**REPORT
ON BUSINESS AND PRODUCTION PERFORMANCE IN 2025
AND BUSINESS AND PRODUCTION PLAN FOR 2026**

Dear the General Meeting of Shareholders,

The Board of Management of Hanoi Soap Joint Stock Company respectfully reports to the General Meeting of Shareholders on the business and production performance in 2025 and the business and production plan for 2026 as follows:

I. MARKET CONTEXT AND IMPACTING FACTORS

In 2025, the global economy continued to face many fluctuations due to geopolitical conflicts, energy price volatility, and the tightening of monetary policies in many countries. According to the International Monetary Fund (IMF), global economic growth in 2025 was estimated at approximately 3.2%.

In Vietnam, the economy maintained a positive recovery trend with GDP estimated to grow by approximately 6–6.5%, while total retail sales of goods and consumer service revenue increased by around 9–10% compared to 2024, indicating that domestic consumption demand continued to improve.

However, the consumer chemicals and household care products market continued to experience intense competition with the participation of many domestic enterprises as well as multinational corporations with strong advantages in brand, financial capacity, and distribution systems. At the same time, the rapid development of modern retail systems, e-commerce, and new distribution channels has created increasingly higher requirements for enterprises in terms of product quality, marketing capability, and price competitiveness.

In this context, the Board of Management proactively implemented management solutions to maintain business and production activities, stabilize the distribution system, and gradually improve the Company's operational efficiency.

II. BUSINESS AND PRODUCTION PERFORMANCE IN 2025

According to the audited financial statements for 2025, the Company achieved the following results:

- Total revenue reached VND 105.939 billion, representing an increase of 169% compared to 2024 and 176% of the annual plan.

The revenue growth during the year mainly came from trading activities, as the Company strengthened the trading of goods in order to capture market opportunities and effectively utilize its existing distribution system. This activity significantly contributed to the increase in the Company's revenue in 2025.

In addition, the Company's manufacturing activities also recorded improvements

compared to the previous year, with sales volumes of several product groups increasing, thereby contributing to maintaining stable supply and reaffirming the market presence of the HASO – Hanoi Soap brand.

- Profit after tax in 2025 reached VND 37 million.

Although the profit level remains modest, this result marks a positive turnaround as the Company recorded profits again after many years of difficulties.

However, due to accumulated losses from previous years amounting to approximately VND 80.82 billion, the Company is currently not eligible to distribute profits or pay dividends in accordance with legal regulations.

III. ASSESSMENT OF THE MANAGEMENT PERFORMANCE OF THE BOARD OF MANAGEMENT

In 2025, the Board of Management focused on implementing various measures to stabilize business and production activities and gradually improve the Company's operational efficiency, including:

- Reviewing and restructuring production activities to optimize resource utilization and improve operational efficiency;
- Implementing cost-saving measures and closely controlling raw material costs and production costs;
- Improving production processes and product packaging to enhance market competitiveness;
- Maintaining and strengthening the distribution system to ensure product supply to the market;
- Fully complying with legal regulations, the Company's Charter, and the resolutions of the Board of Directors.

The results achieved in 2025 demonstrate the considerable efforts of the Board of Management and all employees in maintaining operations and gradually improving the Company's financial situation.

IV. BUSINESS AND PRODUCTION PLAN FOR 2026

1. Outlook for 2026

Entering 2026, the domestic economy is expected to maintain a stable growth momentum. However, the consumer goods market in general and the consumer chemicals sector in particular will continue to face potential competition and volatility.

For the Company, improving operational efficiency while gradually addressing accumulated losses remains a significant challenge in the coming period

2. Key targets for 2026

The Board of Management has developed the 2026 business and production plan with the following main targets:

- Industrial production value (at current prices): VND 71.76 billion
- Total revenue: VND 147.02 billion
- Net revenue: VND 146.4 billion
- Production output: 2,792 tons
- Sales volume: 2,768 tons

- Projected profit: (VND 4.3 billion)

The 2026 profit plan is prudently projected at a loss of VND 4.3 billion, based on several key factors:

- Raw material costs and production costs may continue to fluctuate significantly;
- The Company needs to continue investing in market development activities and maintaining and expanding the distribution system;
- Certain necessary expenses related to restructuring and stabilizing production and business activities may arise;
- Pressure from accumulated losses from previous years.

The prudent planning approach aims to ensure financial safety and allow the Board of Management to flexibly manage operations when market conditions become more favorable.

