*(Issued with Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Minister of Finance)*

### ANNUAL REPORT 2025

**To: State Securities Commission  
Hanoi Stock Exchange**

#### **I/. General information::**

##### **1. General information**

- Trading name: HIGH GRADE BRICK TILE CORPORATION
- Business registration certificate No. 3700762464, issued by the Department of Planning and Investment of Binh Duong province, changed for the 11th time on June 28, 2023
- Charter capital: VND 50,161,240,000
- Owner's investment capital: VND 50,161,240,000
- Address: 246 KP. Cay Cham, Thanh Phuoc Ward, Tan Uyen City, Binh Duong Province
- Phone number: 0274.3658278
- Fax number: 0274.3625379
- Website: gachngoicaocap.com
- Stock code: MCC

##### **Formation and development process:**

The predecessor of High-class Brick and Tile Joint Stock Company was a private brick manufacturing facility with outdated production processes and machinery. Acquired by Binh Duong Construction and Materials Company (now Binh Duong Construction and Materials Joint Stock Company) in June 2000, the company then invested in upgrading production using tunnel kiln firing technology, with a capacity of 25 million bricks/year.

In 2006, the Company was transformed into a joint stock company according to Decision No. 2132/QĐ-UBND dated May 19, 2006 of the People's Committee of Binh Duong province on the basis of approving the equitization plan and converting the High-class Brick and Tile Factory under Binh Duong Construction and Materials Company into a joint stock company. The initial charter capital was 15,950,000,000 VND. Over the years of operation up to now, the Company's charter capital is 50,161,240,000 VND.

**The process of increasing the Company's charter capital since its establishment is as follows:**

<b>Date</b>	<b>Content</b>	<b>Capital increase (VND)</b>	<b>Charter capital (VND)</b>	<b>Licensing Authority</b>
November 14, 2006	Convert to Joint Stock Company	15.950.000.000	15.950.000.000	Department of Planning and Investment Binh Duong
October 15, 2008	Issue to existing shareholders	25.000.000.000	40.950.000.000	Securities Commission - Management Board
October 20, 2009	Bonus share issuance	5.733.000.000	46.683.000.000	Securities Commission - Management Board
June 27, 2016	Issuing shares to pay dividends	3.478.240.000	50.161.240.000	Securities Commission - Management Board
<b>TOTAL</b>		<b>50.161.240.000</b>		

**Stock listing:**

On March 31, 2010, the Company was granted a Decision by the Hanoi Stock Exchange approving the listing of shares at the Hanoi Stock Exchange under Decision No. 181/QD-SGDHN.

On April 26, 2010, shares of High Grade Brick Tile Corporation were officially listed on the stock market, with the trading code MCC.

On July 21, 2016, the Hanoi Stock Exchange approved the additional listing of 347,824 shares of High Grade Brick Tile Corporation issued to pay dividends under Decision No. 439/QD-SGDHN dated July 21, 2017. The total number of shares after additional listing is 5,016,124 shares corresponding to the charter capital of VND 50,161,240,000

**Other events:**

The formation and development process of the company is always associated with the continuous growth of the domestic construction materials industry. On May 3, 2007, the company was granted Certificate No. HT 1427.07.15 by QUACERT on the certification of the quality management system meeting the quality management standards according to the international standard ISO 9001: 2000 in the field of Production and supply of fired clay bricks and tiles. Annual maintenance assessment and 3-year re-certification assessment, and most recently on January 21, 2017, the company was granted Certificate No. HT 3843.17.00 by QUACERT on certification of quality management system meeting quality

management standards according to international standard ISO 9001: 2015 in the field of Production and supply of fired clay bricks and tiles.

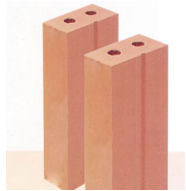

## 2. Business lines and locations:

### a) Business lines and main products:

The main business of the Company is specializing in the production of fired clay bricks and tiles, exploiting and trading clay for brick and tile production.

