2. ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1. Accounting period and accounting currency

Annual accounting period commences from 01 January and ends as at 31 December
The Corporation maintains its accounting records in Vietnam Dong (VND)

2.2. Standards and Applicable Accounting Policies

Applicable Accounting Policies

The Corporation applies Corporate Accounting System issued under the Circular No. 202/2014/TT-BTC dated 22 December 2014 and No. 43/2026/TT-BTC dated 20 April 2026 by the Ministry of Finance guiding the preparation and presentation of Consolidated Financial Statements

Statement of compliance Accounting Standards and Accounting Regimes

The Corporation applies Vietnamese Accounting Standards and supplementary documents issued by the State. The Financial Statements are prepared and presented in accordance with regulations of each Standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3. Basis for making consolidated financial statements

The consolidated financial statements of the Corporation are made on the basis of consolidating Separate financial statements and the financial statements of its subsidiaries for the first quarter of 2026. Control is achieved when the Corporation has the ability to control the financial policies and activities of investment receiving companies in order to benefit from the activities of these companies.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Corporation. If necessary, adjustments are made to the Financial Statements of subsidiaries to ensure the consistency of application of accounting policies among the Corporation and its subsidiaries.

Operating results Business of subsidiaries bought or sold in the year presented in the Consolidated Financial Statements from the date of acquisition or until the date of sale of the investment in that company.

Balance, main incomes and expenses, including unrealized profits from intra-group transactions are eliminated in full from Consolidated Financial Statements.

Non-controlling interests

Non - controlling interests represents the portion of profit or loss and net assets of subsidiaries not held by owners

2.4. Financial instruments

Initial recognition

Financial assets

Financial assets of the Corporation include cash, cash equivalents, trade receivables, other receivables, lending loans. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

Financial liabilities

Financial liabilities of the Corporation include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses directly related to the issuance of those liabilities.

Value after initial recognition

Currently, there are no specific regulations on the revaluation of financial instruments after initial recognition.

2.5. Foreign currency transactions

Transactions in foreign currencies in the fiscal year shall be converted into Vietnamese dong at the actual exchange rate on the transaction date.

This actual transaction rate is determined according to the following principle:

- When buying and selling foreign currency: is the exchange rate specified in the foreign currency purchase and sale contract between the Company and the commercial bank;
- When contributing capital or receiving capital contribution: is the foreign currency purchase rate of the bank where the Company opens an account to receive capital from investors on the date of capital contribution;
- When recording receivables: is the purchase rate of the commercial bank where the Company designates customers payment at the time the transaction arises;
- When recording payables: is the selling rate of the commercial bank where the Company is expected to transact at the time the transaction arises;
- When purchasing property or payment immediately in foreign currency: is the purchase rate of the commercial bank where the Company makes the payment.

Actual exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of Consolidated Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Corporation regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Corporation opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Corporation regularly conducts

All exchange differences arising as a result of transactions or revaluation at the balance sheet date shall be recorded into the financial income or expense in the fiscal year.

2.6. Cash and cash equivalents

Money includes cash on hand, non-term bank deposits, monetary gold used with value storage functions does not include gold classified as inventory used for the purpose of materials to produce products or goods for sale.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash

2.7. Financial investments

Investments held up to maturity include: Term bank deposits (including treasury bills, promissory notes), bonds, preferred shares that the issuer is required to buy back at a certain time in the future, loans, etc. are held until the maturity date for the purpose of earning interest periodically and investments held until other maturity dates.

Investments in subsidiaries and joint ventures purchased in the year are determined by the buyer on the purchase date, the investment fee and the implementation of accounting procedures in accordance with the provisions of the Accounting Standard "Business Consolidation" and "Investment in an affiliated joint venture". In the consolidated financial statements, investments in associated companies are accounted for according to the equity method.

Investments in other entities comprise investments in equity Instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

2.8. Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Corporation.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

2.9. Inventory

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the time of preparing Financial Statements if the net realizable value of the inventories is lower than the original cost, the inventories are recorded at net realizable cost.

Inventory value is determined by the specific identification or weighted average method in accordance with the characteristics of the inventory recorded at the Corporation and Subsidiaries.

Inventory is recorded by perpetual method.

