2. Content of Disclosure:

On June 18, 2026, G.C Food Joint Stock Company received information that its subsidiary, Canh Dong Viet Food Joint Stock Company (VietFarm), received the original copy of the Decision on administrative sanction from the competent authority on June 18, 2026. The decision relates to delays in completing administrative environmental procedures at the Aloe Vera Processing Factory (Thanh Hai Industrial Park). Accordingly, VietFarm is subject to a fine of VND 320,000,000 and an additional sanction of temporary suspension of operations for the waste-generating source.

The cause of this incident is that VietFarm is in the process of transitioning from the previously legally approved Environmental Impact Assessment Report to a new Environmental License to comply with current regulations. However, due to the emergence of certain technical requirements during the preparation of the dossier, the appraisal and approval, resulting in the failure to complete the procedures by the time of inspection.

To resolve the matter definitively and ensure compliance, VietFarm has proactively completed the entire dossier and is strictly implementing remedial measures as required by the authorities. VietFarm is actively completing the licensing procedures as soon as possible. Upon receiving the Environmental License and ensuring the factory operates in compliance with regulations, the Company will promptly disclose the information to keep Shareholders informed.