The Company still prioritizes the exploitation and trading of clay and the production of traditional products that have been accepted and highly appreciated by customers, which are 8x18 construction bricks.

## Product

Stt	Product Name	Product Description	Image
<b>A</b>	<b>Brick group</b>		
1	4-hole brick 8 x 18	Used to build walls, house foundations, architectural works	
2	8 x 18 2-hole brick		
3	8 x 18 Demi Tiles		
<b>D</b>	<b>Brick and tile clay</b>		
1	Brick and tile clay	Used for the production of bricks and tiles	

### b) Business location:

The main business areas accounting for over 10% of the total revenue are still mainly Binh Duong province and Ho Chi Minh City.

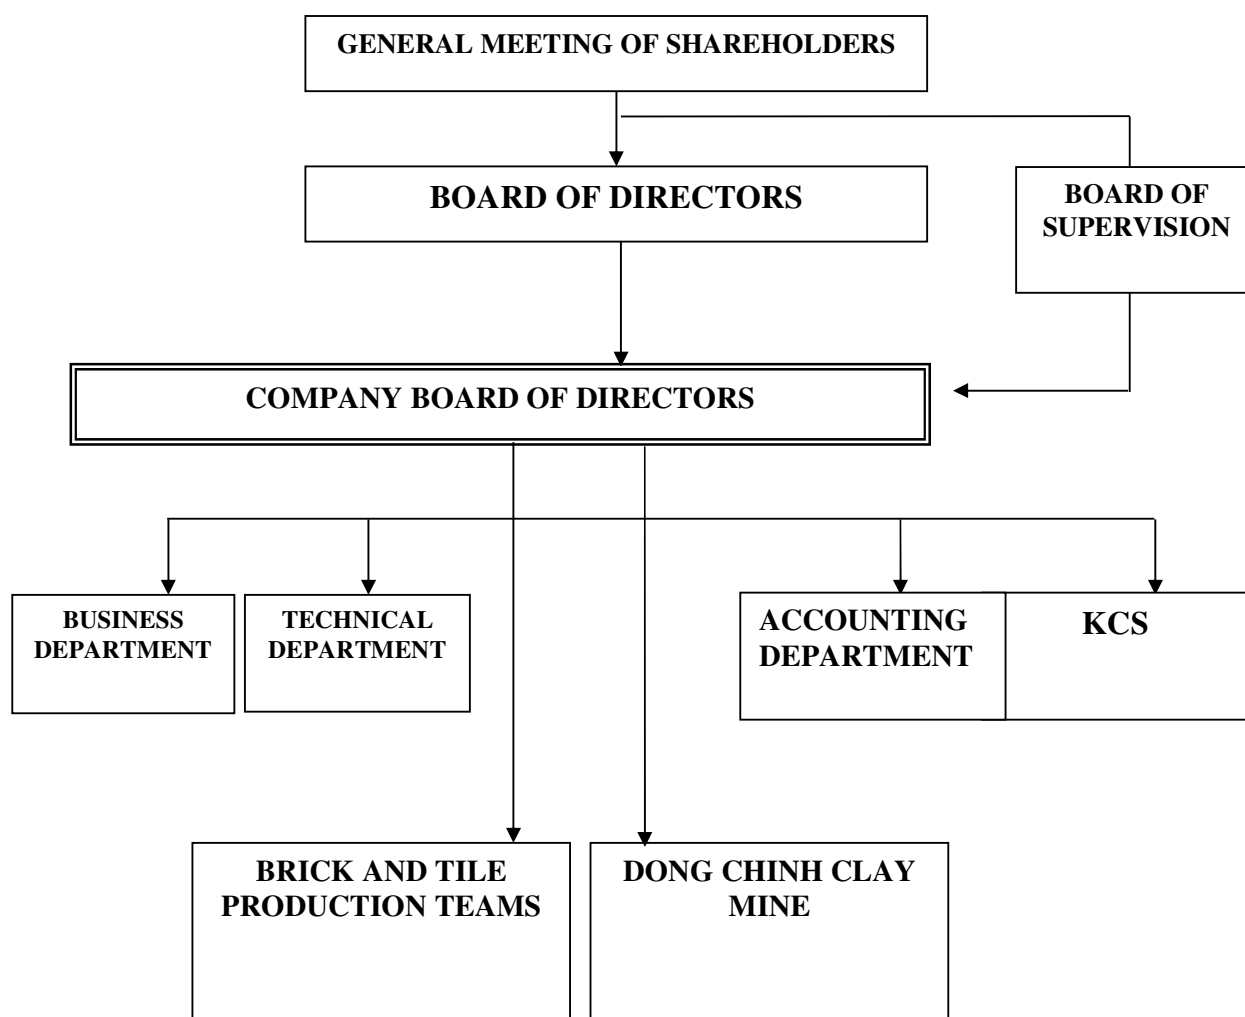

## 3. Information on governance model, business organization and management apparatus:

### a) Management model:

The company is organized and operates under the model of a joint stock company, headed by the General Meeting of Shareholders, Board of Directors, Board of Supervisors, and Executive Board headed by the Company Director.

### b) Management structure:

High Grade Brick Tile Corporation is organized and operates under the Enterprise Law, the company's organizational chart is as follows:

**c) Subsidiaries and affiliates:** The company does not establish subsidiaries or affiliates.

#### **4. Development orientation:**

##### **a) The main objectives of the Company:**

With the famous product brand M&C Binh Duong "The solid trust of every home" has been present for a long time in the Vietnamese construction materials market, attracting the attention of many customers, so to create prestige and trust in customers, the Company has focused on the following development orientation goals:

- Strictly control input costs to reduce product prices, make full use of the capacity of machinery and equipment as well as the tunnel kiln to create products that meet market demand.
- Research and develop diversified products according to customer tastes.
- In addition to neighboring provinces in the South, the company continues to research and expand market share in some markets in the Western provinces and considers this a potential product consumption market in the near future.
- Create good relationships with customers and partners who have long-term relationships with the Company such as: giving priority and creating favorable conditions for product distribution to distributors and agents, and also giving priority