V. STRATEGIC ORIENTATION FOR RECOVERY AND DEVELOPMENT

In the coming period, the Board of Management identifies several key orientations to gradually restore and develop the HASO – Hanoi Soap brand, including:

1. Strengthening the production foundation

Continue reviewing and optimizing production operations, improving the efficiency of machinery and equipment utilization, and controlling production costs.

2. Repositioning the HASO brand

Promote the value of the long-established traditional brand while renewing product image and market approaches in line with modern consumption trends.

3. Developing market-oriented products

Enhance research, improvement, and development of consumer chemical and personal & household care product lines to meet increasingly diverse consumer demands.

4. Expanding the distribution system

Continue strengthening traditional distribution channels while gradually expanding into modern retail channels and e-commerce platforms.

During the implementation of the 2026 business and production plan, the Company may continue to face several key risks and challenges, including:

- Strong fluctuations in raw material prices and increasing input costs that may affect production costs and business efficiency;
- Increasing competitive pressure from domestic and international enterprises in the consumer chemicals sector;
- Rapidly changing consumption trends along with the strong development of modern retail and e-commerce channels;
- Pressure to improve operational efficiency and gradually address accumulated losses from previous years.

The Board of Management will closely monitor market developments and

proactively adjust plans while implementing appropriate risk management measures to ensure stable operations.

The year 2025 marked a positive turning point for the Company as business and production activities began to recover and recorded profits after many years of difficulties. However, the Company still faces numerous challenges, particularly the pressure to address accumulated losses and improve operational efficiency.

In 2026, the Board of Management will continue to implement appropriate management solutions, focusing on stabilizing business operations, enhancing competitiveness, and gradually improving the Company's financial condition.

The Board of Management commits to operating the Company in a prudent, transparent, and efficient manner, in compliance with the law, the Company's Charter, and the resolutions of the General Meeting of Shareholders and the Board of Directors.

With the support of the Board of Directors, the Supervisory Board, the companionship of shareholders, and the dedication of all employees, the Board of Management believes that the Company will gradually stabilize operations, improve business efficiency, and enhance the value of the HASO brand in the coming years.

The Board of Management respectfully submits this report to the General Meeting of Shareholders for consideration and approval.

Respectfully submitted.

- Approving matters to be submitted to the General Meeting of Shareholders;
- Directing the implementation of information disclosure obligations of a public company in accordance with legal regulations.

During the year, the Board of Directors issued 17 Resolutions to direct and

manage the Company's operations. These Resolutions were issued within the proper authority and fully complied with procedures as prescribed by law and the Company's Charter, and were implemented by the Board of Management.

Details of the Resolutions and Decisions of the Board of Directors are archived at the Office of the Board Secretary and have been disclosed in the Corporate Governance Report for 2025 in accordance with regulations.

II. SUPERVISORY ACTIVITIES OF THE BOARD OF DIRECTORS

In 2025, the Board of Directors performed its supervisory function over the Board of Management in the following key areas:

- Implementation of the Resolutions of the General Meeting of Shareholders and the Board of Directors;
- Management and utilization of the Company's capital and assets;
- Implementation of the business and production plan;
- Fulfillment of reporting and information disclosure obligations in accordance with legal regulations.

The Board of Directors maintained regular meetings and frequent information exchanges with the Board of Management to promptly monitor the Company's operational status. Supervision was carried out based on reports from the Board of Management and at the request of the Board of Directors for specific matters.

The Board of Directors acknowledges and highly appreciates the efforts of the Board of Management in managing production and business activities, maintaining the Company's operations, and ensuring stable employment and income for employees in the context of a challenging market environment.

III. ASSESSMENT OF BUSINESS PERFORMANCE IN 2025

In 2025, the global economy continued to experience significant fluctuations. According to the International Monetary Fund (IMF), global economic growth was estimated at approximately 3.2%.

In Vietnam, GDP growth was estimated at 6–6.5%, while total retail sales of goods and consumer service revenue increased by approximately 9–10% year-on-year. However, the recovery of market purchasing power remained relatively modest.

Meanwhile, the consumer chemicals market remained highly competitive, dominated by multinational corporations such as Unilever and Procter & Gamble (P&G). In addition, the rapid development of modern retail channels and e-commerce has created significant pressure in terms of price, product quality, and distribution systems.

In this context, the Board of Directors directed the Board of Management to implement solutions to maintain production and business operations and gradually improve the Company's operational efficiency.

