanding debts, failing to meet the planned targets; as of December 31, 2025, contract workers still owed the company.

Indicator	Unit	Outstanding balance at the end of period

3. Regarding the payment of remuneration, bonuses, and other benefits to members of the Board of Directors and the Supervisory Board in 2025:

In accordance with the Resolution of the 2025 Annual General Meeting of Shareholders approving the remuneration plan for the Board of Directors and the Supervisory

Board for 2025. In 2025, the total remuneration and bonuses paid to the Board of Directors and the Supervisory Board amounted to VND 1,531,100,000/year.

(The total remuneration and bonuses of members of the Board of Directors and the Supervisory Board are presented in detail in the audited financial statements in 2025.

4. Supervisory Results over the Board of General Directors

- Based on the Company's Charter of organization and operation and the issued rules and regulations, the Board of Directors performs the supervisory function of the Company's management and operating apparatus on a regular basis, inspects the performance of production and business tasks, reports of the Board of General Directors and managers of specialized professional departments.

- The Board of Directors believes that with the solutions implemented by the Board of General Directors in its administration, and the unity of officers, employees, and workers, the Company will achieve the targets entrusted by the General Meeting of Shareholders, gradually overcoming obstacles amidst various challenges ahead.

5. Supervisory Results over Heads and Deputy Heads of Departments, Branches and Business Locations:

The Board of Directors consistently works alongside the Board of Management and the Heads – Deputy Heads of various divisions in every activity, providing timely direction. The Chairperson of the Board of Directors regularly worked with the Board of General Directors and other management levels, and held periodic briefings on average once a month to monitor work progress. Members of the Board of Directors frequently consulted and aligned on solutions related to investment, finance, business operations, and cost reduction to ensure the Company's financial resources... As a result, the Company basically fulfilled the tasks set by the 2025 Annual General Meeting of Shareholders.

6. Transactions between the Company and Related Parties:

In accordance with the Resolution of the 2024 Annual General Meeting of Shareholders dated April 24, 2024 approving the policy for entering into contracts and transactions between the Company and Related persons, the Board of Directors respectfully reports to the 2026 Annual General Meeting of Shareholders on the implementation of contracts and transactions between the Company and Related persons in 2025 as follows:

2. Implementation Solutions

- Regarding production: The Board of Directors will continue to direct the Board of Management to focus on collecting contracted output and debts from contract workers through various forms and measures, while also researching and implementing appropriate support policies and incentive policies for contract workers in order to achieve higher results than in 2025.

- Regarding green coffee trading: Based on market conditions, trading volumes and prices will be adjusted reasonably to achieve efficiency.

- The implementation of investment development activities will be directed in the production and trading of roasted ground and instant coffee products; sales locations will be established in key business regions of the country, namely Hanoi and Ho Chi Minh City. Business development will be promoted in both the domestic market and export.

- Corporate culture and a positive, modern, and dynamic working environment will be built; training and personnel development will be promoted to build a professional, strong workforce capable of meeting the Company's long-term development demands.

- Enforcement agencies will be coordinated to strictly and thoroughly enforce judgments that have become legally effective, demonstrating the rigor of the law in order to soon stabilize the Company's situation.

This is the Report of the Board of Directors on the operation performance in 2025 and the plan for operations in 2026, respectfully submitted to the General Meeting of Shareholders for consideration and approval./.

ON BEHALF OF BOARD OF DIRECTORS

THANG LOI COFFEE JOINT STOCK COMPANY
2026 ANNUAL GENERAL MEETING OF
SHAREHOLDERS

Dak Lak, March 31, 2026

REPORT OF THE SUPERVORY BOARD
AT THE 2026 ANNUAL GENERAL MEETING OF SHAREHOLDERS

No.: 38/2026/BC – BKS

To The General Meeting of Shareholders of Thang Loi Coffee Joint Stock Company

Pursuant to the Law on Enterprises and the Charter of Thang Loi Coffee Joint Stock Company;

Pursuant to the functions, duties, and powers of the Supervisory Board as stipulated in the Charter of Thang Loi Coffee Joint Stock Company;

