2 ACCOUNTING SYSTEM AND ACCOUNTING POLICY

2.1 Accounting period and accounting currency

Annual accounting period commences from 01st January and ends as at 31st December.

The Company maintains its accounting records in Vietnam Dong (VND).

2.2 Standards and Applicable Accounting Policies*Applicable Accounting Policies*

The Company applies Corporate Accounting System issued under the Circular No. 99/2025/TT-BTC dated 27th October 2025 by the Ministry of Finance, this replaces Circular No. 200/2014/TT-BTC dated 22nd December 2021, Circular No.53/2016/TT-BTC dated 21st March 2016 issued by Ministry of Finance Circular No. 75/2015/TT-BTC dated May 18, 2015 and Circular No. 43/2026/TT-BTC dated 20th April,2026 amending and supplementing a number of articles of Circular No. 202/2014/TT-BTC by the Ministry of Finance guiding the preparation and presentation of Consolidated Financial Statements.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

2.3 Basis for preparation of consolidated financial statements

Consolidated Financial Statements are prepared based on consolidating Separate Financial Statements of the Company and Financial Statements of its subsidiaries under its control as at 31st December annually. Control right is achieved when the company has power to govern the financial and operating policies of invested companies to obtain benefits from their activities.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. If necessary, adjustments are made to the Financial Statements of subsidiaries to ensure the consistency of application of accounting policies among the Company and its subsidiaries.

Balance, main incomes and expenses, including unrealized profits from intra-group transactions are eliminated in full from Consolidated financial statements.

Non - controlling interests represents the portion of profit or loss and net assets not held by owners.

2.4 Accounting estimates

The preparation of Consolidated Financial Statements in conformity with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of liabilities, assets and disclosures of contingent liabilities and assets at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the accounting year.

The estimates and assumptions that have a material impact in the Consolidated Financial Statements include:

- Provision for bad debts;
- Provision for devaluation of inventory;
- Estimated allocation of prepaid expenses;
- Estimated useful life of fixed assets;
- Estimated income tax.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company's Consolidated Financial Statements and that are assessed by the Board of Management to be reasonable under the circumstances.

2.5 Financial Instruments

Initial recognition

Financial assets

Financial assets of the Company include cash, cash equivalents, trade receivables, other receivables. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

Financial liabilities

Financial liabilities of the Company include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses directly related to the issuance of those liabilities.

Subsequent measurement after initial recognition

Financial assets and financial liabilities are not revalued according to fair value at the end of the year because the Circular No.210/2009/TT-BTC and prevailing statutory regulations require to present Financial statements and Notes to financial instruments but not provide any relevant instruction for assessment and recognition of fair value of financial assets and financial liabilities.

2.6 Foreign currency transactions

Foreign currency transactions during the year are translated into Vietnam Dong using the actual rate at transaction date.

Real exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of Consolidated Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For cash deposited in bank, applying the bid rate of the commercial bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All actual exchange rate differences arising during the period and differences due to revaluation of balances of foreign currency items at the date of preparing the Financial Statements are recorded in the business results of the fiscal year.

2.7 Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

2.8 Financial investments

Investments in joint ventures and associates: During the year, the buyer determines the date of purchase and the cost of investments and implements accounting procedures in accordance with the Accounting Standards on "Financial reporting of interest in joint ventures" and "Accounting for investments in associates".

In the Consolidated Financial Statements, investments in joint ventures and associates are accounted for using equity method. Under this method, the investments are initially recognised at cost and adjusted thereafter for the post acquisition change in the Group's share in net assets of the associate after acquisition date. Goodwill incurred from the investment in the associates is reflected in the carrying amount of the investment in the associate. The Group will not allocate such goodwill but assess annually to determine whether the goodwill is under impaired loss or not.

For the adjustment of the value of investments in joint ventures and associates from the date of investment to the beginning of the reporting year, the Company shall:

- For the adjustment to the income statement of previous years: make an adjustment to the undistributed profit after tax according to net adjusted accumulated amount to the beginning of the reporting year.
- For the adjustment due to the difference in revaluation of assets and the difference in foreign exchange rates, recorded in the balance sheet of the previous years: determine the adjustment to the corresponding items on the Statement of Financial Position according to net accumulated adjusted amount.

For the adjustment of the value of investments in joint ventures and associates arising in the year, the Company shall exclude the preferred dividends of other shareholders (if preferred shares are classified as Owner's capital); expected number of deductions for bonus and welfare funds of joint ventures and associates; share of profits related to transactions of joint ventures, associates contributing capital or selling assets to the Company before determining the Company's share in the profit or loss of the joint venture or associated company during the reporting year. The Company then adjusts the value of the investment in proportion to its share in profits and losses of joint ventures and associates and immediately recognizes it in the Consolidated Income Statement.

Financial Statements of associates are prepared in the same period with the Group's consolidated financial statements and use the consistent accounting policies with the Group's policies. Adjustment shall be made if necessary to ensure the consistence with the Group's accounting policies.

2.9 Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the consolidated financial statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing or estimating possible losses.

2.10 Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory minus the estimated costs for completing the products and the estimated costs needed for their consumption.

The cost of inventory is calculated by weighted average method

Inventory is recorded by perpetual method.

Method for valuation of work in process at the end of the year: The value of work in progress is recorded based on raw materials actual cost incurred for each unfinished product.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

2.11 Fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

Subsequent measurement after initial recognition

If these costs augment future economic benefits obtained from the use of tangible fixed assets are extended to their initial standards conditions, these costs are capitalized as an incremental in their historical cost.

Other costs incurred after tangible fixed assets have been put into operation such as repair, maintenance and overhaul costs are recognized in the Consolidated Statement of income in the period in which the costs are incurred.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	05 - 30 years
- Machinery, equipment	03 - 18 years
- Vehicles, Transportation equipment	04 - 08 years
- Office equipment and furniture	02 - 05 years