to retail customers who buy large quantities with promotional policies and brokerage commissions.

- Research and promote technical innovation initiatives, rationalize production lines.
- Maintain and operate the quality management system well according to international standards ISO 9001:2015.
- Train and recruit employees with sufficient knowledge and capacity to work. In particular, continue to train key management human resources and develop successors to be able to work in all positions when the Company needs them.

**b) Medium and long-term development strategy:**

Strengthening the expansion of the Western market, this area will have a lot of investment in the future, but the Government is restricting the exploitation of rice fields to make bricks, so the demand in this area will increase.

In addition to promoting business activities, the production management department, KCS, and TBXM engineering department must maintain product quality and make it more and more beautiful, considering this a vital factor for the company now and in the future.

The technical and production departments must continue to research solutions to increase labor productivity, mechanization, automation, and measures to reduce costs to compete with tunnel brick kilns in the area.

Focus on prioritizing the development, recruitment, training of human resources, successor teams, and strengthening the organization of human resources in departments. Provide training to improve skills for direct production workers and train managers with sufficient knowledge and responsibility to be able to do any job to meet the increasingly diverse and developing operational requirements of the Company.

**c) Sustainable development goals:**

Research on improving coal-fired combustion technology to limit the use of firewood to minimize environmental pollution

For society and the community, the company always tries to maintain and develop to create jobs for workers, contribute to stabilizing the economic life of the company's employees, as well as participate in contributing funds to local departments to care for the poor to have a prosperous life.

**5. The risks:**

**a) Risks to production and business activities**

**\* *Economic risk:***

In 2025, the world economic situation fluctuated due to the impact of the European war and the domestic real estate freeze, thereby affecting the company's production and business situation.