Method of determining the value of unfinished products at the end of the period: Unfinished production and business costs are collected according to the actual costs incurred for each type of unfinished product,

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.10. Biological assets

- Biological assets are measured at historical cost, comprising all costs directly attributable to the acquisition, cultivation,
- At the end of the accounting period, where there are indications or evidence that the biological assets are impaired or that their net realizable value is lower than their carrying amount, the Corporation shall make provisions for impairment of biological assets in accordance with the enterprise accounting regime.

- Biological assets being seasonal crops or assets harvested once, with an expected harvesting period of twelve (12) months or less, or within a normal operating cycle from the end of the accounting period, are presented as current assets in the Statement of Financial Position. Other seasonal crops or single-harvest biological assets are presented as non-current assets in the Statement of Financial Position.

- Perennial plants that yield products on a regular basis are accounted for as tangible fixed assets, as presented in Section

2.11. Fixed assets, Financial lease fixed assets and Investment properties

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount. Fixed assets are depreciated (amortised) using the straight-line method.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	06 - 50 years
- Machineries, equipments	07 - 11 years
- Vehicles, transportation equipments	06 - 08 years
- Office equipment	03 - 10 years
- Perennial garden	15 - 40 years
- Land use rights	12 - 50 years and
- Management software	03 - 05 years

2.12. Prepaid expenses

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria. Other prepaid expenses are allocated to the operating expenses on the straight-line basis.

Business advantages arise when the equitization of State-owned enterprises is gradually allocated for a maximum of no more than 10 years since The Corporation officially operates under the joint stock company model.

2.13. Payables

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Corporation.

The dividend payable is recorded according to the Resolution of the Annual General Meeting of Shareholders of the Parent Company - Vietnam Forestry Corporation - JSC.

2.14. Borrowings and finance lease obligations

The value of the liabilities for financial leasing is the total amount payable calculated by the present value of the payment minimum or reasonable value of the leased property.

Borrowings and liabilities for financial leasing shall be recorded in details in terms of lending entities, loan agreement and terms of loans and financial leasing. In case of borrowings denominated in foreign currency, they shall be recorded in details in terms of types of currency.

2.15. Borrowing expenses

Borrowing costs are recognized as operating expenses in the period, in which it is incurred excepting those which are directly attributable to the construction or production of a qualifying asset are capitalized as part of the cost of that asset in accordance with VAS No. 16 "Borrowing costs". Besides, regarding borrowings serving the construction of fixed assets and investment properties, the interests shall be capitalized even when the construction duration is under 12 months.

For general borrowings, which are used for the purpose of investing in the construction or production of an unfinished asset, the amount of borrowing costs eligible for capitalization in each accounting year is determined according to the capitalization rate for the weighted average cumulative costs incurred for the investment in the construction or production of that asset. The capitalization rate is calculated according to the weighted average interest rate of the outstanding borrowings during the year, except for separate borrowings serving the purpose of acquiring an unfinished asset.

2.16. Accrued expenses

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables.

The recording of accrued expenses as operating expenses during the period shall be carried out under the matching principle between revenues and expenses during the period. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted

2.17. Provisions for payables

Provision for payables is only recognized when meeting all of the following conditions:

- The Corporation has a present debt obligation (legal obligation or joint obligation) as a result of past events;
- It is probable that the decrease in economic benefits may lead to the requirement for debt settlement;
- Debt obligation can be estimated reliably.

Value recorded as a provision for payables is the most reasonably estimated amount required to settle the current debt obligation at the end of the accounting period.

Only expenses related to the previously recorded provision for payables shall be offset by that provision for payables.

Provisions for payables are recorded as operating expenses of the accounting period. In case provision made for the previous accounting period but not used up exceeds the one made for the current accounting period, the difference is recorded as a decrease in operating expenses. The excess of the provision for payables relating to construction warranty is recorded as other income in the accounting period.

2.18. Deferred revenue

Deferred revenue includes advance receipts such as: amounts received in advance from customers for one or more accounting periods for asset rentals, interest received in advance on loans or debt instruments, and other deferred revenue such as: difference between installment sale price and cash sale price, revenue corresponding to the value of goods, services, or discounts for customers in loyalty programs.

Deferred revenue is transferred to Revenue from sales of goods and services or Financial income based on amounts determined for each accounting period.

2.19. Owner's Equity

Owner's equity is stated at actually contributed Capital of owners.

Other capital under Owner's Equity reflects the amount of business capital formed Due to supplementation from business results or due to donation, donation, sponsorship, revaluation of assets (if allowed to record increase or decrease of the owner's investment capital).