Based on the business and production performance and the audited financial statements for the fiscal year from January 1, 2025 to December 31, 2025, audited by AFC VIETNAM - NORTH BRANCH;

In accordance with the 2025 supervisory plan, the Supervisory Board of the Company respectfully submits to the 2026 Annual General Meeting of Shareholders the report on supervisory results as follows:

I. ACTIVITIES OF THE SUPERVISORY BOARD IN 2025

In April 2024, the Supervisory Board of Thang Loi Coffee Joint Stock Company was re-elected for the new term 2024–2028. In 2025, there were no changes in the personnel of the Supervisory Board. As of December 31, 2025, the Supervisory Board of of Thang Loi Coffee Joint Stock Company for the 2024–2028 term consisted of 03 members as follows:

No.	Full Name	Position	Professional Qualification
1	Mr. Pham Dinh Bo	Head of the Supervisory Board	Forestry Engineer majoring in economics. Bachelor of Politics.
2	Ms. Nguyen Thi Thuy Hang	Member of the Supervisory	Bachelor of Accounting

		Board	
3	Ms. Le Dang Uyen Dan	Member of the Supervisory Board	Bachelor of International Law

In 2025, the Supervisory Board performed its functions and duties in compliance with legal regulations. The Supervisory Board held two meetings to implement tasks, discuss, and provide opinions on matters within its scope of responsibilities and authority, and to inspect and supervise the implementation of the Resolution of the 2025 Annual General Meeting of Shareholders, as well as decisions of the Board of Directors and the Board of Management in accordance with corporate governance regulations and the Company's Charter. The meeting attendance rate reached 100%, specifically as follows:

No.	Full Name	Number of Meetings Attended	Attendance Rate	Voting Rate
1	Mr. Pham Dinh Bo	02/02	100%	100%
2	Ms. Nguyen Thi Thuy Hang	02/02	100%	100%
3	Ms. Le Dang Uyen Dan	02/02	100%	100%

1. Tasks performed:

- The Supervisory Board closely followed the 2025 plan, focusing on supervising the Board of Directors and the General Director in the management and operation of the Company. Through supervision, it was found that the Board of Directors operated in compliance with the Company's Charter. However, the supervision also indicated that the Board of Management had not been sufficiently proactive and creative in managing business and production activities; incidents such as illegal cutting and appropriation of black wattle trees, encroachment on plot boundaries, and unauthorized fencing of contracted coffee plantations still occurred without timely preventive measures.

- Reviewed the reasonableness, legality, truthfulness, and prudence in management and operation of business activities, as well as the consistency and appropriateness of accounting, statistics, and financial reporting.

- Recommended that the Board of Directors take measures to amend and improve the monitoring and reconciliation of receivables and payables (especially for contracts that have expired but have not been reconciled with the Company, have not been liquidated, or have not been renewed), which cause difficulties in debt recovery and affect the Company's capital structure and financial resources for business operations. Strengthen management, supervision, and administration of business and production activities.

- Recommended that the Board of Directors direct functional departments to supplement and complete documentation related to receivables, as well as evidence of violations of contracting agreements, in order to initiate legal proceedings against non-cooperative contractors who fail to repay debts, to recover debts, terminate contracts, and reclaim plantation areas for the Company in accordance with legal regulations.

- Fully participated in meetings of the Board of Directors of the Company.

2. Limitations to be addressed:

- In 2025, the Supervisory Board's supervisory activities were not consistent or synchronized, and at times lacked proactiveness. A detailed annual supervision plan was not fully developed, and supervision of investment and development activities—especially the use of funds from the Company's production development incentive fund—was not carried out. The reason is that all members of the Supervisory Board are part-time and occupied with professional duties, resulting in insufficiently close supervision of the issuance of Resolutions by the Board of Directors, and at times, a lack of full attention to assigned responsibilities.

- In addition, there are currently a number of economic contracts, labor contracts, and lump-sum contracts with partners that require more thorough review to ensure compliance with legal regulations and to minimize potential losses for the Company in the event of contractual disputes; however, these have not been adequately supervised by the Supervisory Board.

