These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Reporting entity

(a) Ownership structure

Agriculture Bank Insurance Joint Stock Corporation (“the Company”) is incorporated as a joint stock company in Vietnam under Establishment and Operation License No. 38/GP/KDBH dated 18 October 2006 initially issued by the Ministry of Finance and the most recent amendment of the License No. 38/GPDC10/KDBH dated 27 October 2025.

The Company’s Parent bank is the Vietnam Bank for Agriculture and Rural Development (“Agribank”). Agribank owns 52.08% of the charter capital of the Company.

(b) Principal activities

The principal activities of the Company are non-life insurance business, re-insurance business, conducting investment activities and other activities as regulated by law.

(c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

(d) Company structure

As at 31 March 2026, the Company had one (01) Head Office and twenty one (21) branches (1/1/2026: one (01) Head Office and twenty (21) branches).

As at 31 March 2026, the Company had 848 employees (1/1/2026: 850 employees).

2. Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises, Circular No. 232/2012/TT-BTC dated 28 December 2012 of the Ministry of Finance providing accounting guidance for non-life insurance enterprises, reinsurance enterprises and branches of foreign non-life insurance enterprises and the relevant statutory requirements applicable to financial reporting.

These standards and relevant statutory requirements may differ in some material aspects from International Financial Reporting Standards as well as generally accepted accounting principles and standards of other countries. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnam’s accounting principles, procedures and practices for non-life insurance enterprises, reinsurance enterprises and branches of foreign non-life insurance enterprises.

(b) *Basis of measurement*

The financial statements, except for the statement of cash flows, are prepared on the accrual basis using the historical cost concept. The statement of cash flows is prepared using the direct method.

(c) *Annual accounting period*

The annual accounting period of the Company is from 1 January to 31 December. The interim financial statements for the first quarter cover the period from 1 January to 31 March.

(d) *Accounting and presentation currency*

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statement presentation purpose.

3. *Summary of significant accounting policies*

The following significant accounting policies have been adopted by the Company in the preparation of these financial statements.

The accounting policies that have been adopted by the Company in the preparation of these financial statements are consistent with those adopted in the preparation of the latest annual financial statements.

(a) *Foreign currency transactions*

Transactions in currencies other than VND during the period have been translated into VND at the actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated respectively into VND at the account transfer buying rate and account transfer selling rate at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the statement of income.

(b) *Cash and cash equivalents*

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(c) *Investments*

(i) *Short-term financial investments*

Short-term financial investments include term deposits at bank. These investments are stated at costs less allowance for doubtful debts described in Note 3(d).

(d) *Accounts receivable*

Trade receivables and other receivables are stated at cost less allowance for doubtful debts.

Receivables are subject to review for allowance based on overdue periods of receivables or estimated loss arising from undue debts of which the indebted economic organisations fall bankrupt or are undergoing dissolution procedures; debtors are missing, have fled, are prosecuted, detained or tried by law enforcement bodies, are serving sentences or have deceased.

For overdue debts, the Company makes allowance for doubtful debts as follows:

<i>Overdue status</i>	<i>Allowance rate</i>
Undue or less than six (06) months	0%
From six (06) months to less than one (01) year	30%
From one (01) to less than two (02) years	50%
From two (02) to less than three (03) years	70%
Over three (03) years	100%

Allowance for receivables that are not yet overdue is determined by the Company after considering the recoverability of these debts.

(e) *Deferred commission expenses*

Commission expenses on direct insurance business and inward reinsurance business are recognised and amortised on the same basis as the allocation of unearned premium reserve as described in Note 3(l)(i). The balance of deferred commission expenses at the reporting date represents the commission expenses relating to unearned premium.

(f) *Tangible fixed assets*

(i) *Cost*

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the tangible fixed assets have been put into operation, such as repairs, maintenance and overhaul costs, is normally charged to statement of income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of tangible fixed assets beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of items of tangible fixed assets. The estimated useful lives are as follows:

Buildings and structures	8 - 30 years
Machines and equipment	3 - 15 years
Motor vehicles	6 - 10 years
Office equipment	5 - 10 years
Other fixed assets	3 - 5 years

(g) Intangible fixed assets

(i) Land use rights

Land use rights include permanent land use rights. Permanent land use rights are stated at cost. The initial cost of a land use rights comprises the purchase price and any directly attributable costs incurred in conjunction with securing the land use rights. Permanent land use rights are not amortised.

(ii) Software

The cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software costs are amortised on a straight-line basis over 3 - 5 years.

(h) Construction in progress

Construction in progress represents the costs of construction or procurement of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

(i) Prepaid expenses

(i) Office repair and renovation expenses

Office repair expenses are initially recorded at cost and amortised on a straight-line basis over a period from 1 to 3 years.