According to the audited financial statements for 2025, the Company achieved the following results:

- Total revenue: VND 105,393 million, representing 169% increase compared to 2024 and 176% of the annual plan;

- Profit after tax: VND 37 million.

These results mark a positive improvement for the Company after several years of difficulties.

However, due to accumulated losses from previous years amounting to VND 80.82 billion, the Company is not yet eligible to distribute profits or pay dividends in accordance with legal regulations.

The Board of Directors acknowledges and highly appreciates the efforts of the Board of Management and all employees in maintaining production and business activities, implementing cost-saving measures, improving technology, reorganizing production lines, enhancing resource efficiency, and ensuring a stable product supply to the market.

IV. CORPORATE GOVERNANCE

In 2025, the Board of Directors continued to implement activities to enhance corporate governance quality, including:

- Maintaining the governance system in compliance with regulations applicable to public companies;
- Fully fulfilling information disclosure obligations in accordance with legal requirements;
- Coordinating with the Supervisory Board in overseeing governance and executive activities;
- Enhancing transparency in the Company's operations.

Based on the objectives approved by the 2025 Annual General Meeting of Shareholders, the Company's Charter, and the Regulation on the Operation of the Board of Directors, the Board of Directors conducted governance and supervisory activities prudently and in compliance with legal regulations and the Company's internal rules.

Members of the Board of Directors upheld a high sense of responsibility and properly performed their governance roles and functions, contributing to the Company's strategic direction and improved operational efficiency.

V. ORIENTATION FOR 2026

In 2026, the Board of Directors identifies the following key priorities:

1. Directing the Board of Management to implement the 2026 business and production plan.
2. Continuing to review and improve the corporate governance system in accordance with legal regulations and best governance practices.
3. Strengthening solutions to expand markets, develop commercial activities, and diversify products.

8. Studying and improving production technology, gradually increasing the level of automation to enhance productivity and labor efficiency.

9. Developing human resources and building a professional working environment to enable employees to maximize their capabilities and maintain long-term commitment to the Company.

Based on the assessment of the 2025 situation, the Board of Directors identifies its key mission in the coming period as strengthening strategic orientation, enhancing supervisory quality, and ensuring the Company's financial safety.

At the same time, the Board of Directors will maintain regular meetings and strengthen supervision over the implementation of business plans, cost management, and capital utilization to improve the Company's operational efficiency.

Based on the 2026 business and production plan, the key projected targets are as follows:

- Industrial production value (at current prices): VND 71.76 billion
- Total revenue: VND 147.02 billion
- Net revenue: VND 146.4 billion
- Production output: 2,792 tons
- Sales volume: 2,768 tons
- Planned profit: (VND 4.3 billion)

The above constitutes the Report on the activities of the Board of Directors in 2025 and the orientation for 2026 submitted to the 2026 Annual General Meeting of Shareholders.

The Board of Directors sincerely appreciates the attention, support, and continued companionship of our shareholders in the development of the Company.

In 2025, the Board of Directors conducted 16 meetings and issued 17 Resolutions and Decisions to manage and direct the Company's operations.

2. Activities of the Board of Management (BOM)

- The Company has actively promoted product improvement and development. However, our products faced intense competition due to rising raw material costs and a highly saturated market with numerous long-established brands.

- In 2025, through the great efforts of the Board of Management, the Company's business results met and exceeded several targets assigned by the Group under Decision No. 337/QĐ-HCVN dated December 18, 2024. Notably, the Company recorded a profit of 36 million VND (compared to the 2025 planned pre-tax loss of 5.58 billion VND).

- The Board of Management needs to further strengthen management efforts to address existing issues in work quality, thereby continuing to enhance overall efficiency and performance across the Company.

3. Governance and Direction by the Board of Directors (BOD):

- Throughout 2025, the Board of Directors held meetings to ensure the Company's strict compliance with legal regulations, the Company's Charter, and the BOD's Internal Regulations; and to properly exercise the Company's rights and obligations as prescribed by law.

- The BOD's direction was strategic, focusing on long-term objectives while maintaining close oversight during each reporting period. Management and direction were conducted in accordance with the Law on Enterprises, the Law on Securities, the Company's Charter, and other relevant legislation.

- The BOD's direction, inspection, and supervision were performed within its designated authority, without hindering or overlapping with the Board of Management's executive duties. The BOD's management and direction in 2025 were reflected in the following key areas:

- Regarding the format and content of meetings: The Resolutions, Decisions, and documents issued by the BOD were timely and in compliance with the Law on Enterprises and the Company's Charter.