3. Results of supervision over the activities of the Board of Directors and the Board of Management in 2025:

In 2025, the Supervisory Board ("SB") carried out its supervisory activities in accordance with the Resolution of the General Meeting of Shareholders, and monitored the expansion of business and production activities, as well as the reasonable use of funds from the production development incentive fund. Despite unpredictable market

conditions and the fact that contractors of plantation areas failed to deliver contracted output for many years, the Company fulfilled its obligations to the State budget in full and in accordance with legal regulations (including annual land rental and taxes) and remained profitable. The Supervisory Board did not detect any fraud in the management and operation activities of the Board of Directors, the Board of Management, or the heads of departments of the Company. However, supervision showed that production management, plantation management, receivables monitoring, and management of contracting agreements have been slow to improve, and many issues in business and production activities have not been resolved in a timely manner. There have not yet been long-term solutions in business and production activities, particularly in the replacement of new coffee varieties to improve productivity, quality, and income from existing plantations.

Meetings of the Board of Directors and the Board of Management were generally conducted in accordance with regulations, and Resolutions were issued to ensure maximum benefits for the Company and its shareholders. However, in some cases, the organization, content, and issuance of meeting conclusions were overlapping. The supervision and implementation of monthly and quarterly conclusions for departments by the Board of Directors and the Management Board were not sufficiently thorough, and effectiveness did not meet planned expectations. In 2025, the Supervisory Board did not receive any petitions, complaints, or denunciations regarding the activities of the Management Board or the Board of Directors of the Company.

4. Results of supervision over the company's operations and financial position

The Company's financial statements for 2025 were audited by AFC VIETNAM - NORTH BRANCH. The audited financial statements were confirmed by the audit firm to present fairly, in all material respects, the financial position of Thang Loi Coffee Joint Stock Company as at December 31, 2025, as well as its business results and cash flows for the fiscal year then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and relevant legal regulations governing the preparation and presentation of financial statements. The key figures in the audited financial statements are as follows:

Unit: VND

No.	Indicator	2025
1	Total revenue	391,496,395,315
2	Total accounting profit before tax	22,018,694,531

3	Current assets	260,968,852,175
4	Non-current assets	86,855,297,990
5	Liabilities	144,584,024,995
6	Equity	203,240,125,170

5. Remuneration and bonuses of the Supervisory Board in 2025:

In accordance with the Resolution of the 2025 Annual General Meeting of Shareholders approving the remuneration plan for the Supervisory Board, the total remuneration and bonuses paid to the Supervisory Board in 2025 are as follows: -

Supervisory Board: VND 35,000,000 per year.

(The total remuneration and bonuses of members of the Supervisory Board are presented in detail in the audited financial statements for 2025.)

6. Coordination between the Supervisory Board, the Board of Directors, the Board of General Directors, and shareholders

- The Supervisory Board closely coordinated with the Board of Directors and the Board of General Directors in supervising the implementation of Resolutions of the General Meeting of Shareholders (“GMS”) and Resolutions of the Board of Directors.

- The Supervisory Board received complete information and Resolutions of the Board of Directors, as well as business performance reports in 2025 and the audited financial statements for 2025 of the Company.

- Members of the Supervisory Board attended meetings of the Board of Directors, thereby closely monitoring the Company’s operations and the implementation of Resolutions of the General Meeting of Shareholders.

- The Supervisory Board maintained independence in its inspection and supervision activities. In 2025, the Supervisory Board did not receive any recommendations from shareholders regarding the direction and management of the Board of Directors, the Board of General Directors, or other management personnel of the Company.