Undistributed after-tax profit is the amount of profit from The activity of the enterprise after deducting (-) adjustments due to the retroactive application of changes in accounting policies and retroactive adjustment of material errors of previous years.

2.20. Revenue*Sales revenue*

Sales revenue is recorded when the following conditions are met at the same time:

- Most of the risks and benefits associated with the ownership of products or goods have been transferred to the buyer;
- The Corporation no longer holds the right to manage goods like the owner of goods or the right to control goods;
- Revenue is determined relatively with certainty;
- The Corporation has obtained or will derive economic benefits from the sale transaction;
- Determine Expenses related to sales transactions.

Revenue from providing services

Revenue from providing services is recorded when the results of that transaction are reliably determined. In the case of providing services related to many years, revenue is recorded in the year according to the results of the completed work on the date of making the Balance Sheet of that year. The result of the service provision transaction is determined when the following conditions are met:

- Revenue is determined relatively with certainty;
- Able to obtain economic benefits from the transaction of providing that service;
- Determine the part of the work completed on the date of making the Balance Sheet;
- Determine the costs incurred for the transaction and the cost to complete the transaction to provide that service.

The part of the completed service delivery work is determined according to the completed work evaluation method.

Construction contract revenue

- In case the construction contract stipulates that the contractor is paid according to the planned progress, when the results of the construction contract are reliably estimated, the revenue of the construction contract is recorded in proportion to the part of the work completed by the CompanySelf-determine on the date of making the Financial Statements without depending on the payment invoice according to the planned progress or not and the amount written on the invoice.
- In case the construction contract stipulates that the contractor shall be paid according to the value of the volume performed, when the result of the performance of the construction contract is reliably determined and certified by the customer, the revenue and expenses related to the contract shall be recorded corresponding to the completed work certified by the customer in the year reflected above invoices made.

Revenue from financial activities

Financial incomes include income from assets yielding interest, royalties, dividends and other financial gains by the Corporation shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- The amount of the revenue can be measured reliably.

Dividend income shall be recognised when the Corporation's right to receive dividend is established,

2.21. Revenue deductions

Deductions from sales and service provision arising in the year include: Trade discounts, discounts on sales and returned goods.

Commercial discounts, discounts on goods sold, returned goods in the same period, the consumption of products, goods and services is adjusted to reduce the revenue of the arising period. In case products, goods and services have been consumed from previous periods, until the next period will incur revenue deductions, the revenue reduction will be recorded according to: if it arises before the time of issuance of the Financial Statements, write down the revenue on the Financial Statements of the reporting period (previous period), and if it arises after the time of issuance of the Financial Statements, write down the revenue of the accruing period (next period).

2.22. Cost of goods sold and Services rendered

Cost of goods sold and Services rendered are recorded on the basis of matching with revenue and on a prudence basis. Cases of loss of materials and goods exceeded the norm, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the period.

The capital discount of goods incurred in the year include: ... (if any).

The advance deduction of costs to provisionally calculate the cost of real estate if there is a guarantee of the following principles:

- Criticism in advance for the costs already included in the investment and construction estimates but there are not enough records and documents to accept the volume;
- Criticize in advance the cost of goods sold for the real estate that has been completed for sale in the year and is eligible for revenue recognition;
-

The amount of deductible costs and actual costs recorded in the cost of goods sold must be guaranteed to correspond to the capital price rate calculated according to the total estimated cost of the sold real estate goods (determined by area).

2.23. Financial expenses

Expenses recorded in financial expenses include:

- Expenses or related losses to financial investment activities;
- The cost of borrowing capital;
- Losses due to liquidation, short-term securities transfer, securities transaction costs;
- Provision for devaluation of trading securities, provision for loss on investment in other entities, loss arising from selling foreign currency, exchange rate loss...

The above items are recorded by the total amount arising in the period without offsetting against financial income.

2.24. Corporate income tax

a) Deferred income tax assets and Deferred income tax liability

Deferred income tax asset is recognized for deductible temporary differences and the carrying forward of unused tax losses and unused tax credits. Deferred income tax liability is recognized for taxable temporary differences.

Deferred income tax asset and Deferred income tax liability are determined based on prevailing corporate income tax rate

b) Current corporate income tax expenses and deferred corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the period and current corporate income tax rate.

Deferred corporate income tax expenses are determined based on deductible temporary differences, the taxable temporary differences and corporate income tax rate.