**\* *Specific risks***

**+ *Competitive risks.***

In the industry, especially in Tan Uyen district, there are more than 80 tunnel brick kilns, many enterprises produce and supply the same type of products, and at the same time, there are more and more new investors participating in the field of construction materials production, so the Company will face a lot of fierce competition in the market.

---

**+ Risk of stock price fluctuations**

The listing of High-Class Brick and Tile Joint Stock Company on the stock market will contribute to improving financial capacity, affirming the reputation and brand of the enterprise as well as increasing liquidity, creating conditions for the enterprise to mobilize capital.

However, the risk of stock price fluctuations on the stock market is inevitable. Stock prices on the market are determined by many factors. Price fluctuations can be due to supply and demand of stocks, the socio-economic situation or changes in securities laws, and psychological factors of investors. High-Class Brick and Tile Joint Stock Company has always proactively disclosed information for a listed entity to help investors have reliable and accurate information about the Company's activities.

**+ Other risks.**

Due to the nature of its business activities, the Company may also be subject to other risks such as changes in tax policies, policies on resource exploitation, strict regulations on environmental standards, macroeconomic factors such as inflation, changes in interest rates; ... In addition, there are some risks that are unavoidable, unlikely to occur but if they occur, they will affect the Company's operations such as: natural disasters, epidemics, etc., which reduce demand for products or reduce the output of input materials to meet the Company's production needs.

**b) Risk management strategies:**

Strengthen relationships with domestic and foreign customers to consume the company's products.

Strengthen and maintain product quality to maintain the high-end brick and tile brand M&C Binh Duong "The firm trust of every home" to segment customers with the need to use high-quality bricks and tiles to limit competition with average quality construction brick products.

Research solutions and measures to save costs such as: rice husk grinding, electricity, coal, labor, reduce the rate of damaged products...

Production management must closely follow and research solutions to increase labor productivity, arrange labor to achieve high productivity, good quality, and minimize product damage.

Continue to conduct in-depth research to increase production of high-value, high-end products and minimize production of low-value products such as construction bricks.

Disclose information about the business's production and business situation in a timely and proper manner to shareholders and investors to demonstrate transparency, thereby creating good trust for shareholders and investors.

**II/. PERFORMANCE IN THE YEAR****1. Production and business situation:**

In 2025, domestic real estate faced many difficulties, so the demand for materials was low, the company had to reduce product prices but product consumption was still very low. This greatly affected the company's operating efficiency. The production and business situation and implementation of the production and business plan in 2025 are as follows:

No.	Items	Unit	Plan 2025	Implementation 2025	Compare
1	Construction bricks	Pill	25.000.000	23.996.963	96%
2	Clay	M3	120.000	113.990	95%
3	Revenue	1000đ	33.772.697	35.923.734	106%
4	Profit before tax	1000đ	3.719.595	4.165.385	112%

**b) Changes in the Executive Board: no.**

**c) Number of staff and policies towards employees**

Number of employees as of December 31, 2025 is 47. The number of employees has decreased because the company has temporarily stopped brick production since October 2023 due to large inventories.

The average income of employees in 2025 is: 11,000,000 VND/person/month. In addition to the above-mentioned income in cash, the company also fully pays insurance for employees according to the law and organizes a collective kitchen for employees.

Sign labor contracts for 100% of employees after the probationary period and understand the work assigned by the company. Pay full social insurance, health insurance, and unemployment insurance according to labor law for employees.

Implement well the rules and regulations on providing labor protection equipment, mobilize workers to participate in the "green - clean - beautiful" program to ensure labor safety.

Fire prevention and fighting and occupational safety are given special attention, in addition to the work of arranging and organizing forces, checking and supervising the implementation in each production stage and each worker. Therefore, during the year, there were no fires, explosions, work accidents, or occupational diseases.

**3. Investment situation, project implementation situation:**

a) **Major investments:** In 2025 the company has no major investments.