7. Evaluation report on transactions between the Company and related parties

The Company implemented transactions in accordance with the approval of the 2024 Annual General Meeting of Shareholders regarding the policy for entering into contracts and transactions between the Company and related parties. At the same time, the Board of Directors periodically reported to the General Meeting of Shareholders on

the implementation results of contracts and transactions between the Company and related parties. The specific results for 2025 are as follows:

Unit: VND

No.	Contract/Appendix No.	Description	Actual Value in 2025 (Excluding VAT)
<i>I</i>	DakLak Water Supply Joint Stock Company No. 339 Ton Duc Thang, Tan An Ward, Dak Lak Province Tax code: 6000175995

<i>II</i>	Nam Phuong Investment and Trading Company Limited No. 154, Tran Hung Dao Street, Binh Chuong Quarter, Hoa Lu Ward, Ninh Binh Province Tax Code: 2700281328		
	<i>01/TL-NP.2025 dated April 9, 2025</i>	<i>Framework contract for the purchase and sale of coffee (framework agreement for purchase and sale transactions, with actual value arising from specific orders)</i>	<i>59,212,372</i>

8. Self-assessment report on the performance of the Supervisory Board, summary of meetings, and conclusions and recommendations

- Within its scope of responsibilities, functions, and powers as stipulated in the Company's Charter, and in compliance with the Law on Enterprises and relevant internal regulations, the Supervisory Board in 2025 made efforts to fulfill its duties in

accordance with its functions and responsibilities. However, the level of completion was not high.

- In 2025, the Supervisory Board held meetings to assign responsibilities to each member and conducted two periodic meetings during the year to allocate supervision and inspection tasks to members, aiming to improve the effectiveness of supervision over the Company's activities. Based on the inspection and supervision of the Company's operations in 2025, the Supervisory Board makes the following conclusions and recommendations:

8.1. In general, the Company and members of the Board of Directors, the Supervisory Board, the Board of Management, and the Company's departments complied with legal regulations, the Company's Charter, and internal regulations. However, the supervision of activities of departments by the Board of Directors and the Board of General Directors was at times not sufficiently thorough and timely.

8.2. The Board of Directors and the Board of General Directors shall direct the Company's functional departments to urgently complete the finalization and handover of the equitization process.

8.3. In the coming period, the Company should pay attention to consolidating its organizational management system and human resources system, and ensuring labor contracts comply with legal regulations, in order to align with the current scale and development orientation of the Company, expand business and production activities, diversify products, and improve business efficiency.

8.4. Currently, outstanding debts from contractors of the Company's coffee plantations since 2018 remain very high (approximately nearly VND 500 billion), significantly affecting the Company's business efficiency. Most debtors are individuals under plantation contracting agreements with the Company (who have failed to deliver contracted output for eight crop seasons); many contractors have illegally transferred contracts; some have passed away without proper transfer of contracts in accordance with regulations; and more than 30 contractors who carried out replanting in previous years have deliberately failed to cooperate with the Company in fulfilling their obligations as committed prior to liquidation of plantations. Therefore, it is recommended that the Board of Directors direct functional departments to actively seek all possible measures to recover outstanding debts. For cases of non-compliance, including failure to deliver contracted output, failure to liquidate expired contracts and enter into new contracts, failure to convert to business contracts, and lack of

cooperation with the Company, it is necessary to initiate legal proceedings to reclaim plantations in accordance with legal regulations.

8.5. Currently, there are more than 90 court judgments that have taken legal effect but have been slowly enforced (for 3–5 years), which significantly affects debt recovery across the Company and undermines confidence in legal discipline among contractors cooperating with the Company. In addition, there is concern about individuals leading opposition against the Company, including acts of isolation, sabotage of plantations, and disruption of community unity. Therefore, it is recommended that the Board of General Directors and the Board of Directors actively coordinate with local authorities, enforcement agencies, and relevant authorities to enforce legally effective judgments, thereby ensuring legal discipline, protecting State assets and capital at the Company, and safeguarding the legitimate rights of shareholders.

II. ORIENTATION OF ACTIVITIES OF THE SUPERVISORY BOARD IN 2026

- Continue to carry out inspection and supervision of the activities of the Board of Directors, the Board of General Directors, and departments in implementing the Resolutions of the General Meeting of Shareholders and the Board of Directors in accordance with regulations.

- Assign specific responsibilities to each member of the Supervisory Board to ensure the highest effectiveness in inspection and supervision activities.