- The Supervisory Board assesses that the BOD's activities in 2025 correctly fulfilled the functions and duties prescribed by the Law on Enterprises and the Company's Charter. We concur with the performance evaluation results for 2025 as presented in the BOD's report.

II. Results of Supervisions over the Company's Business and Production Activities in 2025

1. Business Results and 2025 Financial Statements

a. Execution Results of Business and Production Plans

2025 Business and Production Performance Indicators

No.	Indicator	Unit	2025 Plan	2025 Actual	Actual/Plan (%)	SPLY (%)
1	Industrial Production Value	Billion VND	60.65	41.126	71%	108%
2	Net Revenue	Billion VND	59.18	99.189	168%	236%

3	Profit	Billion VND	-5.58	0.036		
4	State Budget Contribution	Million VND	6,765	2,920	43%	45%

b. Appraisal Results of the 2025 Financial Statements

Upon receiving the Company's 2025 Financial Statements, the Supervisory Board (SB) carried out an examination of the evidence verifying the information within the statements; evaluated the overall compliance in the presentation of the financial statements and its indicators; and reviewed the Audit Report and the Management Letter issued by the independent auditing firm.

- The Company's Financial Statements were fully prepared in accordance with the forms prescribed under Circular No. 200/2014/TT-BTC dated December 22, 2014, and Circular No. 53/2016/TT-BTC dated March 21, 2016, by the Ministry of Finance, as well as Vietnamese Accounting Standards (VAS) and other legal regulations relevant to the preparation and presentation of financial statements.

- Regarding accounts receivable and personal advances to employees: certain amounts remain uncollected, resulting in cash flow difficulties for the Company's production and business operations.

- Regarding the appraisal of the audited 2025 Financial Statements, the Supervisory Board has issued a separate Appraisal Report (dated February 26, 2026).

2. Evaluation of Business and Production Activities

• Production and Sales in 2025:

- Production volume reached 1,753 tons, achieving 66% of the set plan.
- Sales volume reached 1,748 tons, achieving 67% of the set plan.

Low production and sales volumes resulted in a lack of operating profit. The Company proactively made provisions for slow-moving and near-expired materials/goods, bad debts, and non-performing loans. Consequently, the business result for the year showed a modest profit of 36 million VND.

For the year 2025, there will be no profit distribution as the Company has only recently recovered from losses. Furthermore, the accumulated loss as of December 31, 2025, stands at (80,819,185,865) VND.

3. Evaluation of the Coordination between the Supervisory Board (SB), the Board of Directors (BOD), and the Board of Management (BOM)

With a spirit of responsibility, construction, and cooperation throughout its operations, the SB has consistently coordinated, exchanged, and provided straightforward feedback to the BOD and BOM during meetings. All Resolutions and Decisions issued by the BOD and BOM were aligned with the BOD's objectives as well as established policies and regulations.

The SB has been provided with full and timely access to all information regarding the decisions of the Board of Directors and the Board of Management (Directorate).

III. Remarks and Opinions of the Supervisory Board

1. Remarks:

- 2025 was a year fraught with challenges for the Company. Sales volume remained low, leading to ongoing difficulties in production and business operations. Operating revenue (excluding financial income) was insufficient to offset expenses. Furthermore, the Company faces a significant volume of overdue and bad debts, alongside high inventory levels consisting of slow-moving materials and degraded or expired finished goods.

- To ensure operational efficiency, the Company needs to further invest in its sales force, product promotion, and marketing. It is essential to expand and maintain market share while actively seeking new customers. Additionally, the Company must properly prepare its resources to meet the established production and business targets.

2. Recommendations:

- **Review and Assessment:** The Board of Directors (BOD) and Board of Management (BOM) should continue to review and re-evaluate the Company's business and production efficiency from 2025, thereby implementing measures to resolve difficulties and enhance overall operational performance.

- **Production Management:** Focus on strengthening production management, maximizing the capacity of machinery and equipment, and maintaining as well as improving product quality.

- **Risk Management and Compliance:** The BOD and BOM should promptly issue policies to enhance risk management and ensure strict compliance with legal regulations in all business activities.

- **Debt Recovery and Inventory Handling:** Focus on collecting outstanding receivables, bad debts, and non-performing loans, while addressing stagnant inventory to significantly improve the Company's cash flow.

The above is a summary of the supervision results for the 2025 fiscal year and the 2026 action plan of the Supervisory Board.

The Supervisory Board respectfully submits this report to the General Meeting of Shareholders.