**III. REPORT AND ASSESSMENT OF THE BOARD OF DIRECTORS****1. Business performance evaluation:****a/ General situation characteristics:****\* Advantages:**

High Grade Brick Tile Corporation has a team of young, healthy, highly skilled workers, managers, and technicians who are dedicated to their jobs, have a spirit of innovation, overcome difficulties, and the company has an ISO 9001-2015 quality management system, so M&C Binh Duong products have been trusted by demanding customers at home and abroad.

Thanks to the solidarity and unity between employees and employers through meetings to give sincere opinions, frankly analyze what has been done and what has not been done to propose specific practical measures, and at the same time monitor the results for correction, up to now the entire production and business process and product quality management have been put into place.

The company has a clay mine, so it can proactively source input materials and stabilize product quality. Moreover, the company also supplies clay to external production units, contributing to creating overall profits for the company.

**\* Difficulties:**

In 2025, the company still cannot resume production due to the large inventory of construction bricks. The business of bricks, tiles and clay mined at the clay mine is facing difficulties due to low demand because most of the brick kilns in the clay mine area have reduced capacity or stopped production.

**b) The progress the company has made**

Along with the increase in prices of input materials, in the face of the situation of fuel prices increasing too high, the company's Board of Directors has flexibly applied reasonable fuel mixing technology at each time. When the price of any fuel increases due to seasonal factors, we proactively reduce the rate of use of that fuel and increase the rate of stable-priced fuel to save product costs.

**2. Financial situation**

**3. Future development plans:****a) Production and business targets in 2026**

No.	Items	Unit	Plan 2026
1	Construction bricks	Pill	31.000.000
2	Clay	M3	55.000
3	Revenue	1000đ	38.550.105
4	Profit before tax	1000đ	6.127.165

**b) Implementation solutions**

b.1/ Select agents with high sales and good payment to re-sign for 2026 and not re-sign poor agents, and select new agents with development potential to sign, with the condition that they must be far from old agents to expand market share and avoid encroachment on sales areas, minimizing conflicts of interest through agents. The purpose is to create conditions for agents with sales and profits to stick with the company for a long time and stabilize the consumption source for the company in the domestic market.

b.2/ Strengthen marketing to expand regional market share, to gradually increase output as well as create prestige and brand of the company in potential areas such as the Western provinces and Binh Phuoc.

b.3/ In addition to promoting business activities, the production management department, KCS, and TBXM engineering department must maintain stable product quality and comply with committed standards and regulations, considering this a vital factor for the company's present and future.

b.4/ The technical and production department must continue to research solutions to increase labor productivity, mechanization, automation, and measures to reduce costs to compete with regional tunnel brick kilns.

b.5/ In the exploitation of clay and construction sand, research on safe exploitation methods, create reasonable floors, steps, and slopes, and at the same time research on opening mining pits according to design, creating pumping stations near streams to save fuel and oil for pumping water, limiting the need to push far and high.

b.6/ The Board of Directors, together with the Trade Union and the Youth Union, must find jobs for employees so that employees have income and stabilize their mentality to be attached to the company. As the company ramps up production again, avoid workforce fluctuations.

#### **IV. BOARD OF DIRECTORS' ASSESSMENT OF THE COMPANY'S PERFORMANCE**

##### **1. Board of Directors' assessment of the company's operations:**

###### **General assessment**

In 2025, the Board of Directors of the Company tried to closely follow the direction of the Company's Executive Board to strive to carry out the tasks assigned by the General Meeting of Shareholders. During the year, the brick and tile business faced many difficulties due to the decline in the civil construction industry, however, the Board of Directors and the Executive Board tried to maintain production in the context of great impact from the world and domestic economic situation.

##### **2. Board of Directors' assessment of the performance of the company's Board of Directors:**

In 2025, the production and business of bricks and tiles faced many difficulties, but the company's Board of Directors made many efforts to research and find solutions to increase the business of bricks and tiles in stock and exploit clay, creating jobs for workers.