- Attend meetings of the Board of Directors to discuss and fully grasp issues related to the management and administration of business and production activities of the Board of Directors and the Board of General Directors.

It is respectfully submitted to the General Meeting of Shareholders for consideration and approval.

INDEPENDENT AUDIT REPORT

**Dear: Shareholders, Board of Directors, General Director and Board of Supervisors
Thang Loi Coffee Joint Stock Company**

We have audited the accompanying financial statements of Thang Loi Coffee Joint Stock Company (the "Company"), prepared on March 26, 2026, from page 05 to page 37, including: Balance sheet as at December 31, 2025, Income statement, Cash flow statement for the year ended December 31, 2025 and Notes to the financial statements.

Responsibilities of the Board of Directors

The Board of Directors of the Company is responsible for the preparation and fair presentation of the Company's financial statements in accordance with Vietnamese accounting standards, the Vietnamese corporate accounting system and legal regulations related to the preparation and presentation of financial statements and is responsible for internal control that the Board of Directors determines is necessary to ensure the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. These standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Company's financial statements are free from material misstatement..

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unqualified audit opinion..

Basis for qualified audit opinion

As of December 31, 2025, the Company has not yet settled the equitization costs and determined the value of the state capital to be transferred to the Joint Stock Company due to the remaining financial problems. The Company has sent Official Dispatch No. 733/CV-TL dated December 1, 2020 to the Dak Lak Provincial People's Committee, the Dak Lak Department of Finance and the Steering Committee for Equitization of Thang Loi Coffee One Member Co., Ltd, accordingly, the settlement of the equitization cost of VND 1,089,000,000 is submitted, and at the same time, it is recommended to handle the deduction of some receivables of the contracted households, the negative amount of the welfare reward fund, the missing assets awaiting settlement, which is the remaining value of the fixed assets of the coffee garden that were arbitrarily cut down by the households, and the unfinished production and business costs in 2018 that did not collect the output according to the contract into the value payable to the State. As of December 31, 2025, the value of the remaining deductions is VND 10,029,369,578.

INDEPENDENT AUDIT REPORT (Continued)

Depending on the decision of the Authority, the figures presented in the financial statements may be changed when there is an official decision.

Qualified Audit Opinion

In our opinion, except for the effects of the matters described in the "Basis for qualified audit opinion" paragraph, the financial statements present fairly, in all material respects, the financial position of Thang Loi Coffee Joint Stock Company as at December 31, 2025, as well as the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese (corporate) accounting system and the relevant statutory requirements applicable to financial reporting.

Issues to be emphasized

As presented in note 8.1, as of the date of issuance of this audit report, the comparative figures are as follows:

Thang Loi Coffee Joint Stock Company has not yet been approved for the value of the state capital at the time of official conversion to a joint stock company. Therefore, the financial statements for the fiscal year ending December 31, 2025 of the Company may change when the official approval decision is made. Our audit opinion is not qualified due to the impact of this matter.

The Company's headquarters are located at: Km 17, National Highway 26, Ea Knuéc Commune, Dak Lak Province, Vietnam.

1.2 Business areas

The Company's business fields are planting, exploiting and processing coffee.

1.3 Business lines

According to Business Registration Certificate No. 6000182456 first issued by the Department of Planning and Investment of Dak Lak province on August 10, 2007, changed for the 7th time, July 17, 2025, the Company's main business activities include:

- Growing coffee trees;
- Processing, trading and exporting coffee beans;
- Processing, trading and exporting coffee powder;
- Buying and selling machinery, materials and equipment for industry and agriculture;
- Tourism services, office, factory and warehouse rental;
- Buying and selling construction materials, buying and selling gasoline and related products./.

1.4 Normal production and business cycle

The Company's normal production and business cycle does not exceed 12 months.

1.5 Characteristics of the Company's operations during the accounting period that affect the Financial Statements

During the fiscal year ending December 31, 2025, there are no activities that have a significant impact on the indicators on the Company's Financial Statements.

2. FISCAL YEAR, CURRENCY USED IN ACCOUNTING

2.1 Fiscal year

The Company's fiscal year begins on January 1 and ends on December 31 of each year..

