Notes to the separate financial statements for quarter I 2026 (continued)

Form B 09 – DN

*(Issued under Circular No. 99/2025/TT-BTC
dated 27 October 2025 of the Ministry of Finance)*

Foreign currency transactions

The foreign currency transactions during the year are translated into Vietnam Dong using the real exchange rate ruling at the transaction date. Real exchange rates are determined under the following principles:

- When recording receivables, applying the bid rate of the commercial bank stipulated by the Company for customers to make payment at the transaction time;
- When recording payables, applying the offer rate of the commercial bank where the Company expects to conduct transactions at the transaction time;

Real exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of Interim Separate Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For foreign currency deposited in bank, applying the bid rate of the bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising from foreign currency transactions in the year and from revaluation of remaining foreign currency monetary items at the end of the year are recorded immediately to operating results of the accounting period. In which exchange difference gains due to revaluation of closing balance of monetary items denominated in foreign currencies cannot be used for profit distribution or dividends.

Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

Financial investments

Held-to-maturity investments:

Held-to-maturity investments include investments which the Company has the intention and ability to hold until maturity. Held-to-maturity investments include: term deposits with banks which the issuing party is required to repurchase at a specified date in the future and other held-to-maturity investments.

Held-to-maturity investments are recognised from the date of purchase and are initially measured at purchase price and costs directly attributable to the acquisition of the investments. Interest income from investments held to maturity after the acquisition date is recognized in the income statement on an accrual basis. Interest earned before the Company holds the investment is deducted from the cost at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful receivables.

Danang Port Joint Stock Company
Notes to the separate financial statements for quarter I 2026 (continued)

Form B 09 – DN

*(Issued under Circular No. 99/2025/TT-BTC
dated 27 October 2025 of the Ministry of Finance)*

A subsidiary is an enterprise under the control of the Company. Control is achieved when the Company has the power to govern the financial and operating policies of the investee so as to obtain economic benefits from its activities.

Investment in associates:

An associate is a company in which the Company has significant influence but has no control over the financial and operating policies and is not a subsidiary or joint venture of the Company. The significant influence is shown by the right to participate in making financial and operating policy decisions of the investee but does not affect control or co-control over these policies.

Investments in subsidiaries, joint ventures or associate companies are initially recorded at historical costs, which include the purchase price or capital contribution plus direct investment expenses. In the case of investments with non-monetary assets, the cost of the investment is recorded at the fair value of the non-monetary assets at the arising time.

Dividends and profits for the periods before the investment is purchased are accounted for as a decrease in the value of such investment. Dividends and profits for the periods after the investment are purchased and recorded as revenue. Dividends received in shares are monitored only for the increase in the number of shares and no value is recognised for the shares received.

Provision for losses on investments in subsidiaries and associates is made when the subsidiary or associate suffers a loss, with the provision equal to the difference between the actual capital contributions of the parties in the subsidiary or associate and the actual equity multiplied by the Company's capital contribution ratio compared to the total actual capital contributions of the parties in the subsidiary or associate. If the subsidiary or associate is the subject of the consolidated separate financial statements, the basis for determining the provision for losses is the consolidated separate financial statements

Increase or decrease in the provision for investment losses in subsidiaries and associates that must be set up at the end of the financial year is recorded in financial expenses

Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

The cost of inventory is calculated using weighted average method.

Inventory is recorded by perpetual method.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

*(Issued under Circular No. 99/2025/TT-BTC
dated 27 October 2025 of the Ministry of Finance)*

Borrowing costs

Borrowing costs are recognized as operating expenses in the period, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 “Borrowing costs”. Besides, regarding borrowings serving the construction of fixed assets and investment properties, the interests shall be capitalized even when the construction duration is under 12 months.

Accrued expenses

Accrued expenses are interest expenses, which are recorded as operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the period shall be carried out under the matching principle between revenues and expenses during the period. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company. In case dividend payment or profit distribution for the owners exceeds the net profit, the difference shall be recorded as a decrease in contributed capital. Net profit can be distributed to investors based on capital contribution rate after being approved by General Meeting of Shareholders and after being appropriated to funds in accordance with the Company's Articles of Incorporation and Vietnamese statutory requirements.

The Company's retained earnings is distributed to other funds according to recommendation of the Board of Management and approval of shareholders at annual General Meeting of Shareholders:

- Development and Investment funds: The fund is reserved for the purpose of business expansion or in depth Investment.
- Bonus and welfare fund and bonus for the Board of Directors: The fund is reserved for the purpose of bonus, material incentives, common benefit and increasing welfare for employees and presented as a liability on the Interim Statement of Financial position.

Dividends to be paid to shareholders are recognized as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Vietnam Securities Depository Center.