##### **3. The Board of Directors' orientation plans:**

The construction materials industry is expected to continue its recovery in 2026. The government is implementing various solutions to alleviate difficulties in the real estate market, which will gradually have a positive impact on the construction materials industry in general and the company's production and business activities in particular. Based on the above assessment, the Board of Directors, together with the Management Board, has unanimously agreed to develop and present to the Shareholders' Meeting the plan for 2026 with the following specific figures:

No.	Items	Unit	Plan 2026
1	Construction bricks	Pill	31.000.000
2	Clay	M3	55.000
3	Revenue	1000đ	38.550.105
4	Profit before tax	1000đ	6.127.165

**\* Basic tasks.**

Continuously improve the effectiveness and efficiency of the Board of Directors' operations on the basis of strict compliance with the provisions of the law and the Company's Charter, ensuring maximum conditions and promoting the capacity of the company's management and executive staff.

Direct the Executive Board to be more focused, determined, and closely follow production management, quality management and product cost management. Find every measure to continuously improve labor productivity through the application of scientific advances, investment in improving the capacity of the management team, and professional qualifications for staff and technical workers.

The Board of Directors further strengthens supervision, especially in-depth supervision on each topic. Regularly inspect the Executive Board in implementing the resolutions and decisions of the Board of Directors.

Strengthen coordination with Party organizations and unions in planning, training, arranging, and using staff, taking care of the material and spiritual life of employees, and better implementing emulation and reward work and social charity work. Maintain high consensus in the company through organizing and implementing democratic regulations.

**\* Supervisory activities of the Board of Directors over the Company Director:**

\* The Board of Directors, especially the Chairman of the Board of Directors, always closely monitors and urges the Company's Board of Directors to operate production and business activities in 2025 as follows:

- Focus on promoting debt collection, especially for customers with long-term debts.
- Maintain the forming machine system, kiln equipment before Tet, and recruit workers to prepare for brick production, expected to resume production at the end of the first quarter of 2025
- Survey prices and select a charcoal supplier to serve production
- Urge the consulting service company to complete the procedures for applying for land use rights and land lease of Dong Chinh clay mine phase 2.
- Agree to approve the transfer of 5 hectares of land outside the clay mine planning phase 2 with a transfer price of no less than 11 billion/hectare, provided that the buyer carries out the transfer procedures and bears the fees related to the transfer.
- Fill the soil and repair the dirt road from the wood workshop to the clay mine weighing station
- Rent vehicles and equipment to move soil from the bird's nest house area down to build a dike to prevent water from the large tunnel to exploit the small tunnel that was abandoned in 2012
- Continue to monitor and edit the automatic vehicle counting system and perform well the inspection and monitoring of the camera number of vehicles passing the scale at the clay mine.
- Meeting with the executive board to prepare documents for the General Meeting of Shareholders in April 2025. The expected date for the General Meeting of Shareholders in 2025 is April 23, 2025
- Recruit more workers to increase brick production capacity to reduce product costs, thereby adjusting selling prices to compete in product consumption and avoid large inventories.

- Survey and search for more suppliers of firewood to ensure a stable source of input supply for production.
- Assign the company's board of directors to find a partner to transfer 5 hectares of land outside the phase 2 clay mine planning with a transfer price of no less than 11 billion/hectare, on the condition that the buyer carries out the transfer procedures and bears the fees related to the transfer and finds a partner to negotiate the transfer price of the Dong Chinh clay mine office land area of 4,272 m2, and submits it to the Board of Directors for consideration and approval of the transfer price.
- Recruit additional workers to increase brick production capacity and lower production costs.
- Consider adjusting the selling price of construction bricks to align with current market prices.
- Continue surveying and seeking additional suppliers of firewood for kilns to ensure a stable supply of input materials for production.
- Continue urging the consulting service company to complete the procedures for granting land use rights and applying for land lease at the Dong Chinh clay mine, phase 2.
- Compile and settle 2025 expenses as a basis for developing the 2026 production and business plan and establishing economic and technical norms.
- Review and re-sign distributor, agency, and supplier contracts for 2026.
- Successfully implement year-end tasks such as employee conferences, emulation and reward programs, and inventory work.