(ii) Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are over VND10 million and less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of tools and instruments are amortised on a straight-line basis within 3 years.

(j) Insurance payables and other payables

Insurance payables and other payables are stated at their cost.

(k) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(l) Technical reserves

Technical reserves are established in accordance with regulations and instructions of Circular No. 67/2023/TT-BTC dated 2 November 2023 (“Circular 67”) issued by the Ministry of Finance providing guidance for implementation of certain articles of the Law on Insurance Business, Decree No. 46/2023/ND-CP dated 1 July 2023 (“Decree 46”) of the Government providing detailed regulations on implementation of a number of articles of the Law on Insurance Business and Official Letter No. 358/BTC-QLBH dated 10 January 2018 (“Official Letter 358”) of the Ministry of Finance on approval of technical reserve methods of the Company applied from fiscal year 2017.

Technical reserves of the Company include: technical reserves for non-life insurance and technical reserves for health insurance.

(i) Technical reserves non-life insurance

Unearned premium reserve

Unearned premium reserve (UPR) is the proportion of written premiums that are related to risk after the reporting date and is included as a liability in the balance sheet. Unearned premium reserve is calculated based on a coefficient of the term of insurance policies and the unearned premium reserve is calculated using daily method as stipulated in Item c, Clause 2, Article 35 of Circular 67. Accordingly, unearned premium reserve for all types of insurance policies or reinsurance policies is calculated based on the following formula:

$$\text{Unearned premium reserve} = \frac{\text{Insurance premium} \times \text{Remaining insured days of the insurance or reinsurance policy}}{\text{Total insured days under the insurance or reinsurance policy}}$$

Unearned premium reserve is calculated and presented separately for the gross premiums from direct insurance and reinsurance assumed and for reinsurance premiums ceded.

Claims reserve

Claims reserve comprises reserve for outstanding claims and reserve for claims incurred but not reported.

Reserve for outstanding claims is made for each insurance policy by estimating the sum insured to be paid for each claim case which was reported or claimed but not yet settled by the end of the reporting period as stipulated in Item a, Clause 1, Article 36 of Circular 67.

“Incurred But Not Reported” claims (“IBNR”) are claims which have incurred during the current annual accounting period or previous annual accounting periods but have not yet been notified to the insurer at the end of the annual accounting period. The Company’s IBNR reserve is calculated at 3% insurance premium for each insurance transaction according to the instructions of Official Letter 6962.

Claims reserve is calculated and presented separately for direct insurance and reinsurance assumed and for ceded reinsurance.

Catastrophe reserve

The Company has established catastrophe reserve in accordance with the guidance in Official Letter 6962. Catastrophe reserve is accrued annually at 1% of the retained premium for insurance products. Catastrophe reserve is accrued until this reserve reaches 100% of the retained premium of the current annual accounting period.

(ii) Technical reserves for health insurance

Unearned premium reserve

Unearned premium reserve for health insurance policies with terms of 1 year or less is made based on a coefficient of the term of insurance policies and the unearned premium reserve is calculated using daily method as stipulated in Item c, Clause 2, Article 35 of Circular 67 and Official Letter 6962. Accordingly, unearned premium reserve for health insurance policies with terms of under 1 year or less is calculated based on the following formula:

$$\text{Unearned premium reserve} = \frac{\text{Insurance premium} \times \text{Remaining insured days of the insurance or reinsurance policy}}{\text{Total insured days under the insurance or reinsurance policy}}$$

Mathematical reserve

For health insurance contracts with a term of more than one year (excluding contracts that only cover death or total and permanent disability), the Company applies the daily pro-rata method (gross premium basis) as stipulated in Item c, Clause 2, Article 35 of Circular 67.

For health insurance policies with terms of more than one year and health insurance policies covering death or permanent total disability only, mathematical reserve is calculated using the daily method as stipulated in Item c, Clause 2, Article 35 of Circular 67.

In case where the mathematical reserve for insurance policies with terms of more than one year calculated using daily method is less than the reserve calculated using 1/8 method, the Company shall provide additional reserve for such difference.

Claims reserve

Reserve for outstanding claims is established on case by case basis based on the statistics of the sum insured to be paid for each claim case reported or claimed but not yet settled at the end of the reporting period in accordance with Article 36 of Circular 67.

Reserve for claims incurred but not yet reported or claimed is made at 3% insurance premium for each insurance transaction according to the instructions of Official Letter 6962.

Equalisation reserve

Equalisation reserve is accrued at 1% of the retained premium for each insurance line.

