## 6. TYPES OF RISKS

- **Economic Risk:** Economic growth is a comprehensive economic indicator that directly affects the stock market in general and securities companies in particular. Economic growth along with good potential will lead to the development of the stock market. Conversely, when there is a negative impact on economic development, the stock market will also react in the same direction as that negativity; decline in index and market liquidity.
- **Inflation Risk:** Inflation is a factor that always goes hand in hand with economic development. Economic development is often accompanied by high inflation, which is a risk that causes instability to the economy and society, and is also accompanied by negativity towards the stock market and businesses operating in the securities sector.
- **Interest Rate Risk:** Interest rates are a very sensitive factor in the market, directly affecting savings, investment and production of businesses in general and businesses operating in the securities sector in particular, as well as securities investors.
- **Other Risks:** Unforeseeable and resistant risks such as epidemics, natural disasters, storms, floods, earthquakes, etc., all have more or less impact on the operations of the entire stock market in general as well as the rieng operations of WSS.

### WALL STREET SECURITIES

The Company's 2025 business results achieved breakthrough growth, with all planned targets far exceeding expectations. In the context of a market with many favorable shifts, the Company effectively capitalized on opportunities to increase revenue and optimize its cost structure, leading to a strong improvement in profit indicators.

The Company's total revenue in 2025 reached VND 79,350 million, achieving 179.06% of the set plan. Compared to the same period in 2024, total revenue experienced explosive growth, increasing by more than 3.75 times (up 275.66%). This indicates that the Company's core business segments have recovered and developed very effectively. Regarding Expenses, the Company successfully performed operational optimization. Total executed expenses in 2025 were VND 33,736 million, accounting for only 81.98% of the plan and significantly decreasing compared to the expense level of VND 52,557 million in 2024. The sharp increase in revenue while strictly controlling costs was the primary factor in improving the Company's profit margins. Profit before tax recorded an impressive figure of VND 45,614 million, far exceeding the modest planned figure of VND 3,165 million (achieving a completion rate of 1,441.19%). This represents a spectacular turnaround compared to the loss of VND 31,433 million in 2024.

drastically implemented the set goals. The flexibility in business strategy and the ability to adapt well to the market were the main reasons leading to the Company's operating results exceeding expectations and the set plan.

##### Brokerage activities

The Company will continue to consolidate and develop brokerage activities by investing in both technology and personnel. It will recruit and train additional high-quality sales teams to target core strategic customer segments throughout the brokerage and securities trading division. Simultaneously, the Company is cautious and will strengthen risk management measures related to trading activities and financial services to minimize losses.

##### Financial advisory activities

Financial advisory continues to be identified as one of the most important service areas and strengths in WSS's business development orientation. The Company will focus primarily on private enterprises across the country. On the other hand, advisory activities for equitization and state capital divestment will continue to be maintained.

##### Proprietary Trading activities

Given the 2026 market situation, which is forecasted to have great growth potential in both indices and liquidity, the Company continues to direct the proprietary trading division to stay close to the market and promote analytical activities to identify short and medium-term trends for making investment decisions. However, the proprietary trading division's activities must always adhere to principles, ensuring prudence and safety.

##### Investment activities

In 2026, the Company will continue to maintain the same investment orientation as in 2025, with an investment strategy aimed at expanding into private enterprises with strong business results and high potential. Simultaneously, it will continue to maintain advisory activities for divestment and equitization of state-owned enterprises. Based on market analysis and assessments of the enterprises themselves, WSS may participate as a major shareholder with controlling power. The guiding principle for this activity is prudence and efficiency to preserve capital and take advantage of profitable opportunities. The Company only participates in large-scale investments when there are clear opportunities and thorough appraisals..

## IV. BOARD OF DIRECTORS' ASSESSMENT OF THE COMPANY'S OPERATIONS

### 1. Assessment of the Company's operational aspects.

#### ON THE MARKET

##### Market index and liquidity

Closing 2025, the Vietnam stock market recorded explosive milestones. The VN-Index officially reached the 1,450.25 point mark, an impressive growth of 14.5% compared to the end of 2024. In the same upward trend, the HNX-Index finished at 265 points, a strong recovery with an increase of 15.7%. The biggest highlight came from liquidity as the new trading system operated stably, attracting foreign capital flows back to anticipate the wave of market upgrading from frontier to emerging status.

##### Market capitalization and number of accounts

The year 2025 marked a turning point in the popularization of securities among the entire population. With the support of digital identification technology, an additional 1.5 million individual accounts were opened during the year. The total number of accounts approached the 10.8 million threshold. The coverage rate reached over 11% of the population, exceeding the Government's target set for the period up to 2025.