2.2 Currency used in accounting

The currency used in accounting is Vietnamese Dong (VND) because revenue and expenditure are mainly made in VND.

3. ACCOUNTING STANDARDS AND REGIMES APPLIED

3.1 Applicable accounting standards and regimes

The Company applies the Enterprise Accounting Regime issued under Circular No. 200/2014/TT - BTC dated December 22, 2014 of the Minister of Finance Guiding the Enterprise Accounting Regime and related amended circulars.

3.2 Statement on compliance with Accounting Standards and Accounting Regime

The Board of Directors ensures that it has complied with the requirements of accounting standards, the Vietnamese Enterprise Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 as well as the circulars guiding the implementation of accounting standards of the Ministry of Finance in preparing the Financial Statements.

4. ACCOUNTING POLICIES APPLIED

4.1 Basis for preparing Financial Statements

Financial statements are prepared on the accrual basis of accounting (except for information relating to cash flows).

4.2 Foreign currency transactions

Transactions in foreign currencies are translated at the exchange rate on the date of the transaction. The balance of foreign currency monetary items at the end of the financial year is translated at the exchange rate on that date.

Exchange rate differences arising during the year from foreign currency transactions are recorded in financial income or financial expenses. Exchange rate differences arising from revaluation of foreign currency monetary items at the end of the financial year after offsetting the increase and decrease are recorded in financial income or financial expenses.

4.3 Cash and cash equivalents

Cash includes cash on hand, demand deposits and cash in transit. Cash equivalents are short-term investments with a maturity of no more than 3 months that are readily convertible to known amounts of cash and are subject to an insignificant risk of conversion to cash.

4.4 Financial investments

Held to maturity investments

Investments are classified as held-to-maturity when the Company has the intention and ability to hold them until maturity. Held-to-maturity investments include: term deposits (including treasury bills and promissory notes), bonds, preference shares that the issuer must redeem at a certain time in the future, and loans held to maturity for the purpose of earning periodic interest and other held-to-maturity investments.

Held-to-maturity investments are initially recognized at cost, which includes the purchase price and any costs associated with the transaction. After initial recognition, these investments are recognized at their recoverable amount. Interest income from investments held to maturity after the acquisition date is recognized in the Statement of Business Operations on an accrual basis. Interest earned before the Company holds is deducted from the cost at the acquisition date.

NOTES TO FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Form B09 - DN

When there is strong evidence that part or all of an investment may not be recovered and the amount of loss can be reliably determined, the loss is recorded in financial expenses in the year and the investment value is directly deducted.

4.5 Accounts Receivable

Receivables are presented at carrying amount less allowance for doubtful debts.

Receivables from customers, advances to suppliers, internal receivables and other receivables at the reporting date, if:

- With a recovery or payment period of less than 1 year (or within a business production cycle) are classified as Short-term Assets;
- With a recovery or payment period of more than 1 year (or within a business production cycle) are classified as Long-term Assets.

Provision for bad debts

The provision for doubtful debts represents the estimated loss value of receivables that are likely to be non-collectible by customers for receivables at the time of preparing the Financial Statements.

The Company's provision for doubtful debts is made in accordance with the provisions of Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Minister of Finance guiding the Enterprise Accounting Regime. Accordingly, the Company is allowed to make a provision for doubtful debts for receivables that have been overdue for six months or more, or receivables that the debtor is unlikely to be able to pay or have similar difficulties.

Increases and decreases in the balance of the provision for doubtful debts that must be set up at the end of the fiscal year are recorded in business administration expenses.

4.6 Inventory

Inventories are stated at cost. Where the net realizable value is lower than cost, the net realizable value should be stated at the net realizable value. The cost of inventories comprises direct materials, direct labour and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realizable value is determined as the estimated selling price less all costs of completion and costs to be incurred in marketing, selling and distribution.

Net realizable value is the estimated selling price of the inventories in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories are valued using the weighted average method and accounted for using the perpetual inventory method.

