We would like to report and explain to the Hanoi Stock Exchange
regarding the parent company's business results for the first quarter of 2026
being higher than those of the first quarter of 2025, as follows:

Profit in the first quarter of 2026 reached 36.11 billion VND, which is
5.78 billion VND higher than in the first quarter of 2025. Due to favorable
weather conditions and high water inflow into the reservoir, electricity output
was higher than in the same period of 2025, leading to higher revenue compared
to the first quarter of 2025. This resulted in the profit for the first quarter of
2026 being higher than in the first quarter of 2025 as stated above.

Sincerely thank you!