##### Derivatives and bond market

The Derivatives market continues to be an effective risk hedging tool. The average trading volume reached 350,000 contracts/day (an increase of 16.6% compared to 2024). Regarding the Bond market, after a period of restructuring, the corporate bond market has fully regained confidence. Private placement and public offering activities took place vibrantly thanks to a transparent legal framework and the strictly enforced mandatory credit rating system.

#### ON COMPANY OPERATIONS

In 2025, WSS's business results showed signs of improvement. The Company not only completed but also far exceeded all important financial targets.

Total revenue reached more than VND 78.5 billion, corresponding to 180.8% of the plan. This was the main driver contributing to total revenue, showing that core business segments operated extremely effectively. While revenue increased sharply, the Company controlled costs very well. Total actual costs only accounted for 81.98% compared to the estimate (VND 33.74 billion compared to the VND 41.15 billion plan). Profit before tax reached an impressive figure of VND 45.6 billion. Compared to the loss of VND 31.43 billion in 2024, this is a major step forward, helping to clear accumulated losses and consolidate the financial foundation for the Company.

## IV. EVALUATION OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

### 2. Evaluation of the Board of Directors on the General Management Board of the Company

Based on the company's charter, the Board of Directors supervises the General Director, the Executive Board, and other management staff in the daily management of the Company's affairs.

- Implementing the Resolution of the Annual General Meeting of Shareholders in 2024, the Board of Directors regularly monitors the developments of the domestic and international economy and market fluctuations, in order to provide timely guidance for the Company's business operations.
- The Chairman of the Board of Directors regularly works at the Company. Every week and every month, the Chairman of the Board of Directors holds meetings with the General Management Board and attends meetings of the General Management Board with management levels to monitor, grasp the situation, and direct the Company's activities.
- Periodically, the Board of Directors requires the General Management Board to report on business results, the progress of implementing the Resolutions of the Board of Directors, and the advantages and difficulties arising in the management work. Based on the reports and the actual situation, the Board of Directors organizes meetings to review and evaluate the management results in the period and requires the implementation of new tasks according to the Resolution of the General Meeting of Shareholders.

### ACHIEVED RESULTS

- During the year, the General Management Board fully fulfilled its responsibility to report, explain, and disclose information about business operations in a complete and transparent manner. The General Management Board complied with the requirements to submit and seek opinions on the contents under the approval authority of the Board of Directors at the meetings of the Board of Directors.
- Daily business and professional activities are carried out in compliance with operational and management procedures, and all business activities of the company ensure compliance with current legal regulations.
- The General Management Board and management staff of Wall Street Securities Joint Stock Company have demonstrated a high sense of responsibility in management and have proactively implemented plans; despite facing the complex developments of the stock market, the Company's financial investments have been favorable, achieving revenue from financial advisory activities and revenue from securities brokerage operations.

## IV. ASSESSMENT OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

### 3. Orientations of the Board of Directors

The Company will continue to reconsolidate brokerage activities through investment in technology, personnel, and support services. Regarding long-term development plans, the Company will continue to pursue plans to attract capable personnel for customer development, creating maximum support conditions for customers to open accounts and execute transactions. Simultaneously, the Company is also cautious and will strengthen risk management measures related to trading activities and financial services to minimize losses to the maximum extent.

- ㄱㄸ **Regarding business orientation:** Focus on target customer groups who are high-net-worth individuals with accumulated assets starting to participate in the stock market. For institutional customers, the focus is on private joint-stock companies with good profits to provide comprehensive advisory support regarding capital and strategy, and those with plans to list on the stock market in order to provide value-added services.
- ㄱㄸ **Regarding products and services:** The Company will reconsolidate brokerage activities by developing the individual customer group with accumulated assets, providing high-quality advisory services through quality analysis reports from WSS so that customers can achieve maximum profit levels.
- ㄱㄸ **Regarding technology:** WSS will focus on investing in personnel and information technology systems, including both hardware and software, particularly perfecting the mobile stock trading application.
- ㄱㄸ **Regarding personnel policy:** Create favorable mechanisms as well as remuneration policies based on productivity linked to the income of each individual in the company. Simultaneously, WSS continues to seek qualified, experienced, and dedicated personnel to supplement the company's staff.
- ㄱㄸ **Strengthen risk management in all aspects of the Company's operations.**

## INDEPENDENT AUDITORS' REPORT

**To: Shareholders, The Board of Directors and The Board of Management  
Wall Street Securities Joint Stock Company**

We have audited the Financial statements of Wall Street Securities Joint Stock Company prepared on 26 March 2026, as set out on pages 06 to 48, including: Statement of financial position as at 31 December 2025, Statement of comprehensive income, Statement of cash flows, Statement of changes in equity for the fiscal year ended as at 31 December 2025 and Notes to financial statements.