**d) Activities of independent non-executive Board members:** Participate in Board meetings and perform tasks assigned by the Chairman of the Board of Directors of the company.

**e) Activities of subcommittees under the Board of Directors:** The Company does not establish subcommittees under the Board of Directors.

**b) Activities of the Board of Supervisors:**

**During the term, the Supervisory Board has controlled the Company's operations within its scope of authority and functions such as:**

Inspecting and supervising the implementation of the Resolution of the General Meeting of Shareholders, the Resolution of the Board of Directors, the Charter and working regulations between the Chairman of the Board of Directors and the Director, and internal documents issued to serve the management and operation of the enterprise.

Inspecting and supervising the implementation of the annual economic and technical plans and norms of the company.

Inspecting the reasonableness and legality in the management and operation of business activities; in the recording of accounting books, and the company's annual financial reports;

Monitoring and supervising the disclosure of information according to the regulations of the State Securities Commission.

Discussing with the independent auditor the issues stated in the financial statements.

Through the working results, the Board of Supervisors has reported to the Board of Directors and the Board of Management of the company about the remaining shortcomings, and at the same time proposed solutions to overcome and handle such as: payment acceptance procedures, clay business management at the clay mine, product price and

quality situation, finished product inventory, tax and financial settlement data, accounting organization, etc. All proposals and recommendations for handling are considered and resolved by the Board of Directors and the Board of Management within their scope of authority as stipulated in the Company Charter and relevant legal documents.

• **Regarding the monitoring of the implementation of the resolution of the 2025 General Meeting of Shareholders:**

\* **Unfulfilled issues**

The targets for brick and clay production set by the General Shareholders' Meeting have not yet been met;

Unable to transfer 5 hectares of land outside the clay mine exploration area.

\* **Issues implemented:** Implementing fund allocation in accordance with the Resolution; Negotiating and signing a contract with AASCs auditing company to audit the company's financial statements; Implementing information disclosure in accordance with regulations.

• **Monitoring results for members of the Board of Directors, members of the Board of Management and management staff:**

During the year, the Board of Directors held 04 meetings in accordance with the provisions of the Charter, the meetings resolved key issues related to the implementation of the Resolution of the General Meeting of Shareholders, the company's quarterly production and business plans and norms, and all members demonstrated their high sense of responsibility.

The Board of Supervisors unanimously approved the Report on business performance, profit distribution plan and the company's fund allocation. During the year, the Board of Supervisors did not detect any unusual signs causing conflicts of interest between the members of the Board of Directors, the Board of Directors and management staff with the interests of the company.

**3. Transactions, remuneration and benefits of the Board of Directors, Board of Management and Board of Supervisors:**

**VI. FINANCIAL REPORT****1. Audit opinion:**

No. : 113/BCKT/TC/2026/AASCs

**INDEPENDENT AUDITOR'S REPORT**

*On the financial statements of High Grade Brick Tile Corporation  
for the year ended 31 December 2025*

**To : SHAREHOLDERS, BOARD OF DIRECTORS, AND BOARD OF MANAGEMENT  
HIGH GRADE BRICK TILE CORPORATION**

We have audited the accompanying financial statements of High Grade Brick Tile Corporation ("the Company") as prepared on 10 March 2026 and set out on page 06 to 38, which comprise the balance sheet as at 31 December 2025, and the income statement and the cash flow statement for the year then ended and the notes thereto.

**The Board of Management' Responsibility**

The Board of Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements; and for such internal control as management determines is necessary to ensure the preparation and presentation of the financial statements are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Auditing Standards. Those standards require that we comply with ethical regulations and standards, plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including assessments of the risk of material misstatement in financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate with actual circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by

Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### The opinion of the auditor

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of the Company as at 31 December 2025, and of the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, and the statutory requirements relevant to the preparation and presentation of the financial statements.