Provision for inventory devaluation is established for each inventory item whose original cost is greater than its net realizable value. For unfinished services, provision for devaluation is calculated for each type of service with a separate price. Increases and decreases in the balance of provision for devaluation of inventory that must be established at the end of the fiscal year are recorded in cost of goods sold.

4.7 Prepaid expenses

Short-term prepaid expenses are expenses allocated within 12 months including operating expenses awaiting allocation corresponding to revenue in the year..

NOTES TO FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Form B09 - DN

Long-term prepaid expenses include actual expenses that have been incurred but are related to the business performance of many accounting periods. The Company's prepaid expenses include the following expenses:

Tools and equipment

Tools and equipment already put into use are allocated to expenses using the straight-line method with an allocation period of no more than 03 years.

Industrial Park Land Rental Costs

The Nam Tan Uyen Industrial Park land rental costs are allocated over the land lease period of 518 months, equivalent to approximately 43 years.

Other prepaid expenses

Other prepaid expenses include asset repair costs, insurance costs, and other costs allocated for no more than 03 years.

4.8 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The cost of tangible fixed assets includes all costs incurred by the Company to acquire the fixed assets up to the time the asset is ready for use. Expenses incurred after initial recognition are only recorded as an increase in the cost of fixed assets if it is certain that these costs will increase future economic benefits from the use of the asset. Expenses incurred that do not satisfy the above conditions are recorded as production and business expenses in the period.

When tangible fixed assets are sold or disposed of, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is recognized as income or expense in the year.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The years of various types of tangible fixed assets are as follows:

<u>Type of fixed asset</u>	<u>Years</u>
Houses, buildings	10 - 25
Machinery and equipment	10 - 20
Means of transport, transmission	10
Management equipment and tools	03 - 10
Perennial garden	20

4.9 Cost of unfinished basic construction

Construction in progress reflects costs directly related (including related interest expenses in accordance with the Company's accounting policies) to assets under construction, machinery and equipment being installed for production, leasing and management purposes as well as costs related to repairs of fixed assets in progress. These assets are recorded at original cost and are not depreciated.

4.10 Liabilities and accrued expenses

Payables to suppliers, internal payables, other payables, loans at the reporting time, if:

- Have a payment term of less than 1 year or within a business production cycle are classified as short-term debt.

- Have a payment term of more than 1 year or over a business production cycle are classified as long-term debt.

Payable expenses include actual expenses that have not yet occurred but have been deducted in advance from production and business expenses in the period to ensure that when actual expenses

NOTES TO FINANCIAL STATEMENTS

For the fiscal year ending December 31, 2025

Form B09 - DN

arise, they do not cause sudden changes in production and business expenses on the basis of ensuring the principle of matching between revenue and expenses. When such expenses arise, if there is a difference with the amount deducted, the accountant will record additional expenses or reduce the expenses corresponding to the difference.

4.11 Equity

Owner's Equity

Owner's equity is recorded at the actual amount contributed.

Development Investment Fund

The Development Investment Fund is set aside from after-tax profits as prescribed in the Company's charter.

4.12 Profit Distribution

Undistributed profits are profits from the Company's business activities after deducting adjustments due to retroactive application of changes in accounting policies and retroactive adjustments of material errors from previous years.

Undistributed profits are distributed according to the Resolution of the General Meeting of Shareholders after offsetting accumulated losses (if any).

4.13 Revenue and income recognition

Revenue from the sale of goods and finished products

Revenue from sales of goods and finished products is recognized when all of the following conditions are simultaneously satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Service revenue

Revenue from a service transaction is recognised when the outcome of the transaction can be measured reliably. In cases where the service is performed over several periods, revenue is recognised in each period based on the results of the work completed at the end of the accounting period. The outcome of a service transaction is recognised when all of the following conditions are met:

- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the entity.
- The stage of completion of the transaction at the end of the financial year can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest

Interest is recognized on an accrual basis, determined on the deposit account balance and the actual interest rate for each period.

4.14 Borrowing costs

Borrowing costs include interest and other costs incurred in connection with borrowing.