(m) Statutory security deposit

Under the prevailing of the Law on Insurance Business No. 08/2022/QH15, the Company has to maintain compulsory deposits equivalent to 2% of the minimum charter capital at a commercial bank operating in Vietnam. The deposit may only be used to meet commitments with the policyholders when the Company's payment ability is inadequate, and it must be approved by the Ministry of Finance in writing. This deposit can only be withdrawn in full when the Company ceases to operate.

(n) Share capital

(i) Ordinary shares

Ordinary shares are recognized at par value. Incremental costs directly attributable to the issue of shares, net of tax effects are recognized as a deduction from share premium.

(ii) Share premium

the difference between the issuance price and the par value of the shares is recorded as share premium in equity.

(iii) Treasury shares

Treasury shares are only recognized for the repurchase of aggregating fractions of a share arising when issuing shares to pay dividends or issuing shares from equity according to the approved plan, or of aggregating fractions of a share at the request of shareholders. Aggregating fractions of a share are shares representing the share capital formed by aggregating fractions of a share proportionally divided to investors. In all other cases, when repurchasing shares that were previously recognized as equity, the par value of the repurchased shares must be deducted from the share capital. The difference between the par value of the repurchased shares and the payment amount including directly attributable costs, less taxes, is recognized in the share premium.

For treasury shares that were repurchased before 1 January 2021, when treasury shares are sold for reissue subsequently, cost of the reissued shares is determined on a weighted average basis. Any difference between the amount received and the cost of the shares reissued is presented within share premium.

(o) Distribution of profits

Net profit after tax of the Company is used for appropriation to reserves and funds and payments of dividends to shareholders upon approval of the Shareholders of the Company.

(i) Statutory reserve

Statutory reserve is appropriated from 5% of profit after tax annually until this reserve reaches 10% of the Company's charter capital. This statutory reserve is non-distributable and is classified as part of equity.

(ii) Bonus and welfare fund

Bonus and welfare fund is established by appropriating from profit after tax. The annual allocation rate is determined by the Company's General Meeting of Shareholders and recorded as liabilities.

(iii) Other equity funds

Other equity funds are allocated from profit after tax. The allocation from profit after tax and the utilisation of other equity funds are approved by the Shareholders of the Company.

(p) Taxation

Income tax on the profit for the period comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(q) Revenue recognition

(i) Premium from direct insurance

Premium revenue is recognised in accordance with the requirements of Circular 67. In particular, premium revenue from direct insurance is recognised when:

- the insurance contract has been entered into by the Company and the insured and the insured has fully paid the premium;
- there is evidence that the insurance contract has been entered into and the insured has fully paid the premium;
- the insurance contract has been entered into by the Company and the insured and there is agreement between the Company and the insured for delayed payment of insurance premium in accordance with the provisions in Points a and c, Clause 2, Article 26 of Circular 67, the Company recognises premium revenue for the unpaid premium when the insurance risk is assumed;
- the insurance contract has been entered into by the insurer and there is agreement between the Company and the insured for insurance premium being paid on instalment basis, the Company recognises the due premiums and does not recognise undue premiums as specified in the insurance contract.

(ii) Premium revenue from inward reinsurance activities and outward reinsurance premiums

Inward reinsurance premium is recorded when the liability is incurred, at the amount stated on the reinsurers' statement sent to the Company and confirmed by the Company.

Outward reinsurance premium is recorded at the premium amount to be ceded to reinsurers, corresponding to the direct insurance premium recognised in the period.

Commission income from outward reinsurance is recorded simultaneously with outward reinsurance premium incurred in the period. During the period, the entire commission income from outward reinsurance is presented in the item "Commission income from outward reinsurance". At the period end, the Company should determine unearned commission income from outward reinsurance corresponding to outward reinsurance premium not yet recognized in this period so as to allocate such commission income to the subsequent accounting periods using the unearned premium reserve approach described in Note 3(1)(i).

(iii) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(r) Claim expenses and commission expenditure from insurance activities

Claim settlement expenses of direct insurance are recorded as incurred, that is, when the Company accepts to settle the insured's claims following respective settlement notice.

Claim settlements of reinsurance inward activities are recorded as incurred based on the statements the reinsurers sent to the Company and confirmed by the Company.

Claim receipts from ceded policies are recognised based on the receivable amount incurred corresponding to the claim settlement expenses recorded in the period and the ceded ratios.

Commission expenditure from insurance activities is recognised when incurred. During the period, the entire commission expenses for direct insurance and inward reinsurance are recorded in the items "Commission expenses for direct insurance" and "Commission expenses for inward reinsurance". At the period end, the Company determines unearned commission expenses for direct insurance and inward reinsurance which have not been recognized as expenses for the period yet corresponding to unearned direct premium and inward reinsurance premium so as to allocate such commission expenses to the subsequent period in accordance with the unearned premium reserve method described in Note 3(1)(i).