### **The Board of Management' responsibility**

The Board of Management responsible for the preparation of Financial statements that give a true and fair view in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System applicable to securities companies and the statutory requirements relevant to preparation and presentation of Financial statements and for such internal control as management determines is necessary to enable the preparation of Financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility**

Our responsibility is to express an opinion on these Financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with standards, ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of Financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the Financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Auditor's opinion

In our opinion, the Financial statements give a true and fair view, in all material respects, of the financial position of Wall Street Securities Joint Stock Company as at 31 December 2025, and of the results of its operations, cash flows and changes in equity for the year then ended, in accordance with the Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System applicable to securities companies and the statutory requirements relevant to preparation and presentation of financial statements.

c) *Revalue financial asset principles*

Revaluation of financial assets FTVPL and AFS at market value or fair value is according to the method of valuation in accordance with the law. In case, there is no market prices at the most recent trading date, the Company uses fair value to revalue its financial assets. The fair value is determined on the base of respect for the principle, method or model of valuation theory of financial assets approved by the Board of Management.

The fair value/market value of financial assets is determined in accordance as follows:

- For securities listed on the Hanoi Stock Exchange and the Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of setting up the revaluation;
- For unlisted securities registered for trading on the Unlisted Public Company Market (UPCOM), their market prices are determined as average reference in the last 30 consecutive trading days before the time of re-evaluation announced by the Stock Exchange./ are their closing prices on the trading day preceding the date of setting up the revaluation.
- For delisted securities and suspended trading securities from the sixth day afterward, their prices are the book value at the latest financial report date.
- For unlisted securities and securities unregistered for trading on the Unlisted Public Company Market (UPCom), the stock prices as the basis for re-evaluation are the prices collected from sources. reference information that the Board of Management considers that this price represents the market price of these securities.

For securities which do not have reference price from the above sources, the revaluation is determined based on the financial performance and the book value of securities issuer as at 31 December 2025.

The difference in increase/decrease dues to revalue FVTPL are recorded according to the principle of non-offset and presented in the Statement of Comprehensive Income on 02 items: the item "Loss from financial assets at fair value through profit and loss (FVTPL)" - details "Loss from revaluation of financial assets at FVTPL" (if the assessment decreases) and the item "Gain from financial assets at fair value through profit and loss (FVTPL)" - Details "Gain from revaluation of financial assets at FVTPL" (if the assessment increases).

The difference in increase/decrease dues to revalue AFS are recognized directly in equity of the Statements of Financial Position on the item "Asset revaluation differences".

Held-to-maturity financial assets are subjected to an assessment for impairment at the financial statements date. Provision is made for these investments when there is any objective evidence that the investment is irrecoverable or there is uncertainty of recoverability as a result of one or more loss events that affected adversely on estimated future cash flows of HTM investments. Objective evidence of impairment may include a drop in the market value/fair value (if any) of the impaired debt, indications that the debtor or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the possibility that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in repayment conditions, economic conditions that correlate with defaults. When there is any evidence of impairment, provision is made on the basis of the difference between the amortized value and the fair value at the assessment date. Any increase or decrease in the balance of provision is recognized in the income statement under "*Provision expenses for diminution in value and impairment of financial assets, doubtful receivables and borrowing costs of loans*".

Loans are made provision of impairment at the Statement of Financial Position date. Provision for loans is made on the basis of the estimated loss, calculated as the difference between the market value of the security used as collateral for the loan and the balance of the loan. Increases and decreases of provision are recognized in the Statement of Comprehensive Income on the "*Provision expenses for diminution in value and impairment of financial assets, doubtful receivables and borrowing costs of loans*".

**e) . Fluctuation of market value**

The market value of securities listed on the Hanoi Stock Exchange and the Ho Chi Minh Stock Exchange is determined based on the closing price on the most recent trading day up to 31 December 2025. For securities of companies that are not listed on the stock exchange but are registered for trading on the Unlisted Public Company Market (UPCoM), the market value is determined as the average reference price over the most recent 30 consecutive trading days prior to the revaluation date, as announced by the Stock Exchange. For listed securities that have been delisted, suspended, or halted from trading from the sixth trading day onwards, the actual securities price is determined based on the book value as at the end of the financial year.