Borrowing costs are recognized as expenses when incurred. Where borrowing costs are directly related to the construction or production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for its intended use or sale, these borrowing costs are capitalized. For loans specifically used to build fixed assets or investment properties, interest is capitalized even if the construction period is less than 12 months. Income from temporary investment of loans is recorded as a reduction in the original cost of the related assets.

For long-term loans used for basic construction investment purposes, capitalized borrowing costs are determined based on the average loan ratio for rubber tree care activities and the average loan ratio for rubber tree care activities.

4.15 Corporate income tax

Corporate income tax expense includes current corporate income tax and deferred corporate income tax.

Current income tax

Current income tax is the tax that is calculated on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses as well as adjustments for non-taxable income and losses carried forward.

4.16 Related Parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

In considering a related party relationship, attention is paid more to the substance of the relationship than to the legal form.

As at December 31, 2025, the Company has not assessed the fair value of financial assets and financial liabilities because Circular No. 210/2009/TT-BTC dated 06 November 2009 of the Ministry of Finance as well as current regulations do not provide specific guidance on this matter. Circular No. 210/2009/TT-BTC requires the application of International Financial Reporting Standards on the presentation of financial statements and disclosures for financial instruments but does not provide equivalent guidance for the measurement and recognition of financial instruments including fair value in accordance with International Financial Reporting Standards.

Financial Risk Management

Financial risks include market risk (exchange rate risk, interest rate risk, price risk), credit risk and liquidity risk. The Board of Directors has overall responsibility for establishing and implementing policies to control risks (detect, prevent and limit the impact of risks).

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's business operations are primarily exposed to risks from changes in foreign exchange rates, interest rates, commodity prices and other prices such as equity prices. The objective of market risk management is to manage and control the level of risk within acceptable limits while maximizing returns.

NOTES TO FINANCIAL STATEMENTS

Liquidity Risk Management

The purpose of liquidity risk management is to ensure that there are sufficient funds to meet present and future financial obligations. Liquidity is also managed by the Company to ensure that the excess of maturing liabilities over maturing assets during a period is kept to a manageable level relative to the amount of funds that the Company believes can be generated during that period.

The Company's policy is to regularly monitor current and expected liquidity requirements to ensure that the Company maintains sufficient reserves of cash, borrowings and capital to meet its liquidity requirements in the short and longer term. The table below details financial liabilities by maturity. The figures are presented on the basis of the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

2	Total accounting profit before tax	VND	22,018,694,531
3	Profit after corporate income tax	VND	17,326,380,666
4	2025 dividend (VND 1,000/share) *	VND	12,650,000,000
5	Dividend payout ratio on profit	%	72

* - Cash dividend payout ratio: 10% (Equivalent to VND 1,000/share)

For the shareholder, the People's Committee of Dak Lak Province, the dividend payment will be provisionally calculated based on the number of shares held by the state shareholder. If, after 6 months from the date of approval by the General Meeting of Shareholders, the People's Committee of Dak Lak Province does

not complete the capital settlement, this amount will be temporarily held in the "Other Payables and Payments" account (Account 3388...). This is because, as of now, the company has not yet received approval from the competent authority for the settlement of state capital at the time of officially converting to a joint-stock company. The actual payment amount will be adjusted if the capital ratio of the People's Committee of Dak Lak Province in the company changes according to legal regulations.

- Dividend payment method: By cash/bank transfer.
- Dividend recipients: Existing shareholders whose names are listed in the Company's shareholder register as of the record date for exercising the right to receive dividends.
- Dividend payment timeline for 2025: Expected no later than 06 months from the date of approval by the GMS in accordance with legal regulations.
- The remaining after-tax profit for 2025 will be retained to supplement capital for business and production activities when necessary, as the Company is still facing certain difficulties.

2. Implementation:

The Board of Directors respectfully requests the General Meeting of Shareholders to authorize the Board of Directors to make decisions regarding the paperwork, tasks, and procedures related to the implementation of the profit distribution plan presented above, after it has been approved by the General Meeting of Shareholders.

It is respectfully submitted to the General Meeting of Shareholders for consideration and approval.
