Independence - Freedom – Happiness**

Can Tho, April 29, 2026

**To: The State Securities Commission  
Ha Noi Stock Exchange**

*Pursuant to Circular 96/2020/TT-BTC dated November 16, 2020, of the Ministry of Finance on information disclosure on the stock market.*

Trung An Hi-Tech Farming Joint Stock Company hereby provides explanations regarding the following contents:

**The difference in profit after tax between the separate financial statements and the consolidated financial statements for the first quarter of 2026 is as follows:**

Items	Quarter 1/2026	Quarter 1/2025	Difference (%)
Profit after tax on separate FS	592.804.811	(18.027.027.267)	-103%
Profit after tax on consolidated FS	1.900.985.757	(15.069.892.122)	-113%

Reasons:

The profit after tax for the first quarter of 2026 in the separate financial statements is VND 592 million, an increase of VND 18.619 billion compared to the same period last year, which was a loss of VND 18.027 billion. The profit after tax for the first quarter of 2026 in the consolidated financial statements is VND 1.9 billion, an increase of VND 16.971 billion compared to the same period last year, which was a loss of VND 15.069 billion.

The profit after tax for Q1 2026 in both the separate and consolidated financial statements has increased compared to Q1 2025, turning from a loss in Q1 2025 to a profit in Q1 2026. The main reason is the reduction in production costs at the parent company, with increased profits for both the parent company and its subsidiaries, and lower corporate income tax expenses for the subsidiaries.

Sincerely!