(s) Insurance acquisition costs

All acquisition costs other than commission expenses incurred on the underwriting or renewal of insurance policies are recognised in the statement of income when incurred.

(t) Leases

Lease payments

Payments made under operating leases are recognised in the statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the statement of income as an integral part of the total lease expense, over the term of the lease.

(u) *Earnings per share*

The Company presents basic earnings per share (“EPS”) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders (after deducting any amounts appropriated to bonus and welfare funds for the accounting period) of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding affecting of all potential ordinary shares, which comprise convertible shares and share options. As at 31 December, the Company had no potential ordinary shares and therefore does not present diluted EPS.

(v) *Related parties*

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

(w) *Classification of financial instruments*

Solely for the purpose of providing disclosures about the significance of financial instruments to the financial position and results of operations of the Company and the nature and extent of risk arising from financial instruments, the Company classifies its financial instruments as follows:

(i) *Financial assets*

Financial assets at fair value through profit or loss

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

- It is considered by management as held for trading. A financial asset is considered as held for trading if:
 - it is acquired principally for the purpose of selling it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Company as at fair value through profit or loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the Company has the positive intention and ability to hold to maturity, other than:

- those that the Company upon initial recognition designates as at fair value through profit or loss;
- those that the Company designates as available-for-sale; or
- those that meet the definition of loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- that the Company intends to sell immediately or in the near term, which are classified as held for trading, and those that the entity on initial recognition designates as at fair value through profit or loss;
- that the Company upon initial recognition designates as available-for-sale; or
- for which the Company may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as available-for-sale.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or that are not classified as:

- financial assets at fair value through profit or loss;
- held-to-maturity investments; or
- loans and receivables.

(ii) *Financial liabilities*

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

- It is considered by management as held for trading. A financial liability is considered as held for trading if:
 - it is incurred principally for the purpose of repurchasing it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Company as at fair value through profit or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised cost.

The above-described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

(x) Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's Board of Management assesses that the Company has a business segment which is non-life insurance business and operates in a geographical area of Vietnam.

(y) Comparative information

Comparative information in these financial statements is presented as corresponding figures. Under this method, comparative information for the prior period/year is included as an integral part of the current period financial statements and is intended to be read only in relation to the amounts and other disclosures relating to the current period. Accordingly, the comparative information included in this six-month period ended financial statements is not intended to present the Company's financial position, results of operation or cash flows for the prior period/year.

4. Seasonal and cyclical factors

The Company's operating results is subject to the following seasonal and cyclical factors:

(a) Bonus to employees

The Company has not accrued bonus to employees in 2026 as this bonus will be determined at the year-end.

(b) Taxation

In accordance with current tax regulations, income tax is computed and finalised at the year-end. Period income tax expense for 2026 is calculated based on profit before tax ended 31 March 2026.

(c) Reserve

The Company is required to appropriate the statutory reserve, bonus and welfare fund and other funds from owners' equity on an annual basis in accordance with applicable regulations. The appropriation of these funds will be made upon approval by the General Meeting of Shareholders.

5. Changes in accounting estimates

There were no material changes in the accounting estimates made when preparing these financial statements compared to those made in the most recent annual financial statements.

6. Changes in the composition of the Company

There were no significant changes in the composition of the Company ended at 31 December 2026.

7. Cash and cash equivalents

	31/03/2026 VND	01/01/2026 VND
Cash on hand	3,574,849,061	8,731,115,087
Cash at banks	80,474,161,435	99,022,909,494
Cash in transit	83,613,000	-
Cash equivalents (i)	50,000,000,000	20,000,000,000
	134,132,623,496	127,754,024,581

- (i) These represent deposits at Vietnam Bank for Agriculture and Rural Development (the Parent bank) with an original term of less than 3 months and an annual interest rate of 4.75% as at 31 March 2026 (1/1/2026: 4.75%).

8. Financial investments

	31/03/2026		01/01/2026	
	Cost VND	Fair Value VND	Cost VND	Fair Value VND
Short-term	3,543,247,291,700	3,543,247,291,700	3,553,789,406,800	3,553,789,406,800
Short-term deposits (i)	3,543,247,291,700	3,543,247,291,700	3,553,789,406,800	3,553,789,406,800
Long-term	-	-	-	-
Long-term deposits (i)	-	-	-	-
	3,543,247,291,700	3,543,247,291,700	3,553,789,406,800	3,553,789,406,800

- (i) These represent deposits at Vietnam Bank for Agriculture and Rural Development with an original term of more than 3 months, remaining maturity of less than 1 year, and annual interest rates ranging from 4.50% to 7.4% as at 31 March 2026 (1/1/2026: from 4.5% to 6.5%).
